Coun. WILSON—Mr. President, with regard to the sixth paragraph in the second order, I have my own opinion as to the facts, but I have received so many comments from constituents, who have alleged that they are receiving a tax bill for nine months merely, that I would like to have the thing settled once and for all as a matter of public records. So far as the other points upon which information is asked are concerned, I think they request information upon which the Council should have—and I believe the other members will agree with me—in view of questions that will arise in this body. As I understand the law, it will not only be necessary for the Assessing Department to make its assessments as of January 1 of next year, instead of April 1, but the Police Department will also be expected to do the police listing as of New Year's Day instead of the first of April. I understand that the Police Department is supposed to send out 355,000 postcards, and that they and the Assessing Department must repair a list of all the polls of the City of Boston as of January 1, by wards and precincts. So it will be an interesting thing at least to see just what procedure will be followed by the City of Boston if we are possibly to divide the city into wards and precincts before the 31 of December, with the problem of making all the data and maps available for not only the Assessing Department but the Police Department to do their work before the first of January.

The order was passed under suspension of the rule.

SALE OF UNCLAIMED BAGGAGE.

Coun. WILSON, for Coun. FITZGERALD, submitted report on petition of New York, New Haven & Hartford Railroad (referred September 24) to sell unclaimed baggage—recommending passage of the accompanying order, viz.:

Ordered, That the New York, New Haven and Hartford Railroad be authorized to sell at public auction, on or before November 15, 1934, the articles remaining unclaimed in the possession of said railroad in the City of Boston.

Report accepted, order passed

FURNIVAL ROAD, WARD 19.

Coun. MURRAY offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Furnival road, Ward 19, as a public highway.

Passed under suspension of the rule.

STOP SIGNS, WARD 11.

Coun. ENGLERT offered the following:

Ordered, That the Traffic Commissioner, through his Honor the Mayor, be instructed to place stop signs at the corner of Amory street and Boylston street, Ward 11.

Passed under suspension of the rule.

LEAVE OF ABSENCE, AMERICAN LEGION DELEGATES.

President DOWD offered the following:

Ordered, That the Boston City Council request the Mayor to grant leave of absence with pay to the delegates and alternates, to attend the Annual Convention of the American Legion to be held in the City of Miami, Florida, from the 18th of October to November 2, inclusive.

Passed under suspension of the rule.

FEDERAL EMPLOYMENT OF WOMEN.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of requesting the Federal authorities to employ at least 2,000 women out of the total of 11,500 odd now working on P. W. A., E. R. A. and C. W. A. projects in Boston.

Coun. NORTON—Mr. President, a week or two ago I drew the attention of his Honor the Mayor to the fact that, according to the figures I

had in my possession, but 900 out of about 11,500 now working on P. W. A., E. R. A. and C. W. A. projects in Boston, were women. My figures came from the United States Census Bureau dealing with these projects, and were as of January 1, 1934. As reported in the Boston newspapers of September 2, 1934, it seems that the Mayor has found that the number of women so employed, instead of being 900, is 1,300 odd. But I certainly think that even 1,300 odd is a very small proportion of women out of the 11,500 odd so employed. I believe that is particularly so when we consider the large number of women all over this city who are bringing up their little families and who are struggling to do their best in destitute circumstances. Consequently, I feel that the Mayor should be requested to consider the advisability of asking the Federal authorities to employ at least 2,000 women out of the total of 11,500 odd now working on P. W. A. E. R. A and C. W. A. projects in Boston. I feel that that is very little to ask.

The order was passed under suspension of the rule.

STUDY OF ADDITIONAL REVENUE.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of ordering an immediate study to be made of possible methods of obtaining additional revenue by the City of Boston so that a comprehensive, well thought out plan can be presented to the Legislature.

Coun. NORTON—Mr. President, within a few months we will be going to the Legislature and there will be a great hullaballoo as to how the city is going to get more money. Now is the time to prepare the ground work so that a comprehensive, well thought-out plan may be presented to the Legislature.

The order was passed, under suspension of the rule.

R. F. C. AID IN TAX PAYMENTS.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston consider the advisability of conferring with Jesse H. Jones, chairman of the Reconstruction Finance Corporation on a plan whereby the R. F. C. would aid City of Boston property owners in meeting their real estate tax payments.

Coun. NORTON—Mr. President, at the present time some of the leading financial men in the principal cities of America are importuning Mr. Jones to help out their cities in the matter of taxes. I understand that no representative of Boston is on the ground to approve or join in any such plan as may be presented. It seems to me that Boston should have somebody there, since we; have an immense volume of unpaid taxes today and are facing a very serious situation in this respect. Boston should have somebody working with that group from other cities.

The order was passed under suspension of the rule.

FAIR TRIAL FOR NEW PARKING LAW.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of doing all possible to give the new "parking tagging" law a fair trial and thorough try-out.

Coun. NORTON—Mr. President, the Mayor should do all in his province to see to it that the new Boston "parking tagging" law be given a fair try-out. A great furore goes up whenever any new traffic law is put into effect. It soon dies down. The commotion caused by this new parking law will soon die down. The law may have to be changed, revised, but let's give it a fair trial. The problem is not easy of solution. Boston has the smallest area of streets in the "down-town" congested area of any large American city, less than 25 per cent of our total street area being in the "down-town" area. We have space for 2,300 autos to park at one time in the down-town area; 25,000 would like to park. If autos were allowed to park everywhere, we could only park 3,700 autos. The last traffic count shows 90,000 autos coming into the down-town area of Boston on a business day. Today in this area we have "open air" parking spaces for about 5,000 cars, and garages that will park 15,000 more. We soon will have "open-air" parking spaces, ample for all. Buildings unable to pay high taxes are being pulled down right and left, to make way for "open-air" parking spaces. The Massachusetts Judicial Council, the Special Crime Commission, the National Safety Council and others have recommended laws somewhat similar to that just put into effect in Boston. Let's give it a fair trial.

The order was referred to the Executive Committee.

PAYLESS FURLOUGHS IN HEALTH DEPARTMENT.

Coun. NORTON offered the following:

Ordered, That the Health Commissioner of the City of Boston, through his Honor the Mayor, be requested to send to the Council a copy of his order of September 28, 1934, continuing payless furloughs in his department and rescinding a previous order.

Coun. NORTON—Mr. President, it is unfortunate that the financial structure of the City of Boston should have been injected as it was into the recent campaign. The order went out a few days before election that all furloughs were to be eliminated. Those of us who questioned that order, knowing the financial condition of the city, were denounced. A few days ago, September 28, an order came from the Health Department to the effect that in that department the furloughs were still in effect. That was eight days after the primary. Now, get me right. I am not objecting to the furloughs, but I am objecting to the singling out of one department, covering nurses and others, while such furloughs are discontinued in all or most of the other departments.

The order was passed under suspension of the rule.

TEN PER CENT CONTRIBUTION BY CERTAIN OFFICIALS.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of advising the Council as to who the high-salaried city officials were who voluntarily contributed at the request of the Mayor, an extra 10 per cent or more of their salaries for unemployment relief.

Coun. NORTON—Mr. President, the Mayor of Boston has issued a public statement, in effect that, while he requested the high-salaried city officials to pay an additional 10 per cent into the city treasury, most of them refused, or, as a matter of fact, did not do so. The newspapers carried the statement from the Mayor that certain high-salaried officials had contributed. I am going to ask who they were,—not who the others were who did not do so,—with 100,000 or more in Boston destitute.

The order was passed under suspension of the rule.

CHARLESTOWN IMPROVEMENTS.

Coun. GREEN offered the following:

Ordered, That his Honor the Mayor request the new housing director, Harold Ickes, Secretary of the Department of the Interior, to appropriate a sum sufficient to remove all buildings, as a housing project for Boston, on the lef -hand side of Main street, Charlestown, running from City square to Sullivan square. Also to include this with the proposed widening of Rutherford avenue. In this program could also be included the removal of the Elevated, which is now standing over thirty years.

Passed under suspension of the rule.

LAND FOR PARKING SPACE.

Coun. GREEN offered the following:

Ordered, That his Honor the Mayor be requested to consider the feasibility and advisability of securing, within the city limits, land for a free municipal parking space, as near to the heart of the business district as possible.

Referred to the Executive Committee.

REPORT OF COMMITTEE ON CLAIMS.

Coun. BRACKMAN, for the Committee on Claims, submitted the following:

1. Report on petition of George L. Fenderson (referred August 27) to be reimbursed for amount of judgments issued against him on account of acts as a member of Boston Police Department,—recommending passage of the accompanying order, viz.:

Ordered, That the sum of six hundred and four dollars and four cents be allowed and paid to George L. Fenderson in reimbursement for the amount of judgments issued against him on account of his acts as a member of the Boston Police Department, said sum to be charged to the Reserve Fund.

Report accepted; order passed.

2. Report on petition of Jeremiah C. Bresnahan (referred August 13) to be reimbursed for amount of judgment issued against him on account of acts as operator of motor truck belonging to City of Boston, Public Works Department, Sanitary Division,—recommending passage of the accompanying order, viz.:

Ordered, That the sum of forty-three dollars and seventy cents be allowed and paid to Jeremiah C. Bresnahan in reimbursement for the amount of judgment issued against him on account of his acts as operator of a motor truck belonging to the City of Boston, Public Works Department, Sanitary Division, said sum to be charged to the Reserve Fund.

Report accepted; said order passed.

3. Report on petition of Edward Murphy (referred August 13) to be reimbursed for amount of judgment issued against him on account of acts as operator of motor vehicle belonging to City of Boston, Public Works Department, Sewer Division,—recommending passage of the accompanying order, viz.:

Ordered, That the sum of sixty-eight dollars and ninety cents be allowed and paid to Edward Murphy in reimbursement for the amount of judgment issued against him on account of his acts as operator of a motor vehicle belonging to the City of Boston, Public Works Department, Sewer Division, said sum to be charged to the Reserve Fund.

Report accepted; said order passed.

RECESS.

The Council voted at 3.16 p. m., on motion of Coun. DONOVAN, to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President DOWD at 4.33 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following reports, viz.:

1. Report on message of Mayor and order (referred September 24) requesting transfer of sum of $60,000 from income of George F. Parkman Fund to Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887—recommending that same be passed.

Report accepted; said order passed, yeas 16, nays 0.

2. Report on message of Mayor and order (referred today) providing for transfer of funds within appropriations of Cemetery Division of Park Department, from appropriations for B, Service Other than Personal, $391.65, to C, Equipment, $241.65, and F–11, Workmen's Compensation $150,—recommending that same ought to pass.

Report accepted; order passed, yeas 16, nays 0.

3. Report on message of Mayor and order (referred today) transferring $25 in Land Court appropriation from D, Supplies, to C, Equipment,—recommending that same ought to pass.

Report accepted; order passed, yeas 16, nays 0.

4. Report on order (referred today) relative to municipal parking spaces, recommending passage of accompanying new draft, viz.:

Ordered, That his Honor the Mayor be requested to consider the feasibility and advisability of securing, within the city limits, land for municipal parking spaces, as near to the heart of the business districts as possible.

Report accepted; order passed.

5. Report on order (referred today) that the Mayor request the Police Commissioner to cancel and destroy all tags issued for violation of parking laws which have not been filed in court prior to October 1, 1934,—recommending that same ought to pass.

Report accepted; order pased.

COMPLAINTS IN RE NEW PARKING LAW.

Coun. ROBERTS offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to keep a record of all complaints received by them regarding the enforcement of the new parking law, consisting of the name and address of the complainant and whether said complainant is employed in Boston or visiting Boston for the purpose of shopping.

Passed under suspension of the rule.

COLUMBUS PARK.

Coun. KERRIGAN offered the following:

Ordered, That his Honor the Mayor be requested to include in his P. W. A. program a sum sufficient to provide for the erection of an indoor gymnasium on Columbus Park, South Boston.

Passed under suspension of the rule.

Ordered, That the Park Commission be requested, through his Honor the Mayor. to furnish the City Council with an estimate of the cost of erecting and equipping an indoor gymnasium on Columbus Park.

Passed under suspension of the rule.

EMPLOYMENT OF CITIZENS.

Coun. DOHERTY offered the following:

Ordered, That his Honor the Mayor be requested to confer with the Federal authorities having charge of the P. W. A. projects in which the City of Boston is a party, and urge the insertion of conditions in all contracts to provide that the contractor shall not make any subcontracts except with citizens residing in Boston and that subcontractors shall employ only citizens and residents of Boston.

Coun. DOHERTY—Mr. President, just a word on that order. I believe it is about time that the contractors and the citizens of the City of Boston were protected against outside contractors coming

into the city. On the P. W. A. contract at the City Hospital I know that the Quincy Wrecking Company and other outside concerns are working, while contractors of the City of Boston are left outside. Therefore, I move a suspension of the rule and the passage of the order.

The order was passed under suspension of the rule.

EXEMPTION OF DOCTORS FROM PARKING LAW.

Coun. MURRAY offered the following:

Ordered, That the Traffic Commissioner be instructed, through his Honor the Mayor, to make all doctors immune from the new parking laws.

Referred to the Committee on Rules.

ELECTION RETURNS.

Coun. GREEN offered the following:

Ordered, That the City Messenger be directed to make arrangements for receiving election returns on the day of the state election, the expense attending the same to be charged to the appropriation for City Council, G-3, Election Returns.

Passed under suspension of the rule.

THE NEXT MEETING.

It was voted, on motion of Coun. FISH, that when the Council adjourn it be to meet on Monday, October 15, 1934, at 2 p. m.

Adjourned, on motion of Coun. ENGLERT, at 4.46 p. m., to meet on Monday, October 15, 1934, at 2 p. m.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of June 13, 1933, as amended January 29, 1934, determining damages caused by the making of the public improvement consisting of the extension of Orange street, be, and the same hereby is, amended, by adding to said order the amount $44 as an award to Harriet E. Callahan; that the amount $44 be, and the same hereby is, awarded to Harriet E. Callahan for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of January 14, 1933, as amended November 27, 1933, determining damages caused by the making of the public improvement consisting of the extension of Colborne road be, and the same hereby is, amended, by adding to said order the amount $180 as an award to Sarah Gale; that the amount $180 be, and the same hereby is, awarded to Sarah Gale for the damages so sustained.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A surface drain of 6-foot 6-inch by 6-foot 6-inch concrete and one catch-basin (P. W. A., Docket No. 4193–I) in Beaver street, between Beaver place and 14 feet southerly, in the city proper district, at an estimated cost of $1,500.

A sanitary sewer of 12-inch pipe and a surface drain of 3-foot 6-inch circular concrete (P. W. A., Docket No. 4193–J) in Rutledge road (to be built in old taking), between Ralston road and 330 feet northwesterly, in the Hyde Park district, at an estimated cost of $11,300.

A surface drain of 12-inch pipe and two catch-basins in Hooker street, between North Harvard street and 400 feet northeasterly, in the Brighton district, at an estimated cost of $2,100.

A sanitary sewer of 15-inch pipe, a surface drain of 7-foot by 8-foot and 6-foot 6-inch by 6-foot 6-inch concrete and one catch-basin (P. W. A., Docket No. 4193–I) in Beaver place, between Embankment road and Beaver street, in the city proper district, at an estimated cost of $34,500.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of sewerage construction, estimated to be two (2) weeks, vehicles are excluded from Walk Hill street, West Roxbury district, between American Legion Highway and Canterbury street, effective October 10, 1934.

Voted, That as urgently required by considerations of public safety and convenience, during the period of construction of Traffic Circle, estimated to be seven (7) days, vehicles are excluded from Union street, between Hanover street and Haymarket square, effective October 12, 1934.

Voted, That as urgently required by considerations of public safety and convenience, during the period of Harvard-Brown football game, parking of vehicles is prohibited in North Harvard street, Brighton, both sides, from Western avenue to Soldiers Field road, on October 13, 1934, from 8 a. m. to 6 p. m.

POPULATION OF UNITED STATES, NEW ENGLAND AND MASSACHUSETTS.

Continental United States (*i. e.*, 48 states and the District of Columbia) in 1930, 122,775,046; outlying possessions, 14,233,389; total, 137,008,435; New England, 8,166,341; Massachusetts, 4,249,614 or 52.04 per cent of New England and ranking eighth in the Union. In density of population Massachusetts ranks second, *i. e.*, 528 per square mile of land, Rhode Island ranking first, with 644 per square mile of land.

Population of the other New England States in 1930, ranking from the highest total: Connecticut, 1,606,903; Maine, 797,423; Rhode Island, 687,497; New Hampshire, 465,293; Vermont, 359,611. Density for New England, 132 per sq. m.; for U. S. (48 states and the District of Columbia) 41 per sq. m.

The population of the United States increased 16.1 per cent since 1920; that of New England 10.3 per cent and that of Massachusetts 10.3 per cent.

CHICAGO POLICE.

Although the numerical strength of the Chicago police department has been reduced in the last two years from approximately 6,700 to 6,000, the number of men on foot patrol has been increased 150 per cent, or about 1,900.

CITY PURCHASING UNDER THE CODES.

Caught between two fires, American cities are feeling the influence of the National Industrial Recovery Act codes in their purchasing in a way they had not foreseen. On one side taxpayers ask for economy in budget-making. On the other, application of codes, which has resulted in collective price-fixing, has increased prices of supplies for city use to an almost prohibitive point.

ANNEXATIONS OF BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 424; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of city's total; in 1910 its population had increased to 477,311, or 71.18 per cent, Hyde Park not included. By 1915 the total was 549,139, or 73.67 per cent of city. By 1925 the total was 607,519, or 77.92 per cent.

SAND, CINDERS AND SALT IN DULUTH.

About 385 miles of sidewalk are sanded every year and about 250 miles of streets are snow-plowed and sanded. Ordinarily, flat grades are not sanded, this work being confined to steep grades where dangerous ice conditions exist. During the past season the maintenance department used about 500 cubic yards of cinders, 500 cubic yards of sand, and 5 tons of calcium chloride on the streets.

The use of salt, or sodium chloride, has been discontinued entirely, because of its injurious effect on concrete walks and pavements. The action of salt is not clearly understood, but it is much more active during cold weather than in summer, and is apparently due to the formation of crystals after penetrating the surface, the force of which disintegrates the concrete. Calcium chloride does not seem to be entirely free from this difficulty, but is much less active than sodium chloride.

JAMAICA SPENDS $1,000,000 ANNUALLY ON ROAD CONSTRUCTION AND MAINTENANCE.

Jamaica, an English possession, has a highway system which is almost entirely constructed of waterbound macadam, some 70 miles of which has been surface-treated. Many of the roads are under the supervision of the Department of Public Works and various parochial boards. There are about 2,500 miles of bridle and foot paths. The highway system connects all parts of the island in a very satisfactory manner, and the problem is not that of the construction of new roads, but the improvement of old ones, the surfacing and widening of these roads, and protective coatings. The roads are well maintained and, as there are not many heavy trucks, the maintenance is satisfactory. There are approximately 4,000 miles of highways, or 1.11 square miles of area to one mile of highway.

About a million dollars per year is spent on new construction and maintenance, the machinery used being both European and American.

(From a report of the American Road Builders' Association.)

POLICE DEPARTMENT ORDERS.

General Order No. 563.

Whereas, It appears that Patrolman Orrin L. Taylor of Division 14, has performed faithful service in the Police Department for thirteen and eleven-twelfths years and that the Medical Board, provided for by chapter 521 of the Acts of 1922, has certified that the said Patrolman Taylor is physically incapacitated, it is the judgment of the Police Commissioner that the said Patrolman Taylor is permanently physically incapacitated for useful service in the Police Department on account of injuries received in the actual performance of duty as a police officer; therefore, it is hereby

Ordered, That, with the approval of his Honor the Mayor, the said Patrolman Taylor be retired from active service in the Police Department under the provisions of chapter 353, Acts of the year 1892, as amended by chapter 6, Acts of the year 1920, and chapter 387, Acts of the year 1930, and that his name be placed upon the department pension roll with pay at the rate of one thousand and fifty (1,050) dollars per annum, said sum being one half of the amount of compensation received by him in the office from which he is retired, previous to a fifteen per cent reduction in pay, which went into effect April 21, 1933.

Note.

By chapter 121, Acts of 1933 (having to do with reductions in pay), provision is made for the retirement of those in a non-contributory system at half of the rate of compensation received before such reduction.

The retirement of Patrolman Taylor, as herein provided, will take effect at 7.45 o'clock a. m., Saturday, October 6, 1934.

The Superintendent of Police will promulgate this order.

Eugene C. Hultman, *Commissioner.*

URBAN POPULATION, APRIL 1, 1930.

As defined by the Census Bureau, the urban population is, in general, that residing in cities and other incorporated places having 2,500 inhabitants or more, the remainder being classified as rural.

The total urban population of the United States is 68,954,823 (34,154,760 males and 34,800,063 females), of whom 62,836,605 (31,162,570 males and 31,674,035 females) are white; of these whites 52,109,746 (25,520,483 males and 26,589,263 females) are native; 33,497,232 (16,515,816 males and 16,981,416 females) of these latter are of native parentage and 18,612,514 (9,004,667 males and 9,607,847 females) are of foreign or mixed parentage; there are 10,726,859 (5,642,087 males and 5,084,772 females) foreign-born white; there are 5,193,913 (2,479,158 males and 2,714,755 females) Negroes; other races, 924,305 (513,032 males and 411,273 females).

The urban population is 56.2 per cent of the total population of the country; native white, 54.6 per cent and foreign-born white, 80.3 per cent; Negroes, 43.7 per cent.

The total urban population of New England is 6,311,976 or 77.3 per cent of the total population of New England. Of the 4,660,339 native white, 2,089,031 are of native parentage and 2,571,308 are of foreign or mixed parentage; foreign-born whites number 1,564,769; Negro, 81,443; other races, 5,425.

A SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy there are twenty, nay a hundred, who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

FOREIGN-BORN WHITES, 1930, WITH COUNTRY OF BIRTH.

Total foreign-born whites, 229,356 or 9,563 less than in 1920. Born in Ireland, 50,381 (6,630 less than in 1920), 6,449 of these being born in Northern Ireland; in Canada, 45,558 (3,550 increase); Italy, 36,274 (1,905 decrease from 1920); Russia, 31,359 (6,662 decrease); England, 10,316 (2,092 decrease); Poland, 9,903 (2,253 increase); Lithuania, 5,869; Scotland, 5,637 (558 increase); Sweden, 5,432 (1,348 decrease); Germany, 5,381 (534 decrease); Greece, 3,416 (362 increase); all others, 19,830.

SCHOOL ATTENDANCE FOR SUFFOLK COUNTY.

Number of children 7-13 years old, 105,675, of whom 104,085, or 98.5 per cent, were attending school; 14 and 15 years, 29,662, of whom 28,256, or 95.3 per cent, were attending school; 16 and 17 years, 29,902, of whom 19,453, or 65.1 per cent, were attending school; 18-20 years, 47,103, of whom 12,395, or 26.3 per cent, were attending school; total children 7 to 20 years old, 212,342, of whom 164,189, or 77.3 per cent, were attending school.

Haven & Hartford Railroad land, between Neponset river and Hyde Park avenue, Hyde Park," will be received at Room 508, fifth floor, City Hall Annex, Boston, Mass., before 12 o'clock noon, on the thirtieth day of October, 1934, and at that time and place will be publicly opened and read. Bids must be made upon the prescribed proposal form. Plans, specifications and contract form may be obtained at Room 508, fifth floor, City Hall Annex, Boston, Mass., upon deposit of the sum of two dollars ($2). The project is to be financed and constructed under the terms of the National Industrial Recovery Act and chapter 366, Massachusetts Acts of 1933, and attention is called to the construction regulations prescribed by the P. W. A. The minimum wage rates for the project are $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor. "Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March, 1934) duly executed by the bidder." Bids must be accompanied by a properly certified check on, or a certificate of deposit issued by a responsible bank in the sum of two thousand five hundred dollars ($2,500), payable to the City of Boston. Checks will be returned after execution of the contract, upon demand. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any or all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. The Commissioner of Public Works of the City of Boston, hereinafter designated as the Commissioner, Room 508, fifth floor, City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt or bitulithic pavement in Walk Hill street, Wards 14, 18, 19, from Hyde Park avenue to Harvard street. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt or Bitulithic Pavement in Walk Hill Street," and left in Room 508, fifth floor, City Hall Annex, before 12 m., standard time, on Wednesday, October 17, 1934, accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank or trust company in the sum of three thousand, eight hundred dollars ($3,800), payable to the City of Boston. Checks will be returned after execution of the contract on demand. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. Bids must be made upon the prescribed proposal form. Special attention of the bidder is called to all provisions of the Federal Emergency Administration of Public Works which form a part of the contract, including the prescribed minimum rate of $1.20 per hour for skilled labor, and $0.50 per hour for unskilled labor and to the special provision as to semi-skilled labor. Pursuant to executive order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March 19, 1934) duly executed by the bidder. Plans, specifications and contract forms may be obtained at Room 508, City Hall Annex, upon deposit of the sum of five dollars ($5). A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any and all proposals or to accept any proposal deemed best for the interests of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston.

MAYOR MANSFIELD SUCCESSFUL IN SECURING ASSURANCES OF INCREASED FUNDS FOR REDUCING UNEMPLOYMENT IN CITY — IMPROVEMENTS IN NAVY YARD AND OTHER GOVERNMENT WORKS GIVE PROMISE OF INCREASED ACTIVITY AND MORE WORK FOR CITIZENS.

Mayor Mansfield while in Washington has been active and very successful in securing funds whereby employment for the citizens of Boston may be increased. This is indicated in the following telegram sent by the Mayor for announcement in the public press.

Mayor Mansfield, Corporation Counsel Foley and Secretary Mellyn, after conferring with Col. Harry L. Hopkins for purpose of obtaining greater Federal relief for unemployment and welfare and being promised immediate investigation and report by Colonel Hopkins, conferred with Secretary of Navy Swanson and Assistant Secretary Roosevelt for one hour on Saturday.

Assistant Secretary Roosevelt said there were eighteen hundred sixteen men working at Boston Navy Yard on September thirtieth and he expected that thirty more would be put at work during October, making a total of eighteen hundred forty-six. The usual force at Yard is between fifteen hundred and eighteen hundred. The Secretary said he had received the Mayor's protest about delay on destroyers "Case" and "Conyngham," which was attributed to congestion in planning department at New York, the Secretary himself having written and urged completion and forwarding of plans so work might not be stopped on these two boats. Assistant Secretary Roosevelt said the following requests for P. W. A. funds from Secretary Ickes had been urged by Navy Department: Barracks for housing Marine Guard, South Boston, twenty-five thousand; improvement of waterfront at Navy Yard, two hundred thousand; Naval Direction Station, Surfside, quarters for operators, Nantasket, twenty-five thousand; major repairs and replacements, Navy Yard, one hundred fifty thousand; minor repairs and improvements, Navy Yard, one hundred thousand; Naval Hospital repairs and improvements, twenty thousand; Air Station, Squantum, repairs and improvements, forty-three thousand; transportation equipment, Navy Yard, twenty thousand; marine tools and plant equipment, Navy Yard, one hundred thousand; Ordnance Station, Hingham, repairs and improvements, twenty-two thousand; Radio Station, Navy Yard, repairs and improvements, seventeen thousand one hundred; Marine Corps Posts, Navy Yard, repairs and improvements, six thousand. Total for Boston and vicinity seven hundred twenty-eight thousand one hundred, under advisement by Secretary Ickes. The Mayor suggested lengthening ways at Navy Yard and remodeling and addition structural building, about five hundred thousand more, taken under advisement by Ickes. He then had conference with Joseph B. Eastman, Chairman I. C. C., about Boston port differentials and rates. Corporation Counsel Foley returns to Boston Monday. Mayor and Secretary Mellyn have proceeded to Richmond, Virginia, to attend convention Atlantic Deeper Waterways Association.

Fire Department.

A. R. Doyle, Incorporated, has been allowed to amend the contract for fire alarm underground extension, by striking out the words "three (3) weeks" and inserting in place thereof the words "five (5) weeks," so that said paragraph 8 will read as follows: "Completion of Work: Conditions permitting, the work is to be carried on continuously from the time of commencement of same, and all work is to be completed within five (5) weeks from date of signing of contract by the Mayor."

Public Works Department (Ferry Service).

The Quincy Dry Dock and Yacht Corporation has been granted an extension of the time of completion of the contract for repairing hull, etc., of ferryboat "Daniel A. McCormack," from September 20, 1934, to October 5, 1934.

Transit Department.

Lovejoy Granite Company has been granted an extension of the contract for furnishing and delivering granite blocks, Traffic Tunnel, from 70 to 200 days from delivery of the contract. The contract provided that the blocks should be delivered as called for by this department. At the present time there are about 100,000 blocks uncalled for because the contractor engaged in laying paving at Haymarket square is not prepared to accept these blocks. It would involve considerable expense to this department to have these blocks delivered now and later rehandled and made available for the paving contractor. Accordingly the Lovejoy Granite Company has not been called upon to make delivery and will not be so called upon until the contractor now engaged in paving is ready for them.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

Department of School Buildings.

Upon October 5 the Mayor approved a contract with the Hugo Construction Company, Incorporated, for a new intermediate school in South Boston, in the Shurtleff District.

Approval was requested of the awarding a contract to the low bidder, the Hugo Construction Company, Incorporated, in the sum of $624,800. This item 2A submitted by the Hugo Construction Company, Incorporated, shows a change in the construction as designed but does not affect either the program of the building or any dimension in any direction whatsoever. All the facts in the case and all the conditions of the Code and the P. W. A. laws were adhered to in so far as the Superintendent of Construction was able to ascertain.

Item 1.—Hugo Construction Company, Incorporated, $642,000; John Bowen Company,[3] $665,555; M. S. Kelliher Company,[4] $689,954; Matthew Cummings Company, Incorporated, $693,833; Thomas O'Connor Company, Incorporated, $698,700; A. Piotti Company, $711,000; D'Amore Construction Company,[3] $717,900; J. Slotnik Company,[3] $753,792.

Item 2.—Hugo Construction Company, Incorporated, $639,800[1]; John Bowen Company,[3] no bid; M. S. Kelliher Company,[4] deduct from main bid $8,200; Matthew Cummings Company, Incorporated, $684,833; Thomas O'Connor Company, Incorporated, $689,700; A. Piotti Company, $703,000; D'Amore Construction Company,[3] $713,400; J. Slotnik Company,[3] $751,292.

Item 2A.—Hugo Construction Company, Incorporated, $638,800.[2]

Item 3.—Hugo Construction Company, Incorporated, deduct from Item 1 $3,000; John Bowen Company,[3] deduct from Item 1 $3,000; M. S. Kelliher Company,[4] deduct from main bid $3,500; Matthew Cummings Company, Incorporated, deduct from Item 1 $4,000; Thomas O'Connor Company, Incorporated, deduct from Item 1 $2,000; A. Piotti Company, deduct $3,100; D'Amore Construction Company,[3] deduct $1,500; J. Slotnik Company,[3] deduct from Item 1 or 2 $2,500.

Item 4.—Hugo Construction Company, Incorporated, deduct from Item 1 $14,000; John Bowen Company,[3] deduct from Item 1 $14,500; M. S. Kelliher Company,[4] deduct from main bid $8,400; Matthew Cummings Company, Incorporated, deduct from Item 1 $8,000[5]; Thomas O'Connor Company, Incorporated, deduct from Item 1 $15,000; A. Piotti Company, deduct $9,600; D'Amore Construction Company,[3] deduct $8,100; J. Slotnik Company,[3] deduct $12,000.

[1] If Republic Fireproof System.
[2] Reinforced floor and roof construction as per inclosed plans.
[3] Bid not signed by a member of corporation.
[4] Time of completion to be March 1, 1936.
[5] Auditor's copy reads, $8,000 for omissions as per paragraph No. 3 of Addenda No. 2.

Public Works Department (Sewer Service).

Upon October 11 the Mayor approved a contract with Charles Andreassi & Co. for sewerage works in Hyde Park Branch of Oakland Brook in Royal road, Raleigh road, Ralston road and Rutledge road, Hyde Park, P. W. A. Docket No. 4193J. The following bids were received October 3:

Restricted as to Use of Machinery.

Charles Andreassi & Co., $26,363; National Engineering and Contracting Company, $36,299.50; C. Russo, $42,076.50; R. Zoppo, $35,662; A. Singarella, $33,219.50; Louis Balboni, $37,176.50.

Without Restriction as to Use of Machinery.

Charles Andreassi & Co., $22,292; National Engineering and Contracting Company, $25,489; C. Russo, $27,190.50; R. Zoppo, $27,695; A. Singarella, $28,598.50; Louis Balboni, $29,836.50.

Supply Department.

Upon October 3 the Mayor approved a contract with contractors as indicated, covering heavy fuel oil, medium fuel oil and light fuel oil for the various city departments, from October 1, 1934, to December 31, 1934, with the privilege of purchasing on the same basis until September 30, 1935.

The following awards are recommended:

Heavy Fuel Oil — Truck Delivery.—This 2,305,000 gallons does not include requirements at City Hospital which can be delivered by barge. Based on the lowest cost per million B. t. u. (26.94 cents), the bids filed by the Petroleum Heat and Power Company and the Shell Eastern Petroleum Products, Incorporated, are equal and the guaranteed quality of the fuel offered by these two bidders is identical. Therefore, the following factors should determine the award.

(1.) Storage and Transportation Facilities.—The Petroleum Heat and Power Company has adequate local storage and transportation facilities while Shell Eastern Petroleum Products, Incorporated, is limited, locally, in both respects, having its main storage at Fall River.

(2.) Past Performance and Uniform Quality of Oil.—Shell Eastern Petroleum Products, Incorporated, has never furnished fuel oil to the plants covered by this contract. There is no information available, therefore, as to its performance. The Petroleum Heat and Power Company, on the other hand, has supplied fuel oil to these plants which has given excellent results and shown remarkably uniform quality over a period of years.

(3.) Service.—The Shell Eastern Petroleum Products, Incorporated, is thoroughly equipped to give trouble service. The fact that the equipment in which this fuel oil is to be burned, however, was manufactured and installed by the Petroleum Heat and Power Company obviously places this company in the better position to give effective service.

Because of the above conditions, I recommend that an award of this contract (for supplying heavy fuel oil to the various city departments, other than the City Hospital), amounting to approximately $94,395, be awarded to the Petroleum Heat and Power Company.

Heavy Fuel Oil, Barge Delivery, Boston City Hospital.—The 95,000 barrels of heavy oil required by the City Hospital can be delivered by barge, and three bids were received on this business. The bid of the Colonial Beacon Oil Company contains a clause providing for an extra charge of $0.10 per barrel, if free berth is not available for barge when ready for delivery. Therefore, this bid is not acceptable.

Considering both price and guaranteed quality of oil offered by the two other bidders, the Cities Service Refining Company and the Petroleum Heat and Power Company, the latter company's bid is 3.03 per cent, or approximately $3,800 higher. However, in view of the fact that serious complaints have been received from the City Hospital regarding oil delivered by the Cities Service Refining Company in the past, this difference in price can well be considered in the light of insurance of uninterrupted supply of light, heat and power to this vitally important unit, the City Hospital. I, therefore, recommend the awarding of this contract, for approximately 95,000 barrels of heavy fuel oil, amounting to approximately $133,000, to the Petroleum Heat and Power Company.

Medium Fuel Oil.—Of the six bids received on the 420,000 gallons of medium fuel oil, the lowest bid, based on the cost of 34.01 cents per million B. t. u., is that received from the Shell Eastern Petroleum Products, Incorporated. This bid is only 0.35 per cent, or $73.50 lower than the next lowest bid, that of the Petroleum Heat and Power Company, based on both price and guaranteed price and quality.

The Shell Eastern Petroleum Products, Incorporated, has no local storage of medium fuel oil and depends on trucking this oil from Fall River or, in case of emergency, delivering from another company's storage in Somerville. In view of the importance of the plants where this fuel oil is used, particularly those of the Fire Department, I do not consider the small difference of $73.50 on the entire contract to be sufficient to justify jeopardizing the continuity of service. The bid of the Petroleum Heat and Power Company is therefore recommended for acceptance. This contract would amount to approximately $21,000.

Light Fuel Oil.—Sixteen bids were received for furnishing approximately 689,500 gallons of light fuel oil. The bids of the Superior Petroleum Products Company and the General Oil Products Company contained no guarantees for heating value and therefore no costs per million B. t. u., for these are shown in the appended tabulation.

The bid of the Pennsylvania Oil Company shows the lowest cost per million B. t. u., 38.60 cents. The bid contains, however, a special stipulation that the minimum net price shall be 5.25 cents per gallon. This is a restriction in price which none of the other bids have and therefore should be deemed a reason for eliminating this proposal from consideration, as the lowest price that could be paid under this provision would be 5.25 cents, regardless of how low the market price might be.

Without this bid, the lowest cost per million B. t. u., is shown by the proposal submitted by the White Fuel Corporation, 38.69 cents, which we recommend for acceptance. This contract would amount to approximately $37,500.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with several concerns for furnishing supplies and labor. Communications from the heads of the departments indicated were received as follows:

DEPARTMENT OF SCHOOL BUILDINGS.
BOSTON, October 3, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—I respectfully request your permission to award without advertising the cost of snow removal throughout the winter of 1934-35 complete, regardless of the number of storms, to A. G. Tomasello & Son, for nineteen hundred (1,900) dollars.

Besides snow removal this covers the sanding of the sidewalks. This is for school property belonging to the City of Boston where there is no custodian or no building.

This contract was awarded last year in the same manner. We tried receiving bids from some ten or twelve small contractors for this same purpose, dividing the city up into groups and the best price we got from them was approximately twenty-three hundred (2,300) dollars for doing the same thing. In the winter of 1932-33 the cost for snow removal was two thousand five hundred thirty-three (2,533) dollars and ninety-three (93) cents.

Respectfully yours,

WM. W. DRUMMEY,
Superintendent of Construction.

—

BOSTON, September 27, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Following up my letter of August 9 to you regarding the Joseph H. Barnes School, for an order of change to the John Bowen Company for the erection and completion of the addition and alterations to the Joseph H. Barnes School, Marion and Princeton streets, East Boston, please be advised that as a result of having our attention directed to certain features of the existing contract by the Finance Commission, we have been able to get a new price from the contractor, $483 less than the price quoted in the letter mentioned above. The point in question was not the correctness or accuracy of the figures for the new work but what part of the new

work might be fairly translated back to work that the contractor in part would be compelled to do, even though different, by his original contract.

We believe that this work is absolutely necessary and urge that it be done as soon as possible, inasmuch as these walls are directly on the sidewalk line and in their present condition are not safe. I desire to take them down and rebuild. All this work is in accordance with the drawings made by the architect, Mr. Greco. The work may be divided as follows:

Granite by subcontractor, $2,400; general contractor, 10 per cent, $240; shoring, tearing down walls, carting, etc., $700; rebuilding loose foundation walls, setting new granite ashlar, backing up ground with brick and anchoring and dowelling granite, $1,067; cutting, patching and anchoring new walls to old walls of present building, cutting, patching, flashing and making tight two roofs at new walls, $250; steel sash, cast-iron door and frame, new granolithic work and piecing out of old sidewalks, $143. Total, $4,800.

I respectfully request that your Honor will signify your approval of this at your first convenience.

Respectfully yours,

Wm. W. Drummey,
Superintendent of Construction.

ADDITIONS TO CONTRACTS.

INVESTIGATION DELAYED FOR MAYOR'S RETURN.

Mayor Mansfield telephoned that Mr. Dowling, Executive Director of the Overseers of the Public Welfare, be requested to hold in abeyance the investigation of the children of welfare recipients in schools until the Mayor's return to Boston.

POLICE DEPARTMENT ORDERS.

General Order No. 564.

The commissioner is pleased to publish the following letter for the information of the department:

"Sherburne, Powers & Needham,
75 Federal Street,
Boston, October 9, 1934.

Commissioner Eugene C. Hultman,
Police Headquarters, 154 Berkeley Street, Boston.

My dear Commissioner,—On leaving my duties at the State House I want to express to you my personal appreciation for the splendid spirit of cooperation which you evidenced at all times. I also want to express my appreciation of the cooperation of your officers Benjamin Goodman and William J. Goldston, who I suppose know more about their particular field than anyone in Massachusetts. They have worked splendidly with our department and given us valuable information which we would have had great difficulty in obtaining elsewhere, if such a thing were possible. Particularly during the last few weeks of my tenure of office they were helpful in connection with the labor agitation.

May I offer my good wishes for your continued success?

Sincerely yours,

Daniel Needham.

The Superintendent of Police will promulgate this order.

Eugene C. Hultman,
Commissioner.

General Order No. 565.

Lieutenant-Inspector James H. Egan and Patrolman James F. McDevitt, both of the Detective Bureau, are hereby commended and each given one week's additional vacation, and Policewoman Margaret M. McHugh of the Detective Bureau is hereby commended and granted three days' additional vacation, for efficient police duty performed in connection with the arrest of a criminal who was responsible for many breaks which have occurred in this city during the past six or seven months.

The commissioner is pleased to recognize the ingenuity of these officers and their devotion to duty as exemplified by their tireless efforts to bring to a successful solution the many crimes which had been committed by this dangerous character.

The Superintendent of Police will promulgate this order.

Eugene C. Hultman,
Commissioner.

General Order No. 566.

The commissioner is pleased to publish the following letter for the information of the department:

The Salvation Army,
100 Boylston Street,
Boston, Mass.
October 15, 1934.

Mr. Eugene C. Hultman,
Police Commissioner.

Dear Commissioner Hultman,—We have received from the Hon. Charles F. Hurley, Treasurer and Receiver-General for the Commonwealth of Massachusetts, checks in the amount of $142.34, representing contributions from various units of the Police Department, and desire to thank you most sincerely for your courtesy in allowing these collections.

We are sending under separate cover a certificate of appreciation and trust that in some way our thanks can be made known to those who contributed.

Sincerely yours,

W. A. Nicol,
Campaign Secretary.

The Superintendent of Police will promulgate this order.

Eugene C. Hultman,
Commissioner.

General Order No. 567.

Patrolmen John F. McCarthy and Edward J. Burdge, both of Division 13, are hereby commended and each granted one week's additional vacation for efficient police duty performed in connection with the arrest of a man who was responsible for the sounding of numerous false fire and police alarms.

The commissioner is pleased to recognize the vigilance of these officers, and he believes this important arrest will tend to materially reduce the false alarm menace.

The Superintendent of Police will promulgate this order.

Eugene C. Hultman,
Commissioner.

General Order No. 568.

Lieut. William H. Rymes and Patrolmen John J. Smith, William J. Jenkinson and John P. H. VanLier, all of Division 1, are hereby commended and each is granted two days' additional vacation for meritorious police work in Boston Harbor in connection with saving the lives of two men who were aboard a cabin cruiser which had taken fire and threatened a gasolene explosion.

The commissioner is pleased to recognize the courageous action of the officers mentioned, which undoubtedly grasped these men from almost certain death.

The Superintendent of Police will promulgate this order.

Eugene C. Hultman,
Commissioner.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the construction of Boyd street, Dorchester district, from Westville street to Dakota street, substantially as shown on a plan in the office of this Board, that it intends to pass an order for making said improvement, and that it appoints 11 o'clock a. m., of September 26, 1934, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

CORNELIUS A. REARDON,
Secretary.

In Board of Street Commissioners of the City of Boston, September 27, 1934.

Ordered, That this Board, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published September 14, 15, 1933, and September 17, 18, 1933, in the Boston *Globe* and the Boston *Herald,* two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience so requires, does hereby order the making, in said city, of the public improvement, shown on a plan marked "City of Boston, Boyd Street, Dorchester, December 16, 1933, William J. Sullivan, Chief Engineer, Street Laying-Out Department," deposited in the office of the Street Laying-Out Department of said city, and named, bounded and described as follows:

The highway named Boyd street is hereby ordered constructed, from Westville street to Dakota street.

Trees or structures standing upon or affixed to the aforesaid highway shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Boyd street, from Westville street to Dakota street, will receive benefit or advantage beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Boyd Street, Dorchester, Assessment Plan, September 24, 1934, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the construction of Boyd street, Dorchester district, from Westville street to Dakota street, under the order of the Board of September 27, 1934, and awards no damages therefor.

ASSESSMENT ABATED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That in the matter of Shubert Holding Company, petitioner for abatement of betterment assessment in the sum of $9.738, levied October 24, 1927, against the property known as the Shubert Theatre, 263 Tremont street (lot 96), as a result of the widening and relocation of Tremont street under the order of March 26, 1925, after consultation with the Law Department and on its advice, the Board agrees to settle the case by abatement, *in toto,* of the betterment assessment remaining due and unpaid, in the sum of $4,869; and consents that the corporation counsel agree to judgment in said case on the terms herein stated. Approved on the ground that the agreement of the parties was and is binding on the city; not upon the ground that the further abatement was justified.

CIRCULAR LETTER NO. 16.

OFFICE OF THE MAYOR,
BOSTON, October 10, 1934.

To the Heads of Departments.

GENTLEMEN,—The new system of non-criminal prosecution of violators of the Traffic Regulations has made it necessary to determine the manner in which emergency vehicles of the various city departments can be designated in order that the drivers may not be subjected to summonses.

In the Street Traffic Regulations all vehicles owned, used or controlled by the Mayor of Boston, are exempted as authorized emergency vehicles.

The Boston Traffic Commission has voted that the method to be adopted for marking these vehicles would be as follows:

That each department head should advise the commission of the number of emergency vehicles in his department and the purpose for which each one is used; that the Traffic Commission would then issue to each department head, plates of a standard size, color and type to be placed on the wind shields of the vehicles when parked.

It is apparent that negligent handling of the issuance of these plates would result in an abuse of the privilege.

Please forward the desired information to the Boston Traffic Commission, 134 North street, Boston, at your earliest convenience.

Yours truly,

FREDERICK W. MANSFIELD, *Mayor*.

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt $100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A., DOCKET NO. 4193-P.

NOTICE TO CONTRACTORS.

Sealed proposals, addressed to the Commissioner of Public Works of the City of Boston and indorsed "Sewerage Works for Outlet for Hyde Park Avenue in New York, N. Haven & Hartford Railroad land, between Neponset river and Hyde Park avenue, Hyde Park," will be received at Room 508, fifth floor, City Hall Annex, Boston, Mass., before 12 o'clock noon, on the thirtieth day of October, 1934, and at that time and place will be publicly opened and read. Bids must be made upon the prescribed proposal form. Plans, specifications and contract form may be obtained at Room 508, fifth floor, City Hall Annex, Boston, Mass., upon deposit of the sum of two dollars ($2). The project is to be financed and constructed under the terms of the National Industrial Recovery Act and chapter 366, Massachusetts Acts of 1933, and attention is called to the construction regulations prescribed by the P. W. A. The minimum wage rates for the project are $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor. "Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March, 1934) duly executed by the bidder." Bids must be accompanied by a properly certified check on, or a certificate of deposit issued by a responsible bank in the sum of two thousand five hundred dollars ($2,500), payable to the City of Boston. Checks will be returned after execution of the contract, upon demand. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any or all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston, Mass.

Order of the City Council of Boston of February 27, 1934. Payable $25,000 annually, November 1, 1935, to November 1, 1964, inclusive.

GROUP "B."

Bidder to name rate of interest in multiples of one fourth of 1 per cent; no bid to be less than par and accrued interest, and a different rate of interest may be bid for all but no part of each purpose loan to be issued.

SEWERAGE LOAN, $250,000.

Order of the City Council of Boston of February 27, 1934. Payable $13,000 annually, November 1, 1935, to November 1, 1944, inclusive, and $12,000 annually, November 1, 1945, to November 1, 1954, inclusive.

HIGHWAYS, MAKING OF, $250,000.

Orders of the City Council of Boston of April 26, 1932 and March 11, 1933. Payable $13,000 annually, November 1, 1935, to November 1, 1944, inclusive, and $12,000 annually, November 1, 1945, to November 1, 1954, inclusive.

All loans will be issued in Coupon Bond Certificates of $1,000 each, and will be paid on the dates specified for each loan, all with interest payable semi-annually on the first days of May and November in each year, at the office of the City Treasurer, Boston.

In comparing bids, preference will be given to the bidder whose bid provides for the lowest net interest cost to the City (total interest for the duration of the loan from November 1, 1934, less the amount of premium bid).

The bonds will be dated November 1, 1934, and will be ready for delivery and payment November 27, 1934. Interest will begin November 1, 1934, and will cease on the date on which the bonds are payable.

These bonds are exempt from taxation in Massachusetts and from the Federal Income Tax.

Proposals must be sealed and addressed to John H. Dorsey, City Treasurer, Boston, Mass., endorsed "Proposals for Loans." Each proposal must be accompanied by a certified check on a Boston National Bank or Trust Company, or by cash, equal to one per cent of the amount of loans bid for, the check made payable to the City of Boston, John H. Dorsey, City Treasurer. The check or cash of any bidder to whom an award is made will be retained as part payment for the loan or loans awarded, but no interest will be allowed thereon. All other checks or cash will be returned.

Accrued interest from November 1, 1934, to date of delivery is to be paid by the purchaser.

All proposals will be opened in the office of the City Treasurer, Thursday, October 25, 1934, at 12 o'clock M. The City Treasurer reserves the right to reject any or all bids or to accept such bid or bids as may seem to him to be the most advantageous to the city.

JOHN H. DORSEY,
City Treasurer.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN KEITH STREET, BETWEEN ALDER STREET AND CARROLL STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from the citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Keith street, between Alder street and Carroll street, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Keith Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, October 26, 1934, with a certified check for one hundred (100) dollars payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

C. J. CARVEN,
(Oct. 20.) *Commissioner of Public Works.*

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING FORD TRUCKS.

The Supply Department of the City of Boston invites proposals for furnishing to the Public Works Department, Water Service, Ford trucks as per specifications to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex. *There will be a charge of twenty cents ($0.20) for each set of blank proposals taken out.* The bidder must leave his proposal with a certified check for $200, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read Tuesday, October 30, 1934, at 12 m., at Room 801, City Hall Annex. The successful bidder must furnish a bond for one quarter of the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WARREN W. LOOMIS,
(Oct. 20.) *Superintendent of Supplies.*

PUBLIC WORKS DEPARTMENT.

NATIONAL INDUSTRIAL RECOVERY PROJECT,
P. W. A. DOCKET NO. 4193-N.

NOTICE TO CONTRACTORS.

Sealed proposals, addressed to the Commissioner of Public Works of the City of Boston and indorsed "Sewerage Works, Cottage Street, between Porter Street and Maverick Street, East Boston," will be received at Room 508, fifth floor, City Hall Annex, Boston, Mass., before 12 o'clock noon on the 29th day of October, 1934, and at that time and place will be publicly opened and read. Bids must be made upon the prescribed proposal form. Plans, specifications and contract form may be obtained at Room 508, fifth floor, City Hall Annex, Boston, Mass., upon deposit of the sum of two dollars ($2). The project is to be financed and constructed under the terms of the National Industrial Recovery Act and chapter 366, Massachusetts Acts of 1933, and attention is called to the Construction Regulations prescribed by the P. W. A., including the minimum wage rates prescribed by the Federal Emergency Administration of Public Works, which must be paid on this project. Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March, 1934) duly executed by the bidder. Bids must be accompanied by a properly certified check on, or a certificate of deposit issued by a responsible bank in the sum of twenty-two hundred dollars ($2,200), payable to the City of Boston. Checks will be returned after execution of the contract, upon demand. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any or all proposals, or to accept any proposal seemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows; State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston, Mass.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, OCTOBER 27, 1934. No. 43

MAYOR MANSFIELD INAUGURATES SYSTEM OF GAINFUL EMPLOYMENT FOR INMATES AT DEER ISLAND ON BROADER SCALE — UNDER HIS DIRECTION PENAL INSTITUTIONS COMMISSIONER O'HARE HAS STARTED A STOCKING-MAKING INDUSTRY THAT WILL SAVE CITY AND COUNTY MUCH MONEY — NOW HAS SHOE SHOP, CLOTHING SHOP, HOSIERY AND CORRUGATED BOX SHOPS WITH UP-TO-DATE MACHINERY.

Under the direction of Mayor Mansfield, William G. O'Hare, Penal Institutions Commissioner, has instituted an industrial system at the institution which will not alone save the city many dollars but will provide the other institutions with clothing, stockings and goods as well as give the inmates knowledge in several useful trades and keep them employed. In a statement issued by Commissioner O'Hare, of the plans, he says:

Since there has not been sufficient productive employment for inmates at the House of Correction at Deer Island and more especially because of the increase in population which has been steady and uninterrupted from an average daily count of 248 in 1922 to that of 796 in 1933 and an average of 875 for the first six months of this year 1934 it was deemed advisable to develop the present industries and create some new ones which would be adaptable for the short-time commitments made to the institution.

Several conferences were held between the Penal Institutions Commissioner and the Department of Correction during the past few months, and as a result steps were taken and carried to completion for modernizing the shoe shop and clothing shop, and for the establishment of a hosiery shop and a shop to manufacture corrugated boxes.

The shoe shop, which has been in existence for some time, was equipped with old machinery which did not permit of the proper work being done. With the new equipment and the better layout of the shop it is expected that it will be possible to care for the needs of the other city institutions as well as the House of Correction.

Clothing Shop.

The clothing shop, or as it is more commonly known as the cutting room, existed primarily for the purpose of supplying and caring for the clothing provided for inmates during their incarceration. Under the present system, with our modern equipment, it will be possible to supply the needs of the various city institutions with bed linen and similar products.

The hosiery shop, which is really a subdivision of the clothing shop, has been established at a comparatively small cost and will supply the needs for hosiery for the House of Correction and for the city departments which have need of this product.

The corrugated box shop will supply the various state, county and municipal departments with the necessary containers for storage or shipping purposes.

The last two industries are new industries for this institution and in conjunction with the other two are established under the State Use Law which is in effect in the Commonwealth and which provides that all state, county and municipal departments must purchase prison-made goods when available.

During the past few years a constructive plan has been adopted for consolidating the institution as well as doing away with some of the older buildings which have outlived their usefulness. Some of these buildings were condemned for use by both the Building and Fire Departments.

Plants Remodeled.

Under this plan the old Administration Building, which was erected in 1849, has been remodeled and renewed to the extent that the carpenter shop, the clothing shop, shoe shop and the box shop are now established in this building.

The old cell block of the Bastile type which was a component part of the old building has been taken down with the exception of a small section which was remodeled for segregation purposes.

The receiving office, which is the pulse of the institution, has been established in new quarters in this building, with provision for the proper storage of the inmates' personal clothing until their release.

The remainder of the building is in the process of renovation and remodeling to care for the administrative offices and provide for a dormitory for the short-time commitments should the population increase to numbers in excess of the present housing facilities.

In the rear of this building there are being erected at the present time a paint shop, machine shop and an electrical shop to replace the present ones and permit of a concentration of activities in one section of the institution.

The old building which formerly housed the shoe shop and carpenter shop has been torn down.

STATEMENT BY PENAL INSTITUTIONS COMMISSIONER.

(*Continued from page 1113.*)

WORK DONE BY INMATE LABOR.

All the work described has been done by inmate labor and, with the exception of some of the lumber, cement and small supplies, the materials used have been salvaged from the condemned buildings which have been taken down.

It is expected that with the small stone crusher recently erected on the island, together with the steam roller recently purchased, that the roads, which are in a deplorable condition, can be put in first-class shape for the purposes for which they are used.

The above outlined changes, as well as many minor improvements too numerous to mention, could not have been accomplished were it not for the fine spirit of cooperation and helpfulness shown by all concerned both inside and outside the department.

In passing it is well to note that there is yet much to be done before the institution can merit a first-class rating as far as equipment is concerned, but this is our aim and endeavor.

POLICE DEPARTMENT ORDERS.

General Order No. 569.

The report entitled "Return A, Monthly Return of Offences Known to the Police," for the month of September, has been forwarded to Mr. J. E. Hoover, Director, Division of Investigation, Department of Justice, Washington, D. C.

This monthly return is composed of the following offences:

1. Criminal Homicide.
   - *a.* Murder and non-negligent manslaughter.
   - *b.* Manslaughter by negligence.
2. Rape. (Abuse of female child.) (Rape, assault to.)
3. Robbery. (Assault to, robbery armed and unarmed.)
4. Aggravated assault. (Assault and battery with dangerous weapon, mayhem.) (Assault with intent to murder.)
5. Burglary, breaking and entering.
6. Larceny, theft (except auto theft).
   - *a.* $50 and over in value.
   - *b.* Under $50 in value.
7. Auto theft. (Larceny of automobile and attempted larceny of automobile.)

Divisions of this department reported on the above-mentioned offences collectively for the month of September as follows:

Division.	Number of Offences Reported.	Unfounded.	Actual.	Cleared.	Per Cent Cleared.
1	64	33	31	31	100.00
7	31	11	20	21	100.00
14	44	30	14	16	100.00
15	21	13	8	24	100.00
18	11	7	4	4	100.00
10	62	14	48	46	95.83
2	83	63	20	17	85.00

11	29	14	15	8	53.33
16	111	66	45	24	53.33

It will be noted upon examination of the percentage of cases cleared that Divisions 1, 7, 14, 15 and 18 attained a mark of 100 per cent. The record of Division 7 in obtaining a mark of 100 per cent during the months of June, July, August and September is outstanding among the various divisions, and also Divisions 15 and 18 which have, for the third time, attained a perfect score in the clearance of cases.

The total percentage of cleared cases by all the divisions was 82.40 and the combined averages of divisions by districts were as follows:

	Per Cent Cleared.
District B: (Divisions 1, 2, 7, 15 and 16)	87.67
District A: (Divisions 13, 14, 17, 18 and 19)	79.96
District C: (Divisions 4, 6, 9, 10 and 11)	79.45

The commissioner is pleased to note the excellent consecutive record attained by Station 7 during the past few months, and also the splendid records attained by Divisions 15 and 18 for the third time.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 570.

The resignation of Patrolman Patrick M. Yarnell of Division 9, having been presented while charges against him are pending, it is hereby accepted to take effect as of Thursday, October 18, 1934, at 5.45 o'clock p. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 571.

Katherine F. Webb, assistant chief matron, serving in the House of Detention, is hereby appointed chief matron of the House of Detention, with pay at the rate of $1,800 per annum (basic), or $1,530 (reduced).

Annie T. Caffery, serving as assistant matron in the House of Detention, is hereby appointed assistant chief matron of the House of Detention, with pay at the rate of $1,600 per annum (basic), or $1,440 (reduced).

This order will take effect at 7.45 o'clock a. m., Tuesday, October 23, 1934.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 572.

A trial board consisting of Captains McGrath, Gleavy and Daley, having heard by reference a complaint made by William Lewis, captain, Division 19, against John J. Sullivan, patrolman, Division 19, for alleged violations of the Rules and Regulations of the Police Department, to wit:

Charge 1: Neglect of duty.

Specification 1: In that on the twenty-first day of July, 1934, the said Patrolman John J. Sullivan entered the building at 1160A Blue Hill avenue, leaving his route not on police business without the permission of the officer in charge of station.

Specification 2: In that on the twenty-first day of July, 1934, Patrolman John J. Sullivan of this division did fail to pull his "on duty" calls between the hours of 2.20 a. m. o'clock and 4.15 a. m. o'clock.

Charge 2: Conduct unbecoming an officer.

Specification: In that on the twenty-first day of July, 1934, Patrolman John J. Sullivan, while in uniform and on duty, was under the influence of intoxicating liquor to such an extent that he was unable to perform police duty, thereby tending to bring into disrepute and criticism his associates in the Boston Police Department,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, finds the said Patrolman John J. Sullivan guilty of Charge 1 and specifications thereunder, and not guilty of Charge 2 and specification thereunder. However, the Board feels that Patrolman Sullivan might well be found guilty under Charge 2, but the Board feels that it must take into consideration the report of the attending physician, the Chief of the Neurosurgical Service of the Boston City Hospital, and must also consider evidence offered to show that this officer's condition was caused by a previous injury suffered on April 2, 1934. Therefore, the Board respectfully recommends that the said Patrolman John J. Sullivan be suspended from duty for a period of ninety days, effective as of July 21, 1934."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman John J. Sullivan be suspended from duty for a period of ninety days, effective as of July 21, 1934, at 7.45 o'clock a. m.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A surface drain of 4-foot 6-inch circular concrete (P. W. A., Docket No. 4193-P) in Wolcott court (north of Wolcott street), between private land (westerly side of Wolcott court) and 35 feet northeasterly (to northerly side of Wolcott court), in the Hyde Park district, at an estimated cost of $910.

A 4-foot 6-inch circular concrete surface drain (P. W. A., Docket No. 4193-P) in private land and across Wolcott court, between Neponset river and Hyde Park avenue, in the Hyde Park district, at an estimated cost of $52,646.

A surface drain overflow of 5-foot by 5-foot square box concrete, including 5-foot to 3-foot reducer, and appurtenances (P. W. A., Docket No. 1493-N) in Cottage street, between Porter street and Maverick street, in the East Boston district, at an estimated cost of $45,000.

P. W. A. ESTIMATES ITS 1934 EXPENDITURES.

A statistical study was received by Public Works Administrator Harold L. Ickes indicating $1,382,000,000 would go from the Public Works Fund into citizens' pockets during 1934 to increase purchasing power and re-employment, and spread recovery.

The study showed P. W. A. expenditures would reach the peak of $164,000,000 a month in June. Statutory and executive allotments totaling approximately one third the entire P. W. A. fund were not included in the compilation.

REPORT ON ANNUAL MEETING.

The School Committee has approved the following report on attendance of the chairman and the Business Manager at the annual meeting of the National Association of Public School Business Officials held at New York City, August 21 to 24, inclusive.

BOSTON, October 5, 1934.

To the School Committee of the City of Boston.

In compliance with the provisions of section 3 of chapter 274 of the Acts of 1914, I am hereby making the following report:

On July 11, 1934, your Board passed an order authorizing the chairman of the School Committee and the Business Manager to attend the annual meeting of the National Association of Public School Business Officials to be held at New York City, August 21 to 24, inclusive.

Delegates were present from cities and towns in the United States and Canada. Sessions were held morning and afternoon. Discussions took place on the following subjects:

1. Selection, purchase, storage and distribution of supplies.
2. Economic and efficient maintenance of the school plant.
3. State aid for education.
4. Scientific lighting of the schoolroom.
5. Financing the school building in the future.
6. Modern business methods in economic school administration.
7. Proper treatment of schoolroom floors and how to maintain them.
8. The schools in relation to the N. R. A. and other national programs.
9. Causes and prevention of accidents in the schools.
10. Efficiency and safety in the transportation of school children.
11. Buying text-books for the schools.
12. Sound system for handling students' funds in the high schools.
13. The need for a national testing laboratory for school materials, equipment and supplies.
14. Sources and protection of school funds.
15. The efficient school cafeteria.

The sessions were addressed by several speakers. The chairman of your committee, Mr. Maurice J. Tobin, addressed the association on Thursday, August 23, on "The Vital Necessity of Close Co-operation between School Boards and Associations of Public School Business Officials." He also discussed informally with several school officials other problems of municipal and state taxation. Mr. Tobin's remarks and interest in the work being done by the association were very much appreciated by the members.

I wish to express my appreciation to your Board in affording me the opportunity of attending this meeting.

Respectfully yours,

ALEXANDER M. SULLIVAN,
Business Manager.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A certain parcel of land, bounded and described as follows:

Northwesterly by Hamilton street, six feet; northerly by Hawthorne street, two hundred and forty feet; northeasterly by Clifford street, six feet, and southerly again by Hawthorne street, two hundred and forty feet, containing fourteen hundred and forty square feet, be all or any of said dimensions and said area more or less, being part of the private way known as Hawthorne street, and lying between Hamilton street and Clifford street; also another parcel of land, being part of the private way known as Hawthorne street, and lying between Clifford street and Chester street, bounded and described as follows:

Northwesterly by Clifford street, six feet; northerly partly by Hawthorne street and partly by Chester street, two hundred and fifty-seven feet; southeasterly by sewer easement taken August 8, 1930, six feet, and southerly partly by Chester street and partly by Hawthorne street, two hundred and fifty-seven feet, containing fifteen hundred and forty-two square feet, be all or any of said measurements and said area more or less.

The sewerage works to be constructed are as follows: Four hundred ninety-six linear feet of 15-inch pipe sanitary sewer in the above described premises, being part of the private way known as Hawthorne street, lying between Clifford street and Chester street.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lot of land on the southerly side of Hawthorne street, supposed to belong to William J. Sheehan and Margaret L. Sheehan, assessment lot 6, as shown on the plan hereinafter mentioned, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, to the amount herein set against it; said lot and the supposed owner thereof being shown on a plan marked "City of Boston, Plan No. 1138, Sewerage Works, Hawthorne Street, Hyde Park, September 18, 1934, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Lot 6, William J. Sheehan and Margaret L. Sheehan, $120.

ASSESSMENTS ABATED.

The Mayor has approved the following order of the Board of Street Commissioners of the City of Boston:

In the matter of the application for the revision of assessment levied on account of the construction of sewerage works, Colorado street, Dorchester, the Board of Street Commissioners, acting under the provisions of chapter 359 of the Acts of the year 1896, and deeming it just and proper that such action should be taken on said application,

Ordered, That the amounts hereinafter set forth, being the annual apportionments of said assessment for the years specified below, be, and the same are, hereby abated.

Anna M. Morton, Plan 1927-28, Part 3, assessed October 3, 1927.

1928 Apportionments: Lots 4, 5, 6 and 7, $6.37.

1932 Apportionments: Lots 4, 5, 6 and 7, $5.30.

EXCLUSION OF TRUCKS, WEST CANTON STREET.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of August 27, 1934, concerning the exclusion of heavy trucks from West Canton street, Ward 4.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Boston Traffic Commission,
October 8, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated August 27, 1934, which reads as follows:

Ordered, That the Traffic Commissioner be instructed, through his Honor the Mayor, to exclude heavy trucks from West Canton street, Ward 4.

After investigation, our Engineering Department and the Police Department both disapprove of excluding trucks from this street, and at a regular meeting of this commission held Thursday, October 4, 1934, this matter was discussed and it was voted to reject the request.

Very truly yours,
WILLIAM P. HICKEY,
Commissioner.

SIGNAL LIGHTS, JAMAICAWAY.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of September 24, 1934, concerning the installation of automatic signal lights at the intersection of the Jamaicaway, Riverway and Huntington avenue.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Boston Traffic Commission,
October 5, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated September 24, 1934, which reads as follows:

Ordered, That the Traffic Commissioner be instructed, through his Honor the Mayor, to install automatic signal lights at the intersection of the Jamaicaway, Riverway and Huntington avenue.

The above intersection will be the Boston terminal of the Worcester Turnpike when it is completed.

I am advised by the State Department of Public Works that the proposed plans for the Worcester Turnpike in this area contemplate drastic physical changes at this intersection.

It is obvious, therefore, that the ends of economy would not be served by installing a traffic signal at this point.

Very truly yours,
WILLIAM P. HICKEY,
Commissioner.

COMPLAINTS IN RE NEW PARKING LAW.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of October 1, 1934, concerning records of complaints received by them regarding the enforcement of the new parking law.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Boston Traffic Commission, October 9, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated October 1, 1934, which reads as follows:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to keep a record of all complaints received by them regarding the enforcement of the new parking law, consisting of the name and address of the complainant and whether said complainant is employed in Boston or visiting Boston for the purpose of shopping.

This commission will keep a record of all complaints received in this office in accordance with the above request.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

COST OF INDOOR GYMNASIUM, COLUMBUS PARK.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Park Department, relative to your

order of October 1, 1934, concerning an estimate of the cost of erecting and equipping an indoor gymnasium on Columbus Park.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Park Department, October 9, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have your memorandum of October 6 with inclosure, order from the City Council requesting that the Park Commission furnish estimates of the cost of erecting and equipping an indoor gymnasium on Columbus Park.

To erect an indoor gymnasium with locker and shower facilities would cost approximately $250,000. South Boston has no gymnasium. I regret to inform you there are no funds available for this purpose.

Very respectfully yours,
WILLIAM P. LONG,
Chairman.

TRAFFIC SIGNALS, CHARLES AND CHESTNUT STREETS.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of October 1, 1934, concerning the installation of an automobile traffic signal at the junction of Charles and Chestnut streets.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Boston Traffic Commission,
October 10, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated October 1, 1934, which reads as follows:

Ordered, That the Traffic Commissioner of the City of Boston be requested, through his Honor the Mayor, to install an automobile traffic signal at the junction of Charles and Chestnut streets.

The installation of this signal would cost approximately $2,800. No funds are available at the present time.

Our engineers report that while they are cognizant of the difficulty pedestrians experience in crossing Charles street at this intersection they feel that a signal at this point could not be operated successfully in conjunction with the near adjacent signals at Beacon street and Charles street and at Charles street and Mt. Vernon street.

Charles street is one of the most heavily traveled, if not the most congested street in the downtown area.

The short blocks in the area between Beacon street and Revere street make it exceedingly difficult to maintain even a proximate progression in the signal system.

The addition of the signal requested would therefore interfere with the orderly movement of traffic through Charles street.

Very truly yours,
WILLIAM P. HICKEY,
Commissioner.

CLEANING OF CATCH-BASINS.

The following was received:

City of Boston,
Office of the Mayor, October 9, 1934.

To the City Council.

Gentlemen,—I return herewith without my signature and with my disapproval the order adopted by your honorable body on September 24, 1934, appropriating for the Public Works Department, Sewer Division, $25,000 by transfer from B, Service Other than Personal, to C, Equipment. This order was originally submitted by me to the City Council on July 30, 1934, where it was referred to the Executive Committee, and although the Executive Committee reported that the order ought to pass on that same day the matter was held in the City Council and was not passed until September 24 as above stated.

The purpose of this order was to purchase catch-basin cleaning equipment so that the cleaning of catch-basins might be done by City of Boston employees instead of by contract, and it was thought that the money might better be expended for the purchase of equipment which would then be permanently the property of the city, than to expend substantial sums for cleaning catch-basins which would have to be repeated year after year while the city was without necessary machinery.

I have not changed the opinion which I expressed in my communication to the City Council on July 30 and I still think it would be advisable for the city to expend $25,000 for the purchase of catch-basin machinery, but unfortunately the matter has been delayed so long and the season has advanced so far that it would probably be impossible to readvertise for bids on the machinery and to consummate the purchase of it in time to be of use to the Public Works Department before the weather becomes so cold that the machinery could not be used.

Bids were called for by the Superintendent of Supplies upon July 30, 1934, and he recommended the letting of a contract to the lowest bidder, but since the order making the appropriation had not been adopted by your honorable body it was impossible to let the contract; and now under the law all of these bids originally obtained are obsolete and it would be necessary to readvertise for bids for this machinery.

All of these considerations lead me to conclude that it would be advisable to do whatever remaining catch-basin cleaning is necessary, by contract, and provide for the purchase of the machinery in the new budget for 1935.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Coun. ROBERTS—Mr. President, I ask unanimous consent to make a statement in regard to this matter.

President DOWD—If there is no objection, the councilor will proceed.

Coun. ROBERTS—Mr. President, I am given to understand by references in the press that the City Council is being held responsible for the holding up of the order referred to. As I recall, some weeks ago I made a motion to table the order for the sole reason that no information had come to us in regard to this matter upon which the Council could possibly act intelligently. It was stated in the paper that with the passage of the order some men would be put at work who otherwise would be unemployed, but I would specifically call attention to the fact that the order as placed before us dealt with the purchase of material entirely and had no reference to wages. One reason also for tabling the order was that there was no reference in it to the type of equipment to be purchased. The question also occurred to some members of the Council whether the order as introduced would provide a sufficient amount of money to purchase equipment for the whole city, having in mind the old system of dividing the city up into special districts for this purpose and awarding contracts for particular districts. I still am in doubt as to whether money enough will be provided under the order to purchase adequate machinery, and I would suggest, secondly, that we have had no reply from the Mayor or anybody representing him as to the kind and type of equipment to be purchased.

The communication was placed on file.

HARMON STREET, WARD 18.

The following was received:

City of Boston,
Office of the Mayor, October 5, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Board of Street Commissioners, relative to your order of July 23, 1934, concerning the acceptance and laying out of Harmon street, Ward 18.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Board of Street Commissioners,
October 1, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—Inclosed please find copy of City Council order requesting acceptance and laying out of Harmon street, Ward 18, together with request for consideration and report.

In reply I wish to state that this project would cost in the neighborhood of $10,000. This street comes within a class which may be considered favorably when money becomes available for new street construction.

Harmon street is now being advertised for a public hearing in order to determine the sentiment of the property owners with respect to their willingness to assume betterment assessments. After the hearing it will be placed on the list for acceptance and construction in the position which the Board deems just and reasonable, considering the many similar demands coming from other sections of the city.

REPAVING OF SOUTHAMPTON STREET.

The following was received:

City of Boston,
Office of the Mayor, October 6, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Acting Commissioner of Public Works, relative to your order of September 24, 1934, concerning the repaving of Southampton street.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department, October 5, 1934.

Mr. John J. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—In reply to your note of October 3 with attached order of City Council requesting that the Commissioner of Public Works repave Southampton street, I respectfully report that this street is included in the list of ten main highways upon which a grant was obtained from the United States Government.

On September 24 a contract was approved for the reconstruction of Southampton street for its entire length and the work of reconstruction is now in progress.

Respectfully,
JOSHUA ATWOOD,
Acting Commissioner of Public Works.

TRAFFIC SIGNALS, HOMESTEAD AND HAROLD STREETS.

The following was received:

City of Boston,
Office of the Mayor, October 5, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of August 13, 1934, concerning the installation of automatic traffic signals at the junction of Homestead and Harold streets.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Traffic Commission, October 1, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated August 13, 1934, which reads as follows:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signals at the junction of Homestead and Harold streets.

Our records of accidents from January 1, 1929, to date show two accidents at this intersection, both taking place in 1934, one an Auto *v.* Taxi, which happened at 6.30 a. m., another Auto *v.* Auto at 10 a. m. Comparatively speaking this accident rate is very low.

To install automatic traffic signals at the intersection of Homestead and Harold streets would cost approximately $2,000.

There are no funds available for the installation of traffic signals at this location.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

STATE ELECTION.

Coun. TOBIN offered the following:

Ordered, That meetings of the citizens of this city, qualified to vote for state officers, be held at the several polling places designated for the purpose by the Board of Election Commissioners, on Tuesday, the sixth day of November, 1934, for the election of Governor, Lieutenant Governor, State Secretary, State Treasurer, State Auditor, Attorney-General, Senator in Congress, Representatives in Congress, Councilors, Senators in the General Court, Representatives in the General Court, District Attorney, Register of Deeds, Clerk of Supreme Judicial Court, Clerk of Superior Court for Criminal Business, Clerk of Superior Court for Civil Business, Board of Apportionment; also to give in their votes "yes" or "no" on the following questions:

Question No. 1.

Law Submitted Upon Referendum After Passage.

Shall a law described as follows:

This law amends General Laws, chapter 131, as previously amended, by repealing section 105A thereof and adding thereto three new sections, 105B, 105C, and 114A.

Section 105B provides that whoever uses any trap or other device for capture of fur bearing animals, which is not designed to kill such animal at once or to take it unhurt and which is likely to cause continued suffering to an animal caught therein, shall be fined fifty dollars, but traps or other devices for protection of property, set not more than fifty yards from any building, cultivated plot, or enclosures used for rearing poultry or game birds, to the use of which the presence of vermin may be detrimental, are excluded from the application of this section.

Section 105C provides for the submission to the voters at a municipal election in any city or town upon petition, of the question of whether the operation of section 105B shall be suspended or if it has been already suspended, of the question whether it shall again be operative in such city or town.

Section 114A provides that the Commissioner of Conservation may suspend the operation of section 105B for a period not exceeding thirty days within any specified territory under the control of his department.

The law also provides for the submission, by the selectmen to the voters at a special town meeting in the current year, upon petition, of the question as to whether the provisions of section 105B shall be suspended in any town; and which was approved by both branches of the General Court by vote not recorded, be approved?

Question No. 2.

To obtain a full expression of opinion, voters should vote on both of the following questions:

(a.) If a voter desires to permit the sale of any and all alcoholic beverages in this city (or town) he will vote "YES" on both questions.

(b.) If he desires to permit the sale of wines and malt beverages only herein, he will vote "NO" on question 1 and "YES" on question 2.

(c.) If he desires to prohibit the sale of any and all alcoholic beverages herein, he will vote "NO" on both questions.

1. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages (whiskey, rum, gin, malt beverages, wines and all other alcoholic beverages)?

2. Shall licenses be granted in this city (or town) for the sale therein of wines and malt beverages (wines and beer, ale and all other malt beverages)?

Question No. 3.

1. Shall the pari-mutuel system of betting on licensed horse races be permitted in this county?

2. Shall the pari-mutuel system of betting on licensed dog races be permitted in this county?

Question No. 4.

Shall June seventeenth be made a legal holiday in Suffolk county?

Question of Public Policy.

(In the Twentieth Suffolk Representative District only.)

Shall the Representatives in the General Court from the Twentieth Representative District for Suffolk County be instructed to vote to request the President and the United States Senate to enter into full cooperation and membership in the League of Nations, with the explanatory reservation that the United States shall not engage in war with any nation, except by vote of Congress, as provided in the United States Constitution, and such other reservations as they deem wise?

Question of Public Policy.

(In the Fourteenth Suffolk Representative District only.)

Shall the Representatives in the General Court from the Fourteenth Suffolk Representative District be instructed to vote in favor of abolishing the power of the courts to issue injunctions in labor disputes?

The polls at said meetings shall be opened at eight o'clock a. m., and closed at eight o'clock p. m.

Ordered, That the City Clerk be hereby directed to give notice of said meetings according to law.

Passed under suspension of the rule.

SECTIONS 55, 56 AND 57 OF CHAPTER 54.

Coun. TOBIN offered the following:

Ordered, That the provisions of sections 55, 56 and 57 of chapter 54 of the General Laws be, and hereby are, suspended and made inapplicable as to the several questions to be voted upon at the state election to be held on November 6, 1934.

Passed under suspension of the rule.

BRANCH LIBRARY, WARD 15.

Coun. TOBIN offered the following:

Ordered, That his Honor the Mayor confer with the Library Trustees with reference to securing a branch library at Bowdoin street in Ward 15.

Passed under suspension of the rule.

APPOINTMENT OF ADDITIONAL FIREMEN.

Coun. MURRAY offered the following:

Ordered, That his Honor the Mayor be requested to make preparations to appoint at least one hundred men in the Fire Department.

Coun. MURRAY—Mr. President, I understand that on January 1 the department was eighty or ninety men short. Since then, fifty men have been pensioned in the Fire Department, making a shortage amounting to in the neighborhood of

one hundred and fifty men. The Fire Department is one of the most substantial and valuable departments of the City of Boston, and is under-manned. I think, therefore, that at least one hundred additional men should be added at once. In case of a bad fire the city would be in a deplorable condition. I hope that the Mayor will take cognizance of the order.

The order was passed under suspension of the rule.

FOOTPATH BETWEEN ORMOND STREET AND BLUE HILL AVENUE.

Coun. GOLDMAN offered the following:

Ordered, That the Street Laying-Out Department be requested, through his Honor the Mayor, to accept and construct a footpath between Ormond street and Blue Hill avenue, the Ormond street end being near to or opposite the intersection of Ormond street and Outlook road.

Passed under suspension of the rule.

APPOINTMENT OF PATRICK J. HURLEY.

Notice was received from Edward L. Logan, Judge of Municipal Court of South Boston District, of appointment as Chief Probation Officer for Municipal Court of South Boston District of Patrick J. Hurley, 229 M street, South Boston, fixing compensation, subject to approval of County Commissioners, at $3,000 per annum.

Referred to Committee on County Accounts.

RECESS.

The Council voted, on motion of Coun. FINLEY, at 2.25 p. m., to take a recess subject to the call of the Chairman.

The members reassembled in the Council Chamber and were called to order by President DOWD at 2.47 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on petitions (referred to day) for children under fifteen years of age to appear at places of public amusement, viz.:

R. H. White Company, R. H. White Hall, October 6 and 13—recommending that leave be granted, under usual conditions.

Report accepted; leave granted under usual conditions.

2. Report on message of Mayor and orders (referred today) for transfer of funds within departmental appropriations—recommending that same ought to pass.

The question came on confirmation. Committee, Coun. Gallagher and Selvitella. Whole number of ballots 18; yeas 18, and the appointment was confirmed.

LAND FOR PLAYGROUND, EAST BOSTON.

President DOWD called up, under unfinished business, No. 4 on the calendar, viz.:

4. Whereas, The Board of Street Commissioners of the City of Boston by a resolve and order approved by the Mayor of Boston March 1, 1930, took for playground purposes two parcels of land belonging to Florence J. McCarthy, containing approximately 16,294 and 20,578 square feet of land, respectively, situated on Pope street, in that part of Boston called East Boston, and awarded for said parcels the sum of $3,892.52 and $4,732.94, respectively, and settled suits brought in the Superior Court for the County of Suffolk on account of said taking of said parcels of land for the aggregate sum of $13,125.70; and

Whereas, By the same instrument of taking, the said Board of Street Commissioners took for playground purposes a parcel of land from Michael Murphy heirs, containing approximately 12,156 square feet, situated at the corner of Pope street and Byron street, in said East Boston, and awarded as damages for the taking of said parcel of land $2,795.88 and settled a suit brought in the Superior Court for the County of Suffolk for damages on account of the taking of said parcel of land for the sum of $4,254.60; and

Whereas, There was recorded in the Registry of Deeds for the County of Suffolk on August 29, 1933, a written instrument wherein the Department of Public Works of the Commonwealth of Massachusetts purported to take for a state highway, in behalf of the Commonwealth of Massachusetts, said land which the City of Boston had taken for park purposes, situated on Pope and Byron streets, in that part of Boston called East Boston; and

Whereas, By the said instrument of taking the said Department of Public Works of the Commonwealth of Massachusetts purported to take for a state highway certain portions of streets situated in East Boston and more particularly set forth in said instrument of taking, excepting and reserving from the rights taken therein all easements for wires, pipes, conduits, poles and other appurtenances for conveyance of water, sewage, gas and electricity and for telephone communication then lawfully in or upon the said premises thereby taken, and all lawful rights of the public to use those parts of the public streets and ways of the City of Boston which were included in the said taking; and

Whereas, The Board of Park Commissioners of the City of Boston no longer needs the said parcels of land which had been taken for playground purposes as above set forth for public purposes; and

Whereas, The Commonwealth of Massachusetts is desirous of purchasing said parcels of land purported to have been taken as aforesaid; now, therefore, it is hereby

Ordered, That his Honor the Mayor be, and he hereby is, authorized, in the name and behalf of the City of Boston, to convey to the Commonwealth of Massachusetts, by an instrument in writing satisfactory to the Law Department of the City of Boston, the above-mentioned parcels which have been taken by the Board of Street Commissioners for playground purposes upon the delivery to the said City of Boston of the sum of $17,380.30.

On September 24, 1934, the foregoing order was read once and passed, yeas 15, nays 0.

The question came on giving the order its second and final reading and passage.

Coun. SELVITELLA—Mr. President, I would like to have the matter lie on the table until the next meeting.

Coun. Selvitella's motion, that the order be assigned to the next meeting of the Council, prevailed.

APPOINTMENT OF ASSISTANT COLLECTOR.

Coun. FITZGERALD offered the following:

An Ordinance concerning the appointment of an Assistant City Collector.

Be it ordained by the City Council of Boston, as follows:

Chapter thirteen of the Revised Ordinances of 1925 is hereby amended by inserting after section six the following:

Section 7. The city collector may appoint, subject to the approval of the mayor, an employee in his office to the position of assistant city collector. The assistant city collector so appointed shall furnish a bond to the city, subject to the provisions of sections two and four of chapter three of the Revised Ordinances of 1925, in the sum of $100,000; shall be sworn to the faithful discharge of his duties and shall hold office until his successor is appointed and qualified. The assistant city collector shall perform such duties as may be assigned to him from time to time by the city collector, and in the temporary absence of the city collector the assistant city collector shall perform the duties of the city collector.

Referred to the Committee on Ordinances.

REPORT OF COMMITTEE ON CLAIMS.

Coun. SELVITELLA, for the Committee on Claims, submitted the following:

1. Report on petitions of Edward J. Rafferty (referred September 24, 1934) to be reimbursed for amount of judgment issued against him on account of his acts as operator of motor truck belonging to City of Boston, Water Division, recommending passage of accompanying order, viz.:

Ordered, That the sum of one hundred fifty-four dollars and seventy-five cents be allowed and paid to Edward J. Rafferty in reimbursement for the amount of judgment issued against him on account of his acts as operator of a motor truck belonging to the City of Boston, Public Works Department, Water Division, said sum to be charged to the Reserve Fund.

Ordered, That the sum of fifty-nine dollars and eighty cents be allowed and paid to Edward J. Rafferty in reimbursement for the amount of judgment issued against him on account of his acts as operator of a motor truck belonging to the City of Boston, Public Works Department, Water Division, said sum to be charged to the Reserve Fund.

Report on petition of Percy L. Fordham (referred May 1, 1933) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor vehicle belonging to Police Department of City of Boston, recommending passage of accompanying order, viz.:

Ordered, That the sum of three hundred dollars be allowed and paid to Percy L. Fordham in reimbursement for the amount of judgment issued against him on account of his acts as operator of a motor vehicle belonging to the Police Department, City of Boston, said sum to be charged to the Reserve Fund.

Report accepted; orders severally passed.

CONFIRMATION OF CONSTABLES.

Coun. GOLDMAN called up, under unfinished business, No. 2 on the calendar, viz.:

2. Action on appointments submitted by the Mayor October 1, 1934, of constables authorized to serve civil process, as follows:

Patrick J. W. Quinn, Alfred Blaustein, Eugene Blinderman, David Bashitsky.

The question came on confirmation. Committee, Coun. Finley and Roberts. Whole number of ballots 16; yeas 16, and the appointments were confirmed.

TIMOTHY F. DONOVAN BOULEVARD.

Coun. SELVITELLA offered the following:

Ordered, That the Board of Street Commissioners, through his Honor the Mayor of Boston, be requested to name the new State Highway in East Boston Timothy F. Donovan Boulevard.

Passed under suspension of the rule.

WELFARE DEPARTMENT DOCTORS IN PUBLIC SCHOOLS.

Coun. NORTON offered the following:

Ordered, That the Welfare Department, through his Honor the Mayor, be requested to reconsider the decision to send Welfare Department doctors into the public schools to examine the children of welfare recipients, if such a decision has been made.

Coun. NORTON—Mr. President, the press reports say that the Welfare Department is considering sending Welfare Department doctors into the public schools to examine the children of welfare recipients. It would seem as if, each school having its own doctors, such examinations should be made by the school physician, that it would be unfortunate to have the physicians of the Welfare Department perhaps come into conflict with the physicians of the schools in such cases.

The order was passed under suspension of the rule.

PROTECTION OF PUBLIC IN DEPARTMENT OF PUBLIC UTILITIES RATE CASES.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of bringing together the ablest legal and accountancy group available to protect the interests of the people when rate cases are being heard before the Massachusetts Public Utilities Commission.

Coun. NORTON—Mr. President, we are familiar with what happens at the present time when matters are brought before the Public Utilities Commission, that those appearing in such cases are politicians and other people who may voluntarily interest themselves in the matter of being heard, but not necessarily experts. It would seem as if it might be well to have experts representing the consuming public before the commission on such matters. This order, therefore, merely asks his Honor the Mayor to consider the advisabilty of bringing together a group of experts for this purpose.

The order was passed under suspension of the rule.

CATCH-BASIN CLEANING BY WELFARE DEPARTMENT LABORERS.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of having Welfare Department laborers do the work of cleaning out the catch-basins of Boston during the next three months instead of having this work done by private contractors.

Coun. NORTON—Mr. President, we have 21,000 catch-basins in Boston, and a year ago paid $22,000 to have them cleaned by private contract work. This autumn there will be much of this cleaning business to do again, and the Acting Commissioner informs me that the city forces cannot accomplish all this work. It is approximately two and one-half months since we received a message from the Mayor asking for the appropriation of $25,000 to purchase the machines for this purpose, and I understand that each machine costs about $5,500. The Mayor has sent back to us today a message vetoing that order, which we finally passed, on the ground that it is now so late that practically nothing could be done under it this year, and the press has been criticizing the Council for delaying action until the time when the cold weather is setting in. I am not going to argue that question. I merely suggest that, inasmuch as various other cities and towns adjacent to Boston, who have the same kind of catch-basins are having the work performed by day labor and by welfare forces, there appears to be no reason why we cannot do the work in the same way, perhaps leasing the necessary machines to help in doing the work. In that way we can eliminate the contractor.

The rules were suspended and the order was declared passed.

Coun. GLEASON doubted the vote and asked for a roll call.

The order was rejected, the vote on its passage being yeas 5, nays 14:

Yeas—Coun. Agnew, Doherty, Donovan, Norton, Roberts—5.

Nays—Coun. Dowd, Englert, Finley, Fish, Fitzgerald, Gallagher, Gleason, Goldman, Kerrigan, McGrath, Murray, Selvitella, Shattuck, Wilson —14.

MILK FOR WELFARE RECIPIENTS.

Coun. NORTON offered the following:

Ordered, That the Department of Public Welfare, through his Honor the Mayor, be requested to look into the advisability of supplying milk to welfare recipients at 8 cents a quart.

Passed under suspension of the rule.

CONDITION OF JEFFERSON PLAYGROUND.

Coun DOHERTY offered the following:

Ordered, That his Honor the Mayor request the Park Commissioner and the Schoolhouse Commissioners to investigate the condition of the Jefferson Playground relative to the stones falling from the foundation.

Coun. DOHERTY—Mr. President, just a word on that order. In the foundations of the Jefferson School there are quite a lot of loose stones, higher than the sidewalk, which are frequently falling and are a menace to the children who go there I am afraid that unless some action is taken there will be serious accident. I am confident that the Schoolhouse Commissioners and the Park Commissioner can get together and through E. R. A. work, or something of the sort, have this matter taken care of, so that that menace will not continue to exist.

The order was passed under suspension of the rule.

THE NEXT MEETING.

It was voted, on motion of Coun. FISH, that when the Council adjourns, it be to meet on Monday, October 29, 1934, at 2 p. m.

Adjourned at 3 p. m., on motion of Coun. GOODMAN, to meet on Monday, October 29, 1934, at 2 p. m.

ILL HEALTH NURSE BEING CARED FOR BY CITY.

Upon October 23 the Mayor issued the following statement:

My attention has been called to the case of a health nurse who was alleged to have contracted tuberculosis while working among the city poor and to have been removed from the Health Department pay roll. The facts are these:

There is no evidence whatever to show that the tuberculosis from which this young lady is suffering was contracted in the performance of her duty as a city nurse. She was a health nurse and as such performed no bedside nursing of any kind whatever. Furthermore it appears that this young lady had received a two weeks' vacation with pay, a two weeks' leave of absence with pay and then an additional thirty-day leave of absence with pay which is all that the rules of the Health Department allow, upon the expiration of which she, of her own volition, requested a leave of absence of one year without pay, which was granted.

It further appears that the young lady in question knew nothing about the publicity given to her case, does not desire it, is much embarrassed and distressed by it and deprecates it very much. She is entirely satisfied with what the city has done and is now doing for her, namely, giving her the very best treatment that can be given without charge to herself at the Boston Sanatorium. It is further reported to me by Dr. Cleveland Floyd, a leading authority in all cases of this kind, that the patient stands a very excellent chance of complete recovery within six to nine months when she will be restored to her position under pay.

APPROPRIATION FROM FEDERAL FUNDS FOR NEW SCHOOL.

The following was offered:

ORDERED, That the action of the Committee at the meeting of July 30, 1934, (see p. 148) whereby the following order was passed, be and the same is hereby rescinded:

ORDERED, That under the order passed by the City Council July 23, 1934, and approved by the Mayor July 24, 1934, appropriating the sum of $1,200,000 to be expended under the direction of the School Committee for the construction of one intermediate school in the West Roxbury District and an addition to the Robert Gould Shaw School in the West Roxbury District, the following sums are hereby appropriated as indicated:

Washington Irving Intermediate District, Roslindale: One new intermediate school....	$800,000.00
Robert Gould Shaw District, West Roxbury: An addition to the Robert Gould Shaw School	400,000.00
Total.....	$1,200,000.00

In explanation of the foregoing order, the Chairman stated that the proposed action is necessary because the State Emergency Finance Board was unwilling to approve an expenditure from Federal funds in excess of $325,000 for the proposed addition to the Robert Gould Shaw School. Consequently, rescission tonight is necessary. When this rescinding order shall have the approval of His Honor the Mayor, the School Committee will pass a new order re-appropriating the sum of $800,000 for the new Washington Irving Intermediate School, and appropriating the sum of $325,000 for the new Robert Gould Shaw addition.

RECREATION, ADEQUATE AS TO KIND AND AVAILABILITY.

Although the ratio of park acreage to population has been used as the simplest measure of the extent to which cities provide areas for the recreation of their people, it is by no means an accurate basis for determining this. If most of the total acreage is in one large park, if the parks are poorly distributed, or if they do not provide various types of recreation facilities, the park system may be inefficient even though the acreage is large. The efficiently *planned* park and recreation system will involve balanced relationship and well-distributed location of several types of properties, namely, children's playgrounds, neighborhood playfield parks, neighborhood parks, reservations, boulevards, and parkways.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, NOVEMBER 3, 1934. NO. 44

REMOVAL OF BUILDINGS IN DILAPIDATED CONDITION SUCH AS TO BE NUISANCES OR FIRE HAZARDS, UNDER MAYOR MANSFIELD'S DIRECTION, PROVING OF GREATEST BENEFIT TO CITY — WORK BEING DONE UNDER E. R. A. BY SUPERVISION OF BUILDING DEPARTMENT IS ADDING AVAILABLE SPACE TO CONGESTED AREAS, PROVIDING WORK FOR BOSTON CITIZENS, AND GIVING POSSIBILITIES FOR REHABILITATION OF SEVERAL DISTRICTS — 759 BUILDINGS FOUND UNSAFE.

One of the most beneficial and important projects that the city has undertaken under the E. R. A. by the direction and planning of Mayor Mansfield has been the razing of dilapidated, menacing, and nuisance-creating building structures in the various sections of the city. The work has been done and undertaken by the Building Department, under the supervision of Edward W. Roemer, the Building Commissioner.

The planning of and the execution of the work under the project has added to the beauty of the city, the utility of the land thus cleared, given employment to many needy men and has saved the city much money. According to a statement prepared by Building Commissioner Roemer, the project has furnished 185,595 hours of labor to Boston citizens at an expenditure of $127,802.62. In addition to this the repair projects have provided 1,415 hours of work at a cost of $1,555.40. The statement of the Building Commissioner, of the work as completed to date, is as follows:

Legal Rights.

The Building Law of the City of Boston is chapter 550 of the Acts of 1907 as amended, and, according to sections 4 and 5 of this act, it is the duty of the Building Commissioner to inspect every building or structure or anything attached to or connected therewith which he has reason to believe is unsafe or dangerous to life, limb or adjoining property, and if he finds it unsafe or dangerous, he shall forthwith order it repaired or removed, sending such notice to the owner or agent or any person having an interest in such building, or to the administrator, executor or trustee of such owner.

If after receiving the notice the person so notified does not secure or remove the building or structure, there are two courses open to the commissioner.

FIRST.— If the public safety so requires, the Building Commissioner, with the approval of the Mayor, may at once enter the building or other structure which he finds unsafe or dangerous, the land on which it stands, and the abutting land, with such assistance as he may require, and secure or remove the building; or

SECOND.— He may summons the person so notified into the Municipal Court, and the law provides that whoever maintains any structure or part thereof in violation of any provision of this act shall be punished by a fine not exceeding five hundred dollars.

Prior to December 1, 1933, a number of cases of this type were referred to the Municipal Court, and it was found that the owners of these buildings were financially unable to secure or remove them, and the only course open to the Building Commissioner was to proceed as described above.

Therefore, on December 1, 1933, an application was made to the Civil Works Administrator to approve a project for the City of Boston to remove unsafe, dilapidated and obsolete buildings. This application was approved and numbered 1331. The operations were under way on December 18, and by January 2, 1934, the full quota of 313 men was at work. These men were divided into eighteen groups, as follows:

A clerk and chauffeur, assigned to an abandoned fire house which was used as headquarters for the storing of light equipment.

A group of five men assigned to a city yard used for the storage of salvaged material.

The remainder were divided into sixteen groups under the charge of a competent foreman who was assisted by a timekeeper, and these groups varied from eleven to twenty-six men, consisting of laborers, adzmen and watchmen.

Realizing that the building industry as a whole is dangerous, and the tearing down of dangerous, dilapidated and obsolete buildings is the most hazardous part of this dangerous industry, the Building Commissioner insisted that the men furnished by the C. W. A. office as foremen should be competent men and trained in this work.

In the City of Boston it is necessary for any person having charge or control of the construction, alteration or taking down, or moving of buildings, to be licensed. The class of license required for the removal of buildings is known as Class E license. The C. W. A. officials were informed that these foremen would be required to hold a Class E license, and if sufficient number of these men with Class E license could not be obtained, then the men with Class A, B, C license (required for the erection of first, second and third class buildings) would be acceptable provided they could show to the Board of Examiners of the Building Department that they were qualified to have a Special Class E license.

Under Eyes of Experts.

The procedure of wrecking these buildings under the direction of a licensed foreman is very carefully supervised by members from this department, with the result that there have been an exceedingly small number of minor accidents and no major accidents. These minor accidents are carefully handled by men who have had Red Cross First Aid training, there being one such man on each building wrecking crew. (*Continued on page 1139.*)

ELECTION COMMISSIONERS MAKE PUBLIC COMMUNICATIONS APPEALING FOR CHECKING OF ALLEGED IRREGULARITIES IN REGISTRATION OF VOTERS IN CERTAIN DISTRICTS — INFORMS MAYOR MANSFIELD REASONS COMPLAINTS REFERRED TO CANNOT BE ENTERTAINED.

The following communications have been received and made public by the Mayor:

CITY OF BOSTON,
BOARD OF ELECTION COMMISSIONERS,
BOSTON, October 29, 1934.

HON. FREDERICK W. MANSFIELD *Mayor*.

DEAR SIR,—I am in receipt of communication from your secretary, Mr. Joseph F. Mellyn, together with letter dated October 25, and addressed to your Honor by the Honorable Gaspar G. Bacon, relative to alleged irregularities in the registration of voters in certain districts of Boston.

In the matter of illegal registration the law is explicit — section 48 of chapter 51 of the General Laws:

"Upon complaint signed and sworn to by a registered voter, and filed with the registrars at least fourteen days in a city, or at least four days in a town, before a primary, election or town meeting, stating that the complainant has reason to believe and does believe that a certain person by him therein named has been illegally or incorrectly registered, and giving the reasons for such belief, the registrars shall examine into such complaint, and if satisfied that there is sufficient ground therefor, they shall summon the person complained of to appear before them at a certain place and time before the next primary or election or town meeting to answer to the matters set forth in the complaint, and the substance of the complaint and a copy of this and the following section shall be set forth in the summons. Service of the summons shall be made by an officer qualified to serve civil or criminal process, not more than fourteen nor less than two days before the day named for appearance, by delivering in hand a copy of the summons to the person therein named, or by leaving it at his place of residence, or, if personal service cannot be made and the person's residence is unknown to the officer and cannot be ascertained by inquiry at the place of alleged illegal or incorrect residence or at any later residence of such person appearing on the register, then at such person's last residence, if any, known to the officer, or, if the person's last residence is unknown to the officer, or, if the person's last residence is unknown, at the last place appearing as his residence in the register. The officer shall return the summons to the registrars before the day named for appearance, with the certificate of his doings endorsed thereon."

You will readily see that Mr. Bacon's letter while in the nature of a complaint does not comply with the requirements of law.

In the matter of listing of residents, the law specifically places that burden upon the Listing Board, which was created and whose duties are specified by chapter 114 of the Acts of 1921, and acts in amendment and addition thereto.

"The listing board shall, within the first twenty week days of April in each year, by itself or by police officers subject to the jurisdiction of the police commissioner, visit every building in said city, and after diligent inquiry make true lists, arranged by streets, wards and voting precincts, and containing, as nearly as the board can ascertain, the name, age, occupation and residence on the first day of April in the current year, and the residence on the first day of April in the preceding year, of every person, twenty years of age or upwards, who is not a pauper in a public institution, residing in said city. The board shall, on or before the twenty-fifth day of May in each year, transmit to the election commissioners certified copies of those parts of the lists prepared as provided in the preceding section, containing the name, age, occupation and residence on the first day of April in the current year, and the residence on the first day of April in the preceding year, of every person, twenty years of age or upwards, residing in said city, and shall promptly transmit to the election commissioners notice of every addition to and correction in the lists made by it. The board shall furnish all information in its possession necessary to aid the election commissioners in the preformance of their duties."

As you know, the police listing forms the basis of the Voting List each year. Only those voters who are listed each year are carried over on the Voting List from the preceding year. During the present year some 30,000 voters were dropped from the Voting List for reason of not being police listed.

As provided by law, supplementary listing is done *only* at this office during a period of registration; and each applicant for such listing is investigated by the police.

This communication addressed to your Honor by the Honorable Gaspar G. Bacon cannot be entertained by the Board legally as a complaint under the provisions of the law, first, because it was not presented fourteen days before the election; and secondly, it does not specify certain persons as having been illegally listed or registered.

The Board has, however, caused to be investigated the locations mentioned in Mr. Bacon's letter, and we are forwarding to you a list of same with results found.

Under the provisions of law, there is nothing left for this Board to do except to suggest that those interested in this particular case exercise the privilege of challenging at the polls on Election Day.

Yours respectfully,

BOARD OF STREET COMMISSIONERS,
DAVID B. SHAW, *Chairman*.

REMOVAL OF DILAPIDATED BUILDINGS.

(*Continued from page 1137.*)

On January 19, 1934, the following orders were received from the C. W. A. of Boston:

EDWARD W. ROEMER, *Building Commissioner*, Building Department, 901 City Hall Annex, Boston.

Due to the fact that average weekly wages for civil works is in excess of original estimated weekly pay rolls it is necessary to reduce the hours worked per week on local, state and federal projects to keep within the money available. You are herewith instructed that effective January 19, 1934, all per diem workers are to be put on a work week as follows: In cities over 2,500 population maximum twenty-four hours per week, all clerical, supervisory and professional workers a maximum of thirty hours per week with proportionate wage adjustments. This does not include administrative workers in administrative offices. This applies to all civil workers and civil work service employees and must be made effective everywhere on this date since disbursing officers will be instructed not to pay wages for work in excess of the hours provided herein. From this date no name shall be added to any pay roll except in actual replacement of a worker fully terminated and finally paid off. Notify all your counties by wire today of the contents of this telegram. Wire today reduction in dollars on your weekly pay rolls accomplished by this action. This telegram supersedes all prior instruction.

HARRY L. HOPKINS,
WALTER V. MCCARTHY,
Civil Works Administrator, Boston.

It can readily be seen that this order slowed up the work to a marked degree, not only from the decrease in the work hours per week, but also by prohibiting an increase in the number of men employed.

This and other local projects were transferred from the C. W. A. to the Emergency Relief Administration on April 2, 1934. Because of this transfer a reorganization was necessary, and orders were received to discontinue the project from April 18 to April 30, and it became necessary to lay off 204 workers. When work was resumed, only 87 former employees were allowed to return to work. This number has been increased until today the pay roll of this project contains the names of 193 employees. This project has been approved because of the social value of the work and because further it requires practically no outlay for materials, thus leaving the money for wages, which is the principal objective of both C. W. A. and E. R. A.

As stated in the application for approval of this project, its object is to remove dangerous, dilapidated and obsolete buildings. Most of these buildings have been abandoned by the owner; the city receives no income from them, and in a great many cases the mortgagees have refused to take them over because they would not assume the responsibility. Only seventeen of the buildings involved up to date were occupied.

A building which is unsafe or dangerous is a building which is in whole or in part, because of its structural condition, dangerous to the public or to its occupants or to adjoining structures. This condition may be caused by any one or a combination of the following reasons: Faulty design, workmanship or materials, or the improper use of the building.

When a building has depreciated so far that it cannot be occupied, and through the effects of the elements, or boys, or vandals, the windows and doors are broken or open, the building becomes a dilapidated building. Such a building, open to wind and weather and trespass, becomes a menace to the health and morals of the community, is a fire hazard, and a community liability, and should be removed or repaired.

The removal of these buildings exposes unsafe conditions in adjoining walls and buildings, and at other times the walls were found defective, making necessary a second project to repair these dangerous and defective walls. This project was approved and workers are now repairing these dangerous and defective walls when the work can be done at comparatively small cost.

An obsolete building is a building that is neither unsafe or dilapidated, but one that is either erected for an occupancy that is no longer adapted to its location, or its layout is such that it cannot be adapted to modern uses, or if it can be adapted to modern uses the cost would be prohibitive. There are many buildings of this type in Boston which the Building Commissioner is not empowered to remove under the so-called "Police Power."

Community Liability.

These buildings are also a community liability, and in order to get permission from the owners of these obsolete, but not unsafe buildings, another application was made for a third project. This application was approved on July 3, 1934, and project No. 2235–F2–124, known as Demolition Survey, is now contacting the owners of these obsolete buildings in an endeavor to obtain their permission to have the buildings removed with E. R. A. labor under the Demolition Project.

The following is a résumé of the Demolition Project and the two other projects made necessary as the work progressed:

Realizing the hazard involved in removing buildings, the insurance companies levy an exceedingly high rate of insurance on the men employed on this work. The cost of insurance on the demolition project work to date would have been $35,000, and the injuries on this same project have been so slight that the cost of the treatment of the same has been less than $100.

This work is not to be considered as a slum clearance or slum rehabilitation project. There is no concentrated area in which the buildings are being taken down. The primary object of the project is to put men to work at something that will be of lasting benefit to the City of Boston.

This project not only gives useful employment to the citizens of the city and improves the city by removing the useless and dangerous buildings that have become a social liability, but is also the means of furnishing material salvaged from the buildings wrecked to other departments for use on E. R. A. projects, thereby saving to the city the cost of the materials that are used in that manner.

The lots cleared will probably not be built on for some time, and a suggestion has been made that they be converted into temporary playgrounds that are available to the public, but are owned privately, or be converted into truck gardens until such time as the owner desires to use the lots for other purposes. Some of the lots in the South End are now being used as playgrounds where the children of the community may play in safety.

* Some of these buildings were repaired, and some were taken down by the owners.

† To and including week ending October 25, 1934.

AUDITING DEPARTMENT.

BOSTON, October 24, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Under authority of section 3 of chapter 486 of the Acts of 1909, and amendments thereto, I will, with your approval, make the following transfers:

From the appropriation for Reserve Fund, $340, to the appropriation for Statistics Department, Item H, Emergency Relief Projects, $340.

From Reserve Fund, $6,000, to Public Works Department, Paving Service, Item H, Emergency Relief Projects, $6,000.

From Public Works Department, Sanitary Service, Item H, Emergency Relief Projects, $766.50, to Public Works Department, Paving Service, Item H, Emergency Relief Projects, $766.50.

From Reserve Fund, $215, to Sinking Funds Department, B-4, Transportation of Persons, $215.

Respectfully yours,

CHARLES J. FOX,
City Auditor.

The above transfers were made by the City Auditor with the approval of the Mayor.

PUBLIC WORKS DEPARTMENT.

BOSTON, September 14, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Public Works Department:

From the appropriation for Sewer Service, H, Emergency Relief Projects, $5,500, to the appropriation for Paving Service, H, Emergency Relief Projects, $5,500.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

The above transfer was made by the City Auditor with the approval of the Mayor September 26, 1934.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to raze the following structures as fire menaces or nuisances:

The building at 4 Hawthorn place, Ward 3.

The building at 180 London street, rear, Ward 1.

The building at 276 East Eighth street, Ward 7.

The building at 139 Silver street, Ward 6.

The building at 684 East Second street, rear, Ward 6.

The building at 276 East Eighth street, Ward 7, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owners, Augusto DeGrandis and Giovanna DeGrandis of 110 Dorchester street, South Boston, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

PUBLIC WORKS DEPARTMENT (Sewer Service).

*Contract awarded.

Upon October 27 the Mayor approved a contract with Jacob Thurman for furnishing bread and pastry flour to the various city departments for a ninety-day period, commencing November 1. The reason for contracting for ninety days is that the flour code provides that there shall be a carrying charge of one third of a cent per barrel per day for a contract extending over the ninety-day period.

The approximate amount of the contract will be $8,577. Bids, opened October 19, were as follows:

Approximate Amount of Bread Flour to be Delivered in the Year, 1,177 Barrels.

Price Per Barrel f. o. b. Destination.

Thirty Days.—American Flour Company, Incorporated, $6.81; Amendt Milling Company, F. K. Hatfield Company of Boston, $7.15.

Upon November 1 the Mayor approved a contract with the Lincoln Oil Company for furnishing automobile motor oil to the various city departments for the period from October 1, 1934, to March 30, 1935. Bids were asked for motor oils of Pennsylvania base and alternate bids were asked for on Mid-Continent oils. The Mid-Continent oil, which is lower in price than the Pennsylvania base oil, will be used in the older motor apparatus owned by the city and the Pennsylvania base oil will be used in the more essential departments, such as the Fire and Hospital. The Lincoln Oil Company, the lowest bidder, has been awarded the contract for furnishing to the various city departments the following:

Nineteen drums light, Pennsylvania base, motor oil at 34 cents per gallon; forty-eight drums medium, Pennsylvania base, motor oil at 34½ cents per gallon; one drum medium heavy, Pennsylvania base, motor oil at 35 cents per gallon; forty drums heavy, Pennsylvania base, motor oil at 35½ cents per gallon; and for furnishing to the various city departments the following: Seventy-three drums medium heavy, Mid-Continent base, motor oil at 26 cents per gallon; one drum heavy, Mid-Continent base, motor oil at 26½ cents per gallon, these prices all being less Federal tax of four cents per gallon. The total amount of this contract is approximately $2,473.75. Privilege of purchasing on same terms and conditions extended to March 30, 1935.

Upon varying dates as indicated the Mayor approved contracts with concerns and contractors for supplies and work. Communications from the heads of the several departments were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.
BOSTON, September 28, 1934.
HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—I respectfully request permission from your Honor to award, without advertising, a contract, in the sum of $1,557, to the Western Waterproofing Company, 82 West Dedham street, Boston, for an emergency waterproofing job in the gymnasium walls of the Grover Cleveland School. We have a condition here where ground water seepage, the gymnasium being in the major fraction underground, has come in and has rotted the wooden floor in both sections of the gymnasium. It has been necessary to take this floor up as being entirely dangerous and there is no sense, in my opinion, in putting it back until the condition which caused the floor to give way and rot is remedied. The remedy is contained in the contract outlined above.

It is respectfully requested that your Honor note that this is urgent and that you will please express your pleasure at your very first convenience.

Respectfully yours,

WM. W. DRUMMEY,
Superintendent of Construction.

PENAL INSTITUTIONS DEPARTMENT.
BOSTON, October 30, 1934.
HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—An emergency has arisen at the House of Correction, Deer Island, Boston Harbor, with regard to electric cables in use there. This condition should be remedied at once according to reports from the Master of the House of Correction and the electrician at the institution.

Because of these facts I respectfully request permission to award a contract without advertising to the Dorgan Electric Company of 870 Broadway, South Boston, in the sum of $2,245. This work, of course, will be bonded by a reputable surety company and the work will be supervised and approved for payment by the electrician at the House of Correction, Deer Island. The work entailed will be as follows:

Install underground 2,500 feet of 500,000 cir. mils. lead-covered cable. Make new cable splices in cable manholes to connect new cables and replace existing defective splices on branch cables. Connect new cables to distribution panel and remove temporary and defective cables. Connect new cables so they will serve as new feeders for the following new shops and additions: Cutting room, paint shop, shoe shop, carpenter shop, electric and machine shops. Cables will start in No. 3 electric manhole at the New Prison Building and terminate in the Administration Building basement. New cables are of sufficient capacity to care for existing load, proposed new load, leaving reasonable amount for reserve.

May I apprise you of the fact that although the contract awarded may seem large, approximately two thirds of the cost will be spent in supplying the cable.

Trusting that I may have your early approval because if anything went wrong

PUBLIC WORKS DEPARTMENT.

BOSTON, September 10, 1934.

To the Honorable Mayor.

Every winter that the Public Works Department has any snow removal under snow removal contracts in the various districts north of Northampton street (said fourteen districts being publicly advertised, bids received and contracts awarded) there arises the question of graft and collusion between the contractors and inspectors and the receipt of many letters, both in the Mayor's office and in this office, to the effect that there has been such collusion or thievery. As a matter of fact, none of the complaint letters are signed so that it is impossible to run down the statements and to prove the accuracy of the statement.

A similar condition existed in New York for many years and the New York authorities, in order to remedy the evil (if existant), had the Addressograph-Multigraph Corporation, Cleveland, Ohio, devise an addressograph method of controlling snow removal which they claim to be a foolproof system against collusion and reduces the cost by having only the actual quantity of snow that is removed paid for. The statement has also been made that by the introduction of this system in New York a saving of 15 to 20 per cent has resulted. We have carefully gone over the system presented and we are of the opinion that it cannot be beaten. The installation will cost approximately $3,000 and with this system in operation an end is made to the yearly rumors of the existence of graft, etc., and when in operation every citizen can be told that the graft situation has been eliminated. Some of the advantages are:

1. Eliminates errors in tabulating snow removal data.
2. Eliminates manipulation in the recording of actual cubic yards of snow removed.
3. Simplifies the detail work necessary by the measuring loading and dump foremen.
4. Gives the city actual cost of snow removal for each district and total cost of snow removal for entire day a few hours after the close of the day's work.
5. Eliminates legal complaints by contractor for individual loads of snow dumped.

Money is available under the Snow Removal Item and I respectfully request permission to enter into a contract with the Addressograph-Multigraph Corporation to an amount not exceeding $3,000, said contract to be awarded without advertising as the Addressograph-Multigraph Corporation are the only parties who could furnish this method.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

—

BOSTON, October 13, 1934.

To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract for the construction of artificial stone sidewalks in the public streets, without advertising,

to John H. Crane, 209 Dudley street, Roxbury, on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; and also because such contracts vary greatly in amounts and seldom involve $1,000.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

—

BOSTON, October 16, 1934.

To the Honorable Mayor.

Commenting on the bids submitted by Mr. Eugene Ricciardelli, 199 Lexington street, East Boston, September 12, bidding $2,325, the specifications permitting the spraying of the two final coats and again on September 28, bidding $2,150, specifications calling for hand painting, I beg leave to state that in a conference with Mr. Ricciardelli, he states that in his first bid he did not contemplate any spraying, that he considers spraying unsatisfactory and that if done by hand no question would arise of the work being done satisfactorily.

While his latter bid is less than his first bid he is anxious to get the contract and shaded the price some in this particular instance. The Public Works Department furnishes all the red lead and paint to be used on this job, all the contractor furnishes is the help; consequently, as he receives the material, there is no question as to its qualifications. As regards applying the paint, it will be properly applied due to the fact that a stated quantity of paint will be applied to a definite area of surface, consequently the coats will be of uniform thickness and satisfaction.

Mr. Ricciardelli guarantees to pay the rate of wages as specified in the contract; is anxious to receive this contract and is justly informed as to conditions relative to said specifications and I respectfully recommend the contract be awarded to him.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

—

BOSTON, October 25, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—In a letter dated August 27, 1934, the facts concerning the lighting of the city streets was set forth in detail and the suggestion was made that the city enter into a contract for six months from October 1, 1934, with the Boston Consolidated Gas Company for furnishing gas and the equipment for the lighting and extinguishing gas lamps.

In compliance with your approval a contract for the month of October was entered into. We are still considering the advisability of replacing part of the existing 9,563 gas lamps by electrically lighted lamps and are preparing the terms and specifications for a new gas contract for a period of five years and we purpose to advertise for the new contracts in the first week in November.

I hereby respectfully request your authority to award the following contracts without inviting proposals therefor by advertisement:

1. Contract for furnishing illuminating gas for street lighting to the Boston Consolidated Gas Company for a term of one month from November 1, 1934, at the present rate of $8.42 per lamp per year for single burner, sixty-candle power lamps.

2. Contract for equipment and the lighting and extinguishing of gas lamps for the City of Boston, excluding Hyde Park, to the Boston Consolidated Gas Company for a term of one month from November 1, 1934, at the present rate of $14.70 per lamp per year.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

—

BOSTON, October 26, 1934.

To the Honorable Mayor.

Chapter 342 of the Acts of 1934, authorizes the City of Boston to repair and strengthen the Chelsea North Bridge over the Mystic river, between said city and the city of Chelsea, at a cost not exceeding $270,000.

Previous to advertising for bids, a conference was held with the Eastern Massachusetts Street Railway Company as to closing the bridge to all travel or to arrange to allow street railway travel during the repairing. The question of closing the bridge while under repairs, etc., is a very serious matter to the Eastern Massachusetts Street Railway Company relative to the operation of electric cars between Chelsea and Scollay square, Boston. They have not a sufficient number of buses to permit the transfer from electric cars to buses at Bellingham square, Chelsea, to Scollay square, Boston, either by way of the Sumner Tunnel or by way of the East Boston Ferries. If the bridge is closed to traffic the Railway Company would be compelled to operate their cars through Everett, Alford street and Bunker Hill street, Charlestown, to reach the terminal at Scollay square, Boston, adding to the running time an additional twenty or thirty minutes each trip.

The desire of the railway officials is to have car travel over the bridge during construction, and, at their request, the bids were asked for under two alternates —Alternate A (maintaining car travel on one track) and Alternate B (bridge closed). Bids were received on October 10, 1934, by this department and were as follows:

	Alternate A. Maintaining Car Travel on One Track.	Alternate B. Bridge Closed.
Coleman Brothers Corporation	$380,770 00	$243,620 00
M. F. Gaddis	292,222 50	275,632 50
C. J. Maney & Co., Incorporated	—	269,442 50
T. Stuart & Son Company	393,400 00	309,800 00
Blakeslee Rollins Corporation	348,285 00	311,287 50

The only bids within the amount fixed by the Legislature are the Alternate B bids (bridge closed) of the Coleman Brothers Corporation, $243,820, and the C. J. Maney & Co., Incorporated, bidding $269,442.50. The estimated expense of the engineering under this contract is from $17,000 to $20,000, so that the only bid that could be considered for the money appropriated is the Coleman Brothers Corporation bid.

In a conference between the Eastern Massachusetts Street Railway Company officials and myself, after the bids were opened, they stated to me that they were prepared to meet the difference in cost between the lowest bid for doing the work under Alternate B (bridge closed) and the lowest bid for doing the work under Alternate A (maintaining car travel on one track), in order to maintain continuous travel for their electric cars. Coleman Brothers Corporation, the low bidder under Alternate B, has agreed to do the work called for under Alternate A for the same price bid for doing the work under Alternate B, in other words, substituting the unit prices bid under Alternate B for those under Alternate A, thereby maintaining car travel on one track. Coleman Brothers Corporation would therefore do all the work called for under the specifications for Alternate A while maintaining car travel on one track, at an estimated cost to the city of $243,820, and the Eastern Massachusetts Street Railway Company would, I understand, pay the difference in cost directly to Coleman Brothers Corporation.

After conferring with both M. F. Gaddis and C. J. Maney & Co., Incorporated, who were next lowest bidders to Coleman Brothers Corporation on Alternate B, they have advised me that they were not interested in doing the work under Alternate A for the sum of $243,820, to be paid by the city even though the same arrangements were made with the Eastern Massachusetts Street Railway Company for paying them the difference in cost.

In order to expedite the work, avoid the possibility that readvertising might produce higher unit prices and higher cost to the city, and at the same time maintain continuous electric car service between Chelsea (and points north) and Boston over the one track to be maintained during the progress of the work, I contemplate rejecting the bids received on October 10, 1934, and respectfully request your permission to award, without inviting proposals therefor by advertisement, a contract to Coleman Brothers Corporation for repairing and strengthening Chelsea North Bridge with the specifications called for in Alternate A (maintaining car travel on one track) at an estimated cost to the city of $243,820 based upon fixed unit prices for quantities estimated by the division engineer.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

AMENDMENTS TO RULES AND REGULATIONS

The following was offered:

ORDERED, That the rules are hereby amended as follows:

SECT. 80, paragraph XXI. Strike out all following the words "at least three years in length" and substitute in place thereof the following—Massachusetts registration; and (a) completion of an approved course in public health nursing at least six months in length, or (b) at least six months in school nursing, or (c) two years' nursing experience which shall include work with and/or training in communicable diseases which training may be a part of the regular hospital training course, or (d) completion of a course in public school nursing conducted under the direction of the board of superintendents—so that the paragraph shall read as follows:

XXI. Nurse. To supervising nurse, assistant supervising nurses and school nurses.

The requirements for this certificate are: Graduation from a high school approved by the board of superintendents, or evidence of an equivalent academic education; graduation from a hospital or similar institution giving a course of instruction in nursing at least three years in length; Massachusetts registration; and (a) completion of an approved course in public health nursing at least six months in length, or (b) at least six months in school nursing, or (c) two years' nursing experience which shall include work with and/or training in communicable diseases which training may be a part of the regular hospital training course, or (d) completion of a course in public school nursing conducted under the direction of the board of superintendents.

Laid over.

—

The following was offered:

ORDERED, That the regulations are hereby amended as follows.

Section 337, paragraph 1. Insert the following new paragraph as paragraph 1 (b), and renumber paragraphs 1 (b), (c), and (d) as paragraphs 1 (c), (d), and (e).

1 (b). A teacher or member of the supervising staff serving under an assignment where additional yearly compensation is allowed, shall not receive, upon appointment or promotion to a position or to a rank or grade having a higher maximum salary, less compensation than that being received under assignment. Such teacher or member of the supervising staff shall be placed upon that year of service in the new rank or grade for which the compensation for the year following the date of appointment or promotion is not less than ninety-six dollars ($96) higher than the compensation being received while under assignment, but in no case to exceed the maximum salary of the new rank or grade

Laid over.

The following was offered:

ORDERED, That the Rules are hereby amended as follows:

Sect. 80, paragraph IV. Strike out the paragraph which provides for promotion under the IV. High School Certificate of instructors and assistant instructors in special branches, and substitute in place thereof the following:

Instructors and assistant instructors in commercial branches, in manual arts, in mechanic arts, in military drill, in physical education, and in salesmanship, in day high schools; industrial instructors in household science, and vocational instructors and vocational assistants, in day high schools; and teachers permanently employed under an XI. Special: Valid in Day High Schools certificate; who while so employed obtain a degree from a college or university approved by the board of superintendents, and, in the case of instructors of military drill, those who hold the rank of major through service in the armed forces of the United States, may thereby become eligible for the certificate of qualification IV. High School, subject to such examination as the board of superintendents may determine. A person who is promoted under the IV. High School certificate because of obtaining a college degree, or an instructor of military drill who is promoted under the IV. High School certificate through the holding of the rank of major as a result of service in the armed forces of the United States, shall not receive at the time of such promotion the increase in salary as provided for in Section 337, paragraph 1 (a) of the regulations. Persons receiving such promotions shall continue without change of salary on the schedule of their old ranks until the anniversary date of their old rank, on which date and on succeeding anniversaries until the maximum of their rank is reached they shall receive an annual increment; provided that an instructor of military drill shall be placed on that step of his new schedule which most nearly approaches and is not less than the salary received at the time of promotion. When the promotions herein referred to are allowed, the superintendent shall, where necessary, notify the business manager of the status of persons affected.

Laid over.

—

INSPECTION OF SCHOOL LUNCHEON SYSTEM IN PHILADELPHIA

Chairman: The Committee has asked Dr. Joseph V. Lyons to visit Philadelphia for the purpose of inspecting the school luncheon system in that city, the School Committee having received very favorable reports on the method followed in Philadelphia.

It seems quite possible that in the near future the School Committee may be compelled to take over the furnishing of school luncheons, as the Committee now is doing in the Jeremiah E. Burke High School for Girls.

Dr. Lyons has been intensely interested in the school luncheon problem and for this reason the Committee has asked him to go to Philadelphia in order that he may have first-hand information regarding the present policy in that city, the provision for preparing and delivering food, the method of accounting, etc. Dr. Lyons then will be in a position to advise the Committee as to desirable procedure.

—

On motion, it was

ORDERED, That an expenditure of not to exceed two hundred dollars ($200) is hereby authorized to cover the expenses of Dr. Joseph V. Lyons on his visit of inspection of the school luncheon system in Philadelphia.

PUBLIC SCHOOL MEMBERSHIP

A communication was received from the Superintendent, under date of Oct. 15, 1934, submitting the following statement of the number of pupils belonging to the Boston public day schools, exclusive of the Continuation School, on Sept. 30, 1934, together with a comparative statement of the number belonging on Sept. 30, 1933, as follows:

The total number belonging in the Boston public day schools on Sept. 30, 1934, was 135,075, which is 2,446 less pupils than were enrolled in the schools on Sept. 30, 1933. The Teachers College of the City of Boston shows a decrease of 29 pupils; high and Latin, an increase of 1,052 pupils; in the ninth grade intermediate, there is an increase of 298 pupils; in grades I to VIII there is a decrease of 1,635 pupils; in the kindergartens there is a decrease of 2,201 pupils and in the special schools an increase of 69 pupils. Were the figures of the ninth grade intermediate included in the membership of the day high schools, the high schools would show an increase of 1,350 pupils.

In the Continuation School the membership on Sept. 30, 1934, was 270 less than on Sept. 30, 1933. On Sept. 30, 1934 it was 250 as against 520 on Sept. 30, 1933.

In the Training School for Teachers of Mechanic Arts there was a membership of 25 pupils on Sept. 30, 1934.

A distribution of the increases and decreases in membership for 1933 and 1934 is shown by the following table:

APPROPRIATION FROM FEDERAL FUNDS FOR NEW SCHOOLS

The following communication was presented:

City of Boston—Department of School Buildings.

October 1, 1934.

School Committee,
City of Boston,
15 Beacon Street.
Boston, Mass.

Gentlemen:

Under date of October 1, 1934, the Board of Commissioners of School Buildings received a communication from the School Committee stating that as requested by the Law Department of the City of Boston in order to conform with the approval of the State Emergency Finance Commission, it is necessary to rescind the order passed at the meeting of the School Committee on July 30, 1934, whereby the following order was passed:

ORDERED, That under the order passed by the City Council July 23, 1934, and approved by the Mayor July 24, 1934, appropriating the sum of $1,200,000 to be expended under the direction of the School Committee for the construction of one intermediate school in the West Roxbury District and an addition to the Robert Gould Shaw School in the West Roxbury District, the following sums are hereby appropriated as indicated:

Washington Irving Intermediate District, Roslindale: One new intermediate school.....	$800,000.00
Robert Gould Shaw District, West Roxbury: An addition to the Robert Gould Shaw School	400,000.00
Total.....	$1,200,000.00

and in place thereof the following two proposed orders are to be passed in substitution of the above order passed July 30, 1934. The said new proposed orders are as follows:

ORDERED, That out of the sum of $1,200,000.00 appropriated by the City Council of the City of Boston, by order passed on July 23, 1934, and approved by the Mayor on July 24, 1934, to be expended under the direction of the School Committee for the construction of one intermediate school in the West Roxbury district and an addition to the Robert Gould Shaw School in the West Roxbury district, the sum of $800,000.00 be and the same hereby is appropriated for one new intermediate school; and that the Washington Irving Intermediate district in Roslindale, West Roxbury, be and the same hereby is designated as the school district within which said school shall be erected.

ORDERED, That out of the sum of $1,200,000.00 appropriated by the City Council of the City of Boston, by order passed on July 23, 1934, and approved by the Mayor on July 24, 1934, to be expended under the direction of the School Committee for the construction of one intermediate school in the West Roxbury District and an addition to the Robert Gould Shaw School in the West Roxbury District, the sum of $325,000.00 be and the same hereby is appropriated for an addition to the Robert Gould Shaw Intermediate School, and that the Robert Gould Shaw District in

West Roxbury be and the same hereby is designated as the school district within which said addition shall be erected.

The Commissioners of School Buildings of the City of Boston approve the rescinding by the School Committee of said order of July 24, 1934 and approve the proposed orders submitted under date of October 1, 1934.

Respectfully yours,

Board of Commissioners of School Buildings,
By Richard J. Lane,
Chairman.

Dr. Mackey: It must be most amusing to the public to read in the newspapers the sudden change of heart that has come over Mr. Dowling, the Director of Welfare, as shown by his recent interest in the health and well-being of the school children of Boston. It seems but a few months ago that every newspaper and public official criticized him for his drastic, inhuman, and unsympathetic attitude towards those who are so unfortunate as to be on the welfare list.

I would suggest that Mr. Dowling look up the medical interpretation of undernourishment or malnutrition in children and also its causes. It is not always due to lack of or insufficient food. Four or five years ago, about 12 to 15 per cent of all the school children came within that class. Due to a thorough survey and reorganization by the School Committee, our able and fatherly Superintendent, and the medical organization of physicians and nurses under the expert supervision of the Director of School Hygiene—Dr. Keenan—this number has been reduced to 9 per cent during the past four years.

I think it would be well for Mr. Dowling to devote his time and energy to some of the adult unfortunates who are ill and whose bodies have wasted resulting in tuberculosis and other lingering diseases largely as a result of insufficient food.

If he would increase their small stipend instead of reducing it, and give them sufficient and proper food, these conditions could be avoided. If Mr. Dowling really means to show charity, I would suggest that he add an extra $2 or $3 weekly per family.

In many of our schools splendid groups of teachers are donating from their own purses to provide funds for those unfortunates who really need food, clothes and shoes, and in some cases eyeglasses.

I have observed that the teachers have always been ready and willing to help the ill and needy school children. They have always cooperated in every charity drive. Annually they raise about $10,000 to $12,000 for such purposes and have no hope of reimbursement. I would suggest that Mr. Dowling's investigators show a little more sympathy and kindness of heart to those on the welfare lists instead of compelling them to sell their insurance, dispose of their radios and other comforts which are today needed to encourage those unfortunates who have been placed on the welfare lists due to no fault of their own, but because of depression and unemployment.

The Committee adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

RECEIPTS AND EXPENDITURES, FISCAL POPULATION OF BOSTON, BY SEX, NATIVITY, ETC., 1930.

Total population, 781,188 (383,454 males and 397,734 females); ratio of males to females, 96.4 to 100 as against 97.2 to 100 in 1920. Native white, 529,400 (260,419 males and 268,981 females) or 67.77 per cent; sex ratio, 96.8 to 100. Of the 529,400 native whites, 200,130, or 37.80 per cent, are of native parentage; 248,653, or 46.97 per cent, are of foreign parentage and 80,617, or 15.23 per cent, are of mixed parentage (*i. e.*, one half native). Foreign-born whites, 229,356 (111,261 males and 118,095 females) or 9,563 less than in 1920; sex ratio 94.2 to 100. The foreign-born whites are 29.36 per cent of total population. Negroes, 20,574 (10,223 males and 10,351 females) or 2.63 per cent of population; sex ratio, 98.8 to 100. The Negro population has increased 4,224 since 1920 and 4,993 since 1915. Other races, 1,858 (1,551 males and 307 females), or 0.24 per cent, comprise 1,595 Chinese, 69 Japanese, 43 Indian, 26 Mexican and 125 miscellaneous. Total foreign white stock, 478,009 (viz., 229,356 plus 248,653) which is 61.19 per cent of all inhabitants.

NEWTON REDUCES WATER RATES.

The city of Newton reduced its water rates 10 per cent in 1932, from 25 to 22.5 cents per 100 cubic feet, and for 1934 has reduced them 11.5 per cent, to a flat price of 20 cents per 100 cubic feet. This reduction was made possible by savings effected by reorganizing the administration and maintenance methods and equipment of the department before and since the beginning of the city's "four-year plan" of water development in 1931.

FIVE PER CENT OF CITY BUDGET PAID FOR REFUSE DISPOSAL.

Nearly one million dollars, or about 5 per cent of the total cost of the general city government of Los Angeles, Cal., is spent every year for the collection and disposal of refuse, under the direction of the Bureau of Engineering of that city. The Refuse Collection Division operates six days a week, and enough men are provided to compensate for a five-day week for all the personnel employed.

PROPOSALS FOR SEWERAGE WORKS IN RUMFORD ROAD, BETWEEN CHESBROUGH ROAD AND BAKER STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Rumford road, between Chesbrough road and Baker street, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Rumford Road," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Wednesday, November 14, 1934, with a certified check for one hundred (100) dollars payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

POLICE DEPARTMENT ORDERS.

General Order No. 573.

The Superintendent of Police is hereby directed to make the following details for duty at the State Election in this city on Tuesday, November 6, 1934:

1. Three patrolmen for duty in the office of the Board of Election Commissioners, 111 City Hall Annex, on arrival of ballots for the State Election at about 11 o'clock a. m., Monday, November 5, 1934, such detail to continue until all ballots cast at the election have been returned.

2. An officer of rank above that of sergeant for duty at the City Hall Annex, to supervise the police detail for motor trucks from 5 o'clock a. m., Tuesday, November 6, 1934, until relieved, and a patrolman from 8 o'clock p. m., on the same date, until relieved, for duty at the same place, to keep clear the approaches to the office of the Board of Election Commissioners for motor vehicles returning from the polling places with ballot boxes, etc.

3. The necessary number of patrolmen from the several police divisions to attend the several polling places in this city on State Election Day, to preserve order and protect voters in the full exercise of their rights.

4. Twenty-three sergeants, one to a motor vehicle, to report at the office of the Board of Election Commissioners in ample season to be prepared to leave that office for their respective destinations, according to the following schedule, in such vehicle with ballot boxes, ballots, etc., and deliver such ballot boxes, ballots, etc., to the police officer detailed in each precinct.

SCHEDULE FOR HOURS OF DEPARTURE OF SERGEANTS SO DETAILED, FROM OFFICE OF BOARD OF ELECTION COMMISSIONERS ON MORNING OF NOVEMBER 6, 1934.

(One motor vehicle for each of the twenty-two wards, excepting Ward 1, East Boston, for which two trucks have been engaged.)

Wards 1 to 7, both inclusive, 6 a. m.
Wards 8 to 10, both inclusive, 5.30 a. m.

Ward 22, Precincts 13 and 14, 7 a. m.

7. Commanding officers are to take notice that it is of the greatest importance, also, that the patrolmen herein detailed report at the polling places in the various precincts promptly according to schedule.

Failure for any reason of an officer to be on hand at a polling place at the appointed time delays the sergeant in the motor vehicle in his delivery of the ballot boxes, ballots, etc., and interferes, as is plainly seen, with the balance of the delivery schedule.

8. The foregoing detail of patrolmen at the various precincts will continue until the ballots are counted and the results declared. The officers are then to bring the ballots and returns to the Election Commissioners' Office.

9. Cards with the ward and precinct number and location of voting booth printed thereon have been forwarded to the several police divisions, on which the division commander will write the name, the division number, and the number of the officer detailed at the time stated on the morning of November 6, 1934, at the voting booth of each respective precinct on his division. This card, to be given to the officer so detailed at the voting booth, will be retained in his possession until delivered by him to an employee of the Board of Election Commissioners, who will arrive accompanying a sergeant on motor vehicle from the Election Commissioners' Office on the morning of November 6, with ballot boxes, ballots, etc., as hereinbefore stated.

This card, when returned by such employee to the office of the Election Commissioners will be its receipt that the ballot boxes, ballots, etc., have arrived at their proper destination.

10. On receipt by the patrolman from the sergeant, detailed on motor vehicle, as herein provided, of registering ballot box, ballots, voting lists and such other documents as may have been received from the Election Commissioners, the patrolman detailed at polling place will deliver same to the warden or clerk of the precinct, allowing no person to take or handle them before such delivery, and hand the key of the registering ballot box to the warden. On delivery of the ballots to the warden, the patrolman will take from him a receipt for the same, which receipt will be returned to the Election Commissioners.

11. After the warden has opened the box and allowed the election officers and the public to see that it is empty, the box is to be again locked and the key given to the patrolman who is to retain it until after the polls have closed, except that, at the request of the warden, the patrolman may allow him to open the box for the purpose of pressing down the ballots, in order to make room for more ballots after which the patrolman will see that the box is again locked, and the key returned to the police officer.

12. The patrolman will obtain from the warden copies of poster, which will be sent to the latter, in relation to smoking and the use of liquor in polling places, and post same in conspicuous places where they may be easily read. Tacks will be sent for the purpose.

13. The warden will deliver to the patrolman detailed at the polling place for his use at that place a copy of the descriptive voting list, which must be returned to the warden at the close of the polls.

14. When the polls are opened, the patrolman will mark in the place indicated on the tag attached to the key the figures which the register shows before any ballots are cast.

15. At 8 p. m., Tuesday, November 6, when the polls close, one sergeant will report in each of the twenty-two wards (excepting Ward 1, East Boston, for which two sergeants and two motor trucks are provided), to meet motor vehicle at last point of morning distribution; thence to proceed to each of the several precincts in his respective ward, and receive registering ballot box (which must be locked) and key thereof, voting lists envelope, signed by the warden and other election officers, receipts for ballots, unused ballot envelope, sealed and certified (containing unused and spoiled ballots), stamps for marking spoiled ballots, receipts for ballots and check lists, carry them to the Election Commissioners' Office and deliver same to some member of the Board of Election Commissioners.

16. When the polls are closed the patrolman will mark on the same tag the figures which the register shows after all ballots have been cast. He will then hand the key to the warden, who will open the box and take out all the ballots to be sorted and counted. The warden will then cause the voting lists, including the list used by the police officer, to be sealed up in an envelope and the envelope certified by the signatures of himself and the other election officers and the same returned to the Election Commissioners, as described in section 15 of this order. The patrolman will not allow this envelope to be put into the ballot box. The sergeant who will report on motor vehicle will keep it about his person until delivery at the office of the Election Commissioners. The unused and spoiled ballots are then to be put in the envelope for unused ballots, and the envelope sealed and certified.

17. When returning from polls, all motor vehicles must drive to the easterly side of City Hall Annex, Court square, where ballot boxes will be conveyed by chute to the basement.

18. It is important that the patrolman sees that the voting lists envelope is signed by the warden, clerk and all the inspectors. The patrolman will also see that the special book for signatures of voters is returned in the registering ballot box.

19. In case a patrolman is detailed to relieve another after the close of the polls, the commanding officer will see that he is properly instructed as to the duty of bringing the official returns, the box of ballots cast, and the press return to the Election Commissioners' Office as soon as they are delivered to him by the election officers.

20. When the ballots have all been counted, the ballots thus counted, tally sheets and nothing else, shall be placed by the warden in the leatheroid box for that purpose, which must be sealed up and signed by all the election officers. The patrolman will particularly see that this box is properly sealed up and that all the election officers have signed their names to the certificate on the box. The patrolman will then bring the box, official return, record book, and press return to the City Hall Annex, Court square, and deliver same to the Election Commissioners. The patrolman is directed not to allow the official return, press return or record book to be placed in the leatheroid box.

21. While the polls remain open an officer of rank will visit the polling place in each division at stated intervals, to be designated by the captain, and in case of any disturbance will report the fact to the commanding officer of the station house without delay. If additional men are needed beyond the number available in that division, the officer in charge will communicate immediately with headquarters.

22. Attention is called to the fact that the polls at the State Election on Tuesday November 6, 1934, shall open at 8 o'clock a. m. and close at 8 o'clock p. m.

23. Commanding officers of divisions will see that the officers detailed for duty on State Election Day are furnished with a copy of the circular issued by the Board of Election Commissioners, entitled: "Instructions to Police Officers on . . . Election Days."

24. The counting of ballots will be done on one table only with two inspectors counting and two inspectors watching the count.

Notes.

1. Attention is again called to the last paragraph of the circular, "Instructions to Police Officers on . . . Election Days," which reads: "The police officer is directed not to allow the official return or record book to be placed in the leatheroid box."

That this may not happen (as it has in the past, notwithstanding repeated instructions) in any of the precincts of this city at the coming election, the officer of rank who will visit the polling places in each division (provided for in section 21 of this order) shall, at an appropriate time, call to the attention of the police officer and of the warden on duty at the polls, that the official return,

press return and record book are not to be placed in the leatheroid box.

They shall be handed to the police officer who will deliver them as set out in the paragraph immediately following.

2. The officer going to the office of the Board of Election Commissioners with the leatheroid box, after the counting of the ballots, will take with him, in a separate package, the official return, press return and record book, which he shall safely deliver to the Election Commissioners with the leatheroid box, as provided in section 20 of this order.

3. The police shall enforce the order that smoking is prohibited within the confines of the polling places, during the entire day, while the polls are open, as well as after they are closed.

The Board of Election Commissioners makes special request that the officers detailed at the 367 precincts be instructed to see that this is enforced.

As polling places and their approaches and exits are, in many instances, in buildings used for places of religious worship, to say nothing of the danger to valuable property from careless persons, the importance of these instructions is apparent.

Commanding officers will take notice and provide means to correct the following conditions set out in a paragraph of a letter received by the Police Commissioner from the Board of Election Commissioners:

"May we again call your attention to the law which prohibits smoking in any polling place, and ask you to have the officers who are detailed to the three hundred and sixty-seven (367) precincts make a special effort to see that there is no smoking during the entire day, while the polls are opened, as well as after they are closed."

Important.

4. The following additional matter has been brought particularly to the attention of the Police Commissioner in writing by the Board of Election Commissioners. Commanding officers will see that this cause of complaint is corrected, and that police officers are detailed in accordance with the request:

"We further request, in accordance with an order of the City Council passed under date of October 1, that an additional police officer be detailed outside of each of the three hundred sixty-seven (367) polling places. This request is made to prevent continued violations of the election laws relative to the distribution of campaign literature within 150 feet of a polling place; and to adjust conditions at polling places complained of by voters, that their entrance and exit is hampered by campaign workers and loiterers outside the polling places. This request being in accordance with the provisions of chapter 54, sections 71 to 75, inclusive, of the General Laws, Tercentenary Edition."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 574.

A trial board consisting of Captains Gleavy, Casey and Daley, having heard by reference a complaint made by John J. Hanrahan, captain, Division 17, against Lawrence A. Bradley, patrolman, Division 17, for alleged violation of Rules 27 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Neglect of duty.

Specification 1: In that on the 17th day of October, 1934 (Police Day), the said Patrolman Lawrence A. Bradley, while in uniform and on duty and assigned to Radio Car M-110, as observer, covering Sector A on Division 17, with Patrolman Michael J. O'Connor as operator, did fail to pull his duty call from 3.43 a. m. to 5 a. m., a period of one hour and seventeen minutes, knowing that the rules and regulations of the department required him to pull a duty call every forty minutes, and that by so doing he did commit an act contrary to good order and discipline.

Specification 2: In that on the 17th day of October, 1934 (Police Day) the said Patrolman Lawrence A. Bradley, while on duty and in uniform, assigned to Radio Car M-110, did go to sleep while seated in the front seat of the auto, while parked on his sector, thereby leaving himself exposed to the danger of accident, and the criminal element, and that by so doing did commit an act contrary to good order and discipline,—

has submitted the following finding and recommendation:

"The Board, having heard and carefully considered all the evidence as presented, accepts the plea of guilty made by the said Patrolman Lawrence A. Bradley. The Board fully appreciates the fact that the offence committed by Patrolman Lawrence A. Bradley in going to sleep while on duty in the police radio car should warrant dismissal from the Police Department, but in view of the fact that Patrolman Bradley has been a member of the Police Department for five years and has never before been complained of for violation of the rules and regulations, also his high recommendation by his commanding officer and other superior officers, and also the recommendation of Deputy Superintendent Anderson who believes he should be permitted to remain in the department, the Board respectfully recommends that he be ordered to perform two hundred and ten hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Lawrence A. Bradley perform 210 hours of punishment duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 575.

A trial board consisting of Captains Gleavy, Casey and Daley, having heard by reference a complaint made by John J. Hanrahan, captain, Division 17, against Michael J. O'Connor, patrolman, Division 17, for alleged violation of Rules 27 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Neglect of duty.

Specification 1: In that on the 17th day of October, 1934 (Police Day), the said Patrolman Michael J. O'Connor, while in uniform and on duty, and assigned to Radio Car M-110, as operator, covering Sector A on Division 17, with Patrolman Lawrence A. Bradley as observer, did fail to pull his duty call from 3.43 a. m. to 5 a. m., a period of one hour and seventeen minutes, knowing that the rules and regulations of the department required him to pull a duty call every forty minutes, and that by so doing he did commit an act contrary to good order and discipline.

Specification 2: In that on the 17th day of October, 1934 (Police Day), the said Patrolman Michael J. O'Connor while on duty and in uniform, assigned to Radio Car M-110, did go to sleep while seated in the rear seat of said car while parked on his sector, thereby leaving himself exposed to the danger of accident, and the criminal element, and that by so doing did commit an act contrary to good order and discipline,—

has submitted the following finding and recommendation:

"The Board, having heard and carefully considered all the evidence as presented, accepts the plea of guilty made by the said Patrolman Michael J. O'Connor. The Board fully appreciates the fact that the offence committed by Patrolman Michael J. O'Connor in going to sleep while on duty in the police radio car should warrant dismissal from the Police Department, but in view of the fact that Patrolman O'Connor has been a member of the Police Department for fifteen years and has never before been complained of for violation of the rules and regulations, also is highly recommended by his commanding officer and other superior officers, and also the recommendation of Deputy Superintendent Anderson, who believes he should be permitted to remain in the department, respectfully recommends that he be ordered to perform two hundred and ten hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Michael J. O'Connor perform 210 hours of punishment duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, NOVEMBER 10, 1934. NO. 45

MAYOR MANSFIELD AWARDS CONTRACT FOR NEW SCHOOL FOR GIRLS IN SOUTH BOSTON — BUILDING IS TO BE ERECTED ON DORCHESTER STREET, AT WEST SEVENTH AND F STREETS, AT A COST OF $636,800 OUT OF P. W. A. FUNDS — STRUCTURE TO CONTAIN THIRTY-TWO ROOMS AND OTHER MODERN IMPROVEMENTS THAT WILL MAKE IT ONE OF BEST IN CITY — WORK TO BE BEGUN IMMEDIATELY TO PROVIDE FOR UNEMPLOYED.

Mayor Mansfield has approved a contract for another school in South Boston, in his program of providing for the increases in the pupils of the school age. This school is the Clinch Shurtleff School in the Shurtleff Intermediate District. The contract has been awarded to the Rugo Construction Company, Incorporated, and the building will cost approximately $636,800.

The building is to be located on Dorchester street, at West Seventh and F streets, and is to be erected out of the P. W. A. funds. It is to be used as a school for girls and will contain thirty-two standard intermediate classrooms, administration suite, two housekeeping suites, four cooking rooms, three sewing rooms, two science rooms, two art rooms, gymnasium, assembly hall, lunchroom, locker and toilet rooms.

It will be constructed of red brick with cast stone trim, of first-class construction, and will cost $636,800.

This is P. W. A. Project, Docket No. 4217. The plans were drawn under the direction of W. W. Drummey, Superintendent of Construction of the Department of School Buildings, by John M. Gray, architect, Rugo Construction Company contractors.

This building will be erected in two parts, the one on F street first, and upon completion the children of the Shurtleff School will occupy this and the present Shurtleff School building will be demolished for the second portion of this building.

Conditions of Award.

In presenting the award to the Mayor for approval Superintendent of Construction William W. Drummey wrote as follows:

BOSTON, November 1, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—We own your approval of our letter of October 14 on the Clinch Shurtleff School, stating you would approve the contract to the Rugo Construction Company, Incorporated, based on Item 2A.

Please be advised that we sent a similar letter to the P. W. A. authorities and have written notice back from them that they will not approve the Alternate 2A together with the alternate for the elimination of lockers and fittings, etc., because in so far as Alternate 2A is concerned they think it is too radical a departure from the drawings as laid out. They will approve under Item 2 which includes not only the building but the lockers and fittings and the acceptance of the alternate for the substitution of cast stone for limestone. The price at which they will accept this proposal is $636,800.

For this reason of P. W. A. authority I request that you will approve the award of this contract for $636,800 that we may proceed to sign the Rugo Company, Incorporated, 80 Boylston street, Boston, Mass., up in accordance with all the regulations involved.

This letter supersedes my letter of October 4 and my letter of October 14 amending same.

Respectfully yours,

WM. W. DRUMMEY,
Superintendent of Construction.

FIRE DEPARTMENT ORDERS.

General Order No. 73.

I. New Assignment Cards.

New assignment cards are being issued to the department today for the following boxes:

Box 2744, Church and Weld streets, as announced in General Orders No. 71, c. s.

Box 6236, Montmorenci and Orient avenues, as announced in General Orders No. 71, c. s.

Box 3631, Gallivan Boulevard and Magdala street, as announced in General Orders No. 65, c. s.

Because of changes in conditions new assignment cards are being issued today for the following boxes, showing the correct designations for these boxes:

Box 2466, Elm and Everett streets, auxiliary Hillside School.

Box 2517, Washington street and Toll Gate way.

Box 3763, Fairmount avenue and Beacon street.

Box 3842, River street, near Dedham line.

Company commanders will call the attention of members of the various companies to the changes in the designation of the location of these boxes by comparison with the old cards.

All the new cards being issued to the department today are dated November 7, 1934, with the exception of card for Box 3631 which is dated September 12, 1934.

Company commanders will return old cards for the following boxes on or before Tuesday, November 13, 1934, writing the name of the company in pencil on the back of each card:

Box 2466, Box 3631, Box 3842, Box 3763, Box 2517.

II. Fire Alarm Box Removed From Service.

The Coast Guard Base, 61 Sumner street, East Boston, having been abandoned, Box 12-6152 has been removed from service. Company commanders will make this correction on their running cards.

III. Armistice Day Parade.

The commander of Metropolitan Firemen's Post, American Legion, has invited all members of the Boston Fire Department, who are off duty, to participate in the Armistice Day Parade with Metropolitan Firemen's Post on Monday, November 12, 1934. All who wish to parade should report to Commander John J. Connolly, at the corner of Clarendon and Newbury streets at 9.15 a. m.

IV. Commendations.

Ladderman James F. Mahoney of Ladder Company 9 is hereby commended for applying the prone pressure method to a man who was removed from the water at Warren Bridge, October 26, 1934, while off duty.

Ladderman James J. Donovan of Ladder Company 28 is hereby commended for responding to and working at fire, Box 3743, October 29, 1934, while off duty.

William M. Kennedy of the Maintenance Division is hereby commended for the assistance rendered by him to Ladder Company 5 on October 27, 1934. This company had a slight accident which damaged three rungs in the main ladder and one rung in the tip. Mr. Kennedy was off duty at the time but went to the repair shop obtained the necessary material and repaired the ladder so that the truck was kept in service.

Hoseman George F. Long of Engine Company 28 is hereby commended for volunteering and donating blood in transfusion to a brother member of the department, Ladderman George F. Leary of the Fire Prevention Division, on November 1, 1934. Other members of the department also gladly volunteered for this commendable service.

Hoseman Kenneth C. Arnold of Engine Company 48 is hereby commended for responding to and working at fire, Box 1471, November 2, 1934, while off duty.

By order of Fire Commissioner Edward F. McLaughlin.

Henry A. Fox,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 576.

In connection with the arrest of four men for a holdup of a truck containing money belonging to the Boston Elevated Railway Company at the Dudley Street Terminal on the morning of September 27, 1934, the commissioner commends Capt. Stephen J. Flaherty, commanding the Detective Bureau, for general work of his Bureau in connection with this case, and his personal success in obtaining information which led to the arrest of all the alleged criminals.

The commissioner commends Sergt. Thomas F. Joyce of the Detective Bureau for his alertness in finding the starting point which led to the clearing up of this crime. His unselfish cooperation with other members of the department was an undoubted factor in the success of this case.

Sergt. Thomas F. Joyce is granted one week's additional vacation with pay.

Sergts. Arthur M. Tiernan and Francis W. Russell, and Patrolmen William J. Bonner, William J. Crowley, Stanley A. Slack and Francis J. O'Connor, all of the Detective Bureau, are commended for their untiring effort which materially assisted in completing information necessary for the arrest of the alleged criminals.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 577.

The commissioner is pleased to commend, for the arrest and conviction of one George S. Estock, Jr., of Ansonia, Conn., for larceny from parked automobiles, Sergt. Leonard T. Banks and Patrolman William A. Philbrick, both of the Detective Bureau, for their devotion to duty and persistence in working on this case, and grants them each two days' additional vacation with pay.

Without the keen interest and attention to duty habitually shown by Policewoman Margaret M. McHugh of the Detective Bureau, a starting point in this case might not have been found.

The commissioner, therefore, grants Policewoman Margaret M. McHugh one week's additional vacation with pay.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 578.

The following chapter of the Acts and Resolves of 1934 is hereby published for the information of the department:

CHAPTER 283.

AN ACT RELATIVE TO THE OBSERVANCE OF ARMISTICE DAY.

Be it enacted, etc., as follows:

Clause eighteenth of section seven of chapter four of the General Laws, as appearing in the Tercentenary Edition, is hereby amended by adding at the end thereof the following: *and all laws, statutes, orders, decrees, rules and regulations regulating the observance of the Lord's Day shall be applicable to November eleventh between the hours of seven o'clock ante meridian and one o'clock post meridian, or during the same hours on the day following when November eleventh occurs on Sunday,*—so as to read as follows: Eighteenth, "Legal holiday" shall include January first, February twenty-second, April nineteenth, May thirtieth, July fourth, the first Monday of September, October twelfth, November eleventh, Thanksgiving Day and Christmas Day, or the day following when any of the five days first mentioned, October twelfth, November eleventh, or Christmas Day occurs on Sunday; and the public offices shall be closed on all of said days; *and all laws, statutes, orders, decrees, rules and regulations regulating the observance of the Lord's Day shall be applicable to November eleventh between the hours of seven o'clock ante meridian and one o'clock post meridian, or during the same hours on the day following when November eleventh occurs on Sunday.*

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 579.

It gives the commissioner great pleasure to publish the following letter for the information of the department:

POLICE DEPARTMENT,
CITY OF SOMERVILLE, MASS.,
October 31, 1934.

HON. EUGENE C. HULTMAN,
Police Commissioner, Boston.

MY DEAR COMMISSIONER,—In these days when the watchword in police work is cooperation, it is more than interesting and gratifying to have that cooperation anticipated, as was so aptly illustrated by your department yesterday, in the apprehension of Stanley Marecki and Joseph Kosak, by members of one of the radio cruisers of your department, for armed holdup and robbery in a chain store in this city, seven minutes after the crime was committed.

This apprehension was brought about by the altertness of your radio crew in dispatching your cars to cover the points of egress from this city, when your radio crew picked up the Somerville broadcast to our own patrol cars, and before our teletype message reached your radio headquarters.

Such a splendid piece of keen, fast police work is surely entitled to recognition, and I wish to thank you, and through you, the various members of your department responsible for this important arrest.

Very truly yours,

THOMAS DAMERY, *Chief of Police.*

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 580.

Section 2 of Rule 35 of the Rules and Regulations of this department, relating to residence, hours of duty and absence, as appearing on page 114 of the book of Rules and Regulations, is hereby repealed, and the following new Section 2, of Rule 35, is inserted in its place:

Rule 35. Residence, Hours of Duty, Absence.

2. Members of the force shall not leave the city without the permission of their commanding officer, excepting in the regular annual vacation. This prohibition shall not be held to forbid passage through other municipalities when such passage is on the most direct available route from one part of the city to another. Members receiving permission to leave the city for more than twelve hours shall leave with the commanding officer of their unit definite information which will enable the commanding officer to communicate with them without unnecessary delay. Division commanders will be held strictly responsible in granting permission to members to leave the city, to have sufficient men available at all times for any emergency which may arise.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 581.

It gives the commissioner great pleasure to publish for the information of the department the following letter:

CITY OF BOSTON,
BOARD OF ELECTION COMMISSIONERS,
CITY HALL ANNEX,
November 7, 1934.

HON. EUGENE C. HULTMAN,
Police Commissioner.

MY DEAR FRIEND,—Before leaving the office for a little rest, I am taking advantage of the opportunity of sending this letter to you. Would that I were able to express to each member of your department (the superintendent, deputy superintendent, division commanders and men under their charge) the feelings of approbation that prevail among the men of this Board for the hearty cooperation shown us in the carrying out of one of the largest, if not the largest, elections ever held in the City of Boston. Not a single adverse criticism has reached this office from any source. Words are hardly adequate to express our appreciation for the service rendered.

The manning of the entrance to the polls and the polls themselves, by your police officers, has received favorable comment from the voters of this city. We appreciate full well the hardship that must have been borne by you in affording us these men. I also take this opportunity of expressing the gratitude, not alone of this department and the Mayor of the city, but of the general populace, because their thanks has been most profuse for the service rendered; and a large share of this praise properly belongs to you and the department over which you preside.

I trust that these letters of commendation will continue to go to you from time to time to show that the splendid spirit of cooperation shown us is sincerely appreciated by,

Yours very respectfully,

DAVID B. SHAW, *Chairman,*
Board of Election Commissioners.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 582.

It is with the greatest satisfaction that the commissioner commends the department for the splendid work done by it under most trying circumstances in connection with the State Election of November 6, 1934.

Many complimentary messages have reached the commissioner in regard to not only the efficiency shown by the department in handling the great number of voters, but also in regard to the extreme courtesy and fairness shown by members of the department.

The superintendent will give as much time off, as consistent with the proper functioning of the department, to the men who performed extraordinarily long hours due to the Election Day, November 6, 1934.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to raze the following structures as fire menaces and nuisances:

The building at 2 Airport street, Ward 1.

The building at 512 Albany street, Ward 8.

The building at 37 A street, Ward 6.

The building at 301A Savin Hill avenue, Ward 15.

The building at 98 and 100 Water street, Ward 2.

The building at 76 West Sixth street, Ward 6.

The building at 39 A street, Ward 6.

The building at 37 A street, Ward 6, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owners, F. J. and J. W. Lavery Estates, care of Annie M. Lavery and Mary E. Lane of 817 Dorchester avenue, Dorchester, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 512 Albany street, Ward 8, is decayed, settled and bulged. Part of second floor collapsed. Unsafe and a fire hazard. The owner, Scranton Coal Company, care of William W. Norcross, lessee, of 520 Albany street, Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 39 A street, Ward 6, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owners, F. J. and J. W. Lavery Estates, care of Annie M. Lavery and Mary E. Lane of 877 Dorchester avenue, Dorchester, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 76 West Sixth street, Ward 6, is in an unsafe and dilapidated condition, and a fire hazard. The owners, Eugene F. and Thomas C. Lally of 213 West Fifth street, South Boston, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 98 and 100 Water street, Ward 2, is open to trespass, had slight fire. Recommend razing. The owner, Neil McLaughlin of 52 Soley street, Charlestown, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 301A Savin Hill avenue, rear, Ward 13, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, William C. Moore Estate, care of John W. Moore, trustee under will, of 6 Beacon street, Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 2 Airport street, Ward 1, the front section at first story torn away; main partition in first story removed; section of first floor approximately 8 feet by 10 feet hanging free; building approximately twelve inches out of plumb, stairs removed from entrance to roof; rear piazza removed. The owner, Anthony Onessimo of 23 Margaret street, Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

CLAIMS ALLOWED.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claims:

Mrs. G. M. Woodward, for Peggy Louise Woodward (daughter), of 14 School street, Dorchester, in the sum of $10, for compensation for damage to her little girl's clothing caused by fresh paint on automatic traffic signal post in Codman square, Dorchester, January 4, 1934.

Richardson Sales Corporation, 35 Court square, Boston, in the sum of $3.85, as refund on thirty-five refuse tickets which were returned to the Public Works Department unused.

Neptune Garage (Nathan Goldberg), 491 Saratoga street, East Boston, in the sum of $2.75, as refund on eighteen unused refuse tickets which were returned to the Public Works Department.

Boston Baking Company, 1834 Washington street, Boston, in the sum of $4.80, as refund on thirty-two refuse tickets which were returned unused to the Public Works Department.

Ruth I. M. Locke, 21 Bourneside street, Dorchester, in the sum of $8, as compensation for personal injuries and damage to property caused by tripping over plank which was placed across sidewalk in front of 21 Wabeno street, Roxbury, to hold soil and bricks in place, March 16, 1933.

M. F. Duncan, 927 East Fourth street, South Boston, in the sum of $35, as compensation for collapse of boiler caused when employees of the Water Service, Public Works Department, were working on service pipe, May 14, 1934.

Walter J. Greenough, 255 Wachusett street, Jamaica Plain, in the sum of $5.50 as compensation for damage to automobile caused by hole in highway in front of 391 Hyde Park avenue, November 30, 1933.

RODMEN APPOINTED.

The Mayor has approved the following request of the Public Works Department:

BOSTON, October 15, 1934.

To the Honorable Mayor.

The construction work on the ten streets included in the P. W. A. project 4205, street work, has reached a point where it is absolutely necessary, in order to comply with various rules and regulations concerning P. W. A. projects, to obtain for a period, at least three months, the services of three rodmen at $20 a week and one expert typist at $25 a week.

These employees will be directly charged to P. W. A. project and I respectfully request permission to request civil service for the above.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

TO INVESTIGATE FREE PORTS.

The Mayor has approved the following request of the City Auditor:

BOSTON, November 1, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—I have received a request from the chairman of the Boston Port Authority, a copy of which I believe has been forwarded to your office, that I approve drafts for $321.95 and $1,000, respectively, the same to cover expenses in connection with the coming to Boston from abroad of a recognized expert in the matter of free ports.

Under the provisions of chapter 229 of the Acts of 1929 the Port Authority is authorized to "investigate any and all matters relating to the Port of Boston, particularly with reference to the unification of overseas terminals, belt line connections, condition and location of piers and channels, switching, floatage, lighterage, rates, rules, regulations and practices, dockage, wharfage, waterfront labor conditions, grain elevator and warehouse facilities." The question arises, since the subject of free ports is not specifically mentioned in this authorization, whether the proposed investigation can be considered to be within the range of the Board's powers. If not, then it would seem that the following provision of the same act would prevail, "that with the assent and approval of the Mayor the Board may initiate . . . any hearings or investigations, concerning the Port of Boston." Because of this provision I feel it desirable to secure your opinion concerning the proposed investigation. If you believe the investigation should be made, I will appreciate if you will indicate your assent and approval on this letter.

Respectfully,

CHARLES J. FOX,
City Auditor.

APPEALS FOR RED CROSS.

MAYOR'S OFFICE,
BOSTON, November 5, 1934.

HON. EUGENE C. HULTMAN,
Police Commissioner.

DEAR COMMISSIONER HULTMAN,—I am very much interested in the success of the Red Cross drive and have already communicated with the various heads of the departments, through one of my secretaries, urging their hearty cooperation and asking them to lay before the members of their departments an invitation to become members of the Red Cross. Of course there is nothing obligatory about this and every city employee may feel entirely free to accept or reject membership as he pleases without the slightest feeling of compulsion, but I should be personally much pleased if every city employee would become a member of the Red Cross Society. It only costs a dollar a year and if you will present this matter to members of your department in any way that commends itself to you I will be greatly obliged to you.

Yours truly,
FREDERICK W. MANSFIELD, *Mayor.*

SEEKS MORE RELIEF FUNDS.

Mayor Mansfield called upon Governor Ely this afternoon and requested his help in securing additional funds from Washington for relief purposes and his Excellency promised the Mayor that he would see what he could do.

LEGAL OPINION IN RE LICENSING BOARD ACTS.

The following was received:

City of Boston,
Office of the Mayor, October 27, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Corporation Counsel, relative to your order of October 1, 1934, concerning his opinion as to the validity of the acts and findings of the Licensing Board for the City of Boston in the month of September, 1934, during the reported physical incapacity of one member of the board.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Law Department, October 26, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—I have received a memorandum from your office with reference to an order passed by the City Council on October 1, 1934, which reads as follows:

"Ordered, That the Corporation Counsel, through his Honor the Mayor, be, and he hereby is, respectfully requested to advise the City Council forthwith whether all acts and findings of the Licensing Board for the City of Boston during the past month, particularly with reference to revocation of licenses, and having in mind the reported physical incapacity of one member of the Board during said period, are valid under chapter 140 of the General Laws, chapter 284 of the Acts of 1933, and any amendments thereto."

I assume that the order does not contemplate the examination of all acts and findings of the Licensing Board for the City of Boston during the month of September, 1934, in order to determine their validity; and I am directing myself, therefore, to the inquiry as to whether the concurrent vote of two members of the Licensing Board for the City of Boston in meeting assembled may properly constitute the vote of the Board, if the third member is physically incapacitated from attending such meeting.

The Licensing Board for the City of Boston was created by chapter 291 of the Acts of 1906.

Section 1 provides as follows:

"The governor, with the advice and consent of the council, shall appoint from the two principal political parties three citizens of Boston, . . . who shall constitute a licensing board for said city and who shall be sworn to the faithful performance of the duties of their office before entering on the same. . . .

One member of said board shall be designated by the governor as chairman and two members shall constitute a quorum. . . .

Section 4 contains the following language:

"All licenses issued by said board shall be signed by a majority of the members thereof. . . . "

In Williams v. School District in Lunenberg, 21 Pick. 75, 80 (1838), the Supreme Judicial Court, per Shaw, C. J., stated:

"Where a body or board of officers is constituted by law to perform a trust for the public, or to execute a power or perform a duty prescribed by law, it is not necessary that all should concur in the act done. The act of the majority is the act of the body. And where all have due notice of the time and place of meeting, in the manner prescribed by law, if so prescribed, or by the rules and regulations of the body itself, if there be any, otherwise if reasonable notice is given, and no practice or unfair means are used to prevent all from attending and participating in the proceeding, it is no objection that all the members do not attend, if there be a quorum. . . . "

See, also, Merrill v. Lowell, 236 Mass. 463, 467 (1920).

Based upon the foregoing it is my opinion that the concurrent vote of two members of the Licensing Board for the City of Boston passed at a meeting duly called and held upon due notice constitutes a vote of the Board and that the Board is not incapacitated from acting merely because the third member is physically disabled from attending, and does not attend its meetings.

Chapter 140 of the General Laws (Ter. Ed.) and chapters 284 and 376 of the Acts of 1933 contain no provisions inconsistent herewith.

Very truly yours,
HENRY E. FOLEY,
Corporation Counsel.

APPROPRIATION FOR ZONING BOARD.

The following was received:

City of Boston,
Office of the Mayor, October 26, 1934.

To the City Council.

Gentlemen,—I am advised by the chairman of the Board of Zoning Adjustment that the authorization of funds voted by your honorable body in 1931 to meet the necessary expenses of the Board is practically exhausted, and that in his opinion an additional authorization in the amount of $3,500 should be made at this time. I submit herewith the necessary order and respectfully recommend its adoption by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Board of Zoning Adjustment,
October 23, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—The Board of Zoning Adjustment established under the provisions of chapter 488 of the Acts of 1934 and amendments thereto, depends for its administrative expenses on appropriations which have been made from time to time from the Reserve Fund. In the ten years during which it has been in existence there has been a total appropriation of $17,000, of which a balance remains at the present time of $233.39, against which there has been deposited with the City Collector since 1927, when the law was amended to provide for the charge of fees, the sum of $1,150.

The various items of administrative expense include printing and office supplies, personal services, verbatim records, advertising, transportation, maps and blueprinting, and messenger service.

The Board in executive session on Tuesday, October 23, voted to request your Honor at this time for a further appropriation of $3,500.

Respectfully submitted,
FREDERIC H. FAY,
Chairman.

—

Ordered, That the Board of Zoning Adjustment, established under section 20, chapter 488, of the Acts of 1924, be authorized to expend, under the direction of the Mayor, and in the prosecution of its duties, a sum not in excess of $3,500, said sum to be charged to the Reserve Fund.

Referred to Executive Committee.

MILK FOR WELFARE RECIPIENTS.

The following was received:

City of Boston,
Office of the Mayor, October 29, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Overseers of the Public Welfare, relative to your order of October 15, 1934, concerning the advisability of supplying milk to welfare recipients at 8 cents a quart.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Overseers of the Public Welfare,
October 27, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—This is to acknowledge receipt of your communication of October 24, 1934, inclosing the following order from the City Council, dated October 15, 1934:

Ordered, That the Department of Public Welfare, through his Honor the Mayor, be requested to look into the advisability of supplying milk to welfare recipients at 8 cents a quart.

I wish to advise that I have already communicated with the milk dealers in order to have a reduction of 3 cents a quart in the price of milk supplied to families in the care of this department.

Yours truly,
JOHN C. L. DOWLING,
Executive Director.

STATE HIGHWAY, SPRING STREET TO DEDHAM LINE.

The following was received:

City of Boston,
Office of the Mayor, October 24, 1934.

To the City Council.

Gentlemen,—The proposed state highway from Spring street to the Dedham line is among the projects which have just been approved by the Federal Government.

In order for the Commonwealth of Massachusetts to lay out a state highway over land within the limits of the City of Boston, it is necessary to petition the Department of Public Works of the Commonwealth of Massachusetts to lay out and take charge of such a highway.

I am submitting herewith an order authorizing the Board of Street Commissioners, on behalf of the City of Boston, to request the Commonwealth of Massachusetts to lay out and take charge of said highway as is set forth in said order and to authorize me to waive all rights which the City of Boston may have under the provisions of section 8 of chapter 81 of the General Laws to enter into a contract for the construction of said highway.

I respectfully recommend the adoption of this order by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Whereas, The City Council of the City of Boston adjudge that public necessity and convenience require that the Commonwealth should lay out and take charge of, as a state highway, a highway on a new location from Spring street, at its intersection with Brook Farm Parkway, in the City of Boston, southerly to a point on a dividing line between the City of Boston and the town of Dedham, between the Charles river and the New York, New Haven & Hartford Railroad; and

Whereas, The said City Council is of the opinion that the city should waive its rights to contract to build the said highway under the terms set forth in section 8 of chapter 81 of the General Laws of the Commonwealth of Massachusetts;

Now, therefore, it is hereby ordered that the Street Commissioners of the City of Boston be, and they hereby are, authorized, with the approval of his Honor the Mayor, to file on behalf of the City of Boston with the Department of Public Works of the Commonwealth of Massachusetts, in form satisfactory to the Law Department of the City of Boston, a petition wherein it is set forth that public necessity and convenience require that the Commonwealth of Massachusetts should lay out and take charge of, as a state highway, the above-described premises, and it is hereby further ordered that his Honor the Mayor be, and he hereby is, authorized to waive all rights which the said city may have under the provisions of said section 8 of chapter 81 of the General Laws to enter into a contract for the construction of the said highway.

Referred to Executive Committee.

TRANSFERS WITHIN DEPARTMENTAL APPROPRIATIONS.

The following was received:

City of Boston,
Office of the Mayor, October 22, 1934.

To the City Council.

Gentlemen,—The attached requests for transfers within departmental appropriations have been investigated and approved by the Acting Budget Commissioner.

I submit herewith the necessary transfer orders and respectfully recommend their adoption by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

APPROPRIATION FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, October 26, 1934.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of $25,000 from the income of the George F. Parkman Fund to the maintenance and improvement of the Common and Parks in existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its immediate passage by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, October 26, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners, you are respectfully asked to request

the City Council to transfer from the income of the George F. Parkman Fund the sum of $25,000 which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of, $25,000.

When the budget estimates were made up for the year 1934, a sum equal to the tota yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1934, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
WILLIAM P. LONG,
Chairman.

—

Ordered, That the sum of $25,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the maintenance and improvement of the Common and parks in existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of, $25,000.

ADDITIONAL POLICE OFFICERS AT ELECTION.

The following was received:

City of Boston,
Office of the Mayor, October 19, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Board of Election Commissioners, relative to your order of October 1, 1934, concerning provisions for an additional police officer at 367 voting precincts in Boston on election day, November 6.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Board of Election Commissioners,
October 23, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—I am in receipt of order, passed by the City Council under date of October 1, 1934, in which they request your Honor to provide one additional police officer at each of the three hundred sixty-seven voting precincts in the City of Boston on November 6, the day of the State Election. Such officers to be sworn in as special officers for election day, and to be appointed from the present civil service list of men eligible for appointment to the Boston Police Department.

May I call your attention to sections 71, 72, 73, 74 and 75, of chapter 54 of the General Laws (Tercentenary edition); particularly to section 72, which I am setting forth below, and which relates to the preservation of order at polling places:

Section 72. "The board or officer in charge of the police force of each city and town shall detail a sufficient number of police officers or constables for each polling place at every election therein to preserve order and to protect the election officers and supervisors from any interference with their duties and to aid in enforcing the laws relating to elections."

May I also call your attention to a paragraph in letter sent to the Police Commissioner by this Board under date of October 22, 1934.

"We request, in accordance with an order of the City Council passed under date of October 1, that an additional police officer be detailed outside of each of the three hundred sixty-seven (367) polling places. This request is made to prevent continued violations of the election laws relative to the distribution of campaign literature within 150 feet of a polling place; and to adjust conditions at polling places complained of by voters, that their entrance and exit is hampered by campaign workers and loiterers outside the polling places."

Yours very respectfully,
DAVID B. SHAW, Chairman,
Board of Election Commissioners.

WARNING SIGNALS, WARD 7.

The following was received:

City of Boston,
Office of the Mayor, October 17, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of September 24, 1934, concerning the installation of automobile warning signals at each end of the center span of the railroad bridge on Boston street, between Ralston street and Blake terrace, Ward 7.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Traffic Commission, October 11, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council Order, dated September 24, 1934, which reads as follows:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automobile warning signals at each end of the center span of the railroad bridge on Boston street, between Ralston street and Blake terrace, Ward 7.

Orders have been issued to erect reflector warning signs as requested.

STOPS SIGNS, AMORY AND BOYLSTON STREETS.

The following was received:

Office of the Mayor, October 17, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of October 1, 1934, concerning the placing of "Stop" signs at the corner of Amory street and Boylston street.

FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Traffic Commission, October 10, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated October 1, 1934, which reads as follows:

Ordered, That the Traffic Commissioner, through his Honor the Mayor, be instructed to place "Stop" signs at the corner of Amory street and Boylston street.

The requested installation would involve a cost of approximately $40. We have none of this type of sign in stock and no provision for their purchase was included in the 1934 budget. Therefore, no funds are available at present.

From the many requests received in this office for installations of this type and from contact with the reactions of many people on this subject, it is my opinion that if requests of this type were granted it would result in a flood of demands for this type of sign from all quarters of the city.

It is conceivable that several thousand requests of this nature might be received. Inasmuch as the individual installation at an ordinary four-cornered intersection costs $80, it is obvious that a great deal of expense would be involved and it is my further opinion that the multiplicity of these signs which would result would detract from whatever warning value might appertain to installations at truly dangerous and strategic locations.

Very truly yours,
WILLIAM P. HICKEY,
Commissioner.

STOP SIGNS, WARD 21.

The following was received:

City of Boston,
Office of the Mayor, October 19, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of October 1, 1934, concerning the placing of "Stop" signs at Chestnut Hill avenue and Wallingford road, Ward 21.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Traffic Commission, October 13, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated October 1, which reads as follows:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to place "Stop" signs at Chestnut Hill avenue and Wallingford road, Ward 21.

The requested installation would involve a cost of approximately $40. We have none of this type of sign in stock and no provision for their purchase was included in the 1934 budget. Therefore, no funds are available at present.

From the many requests received in this office for installations of this type and from contact with the reactions of many people on this subject, it is my opinion that if requests of this type were granted it would result in a flood of demands for this type of sign from all quarters of the city.

It is conceivable that several thousand requests of this nature might be received. Inasmuch as the individual installation at an ordinary four-cornered intersection costs $80 it is obvious that a great deal of expense would be involved and it is my further opinion that the multiplicity of these signs which would result would detract from whatever warning value might appertain to installations at truly dangerous and strategic locations.

Very truly yours,
WILLIAM P. HICKEY,
Commissioner.

FALLON FIELD LIGHTING.

The following was received:

City of Boston,
Office of the Mayor, October 22, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Park Department, relative to your order of October 1, 1934, concerning additional lighting facilities at Fallon Field, Roslindale.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston.
Park Department, October 9, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have your memorandum of October 6 with inclosure order from the City Council, requesting that the Park Commission provide additional lighting facilities on Fallon Field, Roslindale.

The outdoor lighting conditions at Fallon Field are not very good. This playground is used extensively by the people living in the vicinity and is also used as a short cut by those desiring to reach Belgrade avenue. The tunnel between the playground and Belgrade avenue is lighted by three 50-watt lights. The boys are continually breaking these small lights. The few lights that were on the playground were removed when the bleachers were erected and the field enlarged. The old underground conduit had to be removed as it was located in the excavation.

It would be possible to install two or three lights on the playground, one near the bleachers at the playground end of the tunnel and the other one or two lights along the walks leading to South street. The street light on Belgrade avenue should also be relocated.

The cost of this would be $2,010 for the Park Department end of the work. The cost of the relocation of the street lights on Belgrade avenue and South street would come out of the Public Works Department, Street Lighting Service. This department has no funds available for this work.

Very respectfully yours,
WILLIAM P. LONG,
Chairman.

SWIMMING POOL, FRANKLIN PARK.

The following was received:

City of Boston,
Office of the Mayor, October 19, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Park Department, relative to your order of October 1, 1934, concerning the establishment as an E. R. A. project of a swimming pool for children under sixteen years of age at the subterranean reservoir in Franklin Park.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Park Department, October 16, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have your memorandum of October 11, with inclosure, order from the City Council that his Honor the Mayor request the Emergency Relief Administration to establish as an E. R. A. project the construction of a swimming pool for children under sixteen years of age, using as a location the subterranean reservoir recently discovered in Franklin Park.

This old reservoir was not discovered lately, as was reported; it was built in 1895 by the Park Department employees and has been used as a storage place for trees and shrubs for many years when same were to be kept dormant. It stands on Hagborne Hill in the Wilderness in Franklin Park, is 168 feet long and approximately 70 feet in width, and is 12 feet in depth. The Wilderness is in a very isolated part of the Park System, far away from any residences.

The reservoir is covered with earth and loam and there are trees growing above the roof of the reservoir, which is constructed of concrete and brick. In order to construct a swimming pool at this point it would be necessary to practically rebuild the old reservoir, which is made of concrete, and remove the entire hill, connect the swimming pool with city water and build bath house and sanitaries. The entire cost would be in the vicinity of $300,000. It would also be necessary to fence the entire area and light same. It would spoil this entire section of the Park System, which has many beautiful trees, and there is a serious question in my mind, on account of it being so far away from residences, whether it would ever be used.

There is no way in which motor cars could get to it, as we do not allow motor cars in this section of the Park System. I strongly advise against the utilization of this reservation for any such purpose. I desire also to call your attention to the fact that the E. R. A. administration does not supply materials.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

INDOOR GYMNASIUM, COLUMBUS PARK.

The following was received:

City of Boston,
Office of the Mayor, October 19, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Park Department relative to your order of October 1, 1934, concerning provisions for the erection of an indoor gymnasium on Columbus Park, South Boston.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Park Department, October 16, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have your memorandum of October 11, with inclosure, Council order requesting that the Park Department include in the P. W. A. program a sum sufficient to provide for the erection of an indoor gymnasium on Columbus Park, South Boston.

To erect an indoor gymnasium of this kind would cost $250,000. This would not be a proper site, as a gymnasium should be built nearer the residential section and considerations should be given to the most central point which, in my estimation, is around D street.

Columbus Park contains approximately seventy acres and was given over for the use of an athletic field, parking area, field house, etc. I strongly advise against the erection of a gymnasium at this point.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

STOP SIGNS, WARD 19.

The following was received:

City of Boston,
Office of the Mayor, October 19, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of September 24, 1934, concerning the placing of "Stop" signs on all side streets entering Green street, Ward 19.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Traffic Commission, October 15, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of your letter of October 3, 1934, inclosing Council order dated September 24, 1934, which reads as follows:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to place "Stop" signs on all side streets entering Green street, Ward 19.

The installation requested in the above order would require the erection of fifteen signs at an approximate expenditure of $600.

We have no signs of this type in stock and no provision for their purchase was included in the 1934 budget for this department.

I would anticipate requests for thousands of these signs were the erection of any to be countenanced at present.

In the opinion of the engineers of this department these signs are not effective as warning signs although most persons not conversant with traffic signs are of the opinion that they are very successful.

It is the experience of this office and of traffic agencies all over the country that the erection of signs of this type increases the speed of vehicles in the main streets and increases accidents. Our own Commonwealth avenue was an example with its serious accident record when such signs were in place on the streets entering the avenue.

Yours very truly,
WILLIAM P. HICKEY, Commissioner.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Commissioner of Public Works, relative to your order of July 2, 1934, concerning the letting out of certain contracts under competitive bidding, namely, permanent paving, smooth paving and artificial stone sidewalks.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department, October 24, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I beg leave to acknowledge your letter of July 9 inclosing City Council order dated July 2, 1934, reading:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to let out the following contracts under competitive bidding, namely permanent paving, smooth paving and artificial stone sidewalks,—and to state that specifications and contracts are prepared and bids properly asked for by advertising in the *City Record* and daily newspapers on all granite block, asphalt and bitulithic pavement and artificial stone sidewalks.

This year, due to the lack of appropriations for artificial stone sidewalks, bids for such contracts have not been asked for.

Gentlemen,—I herewith transmit a letter from the Commissioner of Public Works, relative to your order of July 30, 1934, concerning the installation of an arc light on West Third street, near E street, Ward 6.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department, October 20, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I beg leave to acknowledge receipt of your letter of August 1, 1934, inclosing City Council order dated July 30, 1934, reading:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light on West Third street, near E street, adjoining St. Vincent de Paul's Church, Ward 6,—

and to state that an electric light was installed on West Third street near E street, as requested and has been burning since October 11, 1934.

The delay in not acting sooner on this matter was due to the inability of the Edison Electric Illuminating Company to obtain concrete posts for a period of time.

PLAYGROUND FOR EAST BOSTON.

The following was received:

City of Boston,
Office of the Mayor, October 23, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Park Department, relative to your order of September 24, 1934, concerning an estimate of the cost of obtaining a playground for East Boston in place of the one taken by the Commonwealth for highway purposes.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Park Department, October 22, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council that the Board of Park Commissioners be requested to submit an estimate of the cost of obtaining a playground for East Boston in place of the one lost by a taking.

The land purchased for a playground, located on Byron and Pope streets, East Boston, was never used as such, owing to legal difficulties and no money being available for construction. The cost of that playground was $17,772.80.

At least $10,000 should be made available to properly construct a playground in this vicinity. The former area was taken over by the Commonwealth for the purpose of building a state highway; up to the present time they have not paid for same. Furthermore, this money cannot be used to purchase another playground as it will have to be placed in the Sinking Fund.

If another playground is to be acquired to replace the one taken by the state authorities it can be done only after the City Council makes the necessary application to his Honor the Mayor.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

NEW CITY HOSPITAL KITCHEN.

The following was received:

City of Boston,
Office of the Mayor, October 29, 1934.

To the City Council.

Gentlemen,—Under date of August 27, 1934, I caused to be withdrawn from consideration by your honorable body an order providing for the transfer of $45,000 to provide for the furnishing and equipping of the new kitchen building at the City Hospital. My purpose in having this order withdrawn was to have a survey conducted by an expert in kitchen equipment so as to determine whether the amount of the transfer requested was the proper and correct sum to provide for the furnishing of the kitchen building.

Under date of the 15th instant the expert appointed to make this survey reported to the chairman of the Hospital Trustees that in his opinion an appropriation of $38,352.53 would be sufficient to cover the purchase of all the required equipment. He also suggested that utilization be made of the surplus furnishings and utensils now in storage at the various George R. White Fund Units. Acceptance of this suggestion would mean a saving of approximately $1,500 from his original estimate.

In view of the findings in this report and the urgent necessity of having this equipment installed as speedily as possible so that the kitchen may be put into operation at an early date, I submit herewith an order providing for the transfer of $35,000 from unexpended balances within special appropriations in the Hospital Department to the item for furnishing and equipping the new kitchen building, being of opinion that this amount will probably be sufficient. If it proves insufficient, then an additional transfer of the necessary balance may be made later. I am also attaching copies of the letter addressed to the Hospital Trustees by the expert retained by them to make the previously mentioned survey. I respectfully recommend immediate consideration of the attached order by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

W. G. Quirk & Son Company,
Complete Store Equipment,
186 State Street,
Boston, Mass., October 15, 1934.

Hon. J. P. Manning,
Chairman, City Hospital Trustees.

Dear Sir,—We are submitting herewith our analysis of equipment and miscellaneous utensils required to complete the furnishings of the new Boston City Hospital kitchen.

We have spent considerable time, energy and expense in gathering the required information and feel sure that our estimate in this matter is as nearly correct as would be humanly possible.

In checking over a majority of the required items we have been more than impressed with the pronounced trend to rising prices, due in a large measure to present code practices. For that reason we ask that the analysis be seriously considered at the earliest possible moment so that action can be started before the market assumes a more unfavorable position.

As a result of our analysis we feel that an appropriation of $38,352.53 would be sufficient to cover the purchase of all the required equipment. Whereas our estimate of actual cost in this matter came to the amount of $36,526.22 we felt it advisable to include in addition 5 per cent of that amount, or $1,826.31, to cover any unexpected expense or emergency which might arise in the purchasing, shipping or installing of the equipment. In any comparison of this figure with those which might have previously been submitted we would ask that you bear in mind the above mentioned rise in price of most commodities under National Recovery policies.

It was suggested that we utilize some of the surplus furnishings and utensils now in storage at the various George Robert White Fund Units. From our survey of this equipment it is our belief that an approximate saving of $1,500 off the above total estimate could be made by using those items which would be serviceable for use at the hospital. A detailed list of these items will be found attached herewith.

Yours very truly,
W. G. QUIRK.

Estimated costs of additional equipment required to complete furnishings of new Boston City Hospital kitchen, classified by rooms or as equipment for general use:

TOLLS FOR SUMNER TUNNEL.

Coun. SELVITELLA, for the Special Committee on Tunnel Tolls, to whom was referred August 27, resolution concerning rearrangement of toll charges for use of Sumner Tunnel, having held public hearing on same, submitted report recommending that the resolution ought to pass.

Said resolution is as follows:

Whereas, A survey was made of the leading business firms in Boston, including cities and towns north of Boston, to determine the extent and manner in which the Sumner Tunnel is used by them in connection with their business, together with whatever comment, suggestion or criticism relative to the present rate; and

Whereas, An individual poll was made of operators of pleasure motor vehicles, residing in communities adjacent to and approaching the Sumner Tunnel; and

Whereas, The result of the survey and poll clearly indicates that lack of use of the tunnel is due mainly to the present high schedule of rates:

Whereas, The present rates are unattractive, uninviting to all classes of motorists and causing a deficit of approximately $500,000 per annum;

Resolved, The Boston City Council being of the opinion that a lower toll rate will in all probability reduce and obliterate the present increasing deficit, approves, in part, a revision of the present schedule of tunnel toll rates, as follows:

Description.	Rate.
Motorcycles	$0 10
Passenger cars, one way	15
Round trip	25
Book of thirty-ride tickets per month	3 00
All trucks, trailers	25
Funeral processions per car	10
Buses with or without passengers	20
Book of thirty-ride truck tickets per month,	6 00

Coun. SELVITELLA—Mr. President, I understand that from that committee report Councilor Shattuck has dissented, and for purposes of the record I so report. In connection with that report I will say that your committee, on October 16, held a public hearing here in the Council Chamber, and as result representatives of Chambers of Commerce as well as many leading citizens and representatives of the cities and towns north of Boston were present, and stated their views in regard to the proposed revision of the tunnel rates. For purposes of the record I will refer to a few typical cases as shown by the record of the hearing. We had present, for example, Mr. John H. Smith, representing the Motor Truck Club of Massachusetts, representing 50,000 trucks. He stated that there are about 3,000 trucks in the market district and that if the rates were lower a large proportion of those trucks would avail themselves of the lower rate and use the tunnel. Representative Daniel J. Honan of Winthrop was also in favor of a reduction in the tunnel tolls, as well as James C. Doyle of Chelsea. Hyman Kaplan, secretary of the Chelsea Chamber of Commerce, said, "There is no question but what there should be a revision downward in the rates along the line that your resolution has indicated." He stated that there is an immense amount of traffic that might be easily diverted to the tunnel with proper rates; that, for example, taking the Chelsea Bridge,—which is going to be closed within a week,— the City of Boston has an opportunity to get for the tunnel at least 50 per cent of the seven million to eight million motor vehicles a year now crossing Chelsea Bridge. We had also the opinions of the Chamber of Commerce of Lynn in favor of our proposed schedule, they feeling that with a revision in the rates truck transportation would increase 100 per cent. We had, too, a statement from Mayor Casassa of Revere that "something should be done to encourage people to go through the tunnel. You should give a lower rate." We had also the same opinion expressed from Saugus, and from the Revere Chamber of Commerce. Those places, Mr. President, comprise the greatest avenues through which we expect use of this tunnel by motorists and truckmen. This morning a test was made of the running time between Haymarket square and Orient Heights by the different routes. From Haymarket square to Orient Heights via the tunnel the distance is 3.3 miles, and the running time ten minutes. From Haymarket square to Orient Heights via Chelsea Bridge and Chelsea, the distance is 4.2 miles and the running time thirty minutes. From Haymarket square to Orient Heights via Everett and the Parkway the distance is 8.4 miles and the running time forty minutes. There is now an opportunity afforded the Mayor of Boston to attract these car riders and truck drivers particularly, because of the closing of the Chelsea Bridge. At the present time the tunnel is capable of handling 700 cars an hour. We could easily divert that traffic, with the closing of Chelsea Bridge, by way of East Boston, through the tunnel. I think I am making a pretty conservative estimate when I say there could be at least eight times the amount of traffic that goes through the tunnel now. That would not only bring additional revenue to the city but would cut the deficit of $12,000 a week to half that amount. This, Mr. President, is an important question. The Council selected a special committee to look into it, and at the public hearing that was held there was not a dissenting voice heard against revision of the tunnel toll rates. I do not believe there is a councilor here who is not interested in having the rates lowered, because by lowering the rates we are going to reduce the deficit, which means a lower tax rate for the home owners of Boston, and also going to increase the use of the tunnel. We have here a report from the Boston Traffic Commission which is very significant, showing the number of cars that pass through the tunnel from the cities and towns north of us. East Boston has 2,700 registered automobiles, and during the twenty-four hours between 7.30 a. m., September 14, and 7.30 a., m., September 15, when this survey was made, only 711 cars passed through the tunnel from East Boston; from Winthrop, with 2,000 registered automobiles, 321; from Lynn, with 4,000 registered automobiles, 220; from Revere, with 3,000 registered automobiles, 172; from Chelsea, with 3,000 registered automobiles, 158; from Marblehead, with 1,500 registered automobiles, 100; from Swampscott, with 1,000 registered automobiles, 95; and from Salem, with 2,000 registered automobiles, 77. So you can see the small proportion of the registered automobiles in these cities and towns that now pass through the tunnel. We find that the average number of automobiles from these cities and towns is less than fifty cars per day. This is striking evidence that the automobiles to the north of Boston refuse to pay the present schedule of rates. There is only one thing that can be done to attract these motorists, get them to use the tunnel, and that is to reduce the tunnel rate, as suggested in this recommendation of the special committee to the Mayor. At least, it is worthy of an experiment. We have tried this thing out under present conditions for the past four or five months, and have been losing on the average $12,000 a week. I do not hesitate to say that if this proposed schedule is put into effect by the Mayor, together with the Commissioner of Public Works, we will certainly reduce that tunnel deficit. I do hope that the Mayor of Boston will readily recognize the situation confronting us. If he does not, in view of the closing of the Chelsea Bridge, do something of this sort to induce motorists to use the tunnel, I think he does not understand the real situation. The motorists will then use the parkway, going by way of Everett. I certainly feel that we should at least try this proposed new schedule. I trust that the Mayor of Boston will see the matter in the same light as your committee, giving the motorist a chance to use the tunnel on a reasonable basis and at the same time helping out the taxpayers of the City of Boston.

Coun. SHATTUCK—Mr. President, this is an important question, and I regret that it has not received more consideration by your committee. We have had one public hearing and since then have had no meeting. Today's action is only taken upon a poll of the members about half an hour ago. If we are to reduce the tolls as proposed in this report, to substantially 50 per cent of what they are now, we will have to get at least twice the traffic in order to get as much revenue as we are getting now, let alone getting any more revenue. The toll of 25 cents that we are now charging is a less toll than was under consideration by any of the bodies that made the studies under which this tunnel was built. I think it is half of what is being charged in the Holland Tunnel in New York, for example, where I think there is a 50 cent charge, if I am not mistaken. It is true that at the hearing most of the people who appeared expressed an opinion favorable to a reduction in rates, but when what they said was analyzed it did not seem to me to have great weight. If you ask a person whether he would rather pay ten cents than twenty-five cents for a facility, of course his answer will be "Yes." If you ask a person from Revere whether he would like to have this toll reduced, of course his answer is "Yes," no matter what the effect on the City of Boston may be, because those people do not pay the bills. We pay the bills. Another piece of characteristic testimony, loosely and irresponsibly given in large part, was that of a man who came here representing the Metropolitan Coal Company. He said that 500 teams a day of his company, or 500 trips a day, would be made from their coal yard in Chelsea through the tunnel, if the rates were cut in two. I asked him how many trucks a day he was running now from that point, and he said 200. He then tried to make out that this was not the normal time for coal deliveries. Personally, I think it is a good average time for deliveries,—in fact, I think more than average, just when the cold weather is starting. So I think he was giving us a lot of bunk when he said there would be 500 trips a day. I don't believe he has 500 trips in any day of the year. That was the kind of testimony we had, irresponsible, loosely thought-out testimony. I do not believe we should act on testimony of that kind. I do not believe we can place much reliance on testimony from Revere, Lynn, Winthrop and Chelsea, because they do not care for what happens to Boston. They would like to get through the tunnel for nothing, if they could, and of course they would like to come here and ask to have this service for nothing. So I have dissented from this report, and I hope, sir, that the report will not prevail.

Coun. BRACKMAN—Mr. President, as a member of the committee that sat in this matter, I would like to make a statement giving my impression of the information gathered by the committee that has voted in favor of these lower schedules. What impressed me more than anything else was not the fact that these outsiders came in here and said they ought to have a lower rate, because I agree that they might be expected to wish to benefit in a matter of this kind, particularly where their own tax rate is not affected. But I was impressed by the fact that people in a position to know assured the committee of the probability with a lower toll of much greater travel through the tunnel, and it seems reasonable, in view of what we were told, that that would be the effect if the rates were placed at a point where automobile and truck owners could use the tunnel on a profitable basis, that there would be much more travel. We know the present conditions. We know that the tunnel is losing money day by day, and that nothing has been done to curtail the losses. There is only one thing that we can do, as I look at it. Of course, this body is only acting, in any event, in an advisory capacity. It is not up to us to solve the problem absolutely, because we have no power to settle it, but we can merely state our position, and I believe we are not harming anyone by trying to reduce the schedule, so far as people using the tunnel day by day are concerned, to a lower point. If that is tried, we can easily tell whether the resulting increased rate of travel is going to help the city financially. I, for one, feel that a reduced rate would mean an increase in the amount of travel and an increase in the receipts from the tunnel.

Coun. WILSON—Mr. President, I gather this from the report of the committee, that the Council has no authority in the matter whatever, that in taking the proposed action it will be merely making a recommendation, and that it is hoped as a result of the adoption of the recommendation, if it is adopted, there will be an increased return from the increased use of the tunnel. On that basis, while I come from a section of the city that is not as much interested as the section that the councilor from East Boston represents, I shall grant my acquiescence in the recommendation of the committee, which, I state again, I understand looks to a test period of a limited time.

Coun. SHATTUCK—Mr. President, I did not recall that the report looked to a test period of a limited time, although I don't think it would affect my opinion in the least if it did. I do think, however, that if it is the intention to try this for a limited time, it ought to be clear that that is the recommendation.

Coun. MURRAY—Mr. President, I think inasmuch as this is a thing that was passed by the Legislature for the City of Boston, and inasmuch as it is a thing that is not only for the benefit of the city but of other parts of the state, it should really be a question for state control and for state financing, instead of placing the whole burden on the taxpayers of Boston. I think the tunnel should be state controlled.

The report was accepted, and the resolution was declared not adopted.

Coun. SELVITELLA doubted the vote and asked for a show of hands. The resolution was adopted by a hand vote, 12 to 3.

Later in the session Coun. NORTON said:

Mr. President, I would ask unanimous consent to make a statement in regard to the matter of the East Boston Tunnel. I believe the question of rates should be left to the Public Works Commissioner. What is to be considered a just return is a very difficult question. If the traffic does not increase, I believe personally that there is only one alternative, and that is to lower the rates. I might say, also, that, personally, I believe the Commonwealth should operate this tunnel with the gasolene tax.

EAST BOSTON TUNNEL LAND-TAKINGS.

Coun. SHATTUCK offered the following:

Ordered, That the Finance Commission be requested, through his Honor the Mayor, in its study of land-takings by the City of Boston to give special consideration to the takings for the East Boston Tunnel approaches, considering among other things the extent to which settlements were made in excess of the true value of the parcels taken, as evidenced by *bona fide* sales in the neighborhood, including sales by former owners of lands so taken to persons who after a short period of ownership or under option unloaded on the city at large profits, and following these profits so far as possible to the ultimate recipients.

Coun. SHATTUCK—Mr. President, As a member of the Committee on East Boston Tunnel Tolls I have had occasion to look into the estimated and actual cost of the tunnel project. I find that the Joint Board in 1921 estimated the cost of a single-tube tunnel, such as has been built, and of its approaches, at $8,300,000. The actual cost bids fair to be over $19,000,000, or about $11,000,000 in excess of the estimate, including a supplementary street widening program for which an expenditure of $3,000,000 was authorized. Had the actual cost been only $8,300,000, as originally estimated, the tunnel would be nearly self supporting. The huge annual deficit, probably amounting to over $700,000, is largely due to the interest and sinking fund payments required on this excess cost of about $11,000,000. Having made this interesting discovery, I proceeded to inquire as to where all this money went. It appears that $18,639,784.36 has already been spent, and it is believed that unsettled land damage claims will require about $750,000 to $1,000,000 more, or, taking the larger figure, $19,639,784.36 in all. Of this total, $7,538,805.66 has already been spent on land-takings, with the prospect that the total required for that purpose will be about $8,500,000, or more than the estimated cost of the entire project, tunnel, approaches and all. No wonder that we are now facing a huge operating deficit. The breaking-up of the other figures is also of interest. Construction costs under the contract amounted to $8,359,183.15; salaries, consisting mostly of engineering, stenographic and office services, amounted to $1,314,327.55; and interest on the money advanced during construction amounted to $1,427,468. Under the salary item $262,738.21 went for labor. The contract figure includes materials, overhead, management and profit. Possibly four to five millions of it went for labor on the job. This would give about 25 per cent of the total for the employment of labor. With all the talk about "work and wages," while construction was going on little was said by those in authority—and little was known to the public—concerning the millions that were going mostly to a small group of recent purchasers and option-holders of the land to be taken. Practically all of these transactions took place during the administration of ex-Mayor Curley. You will recall the words of Marcellus in the play of Hamlet. He said, "Something is rotten in the state of Denmark." (I quote from the ex-Mayor's favorite author.) I say that when these transactions were taking place something was rotten in the City of Boston. Let's have it out. That is the purpose of my order. And I hope, Mr. President, that it will be adopted by a unanimous vote. As servants of the people and guardians of the public interest and of the public purse, it seems to me that we can do no less.

Coun. McGRATH—Mr. President, I had no idea that this order was coming in, nor had I any idea that the present Governorship fight would be carried into the City Council. But now that the gentleman has seen fit to bring the fight into this body and get some publicity for it that he would fail to get before an audience of ten or fifteen

people, let me say to you, sir, that my mind goes back to the time when I took the floor of this Council and fought against a Republican Legislature and against the widenings in the Haymarket square section. Mr. President, eighteen Democratic members of this body and the four Republican members left this Council Chamber and went to President Erland Fish of the Massachusetts Senate and begged that Republican President of the Senate to stop this great land steal, but he laughed us to scorn and sent away those elected officials of the Boston city government, telling them that the Senate would reject or pass the thing as they saw fit. We then went over to Speaker Saltonstall and said to him, "You are allowing a steal of practically the entire $3,000,000, and we demand, as the elected officials of the City of Boston, that this sort of thing cease." And he also laughed us to scorn, saying, "We, in this Republican Legislature, will tell you how Boston to is be run." In desperation we went to the Democratic Governor of the Commonwealth. I was selected as the spokesman and I said to Governor Joseph B. Ely, "The Legislature has passed this great East Boston Tunnel project, a Republican Legislature. You are the Democratic Governor of the state, and Republican members of the Legislature are directly interested, some of them to the extent of being attorneys for the men who own this property." The Governor said he would look it over, and he practically told us that it would not go through, even though a Republican Legislature was attempting to steamroller it through, that it would not go through with the signature of a Democratic Governor, while there was a Boston City Council of eighteen Democrats and four Republicans, responsible members of the body, who had gone up there to the State House, representing the City of Boston, and protested. But in the still hours of the night certain Republican members of the Legislature and certain Republican lawyers in this city who have benefited far more than any others I know of in political office, went to the Governor's office, and he thereupon denied home rule to Boston. And so, sir, men representing the banking element in this city, Republican members of the Legislature, a Republican Speaker of the House, Mr. Saltonstall, and Republican President Fish of the Senate, and Republican and Democratic lawyers who represented special selfish interests, Governor Ely turned down the request of this Council for home rule, and we had, as a Republican piece of work, these land-takings and steals. The amounts of public money taken for that purpose in that way were far greater than the amount spent by the former Mayor of Boston on the Kenmore subway and on tunnel work, in his work and wages campaign, attempting to put men honestly at work and to relieve the welfare rolls in this city, a work which was seriously criticized by these same stock and bond holders in our financial institutions, millionaries and multi-millionaires, who care little for the army of the unemployed walking our streets. But that thing was put through by a Republican Legislature, then as always interested in property, headed by a Republican President of the Senate and a Republican Speaker of the House, and the Governor of this Commonwealth, who denied to the members of this Council, representing the citizens of Boston, the right of home rule. It is a Republican baby, sir, and it belongs right in their lap. I have hesitated during the last twenty weeks to talk politics in this body, because I did not believe that politics belonged here. But when this issue of the East Boston Tunnel is brought up here in the way in which it has been injected into our proceedings, and when I have in mind our appeal as members of the body, Democrats and Republicans, to President Fish of the Senate, to Speaker Saltonstall of the House and to Governor Ely, I think it is time that the facts should be stated here, the interest of Republican attorneys in this matter, of bankers who are very active in this city, men who are always disregarding and always attempting to defeat the will of the great majority in this city who elect their official representatives to this body.

Coun. MURRAY—Mr. President, I wish to add just a word to the remarks made by the gentleman from one of the Dorchester wards. I was one of those who went up there to the State House at the time he speaks of, and he has stated the facts as to the way we were received. And I would like to ask the councilor from the Back Bay a question,—when this thing was going through with the Legislature, were you with Boston then or were you with the majority at the State House.

Coun. SHATTUCK—Mr. President, I have always opposed this East Boston bill. The leader for the bill was Representative Hearn of East Boston, a very persuasive gentleman. I fought the thing for years, but was finally beaten in the end. And when the gentleman refers to the Republican support of the bill, the Democratic members of the House, I think, were unanimously for the bill.

Coun. MURRAY—Mr. President, one more question. Why have you waited for almost ten months before making these statements about the East Boston Tunnel? Why have you come in here now, a week before election?

Coun. SHATTUCK—I was recently appointed on a committee of this body to study the tunnel situation with reference to tolls. That led into the entire tunnel question. As a result, I made a study of these figures, and am bringing them to the attention of the Council.

Coun. WILSON—Mr. President, in order that there may be no political heat, I would suggest that the order be sent to the Executive Committee until after election.

The order was referred to the Executive Committee.

WARD 15 ASSESSMENTS.

Coun. TOBIN offered the following:

Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to investigate the assessed valuation of real estate in Ward 15 with a view to making further reductions in the valuations for 1933 and 1934.

Passed under suspension of the rule.

TRAFFIC SIGNALS, WARD 6.

Coun. DONOVAN offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signals at the junction of D street and West Broadway, Ward 6.

—

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signals at the junction of D and West Sixth streets, Ward 6.

—

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install "Stop" signs at the intersection of E and West Third streets, Ward 6.

Severally passed under suspension of the rule.

ESTABLISHMENT OF UNITED STATES SHOE FACTORIES.

Coun. SELVITELLA and DOHERTY offered the following:

Resolved, That the City Council of Boston hereby favors the establishment of shoe factories by the United States Government as an E. R. A. project in Boston, for the purpose of manufacturing shoes as a means of relieving the unemployment situation among the shoe workers of Boston.

Coun. SELVITELLA—Mr. President, I understand that the United States Government has under consideration the appropriation of $25,000,000 to be used for the establishment of shoe factories in various parts of the country. I feel, if such is the case, that Boston should get its proportionate share, because we have here in this city over four thousand unemployed shoe workers, and during the last few years shoe factories have been continually moving out of the city and setting up in business elsewhere. So, if the government has under consideration the establishment of shoe factories, it seem to me that is a good way of giving employment to those men who need it most.

Coun. SHATTUCK—Mr. President, I do not believe that setting up shoe factories in the City of Boston would help the unemployment situation. I think, in general, it would rather tend to lessen rather than increase employment, because it is not a very encouraging thing to persons who have been conducting their own business to see the Government going into competition with them. The Government naturally would not have the same cost accounting problems to meet, with the result that private concerns would feel compelled to draw in their horns and not add to their pay rolls. It would knock private business entirely out of gear, thus throwing out of private employment, I believe, many more people than would be employed as a result of that governmental action.

Coun. DOHERTY—Mr. President, I agree with the councilor from East Boston (Coun. Selvitella) in this matter. Coming from a district where there are many unemployed shoe workers, I believe that an E. R. A. project of this kind would take many of them off the welfare rolls. For that reason, believing that this would help many of the unemployed shoe workers in my district, I think it is a good resolve.

Coun. NORTON—Mr. President, I am in favor of this resolve provided it is understood that E. R. A. are to designate the factory or factories. We know what the Democratic candidate in California is trying to do along the line of the use of factories, in order to relieve the unemployment situation; we know what is being tried out in Chicago; we also know, in regard to these E. R. A. and other governmental projects, that Massachusetts gets very little in return for the amount that it pays out for what is being done in other parts of the country. Inasmuch, however, as we must eventually pay the bill, because of the maelstrom we are in, I think we should at least get the same treatment as other cities. Therefore, I am in favor of the resolve.

Coun. WILSON—Mr. President, I shall vote against the resolve, remembering, as I do, that if there is one outstanding industry still left around the City of Boston and in other cities and towns of this state and of New Hampshire, one respect in which we have stood out as the center of the business, it is the shoe manufacturing industry. So far we have been the center of that industry in this country. I would, therefore, hesitate to see any of the projects and plans mentioned by the councilor from Hyde Park (Coun. Norton) adopted, certainly in regard to an industry that so intimately affects New England. Let us not shoot at the heart of perhaps the chief outstanding industry of Massachusetts and New England, the industry that places this section in the position where she stands today.

Coun. ROBERTS—Mr. President, I, too, wish to add a word of protest against this resolve. If it were a temporary measure, that might be one thing, but, in the first place, nothing worthwhile could be accomplished in this line without organizing the business and, in the second place, I would certainly vote against putting the Government into business. I do not believe any man in this Council wants to see what is practically our leading industry in New England ruined through action by the Government. Therefore, I am against the resolve.

Coun. DONOVAN—Mr. President, I believe that this is a subject that can well be taken care of in Washington. The whole thing is based on a protective tariff, and any action taken involves tariff legislation by the Government. For example, we have shoes coming from Japan and Russia, sold in competition with American shoes. For that reason I believe consideration of this matter belongs in Washington, where a protective tariff should be enacted in the interest of the shoe industry.

The resolution was referred, on motion of Coun. AGNEW, to the Executive Committee.

PROPOSED NAVY YARD IMPROVEMENTS.

Coun. SELVITELLA, for Coun. Green, offered the following:

Resolved, That the Navy Department be requested to include in its P. W. A. projects the proposed addition to the structural shop at the Boston Navy Yard, and the extension to the shipbuilding ways at the same yard.

These projects are deemed essential to the Navy Yard, besides being excellent objectives for the P. W. A., namely, relieving unemployment in this locality.

Both of these projects are indorsed by the present Mayor of Boston, Frederick W. Mansfield, and ex-Mayor James M. Curley, the officials at the Navy Yard, and the general public in this vicinity.

The estimated cost of both of these projects is five hundred thousand dollars.

Passed under suspension of the rule.

REPAVING OF BURNEY STREET.

Coun. DOHERTY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Burney street, Ward 10.

Passed under suspension of the rule.

ARC LIGHTS, WARD 19.

Coun. MURRAY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to replace the present unsatisfactory arc light at the corner of Clive and Boylston streets, Ward 19, with a new and more efficient light.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light at the corner of Beecher and Paul Gore streets, Ward 19.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light at the corner of St. Peter and Paul Gore streets, Ward 19.

Severally passed under suspension of the rule.

WARD 20 IMPROVEMENTS.

Coun. FINLEY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to replace the wooden fence along the railroad bridge on Walworth street, Ward 20, which is extremely dangerous in its present condition, with an iron railing.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to immediately install catch-basins at the lower end of Eastbourne and Westbourne streets, Ward 20, to remedy an unsanitary condition caused by stagnant water.

Severally passed under suspension of the rule.

PAVING OF WARD 21 STREETS.

Coun. AGNEW offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Chiswick road, Ward 21.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Kilsyth road, Ward 21.

Severally passed under suspension of the rule.

SIDEWALK ON HOBSON STREET.

Coun. GALLAGHER offered the following:
Ordered, That the Commissioner of Public Works make a sidewalk along Hobson street, from Faneuil street to Hobart street, Ward 22, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.
Passed under suspension of the rule.

REPAVING OF MERCER STREET.

Coun. KERRIGAN offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Mercer street, Ward 7.
Passed under suspension of the rule.

TRAFFIC LIGHT, WARD 12.

Coun. BRACKMAN offered the following:
Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signals at the junction of Walnut avenue and Warren street, Ward 12.
Passed under suspension of the rule.

COMPENSATION OF CHIEF PROBATION OFFICER, SOUTH BOSTON.

Coun. NORTON, for the Committee on County Accounts, to whom was referred October 15, 1934, a communication from the Justice of the Municipal Court of the South Boston District, with reference to the compensation of the chief probation officer of said court, submitted report, recommending passage of the following:
Ordered, That the salary of the chief probation officer of the Municipal Court of the South Boston District, as established by the justice of said court, at $3,000 per annum, to date from October 15, 1934, be, and the same hereby is, approved.
Report accepted; said order passed.

SAVANNAH AVENUE, WARD 18.

Coun. NORTON offered the following:
Ordered, That the Commissioner of Public Works, through his Honor the Mayor, be requested to lay out and construct Savannah avenue, Ward 18.
Passed under suspension of the rule.

MILK FOR WELFARE RECIPIENTS.

Coun. NORTON offered the following:
Ordered, That the Welfare Department, through his Honor the Mayor, be requested to consider the advisability of supplying welfare recipients with 8-cent milk.
Coun. NORTON—Mr. President, I would like to have included in the record a statement of the Department of Public Welfare of New York City in regard to the plan in operation in that city for distributing milk to the inhabitants at 8 cents per quart.
The letter submitted by Coun. Norton is as follows:

Department of Public Welfare,
City of New York,
Food and Clothing Distribution Bureau,
October 8, 1934.

Mr. Clement A. Norton,
Boston City Council.

Dear Sir,—Replying to your inquiry of October 4, regarding 8-cent milk, we beg to advise you that the milk companies are delivering milk to ninety food depots (depots established for the distribution of Federal surplus commodities), their wagon and driver arriving in time to distribute milk from 7 to 9 a. m. Our food depots open for business at 9 o'clock.
Our depots furnish a man or two to help with the handling of the cases, as it is all bottled in quarts.
The applicant presents a ticket like the small attached sample, which ticket has been issued to him after he has signed the large attached sample. The Milk Company's representative hands out the milk and receives the money. We do not take any part in the finances of the transaction.
The punching of the day of the month on the small card prevents duplication. In addition to the milk distributed through our depots, the Board of Health also distributes in the same manner at the Baby Health Clinics, numbering about fifty-five.
The total daily distribution of the combined food depots and baby clinics is about sixty-nine thousand quarts.

Yours truly,
CARL ANDERSON,
General Manager.

The order was passed under suspension of the rule.

SLUM CLEARANCE IN BOSTON.

Coun. NORTON offered the following:
Ordered, That the Mayor of Boston be requested to consider the advisability of appointing a small number of his department heads to an official City of Boston Housing Committee that will have the authority to deal directly with Federal and State authorities regarding the matter of slum clearance in Boston.
Passed under suspension of the rule.

COMPENSATION FOR CERTAIN CITY EMPLOYEES.

Coun. NORTON offered the following:
Ordered, That the Mayor of Boston be requested to consider the advisability of establishing a rule whereby any employee of the city who comes in contact with a disease in line of duty and becomes afflicted with said disease, shall be given time off with pay sufficient to allow for recuperation, provided, that in the opinion of the commissioner in charge of the department in which said employee is employed, such a procedure should be followed.
Coun. NORTON—Mr. President, we have a Workman's Compensation Act applying to employees of the City of Boston. But I understand that employees of the Health Department of the city do not get the full benefit that might be expected from such an act. Here is a case of a nurse who worked for eight years for the Health Department of the City of Boston among tuberculosis patients, who contracted the disease a few weeks ago, and is now at the Boston Sanatorium in my ward. Her name was stricken from the pay roll after two weeks' leave, more or less. I believe that any nurse afflicted in this manner, in the line of duty, should be kept on the pay roll for at least a reasonable length of time. Is it just or fair to ask our city nurses to go among patients with contagious disease, with the thought in mind that if they catch the disease their names will be stricken off the pay roll after two weeks' sick leave? I do not think so. New York City, Philadelphia and other large centers are very liberal to their nurses in such cases. Why not Boston? After I had called attention to this matter, the Mayor of Boston issued a statement the other day, in substance as follows:
1. This girl did not contract this disease as a result of her work.
2. She was perfectly satisfied with the way she was treated at the Boston Sanatorium.
3. She did not like the publicity involved.
First, and in reply to the statement that she did not contract this disease in the line of duty, who can say that anyone working among tuberculous patients, who contracts the disease, did not contract it in the line of duty? The American Tuberculosis Association advises all tubercular patients to "cover every cough," to guard all sputum carefully, so as not to spread the disease. What about this woman who worked right in with unfortunate tubercular patients? What doctor, be it Dr. Cleveland Floyd or others, can say that this nurse did not contract the disease in line of duty? Why not give her the benefit of the doubt? Second, in regard to the patient being perfectly satisfied with the way that she was treated at the Boston Sanatorium, of course, she is being properly taken care of there, but she is simply getting the same treatment that a plain corner loafer would get, when taken off the street, if afflicted with tuberculosis. She is entitled to more consideration. An old father, nearly ninety years of age, worries her. He must either get an old age pension or go to the poor house while she is sick and off the pay roll. At present, two other city nurses who lived with this victim are caring for the father. And, third, it is natural that she should not care for the publicity, but let me say, in that regard, that I have never mentioned to a single soul the name of this woman. I simply said this was a case where a woman engaged in tuberculosis work was herself taken down with the disease, and I might mention another case where a woman engaged in tuberculosis work, and contracting the disease, was sent to Saranac for eighteen weeks, through the good offices of the previous Mayor, and was cured. Fred O'Brien of the *Herald* wanted the name of this woman. I said, "Fred, that name should not be mentioned in the papers," and the paper did not publish it. Another newspaper, however, took the matter up, found out who the individual was, and published the name.
Coun. SHATTUCK—Mr. President, I am not sure that I recall or that I heard the entire order of the gentleman read. Probably I would favor it. But the point I want to bring out is, whether we should, one after another, pass under suspension of the rule orders on important questions, expressing opinions on matters to which we have given no real consideration. In many cases we do not even know what the order is about, and when we pass orders under such conditions anybody knows that our opinion does not amount to anything. Therefore, sir, I would move that this order lie over for one meeting. If that motion prevails, it will give an opportunity to everyone to know what it is all about and to have a considered opinion on the subject.
(The order was re-read.)
Coun. NORTON—Mr. President, the order merely asks, first, that the Mayor consider the matter and, second, if he does consider it favorably, it must then be favorably considered by the Health Commissioner.
Coun. MURRAY—Mr. President, may I say that men in the Fire Department and other departments, injured in the line of duty, receive a certain amount of money while they are out, until they are able to go back into the service, and if they are so seriously injured in the line of duty that they cannot go back, they receive a pension. It seems to me there is no reason why in this case, as in other cases of the kind, that procedure should not be followed.
President DOWD—Does the Chair understand Councilor Shattuck to press the motion that this lie over for one week?
Coun. SHATTUCK—Mr. President, I withdraw the motion.
The order was passed under suspension of the rule.

GAS SERVICE FOR HYDE PARK.

Coun. NORTON offered the following:
Ordered, That the Mayor of Boston be requested to consider the advisability of having the Corporation Counsel of the City of Boston, together with competent assistants, take charge of the coming hearing before the Massachusetts Department of Public Utilities on the matter of reducing the gas rates to that section of Ward 18 that now pays a higher gas rate than any other section of Boston because of the fact that it is served by the Dedham and Hyde Park Gas Company, whereas other sections of Boston are served by the Boston Consolidated Gas Company. Also, that the Mayor of Boston consider the matter of requesting the Massachusetts Department of Public Utilities to favor gas service being rendered to all of Ward 18 by the Boston Consolidated Gas Company.
Coun. NORTON—Mr. President, the only part of Boston not served by the Boston Consolidated Gas Company is approximately one half of Ward 18, that section being served by the Dedham and Hyde Park Gas Company and the gas users in that section paying a considerably higher rate for gas than is paid in other parts of Boston. There are continual objections and remonstrances, but the trouble is that in the past remonstrants have gone before the Department of Public Utilities at the State House and asked for consideration, but have been faced by able counsel, Robert Dodge, and a group of experts produced by the gas interests. People go up and protest, but they are not in a position to present their case as it should be presented, and therefore their petitions fail. It does seem as though, when citizens of Boston have a grievance which is to presented to a public tribunal, the city should assist to the extent of furnishing the best legal talent available to argue the case for the people, and that expert testimony to offset that produced by the companies should be furnished. What do remonstrants appearing there have to face? Factual data produced by the interested companies, and the Dedham and Hyde Park Company, for example, is in a position to produce arguments why their rates should not be reduced, which arguments the petitioners are not in a position to refute. It is the same with the electrical companies. Petitioners in this city for reductions in the price of gas and electricity have never had proper representatives before the Department of Public Utilities, have never had representatives who could at all compare or match up with the representatives of the gas and electric companies. In the particular case I have referred to, the Department of Public Utilities has not yet set a date for hearing upon those rates. There is yet sufficient time for the Corporation Counsel to designate counsel to represent the city, to make a study of the matter, and to be of real help to citizens of Hyde Park, in Ward 18, who now pay more for their gas than anybody else in Boston.
The order was passed under suspension of the rule.

RECESS.

The Council voted, on motion of Coun. ROBERTS, at 3.25 p. m., to take a recess subject to the call of the Chair. The members reassembled and were called to order by the President at 4.46 p. m.

SALE TO STATE OF EAST BOSTON LAND.

President DOWD called up, under unfinished business, No. 2 on the calendar, viz.:

2. Whereas, The Board of Street Commissioners of the City of Boston by a resolve and order approved by the Mayor of Boston March 1, 1930, took for playground purposes two parcels of land belonging to Florence J. McCarthy, containing approximately 16,294 and 20,578 square feet of land, respectively, situated on Pope street, in that part of Boston called East Boston, and awarded for said parcels the sum of $3,892.52 and $4,732.94, respectively, and settled suits brought in the Superior Court for the County of Suffolk on account of said taking of said parcels of land for the aggregate sum of $13,125.70; and

Whereas, By the same instrument of taking, the said Board of Street Commissioners took for playground purposes a parcel of land from Michael Murphy Heirs, containing approximately 12,156 square feet, situated at the corner of Pope street and Byron street, in said East Boston, and awarded as damages for the taking of said parcel of land $2,795.88 and settled a suit brought in the Superior Court for the County of Suffolk for damages on account of the taking of said parcel of land for the sum of $4,254.60; and

Whereas, There was recorded in the Registry of Deeds for the County of Suffolk on August 29, 1933, a written instrument wherein the Department of Public Works of the Commonwealth of Massachusetts purported to take for a state highway, in behalf of the Commonwealth of Massachusetts, said land which the City of Boston had taken for park purposes, situated on Pope and Byron streets, in that part of Boston called East Boston; and

Whereas, By the said instrument of taking the said Department of Public Works of the Commonwealth of Massachusetts purported to take for a state highway certain portions of streets situated in East Boston and more particularly set forth in said instrument of taking, excepting and reserving from the rights taken therein all easements for wires, pipes, conduits, poles and other appurtenances for conveyance of water, sewage, gas and electricity and for telephone communication then lawfully in or upon the said premises thereby taken, and all lawful rights of the public to use those parts of the public streets and ways of the City of Boston which were included in the said taking; and

Whereas, The Board of Park Commissioners of the City of Boston no longer needs the said parcels of land which had been taken for playground purposes as above set forth for public purposes; and

Whereas, the Commonwealth of Massachusetts is desirous of purchasing said parcels of land purported to have been taken as aforesaid; now, therefore, it is hereby

Ordered, That his Honor the Mayor be, and he hereby is, authorized, in the name and behalf of the City of Boston, to convey to the Commonwealth of Massachusetts, by an instrument in writing satisfactory to the Law Department of the City of Boston, the above mentioned parcels which have been taken by the Board of Street Commissioners for playground purposes upon the delivery to the said City of Boston of the sum of $17,380.30.

On September 24, 1934, the foregoing order was read once and passed, yeas 15, nays 0.

The order was given its second reading and passage, yeas 17, nays 0.

APPROPRIATION FOR EAST BOSTON PLAYGROUND.

Coun. SELVITELLA offered the following:

Ordered, That the sum of ten thousand dollars ($10,000) be, and hereby is, appropriated, to be expended under the direction of the Park Commission, for the establishment of playground in that part of Boston called the Fourth Section of East Boston, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of the city to said amount.

Referred to the Finance Committee.

ELLERY STREET IMPROVEMENTS.

Coun. KERRIGAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Ellery street, Ward 7.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to replace the present gas lamps on Ellery street, Ward 7, with modern arc lights.

—

Ordered, That the Commissioner of Public Works make a sidewalk along Ellery street, entire length, both sides, Ward 7, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of granolithic, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Severally passed under suspension of the rule.

PAVING OF RIDGEMONT STREET.

Coun. AGNEW offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Ridgemont street, Ward 21.

Passed under suspension of the rule.

LOADING ZONE PERMITS CHANGED.

TRAFFIC COMMISSION.

The Mayor has approved the following request of the Traffic Commission:

BOSTON, November 5, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—A loading zone is that portion of a roadway adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers or materials, indicated by yellow paint applied to the adjacent curb, marking the limits of the reserved area, as authorized by the Boston Traffic Commission.

The holder of a loading zone permit paints the curb himself, or pays some outside agency to do it. No charge is made for these permits.

On receipt of a written request from owner or agent of a building our investigators call on him, and recommend to our engineer whether or not a permit should be issued, and if a permit is granted give the location and distance to be painted. These permits are in effect until canceled.

About two thousand of these permits, to paint the curb yellow, are in effect at the present time. Some of the painted areas are kept in good repair, but on most others the paint is either not visible at all, or it is allowed to remain in badly effaced condition. Various shades and grades of yellow paint are used. The result of this lack of uniformity is that the effectiveness of loading zones has been lessened.

It is our opinion that if the Traffic Commission forces painted and maintained these loading zones, we would have uniformity of color and that they would always be kept in good condition.

At a meeting of the Traffic Commission October 30, 1934, it was voted,—That subject to the approval of his Honor, the Mayor, all loading zone permits be canceled as of April 1, 1935, and that thereafter a charge of 50 cents per foot, with a minimum charge of $10, be charged on all permits issued.

These permits are to be effective for one year from date of issue.

Authority for collection of fees for permits by municipal departments is contained in chapter 571, Acts of 1910.

Respectfully yours,

WILLIAM P. HICKEY,
Commissioner.

The Rendle Contracting and Dock Builders Company have been granted an extension of the time of completion of the contract for repairing Front Wharf, Long Island, Boston Harbor, from September 28, 1934, to October 15, 1934.

PUBLIC WORKS DEPARTMENT.

The Keystone Engineering and Contracting Company have been granted an extension of the time of completion of the contract for laying bitulithic pavement in Ashmont street, Wards 16 and 17, from Neponset avenue to Carruth street, and from Dorchester avenue to Washington street, contract dated July 13, 1934, from November 1, 1934, to December 31, 1934 (P. W. A. Docket No. 4205C).

TRAFFIC COMMISSION.

The Edison Electric Illuminating Company of Boston has been granted an extension of the contract for constructing underground conduit and supplying cables for service to automatic traffic signal at Hanover street, Parmenter street and Richmond street, from October 5, 1934, to December 5, 1934.

The Edison Electric Illuminating Company of Boston has been granted an extension of the contract for constructing underground conduit and supplying cables for service to automatic traffic signal at Commercial street and Foster street, from October 27, 1934, to January 27, 1935.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to raze the following structures as fire menaces and nuisances:

The building at 9 Bower street, Ward 12, is in a dilapidated condition, windows and doors broken and open to wind and weather, a fire menace. The owner, Nathan Lesberg of 25 Nightingale street, Dorchester, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 13 Bower street, Ward 12, is in a dilapidated condition, windows and doors broken and open to wind and weather, a fire menace. The owner, Nathan Lesberg of 25 Nightingale street, Dorchester, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 174 London street, rear, Ward 1, sills rotted, building settled, wall open, dilapidated and a menace. The owner, Michael J. Shea of 172 London street, East Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

VETOES INCREASE IN PAY FOR PROBATION OFFICER.

Upon November 7 Mayor Mansfield sent the following communication to the Boston City Council:

MAYOR'S OFFICE,
BOSTON, November 7, 1934.

To the City Council.

GENTLEMEN,—I am returning herewith without my signature and with my disapproval the order adopted by your honorable body on October 29, 1934, which purports to fix the salary of the chief probation officer of the Municipal Court of the South Boston District at $3,000 per annum.

The only effect of this order, if approved, would be to provide a salary increase for a member of the probation staff of that court. In view of the policy which has prevailed in city departments for the last four years, that no salary increases should be allowed except where an employee was promoted to a position of greater responsibility and more important duties, there is no apparent reason why an exception to this policy should be made in this instance. The probation officer who has been appointed to the position of chief probation officer by the presiding justice of the South Boston District Court has been serving as head probation officer since 1932 when he succeeded Clayton H. Parmelee. Mr. Parmelee had been attached to the court for forty-three years and his salary at the time of his retirement was $2,500. His successor, if this order should be approved, would be receiving a salary of $500 more than Mr. Parmelee received although he has been attached to the court for approximately only seven years.

It has not been called to my attention that any material change has taken place in the work of the Probation Department in the South Boston District Court in the two years during which the successor to Mr. Parmelee has been serving as head probation officer.

From all of these considerations I am moved to the conclusion that there is no necessity at this time for establishing the position of chief probation officer with a basic salary of $500 in excess of that now received by the head probation officer of the court.

Respectfully,
FREDERICK W. MANSFIELD, *Mayor.*

DAMAGES ASSESSED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That in the matter of Alice J. Whitcomb, petitioner for damages occasioned by the taking in fee of 13,928 square feet of land on School street, Dorchester district, under the order of the Street Commissioners and Mayor of August 14, 1925, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of six thousand nine hundred and seventy (6,970) dollars, and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

VOL. 26. SATURDAY, NOVEMBER 17, 1934. NO. 46

FINDS IT UNWISE TO REDUCE FIRE COMPANIES FOR LADDER SERVICE IN AREAS PROPOSED BY BOSTON MUNICIPAL RESEARCH BUREAU — MAYOR MANSFIELD RECEIVES REPORT FROM NATIONAL BOARD OF FIRE UNDERWRITERS, UPON COMPLETION OF THOROUGH INVESTIGATION, POINTING TO DANGERS TO CITY AND RESIDENTS SHOULD RESEARCH BUREAU PROPOSALS BE CARRIED OUT — MAKES SOME SUGGESTIONS FOR IMPROVING SERVICE.

Mayor Mansfield has received and made public the following report from the National Board of Fire Underwriters, following their investigation of the proposals of the Boston Municipal Research Bureau relative to the rearrangement of the Fire Department.

THE NATIONAL BOARD OF FIRE UNDERWRITERS,
85 JOHN STREET, NEW YORK.

November 2, 1934.

HON. FREDERICK W. MANSFIELD, *Mayor*, and
THE FINANCE COMMISSION of the City of Boston, Mass.

GENTLEMEN,— In response to your request of August 21, we undertook a special survey of the Fire Department and the general fire protection conditions in the City of Boston. We considered also a report issued in June, 1934, by the Boston Municipal Research Bureau.

That report bases its findings largely on a comparison with conditions in other large cities and on that section of the Grading Schedule of the National Board of Fire Underwriters which specifies suitable distribution of companies, which section is primarily concerned with having one company within a specified running distance of any point in the city. There is another section in the Schedule which reads as follows:

"For cities having a population in excess of 200,000, the number of engine or hose companies depends upon distribution, as covered by Item 10, and on the ability to handle two simultaneous large fires without leaving all other sections of the city unprotected."

That is, companies should be so located that all parts of the city will be given protection, and further, that there can be a concentration of companies with relatively short runs to any high value district and still leave all other parts of the city with nominal protection.

These features must be determined from an actual survey of the city in which consideration is given to the class of occupancies, values, construction and heights of buildings, layout of streets, location and congestion of manufacturing and minor mercantile groups and the general topography as it affects the concentration of fire apparatus in these high-value districts.

Boston, with its forty-four square miles of territory, is extensively developed. The main part of the city is approximately ten miles long and from one to five miles wide, bounded on two sides by water; the high value mercantile district is located near the north end. Beyond it, and across the harbor and the Charles river, are East Boston and Charlestown connected by a tunnel and by two bridges, respectively, to the main part of the city. Another almost detached section is Brighton. These three sections may almost be considered as separate communities, as companies withdrawn from them for fires in other parts of the city cannot be replaced except by companies coming long distances and through sections where traffic is congested and progress slow. It therefore follows that not all the companies in these three detached sections should be called to serious fires in Boston proper.

Narrow, Winding Streets.

Streets in the high value section of Boston are narrow, winding and often congested. Leading to this area are only a few through streets from other parts of the city, and travel across the city is slow, which increases the difficulty of any company covering a large section at a time when many companies have responded to a serious fire. The highest values are in the City Proper and along the waterfront, which produces a concentration at one end of the area protected, and necessitates a preponderance of protective equipment in and near that section. Some of the companies in the outlying area are five to eight miles from the congested value district and cannot be considered as readily available to that district.

That Boston has need of heavy response to many of the high value sections is proven by past experience. Further confirmation is obtained by a consideration of the values involved, and the potential hazard of many of the buildings. Though largely concentrated in the City Proper, there are many manufacturing plants, minor mercantile districts and large institutions in other parts of the city; in East Boston and Charlestown especially are located many solid blocks of three-story frame tenements, in Dorchester and other sections are large areas of frame three-deckers, and there are many four and five story apartment and tenement houses of ordinary brick construction located between Roxbury and Dorchester and the congested value section. The probability of serious group fires is great and the need of adequate protection is apparent; it is important that companies be concentrated in any of these districts with relatively short runs.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

To THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasolene, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

To THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

To THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

To THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

To THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, the Airport, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mt. Hope, Evergreen, Fairview, and other public cemeteries owned by the City of Boston.

To THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

To THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

To THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

To THE STATISTICS DEPARTMENT, Room 76, City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

To THE WIRE DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

To THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

FRENCH MINISTER OF COLONIES THANKS BOSTON CITIZENS, THROUGH MAYOR MANSFIELD, FOR RECEPTION AND ENTERTAINMENT WHILE VISITING CITY — MAKES GIFT TO PUBLIC LIBRARY.

Mayor Mansfield and Paul Crouzet of France, Minister of Colonies, have exchanged letters as follows:

REPUBLIC OF FRANCE,
LIBERTY, EQUALITY, FRATERNITY.
PARIS, October 18, 1934.

Inspector of the Academy of Paris.
Inspector Consul of Public Education
to the Ministry of Colonies.
Director of the Grand Revue.

MR. FREDERICK W. MANSFIELD,
Mayor of Boston, Massachusetts,
U. S. A.

MR. MAYOR,—Upon my return to France I retained an unforgetable impression of the charming reception which the City of Boston accorded, the 6th of September last, to a representative of France come to follow the trail of his countrymen who were in North America the pioneer forerunners of the American pioneers.

But if I retain a lively gratitude to yourself and to all the friends of France to whom I was introduced on that day, I have brought back also the deepest admiration for a city of such intellectual power and refinement.

It seems that the great position held by Boston in her territory, through her institutions and universities, may be comparable to the position of science itself in American life.

Kindly accept, Mr. Mayor, together with the renewal of my sincere thanks, the expression of my highest admiration.

PAUL CROUZET,
15 Rue de Bocqueville, Paris.

P. S.—I was not able to appreciate all particularly the magnificent Boston Library, and I would be happy to offer to it, as a souvenir of my stay, some volumes, which I trust you will accept for the library.

I should be able to dispatch these to you immediately upon my return to Paris.

CITY OF BOSTON,
MAYOR'S OFFICE, November 13, 1934.

MR. PAUL CROUZET,
15 Rue de Bocqueville, Paris, France.

DEAR MR. CROUZET,—I hasten to acknowledge the receipt of your letter of October eighteenth written from Paris, and also the five volumes of French literature which you were good enough to send to me, and which I am most pleased to accept for the Boston Public Library.

I regret very much that I was unable personally to meet you when you were in Boston, but trust that I may, upon your next visit to Boston, have that opportunity.

I am sending the books to the Boston Public Library with a copy of your letter and you will receive, in due time, an acknowledgment from the Trustees of the Library.

Yours truly,
FREDERICK W. MANSFIELD, *Mayor.*

The volumes were all written in the French language and were: Copy of "Notre Racine." Copy of "Notre Corneille." Copy of "Histoire Illustree de la Litterature Francaise." Copy of "Les Grands Ecrivains de France Illustres" (two volumes).

FIRE DEPARTMENT ORDERS.

General Order No. 74.

I. AMERICAN RED CROSS.

The Fire Commissioner wishes to direct the attention of the members of the Boston Fire Department to the annual roll call of the American Red Cross which begins on Armistice Day, November 11, 1934. Because of the unusual demands made upon this great organization of mercy during the past few years a special appeal is being made to all citizens of the United States this year to renew their membership. His Honor, Mayor Mansfield, cooperating with the Boston Metropolitan Chapter, is particularly anxious that the employees of the city enroll 100 per cent, not only to give financial support to the charitable work of the Red Cross, but to give indorsement of the motives and principles of this splendid organization.

It should be borne in mind that the American Red Cross is not an organization which operates only in time of war, disaster, flood or some other catastrophe, but operates as a relief organization in any emergency, even to lending assistance in individual cases.

In order that the members of the Fire Department may renew their membership promptly the Fire Commissioner has delegated the members of the department who usually sell tickets for the ball of the Boston Firemen's Relief Fund to visit all the fire stations of Boston, from Tuesday, November 13, to Saturday, November 17, 1934, and solicit membership from each member of the department. Membership buttons, cards and pennants will be given to those members who subscribe and the solicitors will return to the Fire Commissioner subscription lists assigned to each company with the names of those who enroll. These lists and all membership dues will be returned to the office of the Fire Commissioner at 10.30 a. m., Monday, November 19, 1934.

The Fire Commissioner urges all members of the department to cooperate in this wonderful movement and he looks forward to an opportunity to report to his Honor the Mayor that the Boston Fire Department has enrolled 100 per cent in the American Red Cross, each member contributing at least $1.

By order of Fire Commissioner EDWARD F. McLAUGHLIN.

HENRY A. FOX,
Chief of Department.

General Order No. 75.

I. RELOCATION OF FIRE ALARM BOXES.

The following changes in fire alarm boxes are hereby published for the information of the department:

Box 3317, from Greenwood and York streets to Greenwood and Fowler streets.

Box 3523, from William Bradford School, Willowwood street to Willowwood street and Winston road, auxiliary William Bradford School.

New assignment cards for the abovementioned boxes are being issued to the department today, dated November 14, 1934. Old assignment cards for these boxes will be returned to headquarters on or before Saturday, November 17, 1934. Company commanders will write the name of the company on the back of each assignment card returned.

II. ELECTION OF OFFICERS CHARITABLE ASSOCIATION.

The attention of the members of the department is called to Article 5 of the constitution and By-Laws of the Charitable Association of the Boston Fire Department, concerning the nomination of trustees for this organization.

The Board of Chiefs and each district of the fire-fighting force of the Boston Fire Department, including District 16 (so called), and the Boston Protective Department, shall submit the name of any candidate or candidates for the office of trustee of the association to the secretary on or before the first Monday in December of each year.

Attention of the district chiefs is called to the fact that it does not mean a man from each house, unless member desires to be a candidate.

Nominations should be sent to the secretary, George F. Frazier, Ladder Company 3.

From the list of nominations received there shall be elected on the third Monday in December, one trustee to represent the Board of Chiefs, two trustees in each district to represent the fire-fighting force and one trustee to represent the Boston Protective Department.

III. BOSTON AUTOMATIC FIRE ALARM.

The following additions have been made to the assignment cards of the Boston Automatic Fire Alarm Company:

Signal No. 252, building 26-30 Winter street, first and second floors. Apparatus to respond: Engine 4, Ladder 24, District 5. Nearest city box 1441.

Signal No. 253, 26-30 Winter street, third floor and above. Enter Winter place. Apparatus to respond: Engine 4, Ladder 24, District 5. Nearest city box 1441.

A new assignment card for the Boston Automatic Fire Alarm Book, page 10, is being issued to the department today. This card is dated November 7, 1934, and is to replace page 10, dated February 24, 1932. Company commanders will return old assignment cards in the envelopes provided on or before Saturday, November 17, 1934.

IV. COMMENDATIONS.

Hoseman John E. Simmons of Engine Company 2 is hereby commended for extinguishing a fire in Head place, Tuesday, October 30, 1934, without calling the fire apparatus. Hoseman Simmons was off duty at the time.

Lieutenant John F. Pettit of Engine Company 25 and Ladderman Joseph W. Griffin of Ladder Company 11 are hereby commended for responding to and working at fire, Box 5298, November 8, 1934, while off duty.

By order of Fire Commissioner EDWARD F. McLAUGHLIN.

HENRY A. FOX,
Chief of Department.

REPORT OF FIRE UNDERWRITERS.

(*Continued from page 1193.*)

Department records since 1929 show that Boston has had an average of 69 second, 15 third, 2 fourth and 1 fifth alarm fires yearly, calling from 6 to 10 engine and 3 or 4 ladder companies on a second alarm and 18 to 26 engine and 4 to 6 ladder companies on a fifth alarm.

Protection Problems.

The data in the following table, for eight of the twenty-three simultaneous multiple alarm fires which have occurred in the past eight years, is indicative of the probability of the city's protection being greatly depleted. These figures, however, do not tell the whole story. During this relatively short period the maximum call for apparatus to simultaneous multiple alarms has been for a 4th and a 3d, but in all of these cases other alarms, for fires in other parts of the city, have further reduced the number of companies available for response, and this to such a degree that aid has been requested from other municipalities.

1–3d and 1–2d	22E, 8L	29E, 23L

* This column does not indicate the protection available at all times during the period of the fires, as other alarms further reduced the number of companies in quarters. On July 4, 1930, during a 6th alarm fire there were also 40 box and 29 still alarms received for other fires, and at times the number of companies in quarters was reduced to 10 engines and 16 ladders.

We may well consider earlier fires in Boston, such as that in the Pope Manufacturing plant in 1896 when a general alarm was required; or the occasion in 1910 when simultaneously with a general alarm for a lumber fire in Albany street, a 4th alarm was sounded for the fire which destroyed a large plant on High street; to aid and protect the city during this time sixteen cities sent companies.

Without considering the probability of two simultaneous alarms of greater seriousness than those shown in the table, there are certain needs which must be considered in a study of the number and location of engine companies.

No response to other parts of the city should ever reduce the number of engine companies below two in each of two of the isolated districts, namely, Charlestown and East Boston, and below one in Brighton.

Those conversant with conditions in Boston have ever felt the need of quick response of ladder trucks in all parts of the city, to reduce the life hazard from fire. This has resulted in a proportionally greater number of ladder companies than in other cities.

For serious fires, for which multiple alarms are sent, ladder companies are not in great demand, as indicated by a ratio on a 4th alarm of 21 engines to 6 ladders. At time of simultaneous multiple alarms, there is a preponderant proportion of ladder companies (21 out of 31) still in quarters. These ladder companies, while capable of performing their normal function of life saving, are not equipped to operate as fire extinguishing units.

Conclusions.

The need of fire defense in a city involves two considerations, the prevention of property damage and the saving of life or personal injury from fire.

Both of these require quickness of response, in order to reach the scene of action in the early stages. This is a function involving distribution and location of companies. A study of the Boston Fire Department indicates that some relocation of fire stations could be made which would give equal or better distribution, and which would permit discontinuance of one or more companies, but this will involve considerable expenditure for new stations and sites, and the economic advantage is questionable except as to a new station near the entrance to the tunnel to East Boston. When this station is built it should be designed to house Engine 8 and Ladder 1, and with the completion of the new station Ladder Company 31 in East Boston may be discontinued.

Prevention of property damage involves not only protection for the individual buildings, but of even greater importance the prevention of sweeping fires or conflagrations, or the destruction of plants affecting the economic welfare of the city. Such protection is primarily furnished by engine companies, and man power to handle the required number of streams is essential. The probability of two or more serious fires and of a multiplicity of additional alarms, when viewed in the light of topographic conditions and congestion of values, indicates that the present number of engine companies should be maintained except as noted in the next paragraph.

Life safety, in the opinion of those responsible for it, requires a large number of ladder companies, as quickness of response is a vital factor; therefore it would be unwise to reduce the number of companies equipped to render ladder service. However, the ladder companies left in quarters are in preponderance at time of simultaneous multiple alarm fires, and the men assigned to some of them might well be equipped so that they can extinguish fire as well as perform ladder work. To accomplish this, extra pumping engines and hose could be located at certain existing stations, with provision for designated ladder companies to man and respond with this equipment and their ladder equipment at such times as the territory is left unprotected because of the demands of multiple alarms. The provision of additional engine equipment on the above basis in four stations would permit the discontinuance of two of the existing engine companies.

Another function which some of the ladder companies might well perform is that now cared for by the rescue companies. If a suitable number of the ladder companies are properly equipped and trained they will be able to render at least as good service as is now provided by the separate rescue companies, which may then be discontinued.

We believe that the principles set forth above are sound, and that they suggest means whereby adequate protection can be furnished at less cost than at present. After you have submitted this report to the Fire Commissioner, as we presume you will do, and he has had opportunity to study it, we shall be glad if you so desire to come to Boston for further conference.

Yours very truly,

Geo. W. Booth,
Chief Engineer.

PROPOSALS ADVERTISED.

Bids have been asked by advertisement in the *City Record* for the following departments. The attention of contractors and others is especially called to the closing time of receipt of such proposals. This will be published weekly.

Institutions Department.

Advertises for proposals for erecting fire escapes at Long Island, Boston Harbor. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Institutions Department, Room 809, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, November 20, at 12 m.

Public Works Department.

Advertises for equipment and the lighting and extinguishing of gas lamps for the City of Boston, excluding Hyde Park, for a term of five years beginning January 1, 1935. Surety bond will be required in a sum equivalent to $50,000. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $10,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, November 30, at 12 m.

Advertises for proposals for furnishing gas for street lighting for the City of Boston, excluding Hyde Park, for a term of five years beginning January 1, 1935. LIBRARY DEPARTMENT.

BOSTON, November 9, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

YOUR HONOR,—Your approval is respectfully requested of the following emergency action that was taken here at the library without public advertising for bids.

On Wednesday, August 1, a fragment of granite, weighing approximately seventy pounds, fell from the southeast corner of the cornice of the library building and dropped to the sidewalk. Although this is the busiest corner of the building, fortunately no one was injured. Upon recommendation of our architect, Mr. Edwards Gale, and upon notification to the Building Commissioner, Mr. Edward Roemer, emergency action was taken immediately to erect a staging for the purpose of investigating the cornice. This emergency work was entrusted to the Walter A. Wentworth Company, since this company has had extensive experience in work upon the Central Library building in the past in connection with which it had been invariably the low bidder.

The work of repair proceeding, it developed upon inspection that the same sort of disintegration was apparent on

three other cornice corners of the roof and that they required immediate attention. As the repairing of the original break required the erection of staging which was still in place, the additional work, being also of an emergency nature, was given to the Wentworth Company. The total cost is $1,428.53.

Respectfully submitted,

THE TRUSTEES OF THE PUBLIC LIBRARY OF THE CITY OF BOSTON,
F. W. BUXTON,
Vice President.

PUBLIC WORKS DEPARTMENT.
BOSTON, October 31, 1934.

To the Honorable Mayor.

On August 13, 1934, your Honor approved a contract with Edward J. Lang, of 206 Princeton street, East Boston, for furnishing his services and equipment for the inspection of electric welded steel water main to be used in the work being done under P. W. A. Dockets 4212 and 7223. This contract was awarded without advertising and covered the period from August 1 to November 1, 1934, at the rate of $250 per month.

Mr. Lang's services have been entirely satisfactory, and as the work for which he was engaged has not been completed, I respectfully request permission to award another contract to him, without inviting bids therefor by advertising, for an additional three months from November 1, 1934. The rate of payment under this contract will be the same as that being paid under his present contract, namely, $250 per month.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

MAYOR MANSFIELD FELICITATES CARDINAL O'CONNELL.

Upon November 14 the Mayor made public the following message to His Eminence, Cardinal O'Connell:

WILLIAM CARDINAL O'CONNELL, *Archbishop of Boston,* care of Rev. MAURICE S. SHEEHY, Catholic University of America, Washington, D. C.

Boston and all of its people join with your innumerable friends all over the world in extending greetings and felicitations to you upon this, one of the most important of many important days that have marked your career as a great churchman and as an American citizen.

FREDERICK W. MANSFIELD,
Mayor of Boston.

POLICE DEPARTMENT ORDERS.

General Order No. 583.

Lieut. Melvin A. Patterson, Bureau of Operations, is commended for efficient service performed in connection with the arrest on September 27, 1934, of a person for sounding false alarms. The close proximity of the calls sounded from the same territory prompted Lieutenant Patterson to send out several radio messages to adjoining divisions for the purpose of concentrating radio patrol cars in the territory in which the alarms had been sounded and resulted in the capture of the person responsible by Patrolmen John F. McCarthy and Edward J. Burdge, both of Division 13.

The commissioner is pleased to recognize the judgment exercised by Lieutenant Patterson in utilizing his knowledge and in demonstrating the effectiveness of the radio service.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 587.

It gives the commissioner pleasure to publish the following letter from his Honor the Mayor:

CITY OF BOSTON,
OFFICE OF THE MAYOR,
November 5, 1934.

HON. EUGENE C. HULTMAN,
Police Headquarters.

DEAR COMMISSIONER HULTMAN,—I am very much interested in the success of the Red Cross Drive and have already communicated with the various heads of the departments, through one of my secretaries, urging their hearty cooperation and asking them to lay before the members of their departments an invitation to become members of the Red Cross. Of course there is nothing obligatory about this and every city employee may feel entirely free to accept or reject membership as he pleases without the slightest feeling of compulsion, but I should be personally much pleased if every city employee would become a member of the Red Cross Society. It only costs a dollar a year and if you will present this matter to members of your department in any way that commends itself to you I will be greatly obliged to you.

Yours truly,

FREDERICK W. MANSFIELD, *Mayor.*

The great charity of the Red Cross has experienced great difficulty during the last two years to obtain funds to carry on their great organization.

The commissioner, therefore, joins with his Honor the Mayor in urging all members of the department, who feel that it is financially possible for them to do so, to assist the Red Cross Society at this time.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 588.

Patrolman Linwood S. Leavitt of Police Division 1 having arrived at the age of sixty-five years and having performed faithful service in the Police Department for twenty-eight and eleven-twelfths years, it is hereby

Ordered, His Honor the Mayor having approved the same, that the said Patrolman Leavitt be retired from active service and that his name be placed upon the department pension roll with pay at the rate of ten hundred and fifty (1,050) dollars per annum (payable monthly), said sum being one half of the amount of compensation received by him in the office from which he is retired, previous to a 15 per cent reduction in pay, which went into effect April 21, 1933.

Note.

By chapter 121, Acts of 1933 (having to do with reductions in pay), provision is made for the retirement for those in a non-contributory system, at half of the rate of compensation received before such reduction.

The retirement of Patrolman Linwood S. Leavitt, as herein provided, will take effect at 7.45 o'clock a. m., Wednesday, November 14, 1934.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 589.

Sergt. Jeremiah S. Healy of the City Prison having arrived at the age of sixty-five years and having performed faithful service in the Police Department for thirty-four and ten-twelfths years, it is hereby

Ordered, His Honor the Mayor having approved the same, that the said Sergeant Healy be retired from active service and that his name be placed upon the department pension roll with pay at the rate of twelve hundred and fifty (1,250) dollars per annum (payable monthly), said sum being one half of the amount of compensation received by him in the office from which he is retired, previous to a 15 per cent reduction in pay, which went into effect April 21, 1933.

Note.

By chapter 121, Acts of 1933 (having to do with reductions in pay), provision is made for the retirement for those in a non-contributory system, at half of the rate of compensation received before such reduction.

The retirement of Sergeant Healy, as herein provided, will take effect at 7.45 o'clock a. m., Wednesday, November 14, 1934.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 590.

Whereas, It appears that Patrolman Thomas F. Murray of Division 7 has performed faithful service in the Police Department for thirteen and eight-twelfths years, that the Medical Board, provided for by chapter 521 of the Acts of 1922, has certified that the said Patrolman Murray is physically incapacitated, and that the said Patrolman Murray has applied for retirement from active service, it is the judgment of the Police Commissioner that the said Patrolman Murray is permanently physically incapacitated for useful service in the Police Department on account of injuries received in the actual performance of duty as a police officer; therefore, it is hereby

Ordered, That, with the approval of his Honor the Mayor, the said Patrolman Murray be retired from active service in the Police Department under the provisions of chapter 353, Acts of the year 1892, as amended by chapter 6, Acts of the year 1920, and chapter 387, Acts of the year 1930, and that his name be placed upon the department pension roll with pay at the rate of one thousand and fifty (1,050) dollars per annum, said sum being one half of the amount of compensation received by him in the office from which he is retired, previous to a 15 per cent reduction in pay, which went into effect April 21, 1933.

Note.

By chapter 121, Acts of 1933 (having to do with reductions in pay), provision is made for the retirement of those in a non-contributory system, at half of the rate of compensation received before such reduction.

The retirement of Patrolman Murray, as herein provided, will take effect at 7.45 o'clock a. m., Wednesday, November 14, 1934.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 591.

Whereas, It appears that Patrolman Harry Chubbuck of Division 13 has performed faithful service in the Police Department for fifteen years and that the Medical Board, provided for by chapter 521 of the Acts of 1922, has certified that the said Patrolman Chubbuck is physically incapacitated,—it is the judgment of the Police Commissioner that the said Patrolman Chubbuck is permanently physically incapacitated for useful service in the Police Department on account of injuries received in the actual performance of duty as a police officer; therefore, it is hereby

Ordered, That, with the approval of his Honor the Mayor, the said Patrolman Chubbuck be retired from active service in the Police Department under the provisions of chapter 353, Acts of the year 1892, as amended by chapter 6, Acts of the year 1920, and chapter 387, Acts of the year 1930, and that his name be placed upon the department pension roll with pay at the rate of one thousand and fifty (1,050) dollars per annum, said sum being one half of the amount of compensation received by him in the office from which he is retired, previous to a 15 per cent reduction in pay, which went into effect April 21, 1933.

Note.

By chapter 121, Acts of 1933 (having to do with reductions in pay), provision is made for the retirement of those in a non-contributory system, at half of the rate of compensation received before such reduction.

The retirement of Patrolman Chubbuck, as herein provided, will take effect at 7.45 o'clock a. m., Wednesday, November 14, 1934.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

AMENDMENT TO REGULATIONS

The Superintendent offered the following:

ORDERED, That the regulations are hereby amended as follows:

Section 322, paragraph 1. Strike out the paragraph and substitute in place thereof the following:

SECT. 322. 1. The superintendent may grant, subject to the approval of the School Committee, leaves of absence to teachers and members of the supervising staff, except the supervising nurse, assistant supervising nurses, and supervising school physicians, for study and travel, or for rest, for a period not exceeding one year, such leave to take effect at the beginning of a school year and be for the full year.

Leave of absence for study may, in the discretion of the superintendent, be granted for a one-half year period, provided that such leave shall take effect only at the beginning of the school year or at the beginning of the second semester, Feb. 1, and shall be for a full semester. Such half-year leave shall count as a full year's sabbatical leave.

Teachers and members of the supervising staff become eligible for a leave of absence for study, or for study and travel, after the completion of seven consecutive years of service, and for a leave of absence for rest, after twenty consecutive years of service in the schools of the City of Boston; provided, that leave of absence for rest may begin with any school year in the course of which the required twenty years of service shall have been completed.

Before any leave may be granted, applicants shall file with the superintendent upon a form prescribed by him, statement of the definite purpose for which the leave of absence is desired.

Laid over.

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt $100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt or Bitulithic Pavement in Hyde Park Avenue," and left at Room 508, fifth floor, City Hall Annex, before 12 m. standard time, on Monday, December 3, 1934, accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank or trust company in the sum of four thousand seven hundred dollars ($4,700), payable to the City of Boston. Checks will be returned after execution of the contract on demand. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. Bids must be made upon the prescribed proposal form. Special attention of the bidder is called to all provisions of the Federal Emergency Administration of Public Works, which form a part of the contract, including the prescribed minimum rate of $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor, and to the special provision as to semi-skilled labor. Pursuant to executive order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March 19, 1934) duly executed by the bidder. Plans, specifications and contract forms may be obtained at Room 508, City Hall Annex, upon the deposit of the sum of five dollars ($5). A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any and all proposals, or to accept any proposal deemed best for the interest of the City of Boston and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employees lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, NOVEMBER 24, 1934. NO. 47

MAYOR MANSFIELD ADOPTS NEW SYSTEM FOR CONTROLLING OF DISBURSEMENT OF CITY'S FUNDS WHEREBY THERE WILL BE A CONTROLLING OF APPROPRIATIONS BEFORE EXPENDITURES OR COMMITMENTS ARE MADE — SYSTEM PROPOSED BY CITY AUDITOR CHARLES J. FOX TO BE PUT INTO EFFECT ON JANUARY 1 — TO SAFEGUARD LEGALITY OF ALL TRANSACTIONS AGAINST LACK OF ADEQUATE APPROPRIATIONS AT TIME OF CONTRACTING BILL — DEPARTMENT HEADS NOTIFIED OF CHANGE.

Mayor Mansfield, at the suggestion and by the proposal of City Auditor Charles J. Fox, is instituting a new system of controlling the disbursement of the city's funds whereby there will be a controlling of appropriations before expenditures or commitments are made. This will allow for an exact knowledge of the status of disbursements and obligations of the city at all times. There will thus be never a question of the legality of any transaction with the city by reason of any lack of adequate appropriation when the bill or contract is made. The new plan is to be put into effect as of January 1, 1935, and notices and instructions as to the operation of the plan have been placed in the hands of all department heads. In presenting the scheme for the approval of the Mayor City Auditor Fox wrote as follows:

CITY OF BOSTON,
AUDITING DEPARTMENT,
CITY HALL, November 15, 1934.

HON. FREDERICK W. MANSFIELD, *Mayor of Boston.*

DEAR SIR,— I have prepared a tentative outline of a proposed procedure for controlling disbursements by the city which I plan, with your approval, to put into effect as of January 1, 1935. In brief this proposed plan provides for controlling appropriations before expenditures or commitments are made, through the encumbrance method — the actual recording and charging in the Auditing Department of all obligations as they are entered into and not after invoices have been submitted by vendors indicating completion of transactions.

Under such a method it will be possible at all times to ascertain the exact status of the disbursements and financial obligations of the city. Individuals, firms, and corporations dealing with the city will be assured of the legality of all transactions, since certification by the Auditor as to the existence of adequate appropriations will be a condition precedent to the initiation of all transactions in which the city will have a financial interest or obligation. To assure complete and full control over disbursements it is proposed that all invoices shall be returned by vendors to the Auditing Department rather than to the responsible departments. Under this proposal the payment of invoices will be expedited and the city will be assured of taking full and complete advantage of all discounts offered. In this latter connection it is proposed that the discounts taken shall be treated as revenue or income to the city rather than, as at present, increasing the spending power of the several departments.

The following table presents the main points of difference between the present and proposed disbursement methods:

Present Procedure.	Proposed Procedure.
1. Control exercised after expenditures have been made. Payment of invoice withheld only when an appropriation has been over-drawn or over-expended.	1. Control exercised before any commitment has been made. Sufficiency of appropriation to be certified by Auditor before any transaction is initiated.
2. Auditing and checking of departmental expenditures take place "after the fact."	2. Auditor's office will have advance information concerning all financial obligations of the city.
3. Submission of invoices for payment controlled solely by departments, thus creating possibility of undue delay in the discharge of obligations.	3. Serving as a central receiving and distributing invoice agency, the Auditor's office will be in a position to require definite explanation for any undue delay in the submission of invoices for payment.
4. Vendors in accepting orders "in good faith" have no legal assurance of payment when transaction is completed.	4. Vendors will receive a guarantee of the existence of an adequate appropriation in advance of engaging in any transaction with a city department.
5. Approval of transfers in Budget appropriations "a necessary evil," to match "good faith" on the part of vendors.	5. The necessity for appropriation modifications and changes will be carefully weighed and considered in advance of any commitment.

POLICE AND TRAFFIC DEPARTMENTS MAKE REPORT OF CHECKUP ON TRAFFIC IN CERTAIN DOWNTOWN CONGESTED STREETS. ALSO MAKE RECOMMENDATIONS CALCULATED TO FACILITATE FLOW OF VEHICLES IN WASHINGTON AND TREMONT STREETS.

The Mayor's office has made public the following:

BOSTON, July 16, 1934.

Subject: Communication of June 13, 1934, from John F. Gilmore, Jr., Assistant Secretary to the Mayor, with attached order from the City Council dated May 28, 1934, "That the Traffic Commission and the Police Department through his Honor the Mayor, be, and hereby are, respectfully requested to make a checkup and survey, for possible improvements of traffic conditions on Washington street and on Tremont street, especially during the hours from 9 a. m. to 11 a. m. and from 4 p. m. to 6 p. m.

A checkup and survey was made of Washington street and Tremont street in conjunction with the Police Department during the past three weeks and the following suggestions are made for the relief of traffic in these two streets.

Move the taxi stand from the west entrance of the Parker House in School street to east of the entrance.

Remove the six-cab taxi stand on the Common side of Tremont street, between Winter and Temple place, and prohibit parking on the Common side of Tremont street, from Temple place to Park street.

Enforce the 20-foot corner restrictions at the northwest corner of Park and Tremont streets, and at the corner of State and Washington streets.

Enforce the parking restrictions in Tremont street, between Boylston street and Stuart street and between Park street and Scollay square.

Enforce the parking restrictions in Washington street, from Stuart street to Adams square. The parking is particularly bad in that portion of Washington street, from Stuart street to Boylston street, and from Winter street to Adams square.

Allow parking in both sides of Temple place except on the north side for a distance of 150 feet easterly from Washington street.

Paint a center line in Temple place for its entire length so as to encourage two lanes of traffic to move through this street.

Abolish a special taxi stand in the east side of Tremont street, near St. Paul's Cathedral. This stand seriously interferes with northbound traffic in Tremont street. A more strict enforcement of the legal intersection restriction within this area would speed up traffic, especially traffic entering or leaving the connecting streets between Tremont street and Washington street.

The American Railway Express Company often park their trucks in Washington street, one on either side of the street opposite one another, and remain parked for considerable lengths of time so that at least one lane of traffic is shut off by this parking. Suggest that the American Railway Express Company be requested to have their trucks stop only in one side of Washington street.

Suggest that more taxi stands be established in Washington street and some of the streets leading into Washington street, and then prohibit cruising cabs from picking up passengers in this area except from an official stand. At the present time cruising taxis comprise from 15 per cent to 25 per cent of the total traffic in Tremont and Washington streets. On rainy days conditions are made extremely bad on account of these cruising cabs, crawling along at a snail's pace, stopping at an intersection before the signals change and stalling after the green "go" signals show, thus slowing up traffic so that jams are caused that affect the entire area.

At the present time Washington street carries from 10,000 to 12,000 vehicles between 8 a. m. and 6 p. m. This is pretty nearly the capacity of the street. On both of these streets we have to consider the large pedestrian traffic at all intersections. In the year 1933 we only had two accidents in which persons were injured at Summer street and Washington street. This is very remarkable when you consider that on some days there are over 200,000 pedestrians passing through this intersection.

A police chauffeur made speed runs at 10 a. m. and 4.30 p. m. on five different days starting at Stuart street and Washington street, going by way of Washington street, Brattle street and along Tremont street to Stuart street. The average time of this run is about fourteen minutes. This is at the rate of over six miles per hour during the busiest hours of the day.

Parking in School street and in Newspaper row causes delays in School street and Washington street. There are times that it takes from ten to twenty minutes to pass through School street. Cars park in both sides of Newspaper row so that only one lane of vehicles can get through. A heavy left turn from School street and three lanes of traffic from Washington street have to release by one lane through newspaper row. If this condition was relieved by strict enforcement of the present parking restrictions, conditions would be greatly benefited.

DEAR MR. MAYOR,—Not only personally, but also on behalf of my superior officer, Hon. William J. Day, and 340 unemployed professional musicians, I want to express sincere appreciation to you for the very kind gesture on your part by granting me the use of Faneuil Hall to give delightful concerts — Symphony and Band — to the citizens of Boston. The musicians of Boston are deeply grateful to you as it is too cold to be on Boston Common.

My best wishes to you and Mrs. Mansfield for health and happiness always.

Most sincerely,

NEW SYSTEM FOR CONTROLLING OF DISBURSEMENTS OF CITY'S FUND.

(*Continued from page 1209.*)

Present Procedure.	Proposed Procedure.
6. Delay in handling of invoices on which discounts are offered for prompt payment may militate against the city taking advantage of cash savings.	6. Invoices involving cash discounts will receive special treatment so as to assure full and complete advantage being taken of proffered cash savings.
7. Discounts taken increase spending power of departments.	7. In accordance with well-established business practice, discounts taken will be treated as an item of general revenue.
8. Lacking complete information at any one time concerning outstanding obligations, it is impossible to prepare promptly a true statement of the financial condition of the city.	8. Possessing an up-to-the-minute record of all commitments, it will be possible at any time for the Auditing Department to prepare promptly a complete picture of the financial position of the city.
9. Office methods that have prevailed for years still in vogue in various departments.	9. To assure the proper working out of the proposed plan it will be necessary to take advantage of the latest features and developments in office equipment, such as mechanical postings, multifold writing of orders, standardization of forms, extended use of adding machines, comptometers, etc.

It is my sincere opinion that a well-knit central disbursement agency such as is proposed in the following pages will bring about economies of expenditures not possible under the present system of decentralized expenditure control.

It is my intention to submit this tentative proposal to various department heads and officials for their consideration and criticism. Any modifications or changes which may be suggested will be carefully considered and, if found feasible or practicable, will be incorporated into the plan before it is placed in operation.

Respectfully,

CHARLES J. FOX,
City Auditor.

Approval for the inauguration of the new system and for the printing of the instructions for department heads was given in answer to the following request.

BOSTON, November 16, 1934.

HON. FREDERICK W. MANSFIELD, *Mayor of Boston.*

DEAR SIR,— In order to establish a standard and uniform procedure in city departments in the charge and accounting for departmental disbursements, I have had prepared a classification of budget appropriations by objects of expenditure. In this classification each object and item of expenditure is defined so as to indicate in general the character of expenditures which may properly be charged under the various items and approximately 1,800 commodities and services have been listed alphabetically so as to indicate the proper item against which each is to be charged.

This classification when printed will be distributed to all city and county departments. The general scope of this work and the fact that it concerns and will undoubtedly benefit every city and county department, makes me feel that the expense of printing the classification should be charged against the appropriation for City Documents rather than against the Auditing Department.

Under the provisions of section 2, chapter 24, of the Revised Ordinances, the Superintendent of Printing may print in the form of a city document any matter ordered by the Mayor. I, therefore, recommend that the Superintendent of Printing be directed to print this classification as a city document and charge the expense of such printing to the appropriation for "City Documents."

Respectfully,

CHARLES J. FOX,
City Auditor.

*Contract awarded.

Upon November 17 the Mayor approved a contract with the Pratt Paper Company for furnishing paper to the Boston Public Library.

After the opening of bids, the proposals were submitted to the Library Department for consideration and recommendation and the Chief of the Printing Department strongly recommends that the award be made to the Pratt Paper Company, on the first item, at 57 cents per pound, for the No. 62, white, as specified.

He has notified this department that the alternate bid of the Pratt Paper Company of 52 cents for No. 2 Grade, and the bid of the Fort Hill Paper Company of 52½ cents on "Resistall" are not of sufficient quality of paper for the work he has in mind.

On the second item of 200 reams of white Somerset Bristol, the Pratt Paper Company is the lowest bidder at 8½ cents per pound.

Bids, opened November 6, were as follows:

Ten thousand Sheets L. L. Brown's Hydroiloid Index Bristol, Twenty-two and One-half by Twenty-eight and One-half, No. 62, White, Grain the Long Way, Wrapped in Hundreds, Cased, and Delivered at the Library, Per Pound.—Fort Hill Paper Company, L. TRANSFER OF APPROPRIATIONS.

City Auditor Charles J. Fox announces the following transfers in appropriations in departments of the City of Boston and County of Suffolk, indorsed by the Acting Budget Commissioner and approved by his Honor the Mayor:

AUDITING DEPARTMENT.

BOSTON, November 14, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Under authority of section 3 of chapter 486 of the Acts of 1909, and amendments thereto, I will, with your approval, make the following transfers:

From the appropriation for Reserve Fund, $25,000, to the appropriation for Park Department, Item H, Emergency Relief Projects, $25,000.

From Fire Department, A-1, Permanent Employees, Personal Service, $8,500, to Fire Department, Wire Division, A-1, Permanent Employees, Personal Service, $8,500.

Respectfully yours,
CHARLES J. FOX,
City Auditor.

The above transfers were made by the City Auditor with the approval of the Mayor November 16, 1934.

ELECTION DEPARTMENT.

BOSTON, November 16, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Election Department:

From the appropriation for A-1, Permanent Employees, Assistant Registrars, 16 at $2,200 ($1,870) a year, $960; A-1, Assistant Registrar, 1 at $1,600 ($1,400) a year, $720, to the appropriation for A-2, Temporary Employees, $1,680.

This transfer is requested to meet pay rolls (under their proper budget item) not anticipated when the budget of the current year was compiled.

Respectfully,
DAVID B. SHAW,
Chairman.

The above transfer was made by the City Auditor with the approval of the Mayor November 20, 1934.

PARK DEPARTMENT.

BOSTON, November 6, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—On August 27, 1934, I submitted a request for an additional sum of $40,000 to be allowed on the "H" budget appropriation, as the amount of $120,000 allowed up to that time was completely encumbered by requisitions received in the Supply Department for materials and supplies necessary on the various projects now in force in the Park Department.

You stated that the additional funds that may be required would be appropriated, but because of the fact that the actual expenditures under the "H" item was but 58 per cent of the amount appropriated, you preferred to wait until the unexpended balance on the "H" item was close to the vanishing point.

You are hereby notified that the money appropriated for the "H" item, $120,000, is now expended, and in order to keep the men employed until December 1, 1934, it will be necessary to make an appropriation of $40,000 to the "H" item at once.

Yours very truly,
WILLIAM P. LONG,
Chairman.

LAND-TAKING IN CHARLESTOWN.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structures on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston known as Charlestown and are bounded as follows:

A parcel of land supposed to belong to the Boston Elevated Railway Company, bounded:

Southeasterly by Alford street, eight and 48–100 feet; southerly by other land supposed to belong to said company, by two measurements, sixty-one and 70–100 feet and one hundred eighty-seven and 70–100 feet; northwesterly by land supposed to belong to the Merrimac Chemical Company, nine and 73–100 feet; northerly by other land of said Boston Elevated Railway Company by two measurements, one hundred eighty-three and 4–100 feet and sixty-five and 38–100 feet, containing nineteen hundred ninety-one square feet, more or less.

The sewerage works to be constructed are as follows: 185 linear feet of 18-inch pipe surface drain, in the above described premises.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

REPORT ON EXTENDED USE OF PUBLIC SCHOOLS.

The School Committee has accepted and approved the following report of James T. Mulroy, director of the Extended Use of Public Schools, on his attendance at the National Recreation Congress, at Washington, D. C., October 2 to 5:

BOSTON, November 9, 1934.

To the School Committee of the City of Boston:

Following is my report of attendance at the Twentieth National Recreation Congress held in Washington, D. C., October 1–5, 1934:

The Recreation Congress was a cooperative gathering of all those interested in recreation as a means of more abundant life. Men prominent in national affairs welcomed the calling of the Congress. Officials in Federal, state and municipal governments, leaders in park and recreation efforts, educators, city planners, those interested in amateur music, drama, arts and crafts, sports and nature activities, were present. Workers in social and civic agencies concerned with recreation as a means of making life more joyous for children, more real for youth, more abundant for adults, came. A large number of men and women, professional and volunteer, thinking and working together for a Better America, attended.

Mr. John H. Finley of the New York *Times* presided at the opening evening session. There were two main addresses, "The Contribution of Recreation to Recovery," by Hon. Aubrey Williams, Assistant Director, Federal Relief Administration; "The Place of Recreation in Our National Life," by Hon. Harold L. Ickes, Secretary of the Interior.

The next morning and afternoon, and each morning thereafter, the Congress divided itself into discussion groups carried on simultaneously. Delegates chose the topics and with the guidance of a chairman, questions were presented and all present were given an opportunity to contribute from their experience, ideas and information on the subject under discussion. At each meeting, discussion leaders were appointed to open up different phases of the subject under consideration; a summarizer recorded the gist of the discussion and the findings, and reported them to the entire Congress.

A few of the topics of these discussion groups, names and speakers follow:

"What Men and Women Want to Do in Their Free Time."—David E. Weglein, Superintendent of Public Instruction, Baltimore, Md.

"What Services on Hobbies Should Local Recreation Departments be Prepared to Give?"—Lee F. Hammer, Director, Russell Sage Foundation, New York, N. Y.

"What College and University Courses are Desirable for Men and Women Who after College Training are Immediately to Become Play and Recreation Leaders?"—Lewis R. Barrett, Board of Education, Newark, N. J.

Tuesday, Wednesday, Thursday and Friday evenings were devoted to the General Sessions at which men and women prominent in national life spoke. Some of the topics and names of the speakers follow:

"Recreation in the New Deal."—Hon. Frank R. McNinch, Chairman, Federal Power Commission.

"Recreation as a Socially Useful Field of Employment."—Mrs. Franklin D. Roosevelt.

"National Government Services Through Recreation."—Miss Bess Goody Keowtz, Assistant Commissioner of Education.

"National Planning for Recreation."—Hon. Frederick A. Delano, Chairman, Advisory Committee National Resources Board.

The general tone of the convention was that the nation, states and municipalities should provide more and more opportunities for the growing leisure of our citizens, young and old.

All delegates departed for their home states, cities and towns with renewed inspiration, zeal and enthusiasm, thankful for the opportunity of attending the Convention.

Respectfully yours,

JAMES T. MULROY, *Director,*
Extended Use of the Public Schools.

REPORT ON CAFETERIA SYSTEMS IN SCHOOLS.

The School Committee has accepted and approved the following report of Dr. Joseph V. Lyons, member of the School Committee, on his recent visit of inspection of the cafeteria system in the Philadelphia Public Schools:

BOSTON, November 19, 1934.

To the School Committee.

I submit herewith, in accordance with the provisions of section 3 of chapter 274 of the Acts of 1914, report of my recent visit of inspection of the cafeteria system in the Philadelphia Public Schools:

In order to be prepared to take over, if the necessity arises, the luncheon system in our schools—now conducted by the Women's Educational and Industrial Union—and with a personal desire to see established a policy in which I have believed and for which I have worked during the past six years, namely, the taking over by the School Committee of the management of our entire lunchroom system to be conducted on a nonprofit basis with assurance of a better quality food at a lower cost to the children of this city, I was pleased to accept the request of my colleagues on the committee to go to Philadelphia to make a visit of inspection of the cafeteria system in that city, which system is known to rank higher than any other in the country.

I was received with courtesy by the manager of cafeterias, Mr. Clarence B. Kugler, Jr., who very generously gave me all of his time during my stay and took me on a tour of inspection to most of the senior high and junior high schools of the city. He is a highly qualified man who has brought his department to a high standard of efficiency, which system, if introduced into our schools, will insure for the future the proper care and nourishment of our children during the luncheon periods which they are obliged to spend away from their homes.

The Philadelphia system is run on a unit basis, that is, all necessary work to prepare and serve the noonday luncheon is done in the individual buildings. The problem in Philadelphia is much simpler than that which confronts us because of the fact that almost all of their buildings were constructed with the unit kitchen in view, whereas our luncheon system has been conducted from a central kitchen with the distribution of the manufactured products radiating from it to each lunchroom, this incidentally entailing a very heavy expense for trucking.

I found quite a few buildings which were comparable to ours; that is, not originally designed for the unit system but which have been adequately taken care of through relatively inexpensive alterations.

Most of the detail which I might cover in this report is incorporated in a survey made in Philadelphia in 1932 by Mr. Kugler, a copy of which I brought back with me, and the substance of which is very well covered, I find, in the report made by Superintendent Campbell.

I am very much pleased to report that the first unit of our system—which has been inaugurated at the Jeremiah E. Burke High School for Girls—compares favorably with the best of those in Philadelphia, with the exception of the costly equipment in their schools. I think, judging from the superintendent's report of progress on the lunchroom at the Jeremish E. Burke High School for Girls, that we will find that we are taking a step in the right direction. It will be a very easy matter from now on to see that there is incorporated in the construction of all new schools proper facilities for carrying on this work.

We all realize, of course, that the problem before us will take a great many years to perfect, principally because of the present construction of our schools. However, as the start is made I hope that this committee will continue the policy to the end and that it will have the control of the school luncheon system under its own supervision and that when it is brought forcefully to the attention of the parents of this city that they will give their hearty support in securing the appropriations which will be necessary in the future in order properly to look after the welfare of their children.

Respectfully submitted,

JOSEPH V. LYONS,
Member.

CITY SAVES ON CONTRACT.

In connection with the awarding of bids, by the Supply Department, for furnishing fruit and vegetables to the various city departments, the contracts for which were announced in the *City Record* of November 10, the following statement was made by the superintendent, in his communication to Mayor Mansfield:

"Regarding the bid of J. Jacobs & Co., would state that this concern quoted only on potatoes and filed bids at the Auditor's Office, but neglected to do so at the Supply Department, but inasmuch as they are the lowest bidder on the item of potatoes, I would respectfully request that permission be granted me to award a contract to this concern, without publicly advertising, in order to save the city approximately 5 cents per hundred weight on this item."

This was approved by the Mayor.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

POLICE DEPARTMENT ORDERS.

General Order No. 584.

The preparation and distribution of daily manifolds at Headquarters will be discontinued.

All divisions and the Detective Bureau are equipped with mimeograph machines, and manifolds will be prepared and mimeographed at each station and the Detective Bureau and distributed at the daily roll calls to sergeants and patrolmen. The commanding officer shall designate a sergeant to hand a copy of each manifold to all officers on duty who are not present at any of the daily roll calls.

Manifolds shall contain teletype and radio reports of all crimes; stolen, lost or abandoned and unclaimed property; persons wanted; missing persons; stolen automobiles, etc., together with any items that may be included by the commanding officer of a division or the Detective Bureau. A copy of the manifold containing a list of the names, descriptions and addresses of persons wanted on warrants, that is furnished by the Bureau of Records in the afternoon mail, shall also be given to every sergeant and patrolman at the 5.45 p. m. roll call, and officers on duty who are not present at this roll call.

Manifolds shall be mimeographed according to the following schedule:

Copy No. 1: To contain above information reported from 7 a. m. to 12 m., for distribution at noon roll calls.

Copy No. 2: To contain above information reported from 12 m. to 5 p. m., for distribution at 5.45 p. m. roll calls.

Copy No. 3: To contain above information reported from 5 p. m. to 11.45 p. m., for distribution at 12.30 a. m. roll calls.

Copy No. 4: To contain above information reported from 11.45 p. m. to 7 a. m., for distribution at 7.45 a. m. roll calls.

The commanding officer of each division and the Detective Bureau shall forward to the superintendent a copy of each manifold that is mimeographed daily.

The distribution of manifolds by sergeants and patrolmen to their relieving officers shall be in accordance with the rules and regulations.

All rules and regulations inconsistent herewith are hereby rescinded.

This order becomes effective on Monday, November 12, 1934, at 7.45 a. m.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 585.

The following transfers of matrons are hereby ordered to take effect Monday, November 12, 1934:

Frances J. O. Marks, from Division 7 to House of Detention.

Bridget M. Keenan, from Division 9 to House of Detention.

Ellen G. McDonough, from Division 19 to House of Detention.

The commanding officers of the above named stations will notify the matrons attached to their divisions to report to the chief matron at the House of Detention on Saturday morning, November 10, 1934, at 10 a. m., for instruction.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 586.

The service of matrons at Divisions 7, 9 and 19 will be discontinued.

The utilization of the department van to transport female prisoners from station houses to the House of Detention will be discontinued.

All female prisoners, after being properly booked, in accordance with the rules and regulations, shall be sent as soon as possible to the House of Detention in the department ambulance of the division credited with the arrest, with the following exceptions:

(*a.*) Female prisoners shall be taken to a hospital when immediate medical treatment is required.

(*b.*) When the condition of a female prisoner is such as to require the attention of a physician, the physician's directions shall be obeyed.

(*c.*) Female prisoners arrested for shoplifting, larceny from the person, and other serious crimes, shall, after being properly booked, be taken to the Bureau of Records where they will be photographed and fingerprinted, and thence transported in the ambulance of the division to the House of Detention.

(*d.*) Communists and other radically inclined persons who persist in holding demonstrations in the public streets, thereby creating a disturbance of the public peace and otherwise violating the law, who are arrested therefor, shall, after being properly booked, be taken to the Bureau of Records to be photographed and fingerprinted in accordance with superintendent's order of April 4, 1933, and thence brought to the House of Detention in the ambulance of the division.

Women and girls arrested for any cause shall be searched in accordance with the rules and regulations, and in such cases where a thorough search is deemed necessary, the prisoner shall be sent to the House of Detention and delivered to a matron for that purpose.

Commanding officers shall instruct all officers that women and girls under arrest, and in their custody while being transported to the House of Detention, shall be kept under close observation until such times as the prisoner is delivered to the matron.

All personal property taken from female prisoners who are searched at station houses and the Detective Bureau, in accordance with the rules and regulations, shall be placed in a property envelope, sealed, and contents listed thereon by the officer in charge. The officer in charge shall hand the property envelope to the officer accompanying the prisoner to the House of Detention for delivery to the matron for safekeeping until such time as the articles are restored to the owner. The matron shall give a receipt to the officer for any property received, which shall be delivered by him to the officer in charge of the station or Detective Bureau.

Any article taken from female prisoners as a result of a search at a station house or the Detective Bureau, in accordance with the rules and regulations, which may be regarded as evidence, shall be retained at the station house or Detective Bureau for presentation in court, if necessary.

The officer in charge of a station house and the Detective Bureau shall cause a record to be kept of all property taken from female prisoners.

The matron in charge of the House of Detention shall cause a record to be kept of all property taken from female prisoners and property in envelopes received from officers.

Any property taken from a female prisoner sent to the House of Detention for thorough search by a matron, and which may be used as evidence in court, shall be placed in a property envelope, sealed, and the contents properly listed thereon by the matron, who shall hand same and receive a receipt from the officer who will deliver it to the officer in charge of the station.

Women and girls in the custody of the police shall not be confined in a cell at any station house or Police Headquarters, and whenever the temporary detention of a female prisoner is necessary, she shall be kept under guard in a public room of the station house or the Detective Bureau.

When a female prisoner is removed from the House of Detention to a hospital, the matron in charge of the House of Detention shall forward to the superintendent the special reports required by the rules, and shall also notify the commanding officer of the station concerned in order that a police guard may be stationed at the bedside of the prisoner, if necessary.

The Detective Bureau shall provide proper transportation to the House of Detention for all female prisoners who are booked at the Bureau.

The matron in charge of the House of Detention shall give sufficient notice in advance to the commanding officer of a division when the department van is unable to provide for the prompt attendance in court of any female prisoners in order that the division shall provide proper transportation.

In accordance with superintendent's order of March 28, 1934, a lineup form will accompany each female prisoner who is brought to the Bureau of Records to be photographed and fingerprinted.

Commanding officers of all divisions and the Detective Bureau shall provide transportation from the House of Detention to Police Headquarters and thence to court, if necessary, for any female prisoner appearing in the lineup at Headquarters, in accordance with General Order No. 394, and in all such cases the matron in charge of the House of Detention shall be notified.

All rules and regulations and General Orders inconsistent herewith are hereby rescinded.

This order becomes effective Monday, November 12, 1934, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 592.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by Perley S. Skillings, captain, Division 16, against Frank E. McKelligan, patrolman, Division 16, for alleged violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification: In that on the 29th day of October, the said Patrolman Frank E. McKelligan, while on duty and in uniform, was under the influence of intoxicating liquor to the extent that he was unable to properly perform police duty if called upon so to do,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, accepts the plea of guilty made by the said Patrolman Frank E. McKelligan. The Board has also considered the excellent recommendations given this officer by Deputy Superintendent Anderson, Captain Skillings and Lieutenant Thormer, and their request that leniency be extended in this case. Therefore the Board respectfully recommends, in view of the fact that Patrolman McKelligan has never before been complained of for violation of the rules and regulations of the department, that the said Patrolman Frank E. McKelligan be suspended from duty for a period of twenty days, effective as of October 30, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of

suspension the said Patrolman Frank E. McKelligan perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Frank E. McKelligan be suspended from duty for a period of twenty days, effective as of October 30, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman Frank E. McKelligan perform 210 hours of punishment duty.

Civil Service Rule 23, section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 593.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by John J. Hanrahan, captain, Division 17, against George L. Huntoon, patrolman, Division 17, for alleged violation of Rules 27 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Neglect of duty.

Specification: In that on the sixth day of October, 1934, the said Patrolman George L. Huntoon, while on duty and in uniform and not on police business did leave his route and entered the building at 1423 Centre street, Roslindale, by the rear door, without notifying his station and getting permission from the officer in charge, and by so doing did commit an act contrary to good order and discipline.

Charge 2: Conduct unbecoming an officer.

Specification: In that on the sixth day of October, 1934, the said Patrolman George L. Huntoon, while on duty and in uniform did enter the licensed premises of Louis Balboni at 1423 Centre street, Roslindale, by the rear door, at about 10.55 p. m., where he was found by Sergt. William Belle at about 11 p. m., seated at a table in the kitchen in company with a civilian with a partly emptied glass of beer beside him and that by so doing he did commit an act contrary to good order and discipline,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence presented, finds the said Patrolman George L. Huntoon guilty as charged. In view of the attitude of this officer toward his captain and toward Deputy Superintendent Anderson, and the fact that Patrolman Huntoon pleaded not guilty under the circumstances in this case, and the additional fact that both Deputy Anderson and Captain Hanrahan recommend that this officer be severely punished (he having previously been before the Board on two occasions), the Board respectfully recommends, in order to preserve the discipline of the Department, that the said Partolman George L. Huntoon be suspended from duty for a

period of thirty days, and that at the expiration of the said period of suspension the said Patrolman George L. Huntoon perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman George L. Huntoon be suspended from duty for a period of thirty days, effective November 13, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman George L. Huntoon perform 210 hours of punishment duty.

Civil Service Rule 23, section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided however, that the Commissioner shall not allow reinstatement of a person discharged for cause.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 594.

Lieut. Frank H. Thompson, detailed to the Bureau of Operations, and Patrolmen Charles H. Hoar and Charles E. Hall, both of Division 1, are commended and each is granted three days' additional vacation for efficient police duty performed, October 30, 1934, in connection with the capture of two men who had held up a chain store in Somerville.

The commissioner is pleased to recognize the intelligence and alertness shown by these officers in the application of their knowledge of the radio system which resulted in the apprehension of the felons.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 595.

Patrolmen Frederick W. McGonigle and James F. Hanley, both of Division 19, are commended and each is granted two days' additional vacation for meritorious police duty performed on the morning of October 20, 1934. While cruising in the vicinity of Deering road, Mattapan district, Patrolman McGonigle observed smoke coming from a large apartment house. The officers immediately called to a citizen to sound an alarm and then proceeded to the scene of the fire. The officers awakened the occupants and led several women and children through the smoke-filled stairways and hallways to safety.

Upon re-entering the building, the officers found a woman in a prostrate condition, on the stairway, between the second and third floors, whom they carried to the street where she was given first aid and brought to the home of a neighbor.

The commissioner is pleased to recognize the alertness and devotion to duty shown by these officers in saving suffering and possible loss of life.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 596.

Sergt. John H. Molloy, Acting Sergeant William H. Foley, Patrolmen Cecil V. Craig, Charles W. Hewitt and George F. Harnois, all of Division 6, are commended for effective police duty performed on October 12, 1934, in connection with the arrest of the persons responsible for setting fire to several fish carts which were saturated with oil, located at the Northern Avenue Fish Pier.

The commissioner especially recognizes the prompt response by Patrolmen Howitt and Harnois to the Blinker-Light System, and for their alertness which resulted in apprehending the persons responsible for this crime.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 597.

Policewoman Margaret M. McHugh and Meyer J. Naiherseg, civilian clerk, both of the Lost and Found Department of the Detective Bureau, are commended for efficient police work which led to the arrest of a person who had committed a large number of breaking and entering and larceny cases.

Policewoman McHugh and Clerk Naiherseg through their keen observation of the daily pawnbrokers' sheets noticed that considerable property was being pawned in several pawnshops by a man giving the same name. This information was given to the commanding officer of the Detective Bureau, and the person was finally apprehended in a pawnshop while attempting to dispose of some property.

The commissioner is pleased to commend Policewoman McHugh and Clerk Meyer J. Naiherseg for their diligence and keen observation.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 77.

I. Stephen H. Reddington.

It is with deep regret that the Fire Commissioner announces the death of Stephen H. Reddington, lineman in the Fire Alarm Division, on Saturday, November 17, 1934. He was appointed to this department on October 9, 1925. The funeral was held on Tuesday, November 20, 1934, with services at the Mission Church, Roxbury. The members of the Fire Alarm Division acted as a funeral escort.

II. Reinstatement.

The following reinstatement, which took effect at 8 a. m., Tuesday, November 20, 1934, is hereby announced:

Joseph J. McGovern to Fire Prevention Division.

III. Meal Period.

Members of the department who are performing a twenty-four-hour tour of duty on Thanksgiving Day and Christmas Day will be granted one meal period of two and one half hours. Company commanders will arrange these meal periods as conveniently as far in advance of these holidays as is possible for the men, and the strength and efficiency of the companies must be maintained.

Members who are on duty on the above days from 8 a. m. to 6 p. m. may be granted meal periods on condition that members working opposite them on the 6 p. m. to 8 a. m. tour of duty substitute for them while they are absent.

IV. Empty Vitriol Carboys.

In order to facilitate the keeping of records at the Maintenance Division, company commanders will make a survey of all vitriol carboys in their respective quarters and each carboy shall be plainly marked with the name of the firm from which it is received so that credit may be obtained from the proper firm when the carboy is empty. All companies having empty carboys at the present time will notify the Superintendent of Maintenance in writing of the number of carboys and the names of the firms from which they were received so that they may be collected and returned for credit.

V. Commendations.

Hoseman Henry J. Welch of Engine Company 2 is hereby commended for responding to and working at fire, still alarm, 715 East Fourth street, November 13, 1934, while off duty.

Lieut. Frederick W. Robinson of Ladder Company 7 is hereby commended for responding to and extinguishing a fire in an elevated bus on November 19, 1934, while off duty.

The Fire Commissioner is pleased to publish the following letter which he has received from Rear Admiral Henry H.

Hough, Commandant of the First Naval District, in which he expresses his appreciation of the services rendered by the members of this department on the occasion of the explosion in the Navy Yard on Tuesday, November 13, 1934:

BOSTON, November 16, 1934.
FIRE COMMISSIONER,
60 Bristol Street, Boston.

MY DEAR COMMISSIONER,—I wish to express to you my appreciation and thanks for the services rendered by the Boston Fire Department following the explosion in the acetylene plant at the Navy Yard in the early morning of Tuesday, November 13.

The fire apparatus arrived promptly and very quickly had the situation in hand. Though each unit was warned on approaching the scene of the fire that other explosions were to be expected, they carried hose lines and apparatus in the immediate vicinity of the burning building and proceeded with thoroughness. The fire boat took station as close as possible to the burning building and directed streams of water to the burning building covering the gasometer tanks.

On all sides I have heard expressions of admiration for the work of the firemen from those who were in a position to observe it. As far as we have been able to ascertain, the following officials and units were at the scene of the fire:

District No. 2, District Chief M. J. Aylward.

Division No. 1, Deputy Chief John J. Kenney.

Engine 27, Lieut. Daniel J. Murphy.

Engine 36, Senior Hoseman John J. Murphy.

Engine 50, Capt. James Welch.

Ladder 9, Lieut. D. J. Mahoney.

Ladder 22, Lieut. William J. Magner.

Engine 47 (fire boat), Lieut. E. L. Mitchell.

I hope that this list is complete, and that if there are any omissions, you will understand that the above and following comment applies equally to them. I feel that the personnel of these units is deserving of commendation for their very excellent work. May I request that you inform them of this appreciation.

I am informed that Lieutenant Mitchell, in charge of the fire boat, was seriously injured in the pursuit of his duty, in falling into a trench in the darkness. He had proceeded from the fire boat to the immediate vicinity of the fire, and when offered assistance at the Navy Yard Dispensary, insisted that he must return to his post of duty on the fire boat.

In conclusion I wish to say that I consider the Boston Fire Department performed a thorough job, well done in the face of danger.

Very truly,

HENRY H. HOUGH,
Rear Admiral, U. S. Navy,
Commandant.

The Fire Commissioner wishes to express his own personal expression of commendation. He has received excellent reports from many people who were present and saw the work performed by the members of the department on this occasion. The courage and zeal shown by the men reflected great credit on the personnel of the Boston Fire Department.

By order of Fire Commissioner EDWARD F. McLAUGHLIN.

HENRY A. FOX,
Chief of Department.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to raze the following structures as fire menaces or nuisances:

The building at 4 Shepton terrace, off 679 East Eighth street, Ward 7.

The building at 19 Rochester street, Ward 3.

The building at 1247 Centre street, Ward 20.

The building at 137 Silver street, Ward 6.

The building at 42 Sawyer street, Ward 9.

The building at 107 West Ninth street, Ward 7.

The building at 1251 Centre street, Ward 20.

The building at 9 Shepton terrace, off 679 East Eighth street, Ward 7.

The building at 19 Rochester street, Ward 3, the east party wall, now exposed by razing operation at No. 21, is in poor condition, bulged at foundation, 8-inch bearing wall; unsafe and dangerous. The owner, East Bridgewater Savings Bank, Charles F. Mann, Treasurer, of East Bridgewater, Mass., has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 4 Shepton terrace, off 679 East Eighth street, Ward 7, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owners, Victor W. Porter, Vera E. Porter and Vivian F. Porter of Box 68, North Billerica, Mass., have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Esther road, bounded:

Northerly by another part of said road, forty feet; easterly by the easterly line of said road, twenty-five feet; southerly by another part of said road, forty and 83–100 feet, and westerly by the westerly line of said road, thirty-three and 21–100 feet, containing eleven hundred and sixty-four square feet, more or less.

The sewerage works to be constructed are as follows: 106 linear feet of 12-inch pipe surface drain and two catch-basins in the above described premises, being part of the private way known as Esther road, near Greaton road.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

MAYOR MANSFIELD RECEIVES "MEDAL OF GRATITUDE."

Upon November 17 the following communication was made public from the office of the Mayor:

CONSULATE GENERAL OF THE REPUBLIC OF POLAND.
149–151 East 67th Street, New York.
November 15, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—In appreciation of your and your city's very kind cooperation in honoring the memory of Gen. Thaddeus Kosciuszko, allow me to send to you, dear Mr. Mayor, the inclosed commemorative medal.

This medal is the so-called "Medal of Gratitude" issued by the Polish Government in 1926 in commemoration of the 150th anniversary of American independence. It bears the likeness of Washington on one side and of Kosciuszko and Pulaski on the other. The inscription on the box reads "the State Mint."

I should be pleased and honored if you would accept this small token of my appreciation.

May I add, dear Mr. Mayor, the expressions of my very high regard together with my best wishes for you personally and for the City of Boston which I admire so much?

Very truly yours,

DR. MIECZYSLAW MARCHLEWSKI,
Consul General.

PROPOSALS FOR EQUIPMENT AND THE LIGHTING AND EXTINGUISHING OF GAS LAMPS FOR THE CITY OF BOSTON, EXCLUDING HYDE PARK, FOR A TERM OF FIVE YEARS BEGINNING JANUARY 1, 1935.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for equipment and the lighting and extinguishing of gas lamps for the City of Boston, excluding Hyde Park, for a term of five years beginning January 1, 1935. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of fifty thousand (50,000) dollars, to secure the due performance of the contract and the full protection of the city. Proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Equipment and the Lighting and Extinguishing of Gas Lamps for the City of Boston, Excluding Hyde Park," for a term of five years, beginning January 1, 1935, and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Friday, November 30, 1934, with a certified check for ten thousand (10,000) dollars, payable to and to become the property of the city if the proposal, after acceptance, is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, DECEMBER 1, 1934. No. 48

CITY OF BOSTON CREDIT UNION AGAIN PROVES ITS VALUE TO EMPLOYEES WHO HAVE BEEN HARD HIT BY DEPRESSION AND NEEDS — ANNUAL MEETING REPORTS SHOW 16,638, SHARES IN OPERATION, WITH 3,821 MEMBERS AND 2,585 BORROWERS AND 569 DEPOSITORS — $396,228.98 LOANED DURING YEAR ENDING OCTOBER 31 — SEVERAL RECOMMENDATIONS LOOKING TO IMPROVEMENT PROPOSED AND ADOPTED.

At the annual meeting of the City of Boston Employees Credit Union on Tuesday, November 20, the organization was shown to again have been of vast benefit to the employees, and to have filled a need that was especially demanding upon the resources. Several changes in the management, looking to an improvement in the aid given to employees, were recommended and accepted by the meeting.

Among these were:

Recommendations of the Board of Directors.

1. That the maximum number of shares which may be held by a member during the ensuing year be fixed at one hundred.

2. That the maximum amount of savings which a member may deposit in any one month be fixed at twenty-five dollars and the maximum amount which a member may have on deposit at any time be limited to $1,000, exclusive of accrued interest.

3. That the maximum amount of credit which a member may have at any one time during the ensuing year be fixed at two hundred and fifty dollars.

4. That a dividend at the rate of 6 per cent be declared payable on or after December 1, 1934.

From the report of the Credit Committee it was shown that there were 16,638 shares in operation; there were 3,821 members, 2,585 borrowers and 569 depositors. The total amount loaned during the year ending October 31, 1934, was $396,228.98, and the total amount loaned since the establishment of the organization was $3,218,664.59.

The reports of the several committees in detail were as follows:

REPORT OF CREDIT COMMITTEE.

Number of shares in force October 31, 1934	16,638	Total amount loaned since organization	$3,218,664 59
Number of members October 31, 1934	3,821	Losses charged to Guaranty Fund in 1934	$801 24

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by

FEDERAL RESOURCES MUST BE MADE AVAILABLE TO AID CITIES AND STATES TO ENABLE THEM TO CARE FOR EMPLOYABLE BUT IDLE CITIZENS UNTIL BUSINESS AGAIN APPROACHES NORMALCY — CORPORATION COUNSEL HENRY E. FOLEY SO CONCLUDES AND STATES IN MESSAGE TO MAYOR MANSFIELD FROM CHICAGO CONFERENCE OF UNITED STATES MAYORS, WHERE HE IS REPRESENTING CITY AND BOSTON'S CHIEF EXECUTIVE WHO COULD NOT PERSONALLY ATTEND.

The following is a copy of the telegram from Corporation Counsel Henry E. Foley, at Chicago, on November 22, at the United States Conference of Mayors, to Mayor Mansfield:

November 22, 1934.

HON. FREDERICK W. MANSFIELD, *Mayor of Boston.*

Will probably have opportunity to express your views on relief Friday. Suggest following:

"In 1928 relief expenditures by the City of Boston exclusive of institutional expenditures amounted to less than $2,900,000. This year such relief expenditures, despite the work relief program of the Federal Emergency Relief Administration, will amount to approximately $14,300,000.

While in 1928 relief expenditures constituted less than 6 per cent of the operating budget of the city, this year these expenditures will constitute approximately 35 per cent of that budget.

To meet these relief expenditures the operating budget of the City of Boston has been cut to such an extent that that budget, exclusive of relief expenditures, is now 23 per cent lower than in 1931. Yet despite this cut, it has been necessary to increase the tax rate on tangible property from $28.80 per $1,000 valuation in 1928 to $37.10 in 1934.

The situation in Boston is to a large extent, although to a somewhat lesser degree, the situation in almost all cities and towns in Massachusetts.

Massachusetts cities and towns expended for relief purposes in 1929 about $8,400,000. The indications are that the relief expenditures of 1934 will aggregate about $45,000,000. Tax rates in the Commonwealth, almost universally, have so increased to meet these expenditures, that they are now at such a peak that ability to collect them has become seriously impaired.

Nor has there been any attempt to meet the situation merely through taxation and decreased expenditures. In 1933 the City of Boston borrowed for a term of five years over $7,000,000 to meet welfare expenditures and to reduce taxes, thus adding heavily to the tax burden of 1934. In 1934 $3,800,000 is expected to be borrowed against tax titles.

Similar borrowing by the city and towns of the Commonwealth has been common.

Serious as this situation is, the real danger lies in the fact that the burden of welfare expenditures is continuing. There is every indication that the burden will increase during 1935 and continue to be acute for a number of years to come. Technological improvements have thrown a large percentage of persons out of private employment who will never be re-employed by private agencies unless and until a readjustment is made in our industrial structure. Many who have never before been charges on the Government will become such during the coming winter as their meager savings become dissipated.

These persons must be cared for. No needy person must starve. But subsistence is not enough. Persons able and willing to work must be afforded the opportunity. Their industry and talents must not be allowed to waste and decay. The demands of humanity and the security of our nation require their employment.

Until, therefore, private business is adjusted to reabsorb these persons, the Government, city, state, or nation, must provide for persons who are employable but unemployed, not merely relief but the opportunity for useful service.

It is obvious that the cities cannot effectively do this. Their resources are limited. The burden of caring for the unemployable should remain with the cities, and this greatly increased burden is all that they can effectively bear. Public works afford great opportunities for employment. But the limit to which cities can financially cooperate is marked. If cities incur debt which it is beyond their capacity to meet, the impairment of their credit and ensuing insolvency can only serve to injure the national credit, restrict the beneficial activities of the cities, increase unemployment, retard recovery and cause even greater suffering and hardship to the poor and needy.

The great burden of providing for the employable must, therefore, fall mainly on either the states or the nation. The resources of the states are far greater than those of the cities. But there are also limits upon the states which do not apply to the nation. Because of lack of uniformity in the revenue laws of the various states, there are practical limits upon their power to raise revenue effectively. High income, inheritance and corporation taxes in one state frequently drive persons subject to such taxes to other states where the revenue laws are less rigorous, and this factor imposes definite practical limits on the effectiveness of state action. Furthermore, the National Government has taken to itself many sources of revenue otherwise available to the states and has thus further limited the power of state action.

The problem of providing for the employable is national in scope, it is not local. The National Government with its control of revenue sources and with its broader borrowing power can alone effectively deal with the situation.

It is for this reason that I endorse heartily the proposal that, while the care of the unemployable should be handled locally, provision for the employable but unemployed be made and financed by the Federal Government, and that, as far as possible, such provision be in the form of work suited to the talents and ability of the unemployed, including various forms of public and civil works, low cost housing and slum clearance."

HENRY E. FOLEY.

MAYOR MANSFIELD TO CONFER WITH WASHINGTON AUTHORITIES ON RELIEF FOR BOSTON.

The following is a copy of a telegram received on November 24 from Henry E. Foley, Corporation Counsel, at the Conference of Mayors, at Chicago.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

Hopkins stated he was too tied up here to talk about Boston but would be glad to do so in Washington. He stated publicly to Manning of Lynn substantially as follows, "Probably the cities of Massachusetts have carried a larger portion of the relief load than the cities of any other state but the state itself has not contributed a thin dime. If I were asked by you tomorrow to increase the federal relief grant to Massachusetts I would probably tell you to go to your State Legislature and make them do their share."

There has been organized here as an affiliate of the conference the Institute of Municipal Law Officers, consisting of heads of legal departments of cities having population of 50,000 or more. Henry E. Foley has been elected president; vice president, Raymond J. Kelley, Corporation Counsel, Detroit; trustees, Mark Beauchamp, City Attorney, Louisville; Max Rackin, City Attorney, Milwaukee; Fred T. Van Lunt, City Solicitor, Des Moines. Waite indicated Washington may make public works grant on fifty-fifty basis.

HENRY E. FOLEY.

(The Waite referred to is Col. Henry M. Waite, former deputy administrator Federal Relief Administration, under Secretary Ickes, and now connected with National Securities group.)

—

The Mayor and Mr. Foley will confer with Mr. Hopkins very soon in Washington, as suggested by Mr. Hopkins.

HOUSING CORPORATION HAS $123,670,500 AVAILABLE.

Transfer to the Public Works Emergency Housing Corporation of $23,670,500 previously allotted to seven low-cost housing and slum clearance projects was announced by Public Works Administrator Harold L. Ickes. The housing corporation now has $123,670,500 available for housing and slum clearance projects.

Upon varying dates as indicated the Mayor approved contracts with firms and contractors for supplies and work. Communications from the heads of the several departments were as follows:

PUBLIC WORKS DEPARTMENT.

BOSTON, November 23, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—In my letter to you dated August 27, 1934, I set forth in detail the facts concerning the lighting of city streets. I am at present studying the entire situation with regard to street lighting and am preparing the form of specifications for a new gas contract.

In order that there may be no interruption in the service of lighting the city streets and in order that I may go into the question of street lighting more thoroughly, I hereby respectfully request your authority to award the following contracts without inviting proposals therefor by advertisement:

1. Contract for furnishing illuminating gas for street lighting to the Boston Consolidated Gas Company for a term of one month from December 1, 1934, at the present rate of $8.42 per lamp per year for a single burner, sixty-candle power lamps.

2. Contract for equipment and the lighting and extinguishing of gas lamps for the City of Boston, excluding Hyde Park, to the Boston Consolidated Gas Company for a term of one month from December 1, 1934, at the present rate of $14.70 per lamp per year.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, November 6, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—The Supply Department has received a proposal from A. L. Davis, doing business as Addressograph Sales Agency, at 26 High street, Boston, Mass., covering special equipment requisitioned by the Department of Public Works for use in connection with snow removal, for the purpose of eliminating discrepancies between the quantity of snow removed and the quantity paid for by the city.

This special equipment was developed by the Addressograph Company of Cleveland, Ohio, and has been found to operate very satisfactorily in the city of New York, for a similar purpose.

The cost of equipment installed will be $2,889.20 and the necessary funds are available from the budget under the snow removal item.

Inasmuch as this equipment in question is manufactured only by the Addressograph Company and there is, therefore, no advantage to be gained by advertising for bids, I respectfully request your permission to make this award without advertising and to place a contract with A. L. Davis, doing business as Addressograph Sales Agency, at 26 High street, Boston, Mass., in the amount of $2,889.20.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

BOSTON, November 7, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to award a contract, without publicly advertising same, to the Linscott Sales and Service Company to deliver the following:

To the Paving Service: One 1935 Reo. Flying Cloud sedan, five-passenger, fully equipped, including spare tire, at a delivered price of $1,067; less allowance on P85 Reo sedan purchased February, 1929, $125—$942; two 1935 Reo Flying Cloud sedans, five-passenger, fully equipped, including spare tires, at a delivered price of $1,067 each, $2,134; less allowance on P84 Reo sedan purchased February, 1929, $115; P134 Hupmobile sedan, purchased July, 1931, $185—$300—$1,834. To the Sanitary Division: One 1935 Reo Flying Cloud sedan, five-passenger, fully equipped, including spare tire, at a delivered price of $1,067; less allowance on S193 Hupmobile sedan, 1931, $225—$842; total, $3,618.

As the Linscott Sales and Service Company are the direct representatives of the factory, no advantage would accrue from publicly advertising.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

—

BOSTON, November 14, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—On September 24, 1934, you approved an award to the Gamewell Company, without advertising, of a contract amounting to $3,545, covering thirty three-fold type fire alarm boxes, costing $3,645, less an allowance of $100 on ten old type boxes.

It now develops that under the N. R. A. code the Gamewell Company cannot make a contract involving an allowance on old boxes.

I therefore request your permission to award a contract to the Gamewell Company amounting to $3,645.

This permission will supersede and cancel the permission dated September 24, 1934, referred to above.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

CONTRACTS AMENDED.

DEPARTMENT OF SCHOOL BUILDINGS.

Holtzer-Cabot Electric Company has been allowed to amend the contract for telephone apparatus at High School of Commerce, by striking out the word and figures in the sixth paragraph on page 14, and word and figures "August 18" on page 12, paragraph "E," and substituting therefor on page 12, paragraph "E," the word and figures "August 22," so that said paragraph "E, Completion," on page 12, shall read: "The work is to be commenced on approval by the Mayor and is to be completed on or before August 22, 1934."

TRANSIT DEPARTMENT.

Baker, Matz & Co. have been allowed to amend the contract for passageways and paving Haymarket square improvement, Traffic Tunnel, Series B, by striking out on page 7, first paragraph, the words "seventy-five days" and substituting therefor the words "one hundred thirty-five days," so that the contract as amended shall read on page 7, first paragraph: "The contractor agrees to complete the work in this contract within one hundred thirty-five days from notification by the department to begin"—and that all provisions of said contract, excepting as modified herein, shall continue in full force and effect.

ADDITIONS TO CONTRACTS.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to raze the following structures as fire menaces or nuisances:

The building at 1 Washington place, Ward 6, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, Nellie O'Malley of 214 E street, South Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 69 West Broadway, Ward 6, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owners, Annie M. Lavery of 871 Dorchester avenue, Dorchester, and Mary E. Lane of 538 East Broadway, South Boston, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 278 East Eighth street, Ward 7, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owners, Augusto and Giovanna DeGrandis of 110 Dorchester street, South Boston, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

TRANSFER OF APPROPRIATIONS.

City Auditor Charles J. Fox announces the following transfers in appropriations in departments of the City of Boston and County of Suffolk, indorsed by the Acting Budget Commissioner and approved by his Honor the Mayor:

HOSPITAL DEPARTMENT.

BOSTON, October 30, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Hospital Department:

From the appropriation for C, Equipment, $6,000; E, Materials, $3,000, to the appropriation for B, Service Other than Personal, $9,000.

From E, Materials, $2,000, to F-11, Workingmen's Compensation, $2,000.

From slack to cover deficits.

Respectfully,

JOSEPH P. MANNING,
President of Trustees.

The above transfers were made by the City Auditor with the approval of the Mayor November 23.

—

BOSTON, November 9, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—I hereby explain our request for transfer recently forwarded to you.

From C, Equipment, $6,000.

This will be taken $1,000 from C-4, Motor Vehicles, and $5,000 from C-12, Medical, Surgical and Laboratory Equipment, as we have an apparent slack in these items.

From E-1, Materials, $5,000.

This will all be taken from E-1, Buildings. Because of the E. R. A. we have not spent as much as anticipated in this item.

To B, Service Other than Personal, $9,000.

This will be used, viz.:

B-4, Transportation of Persons, $500. Because of car tickets issued to constables, an expense not anticipated, we have a deficit.

B-12, Bond and Insurance Premiums, $550. Because of insurance of boilers for three years, an expense not anticipated when the budget was submitted, we have a deficit.

B-39, General Plant, $7,950. This item was cut to $25,000, and the amount has proved insufficient.

To F-11, Workingmen's Compensation, $2,000.

This is an item over which we have no control. The amount allowed has proved insufficient, in fact there is not sufficient money available to pay the roll of November 8.

Respectfully submitted,

JOHN J. DOWLING, M. D.,
Superintendent.

PARK DEPARTMENT.

BOSTON, November 22, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Park Department:

From the appropriation for A-1, Permanent Employees, Cemetery Division, $7,385.80, to the appropriation for D, Supplies, $7,385.80.

From A-1, Permanent Employees, $4,700, to E, Materials, $4,700.

Conditions unforeseen when making up the budget make the above transfers necessary as follows:

D, Supplies,—D-3, Fuel, $1,500; D-4, Forage and Animal, $2,000; D-5, Medical, $61.57; D-8, Laundry, Toilet, etc., $300; D-11, Motor Vehicles, $3,000; D-13, Chemicals and Disinfectants, $374.23; D-16, General Plant, $150—$7,385.80.

E, Materials,—E-9, Machinery, $400; E-10, Electrical, $300; E-12, Parks and Recreation, $4,000—$4,700.

Respectfully,

WILLIAM P. LONG,
Chairman.

The above transfers were made by the City Auditor with the approval of the Mayor November 23.

PUBLIC WORKS DEPARTMENT (Ferry Service).

BOSTON, November 22, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—There will be a deficit of $17,000 in the D Group (D-3, Fuel) of the Ferry Service budget for this year. This deficit is due principally to the increase in the price of coal from $4.36 to $6.76 a ton.

I respectfully recommend that the sum of $17,000 be transferred from available sources to the D Group of the Ferry Service.

From Reserve Fund, $17,000, to Public Works Department, Ferry Service, D-3, $17,000.

Respectfully yours,

C. J. CARVEN,
Commissioner.

The above transfer was made by the City Auditor with the approval of the Mayor November 23, 1934.

PUBLIC WORKS DEPARTMENT (Paving Service).

BOSTON, November 22, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—There will be a deficit of $90,481.44 in the A-1 item of the Paving Service budget for this year. It will not be possible to obtain this money in other items, and in order to meet pay rolls for the balance of the year this sum will have to be provided. I therefore respectfully recommend that the sum of $90,481.44 be transferred from available sources to the A-1 item of the Paving Service budget.

From the appropriation for Reserve Fund, $90,000, to the appropriation for Public Works Department, Paving Service, A-1, Permanent Employees, $90,000.

Yours very truly,

C. J. CARVEN,
Commissioner.

The above transfer was made by the City Auditor with the approval of the Mayor November 23, 1934.

PUBLIC WORKS DEPARTMENT (Sewer Service).

BOSTON, November 23, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Sewer Service.

From the appropriation for B-18, Cleaning, $13,627.85, to the appropriation for B-10, Rent, Taxes, Water, $202.85; B-14, Motor Vehicles, Repairs and Care, $2,000; B-42, Repair of Streets, etc., $1,000; D-3, Fuel, $6,000; D-4, Forage and Animal, $200; D-11, Motor Vehicle, $4,000; D-13, Chemicals and Disinfectants, $25; D-16, General Plant, $200.

From E-1, Building, $1,000, to E-5, Sewer, $1,000.

From E-13, General Plant, $100, to E-10, Electrical, $100.

From F-11, Workmen's Compensation, $200, to F-7, Pensions and Annuities, $200.

To cover shortages and anticipated shortages in the above appropriations.

Respectfully,

C. J. CARVEN,
Commissioner.

The above transfers were made by the City Auditor with the approval of the Mayor November 23, 1934.

STREET LAYING-OUT DEPARTMENT.

BOSTON, November 22, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Street Laying-Out Department:

From the appropriation for B-3, Advertising, $171, to the appropriation for C-13, Tools, Instruments, $126; D-1, Office Supplies, $45.

This transfer is necessary to cover a bill to the James T. Towhill Company, amounting to $171, for materials utilized by this department on C. W. A. projects, and for which the Federal Government has refused to make payment.

Respectfully,

OWEN A. GALLAGHER,
Chairman.

The above transfer was made by the City Auditor with the approval of the Mayor November 23, 1934.

MUNICIPAL COURT,
DORCHESTER DISTRICT.

DORCHESTER, November 9, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—Will you kindly have a transfer made in the budget of this court in the sum of twenty-five dollars ($25) from D-1 and apply it to C-10, to meet the expenses incurred during this year.

From the appropriation for D, Supplies, $25, to the appropriation for C, Equipment, $25.

Yours truly,

ALPHEUS SANFORD,
Clerk.

The above transfer was made by the City Auditor with the approval of the Mayor November 23, 1934.

WEST ROXBURY COURT.

BOSTON, November 15, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the West Roxbury Court:

From the appropriation for B-4, $5.88, to the appropriation for A-2, $5.88.

From B-4, $7.29, to D-1, $7.29.

From Supreme Judicial Court, B-35, $300, to D-1, $100; A-2, $200.

To cover November 30 draft in said items, involving necessary expenses of the court, and for the balance of the year, all at the request of Judge Perrins.

Respectfully,

GEORGE B. STEBBINS,
Clerk of Court.

The above transfers were made by the City Auditor with the approval of the Mayor November 23, 1934.

REGISTRY OF DEEDS.

BOSTON, November 15, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Registry of Deeds:

From the appropriation for C-9, Equipment, $200; B-1, Printing and Binding, $104; A-1, Piece Work, $100, to the appropriation for D-1, Supplies, $404.

Several items of supplies carried over to 1934 on account of shortage in appropriation for 1933.

Respectfully,

W. T. A. FITZGERALD,
Register of Deeds.

The above transfer was made by the City Auditor with the approval of the Mayor November 23, 1934.

MAYORS ASKED TO STUDY HOUSING AND P. W. A. PROJECTS FOR RELIEF.

The attached telegram was sent by Mayor Mansfield to the Mayor of every city in Massachusetts and the Chairman of the Board of Selectmen of every town.

November 26, 1934.

What P. W. A. projects does your city (or town) contemplate under the present set-up of thirty per cent grant by the Government? What projects would you consider under a set-up of fifty per cent contribution by the Government? Give outline of projects with estimated cost of each entire project. Earnestly urge immediate reply.

FREDERICK W. MANSFIELD,
Mayor of Boston,
Chairman, Mayor's Committee
on P. W. A. Projects.

Following telegram was sent to the Mayor of each city in Massachusetts, and to the Chairman of the Selectmen in any town of over ten thousand inhabitants:

November 26, 1934.

Have you a housing problem in your city? Should it be solved by building new houses on vacant land or by clearing depreciated properties and building on old sites? If the former, what parcels or tracts of land, suitable or available for such purpose, giving areas, has your city that might be donated or deeded to the Federal Government provided it may be done lawfully? If the latter, what would be the cost of such clearance or replacement? Immediate reply urgently requested.

FREDERICK W. MANSFIELD,
Mayor of Boston,
Chairman, Mayor's Committee
on Housing Projects.

POLICE DEPARTMENT ORDERS.

General Order No. 598.

The following readjustment of the three major inspectional districts as now created is hereby made:

District A: Divisions 1, 2, 4, 7 and 15.

District B: Divisions 6, 9, 10, 14 and 16.

District C: Divisions 11, 13, 17, 18 and 19.

The following assignments of inspectors of divisions are hereby made:

Deputy Superintendent James McDevitt is assigned to District A.

Deputy Superintendent William W. Livingston is assigned to District B.

Deputy Superintendent John M. Anderson is assigned to District C.

All Rules and Regulations and General Orders inconsistent herewith are hereby repealed.

This order will take effect Friday, November 23, 1934, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 599.

Acting Lieutenant Robert A. Lynch and Patrolman Thomas J. Sullivan, both of Division 9, are commended, and in addition Patrolman Thomas J. Sullivan is granted three days' vacation for efficient police duty performed on November 7, 1934, in connection with the apprehension of a group of boys who were responsible for the sounding of a large number of false alarms of fire during the past year.

The commissioner is pleased to recognize and commend the efficiency and diligence shown by these officers in accomplishing the arrests of these boys.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 600.

The report entitled "Return A, Monthly Return of Offences Known to the Police," for the month of October, has been forwarded to Mr. J. E. Hoover, Director, Division of Investigation, Department of Justice, Washington, D. C.

This monthly return is composed of the following offences:

1. Criminal Homicide:
   - *a.* Murder and non-negligent manslaughter.
   - *b.* Manslaughter by negligence.
2. Rape. (Abuse of female child); (assault to.)
3. Robbery. (Assault to, robbery armed and unarmed.)
4. Aggravated Assault. (Assault and battery with dangerous weapon, mayhem); (assault with intent to murder.)
5. Burglary. Breaking and entering.
6. Larceny. Theft (except auto theft.)
   - *a.* $50 and over in value.
   - *b.* Under $50 in value.
7. Auto Theft. (Larceny of automobile and attempted larceny of automobile.)

Divisions of this department reported on the above-mentioned offences collectively for the month of October as follows:

Division.	Number of Offences Reported.	Unfounded.	Actual.	Cleared.	Per Cent Cleared.
1	55	37	18	19	100.00
2	78	40	38	48	100.00
6	77	47	30	33	100.00
7	14	2	12	14	100.00
15	50	17	33	35	100.00
16	85	65	20	26	100.00
18	4	2	2	2	100.00
9	192	93	99	98	98.98
10	87	28	59	52	88.13
11	64	42	22	19	86.36
13	32	12	20	17	85.00
4	162	93	69	57	82.60
17	12	5	7	5	71.42
14	36	22	14	9	64.28
19	46	26	20	7	35.00

It is gratifying to note that seven divisions, namely, 1, 2, 6, 7, 15, 16 and 18, have attained a mark of 100 per cent for the month of October, and the record of Division 7 in attaining a mark of 100 per cent for the past five months is highly commendable. Divisions 15 and 18 have also done a splendid job by having a perfect score for the fourth time.

The total percentage of cleared cases by all the divisions was 87.45, a gain of 5 points over the preceding month, and the combined averages of divisions by districts were as follows:

	Per Cent Cleared.
District B: Divisions 1, 2, 7, 15 and 16	100.00
District C: Divisions 4, 6, 9, 10 and 11	93.21
District A: Divisions 13, 14, 17, 18 and 19	71.14

The commissioner is pleased to note the steady improvement shown by most divisions of the department, and the splendid record of Divisions 7, 15 and 18.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 601.

A trial board consisting of Captains Campbell, McGrath and Daley, having heard by reference a complaint made by John J. Mullen, captain, Division 1, against William T. Downey, patrolman, Division 1, for alleged violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Conduct unbecoming an officer.

Specification: In that on the eighth day of November, 1934, the said Patrolman William T. Downey, while in uniform and not on duty, was under the influence of intoxicating liquor to such an extent that he was unable to properly perform police duty if called upon so to do.

Specification 2: In that on the eighth day of November, 1934, the said Patrolman William T. Downey, when in uniform and off duty was under the influence of intoxicating liquor to such an extent as to bring into disrepute his associates in the Boston Police Department and the Boston Police Department as a whole.

Charge 2: Conduct unbecoming an officer.

Specification: In that on the eighth day of November, 1934, the said Patrolman William T. Downey, while in uniform and off duty, did enter the premises of John J. Reardon, 182 Dudley street, Roxbury, a licensed tavern, where intoxicating liquors are sold and not being on police business at time,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, accepts the plea of guilty made by the said Patrolman William T. Downey. The Board has also considered the recommendations of Captain Mullen, Lieutenant O'Neil and Sergeant Carr to the effect that Patrolman Downey is a good, intelligent officer and interested in his work; the fact that he had previously been warned on two occasions regarding the use of liquor; that he was before a trial board on February 1, 1934, on a similar complaint, and found guilty; the officer's own testimony that he is the father of seven children, the oldest seventeen and the youngest eight months, that his wife is ill and that his own parents depend solely upon him for their support. These facts concerning the extent of Patrolman Downey's family and the officer's dependent parents have been substantiated by Captain Mullen. In view of the seriousness of the offence, the Board feels that the extreme penalty of dismissal is warranted; however, in view of the fact that Captain Mullen recommends that leniency be shown because of unusually extenuating family circumstances, and having in mind Patrolman Downey's promise that if he is found using intoxicatng liquor, whether on or off duty, he will immediately tender his resignation to his captain, the Board respectfully recommends that the said Patrolman William T. Downey be suspended from duty for forty-five days and ordered to perform 210 hours of punishment duty on Charge 1 and specifications thereunder, and that the said Patrolman William T. Downey be ordered to perform 210 hours of punishment duty on Charge 2 and Specification thereunder."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman William T. Downey be suspended from duty for a period of forty-five days, effective November 9, 1934, at 7.45 o'clock a. m., and that he perform 210 hours of punishment duty on Charge 1 and specifications thereunder, and the commissioner hereby further orders that the said Patrolman William T. Downey perform 210 hours of punishment duty on Charge 2 and specification thereunder.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the commissioner shall not allow reinstatement of a person discharged for cause.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

DAMAGES ASSESSED.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That in the matter of Daniel W. Lyon *et al.*, petitioners for damages on account of the taking in fee of 1,626 square feet of land on Eden street and Eden avenue, Charlestown district (taken in the name of Timothy F. Callahan *et al.*,) under the order of November 14, 1929, after consultation with the Law Department, and on its advice, the Board assesses the petitioners' damages in the sum of forty-two hundred and fifty (4,250) dollars; and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out of Macullar road, West Roxbury district, as a highway, from Centre street to Ansonia road, under the order of the Board of November 14, 1934, and awards no damages therefor.

In the matter of the application for revision of assessment levied October 8, 1925, on account of the construction of sewerage works, the Board of Street Commissioners, acting under the provisions of chapter 359 of the Acts of the year 1896, and deeming it just and proper that such action should be taken on said application,

Order, That the amount hereinafter specified, being the annual apportionment of said assessment for the year 1933, be, and the same is hereby, abated.

Peter Connolly, Centre street, West Roxbury, Plan 1925–4, Lot 22, $5.79.

STREET CONSTRUCTION.

The Mayor has approved the following from the Public Works Department:

BOSTON, November 15, 1934.

To the Mayor of Boston.

In accordance with the provisions of section 4 of chapter 393 of the Acts of 1906, I hereby certify that public necessity requires that the construction of the following streets, which have been laid out and ordered constructed under the authority of said act, be carried on after November 15, 1934, and respectfully request your approval therefor.

Peak Hill road, West Roxbury, from Cerdan avenue to the West Roxbury Parkway.

Greaton road, West Roxbury, from Centre street 900 feet northwesterly.

Boyd street, Dorchester, from Westville street to Dakota street.

Yours respectfully,

C. J. CARVEN,
Commissioner of Public Works.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the widening of Hyde Park avenue, Hyde Park district, on the westerly side, near old boundary line between Boston and Hyde Park, and the discontinuance of a portion of Hyde Park avenue, as a highway, on the easterly side, near old boundary line between Boston and Hyde Park, bounded and described as follows:

The highway named Hyde Park avenue is hereby widened on the westerly side for a distance of approximately eighty-six feet southerly from old boundary line between Boston and Hyde Park.

For the making of the aforesaid improvement, an easement for street purposes is taken in the following described lands, exclusive of trees or structures standing upon or affixed thereto.

A parcel of land, supposed to belong to Commonwealth of Massachusetts, bounded:

Westerly by the westerly line of said Hyde Park avenue as widened under this order, eleven and 67–100 feet; northerly by land hereinafter described as taken from Nesson, 69–100 feet, and easterly by the westerly line of Hyde Park avenue as it existed previous to this widening, eleven and 64–100 feet, containing four square feet, more or less.

A parcel of land, supposed to belong to Eva M. Nesson, bounded:

Westerly by the westerly line of Hyde Park avenue as widened under this order, fifty and 12–100 feet; northerly by other land hereinafter described as taken from said Nesson, three and 63–100 feet; easterly by the westerly line of Hyde Park avenue as it existed previous to this widening, fifty feet, and southerly by land hereinbefore described as taken from the Commonwealth, 69–100 feet, containing one hundred and eight square feet, more or less.

A parcel of land, supposed to belong to Eva M. Nesson, bounded:

Westerly by the westerly line of Hyde Park avenue as widened under this order, twenty-four and 12–100 feet; northerly by the old boundary line between Boston and Hyde Park, six and 82–100 feet; easterly by the westerly line of Hyde Park avenue as it existed previous to this widening, twenty-eight and 71–100 feet, and southerly by land hereinbefore described as taken from said Nesson, three and 63–100 feet, containing one hundred and sixteen square feet, more or less.

Said Hyde Park avenue, as hereby widened, is bounded:

Northerly by the old boundary line between Boston and Hyde Park, six and 82–100 feet; easterly by the westerly line of Hyde Park avenue as it existed previous to this widening, ninety and 35–100 feet, and westerly by the westerly line of Hyde Park avenue as hereby widened, eighty-five and 91–100 feet, containing two hundred twenty-eight square feet, more or less.

A portion of the highway named Hyde Park avenue is hereby discontinued on the easterly side, southerly from the old boundary line between Boston and Hyde Park for a distance of approximately one hundred and sixty feet.

Said portion of said highway as hereby discontinued is bounded:

Northerly by the old boundary line between Boston and Hyde Park, eleven and 84–100 feet; easterly by the easterly line of said Hyde Park avenue as it existed previous to this discontinuance, one hundred sixty and 89–100 feet, and westerly by the easterly line of said Hyde Park avenue as hereby established, by two measurements, one hundred two and 22–100 feet, and fifty-one and 10–100 feet on a curve of four thousand feet radius, containing seven hundred and seventeen square feet, more or less.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the widening of Hyde Park avenue, Hyde Park district, on the westerly side, for a distance of approximately eighty-six feet southerly from old boundary line between Boston and Hyde Park, and the discontinuance of a portion of Hyde Park avenue, on the easterly side, southerly from said boundary line for a distance of approximately one hundred and sixty feet; under the order of this Board of November 21, 1934, and awards no damages therefor.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom following a notice of the city's intention to enter upon said taking within sixty days for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Rumford road, bounded: Northeasterly by Chesbrough road, eight feet; southeasterly by another part of Rumford road, two hundred and fourteen feet; southwesterly by the same, eight feet; and northwesterly by the same, two hundred and fourteen feet, containing seventeen hundred and twelve square feet, more or less.

The sewerage works to be constructed are as follows: 214 linear feet of 10-inch pipe sanitary sewer and 214 linear feet of 10-inch pipe surface drain.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on the northwesterly side of Rumford road for a distance of approximately one hundred and twenty-one feet southwesterly from Chesbrough road, and the abutting lots of land on the southeasterly side of Rumford road, beginning at a point approximately fifty feet southwest of Chesbrough road and extending southwesterly for a distance of approximately one hundred feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1142, Sewerage Works, Rumford road, West Roxbury, October 30, 1934, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

VETO OF PROBATION OFFICER'S SALARY.

The following was received:

City of Boston,
Office of the Mayor, November 7, 1934.

To the City Council.

Gentlemen,—I am returning herewith without my signature and with my disapproval the order adopted by your honorable body on October 29, 1934, which purports to fix the salary of the chief probation officer of the Municipal Court of the South Boston District at $3,000 per annum.

The only effect of this order, if approved, would be to provide a salary increase for a member of the probation staff of that court. In view of the policy which has prevailed in city departments for the last four years, that no salary increases should be allowed except where an employee was promoted to a position of greater responsibility and more important duties, there is no apparent reason why an exception to this policy should be made in this instance. The probation officer who has been appointed to the position of chief probation officer by the presiding justice of the South Boston District Court has been serving as head probation officer since 1932 when he succeeded Clayton H. Parmelee. Mr. Parmelee had been attached to the court for forty-three years and his salary at the time of his retirement was $2,500. His successor, if this order should be approved, would be receiving a salary of $500 more than Mr. Parmelee received although he has been attached to the court for approximately only seven years.

It has not been called to my attention that any material change has taken place in the work of the Probation Department in the South Boston District Court in the two years during which the successor to Mr. Parmalee has been serving as head probation officer.

From all of these considerations I am moved to the conclusion that there is no necessity at this time for establishing the position of chief probation officer with a basic salary of $500 in excess of that now received by the head probation officer of the court.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

VETO OF GRANOLITHIC SIDEWALK.

The following was received:

City of Boston,
Office of the Mayor, November 14, 1934.

To the City Council.

Gentlemen,—I return herewith without my signature, and disapproved, the order adopted by your honorable body on October 29, 1934, for the making of granolithic sidewalks along the entire length of both sides of Ellery street in Ward 7. I am informed that the cost of construction for these sidewalks and of resetting the edgestones would be approximately $2,200 and that there is no money available for doing this work this year.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Placed on file.

STRUCTURAL SHOP, NAVY YARD.

The following was received:

City of Boston,
Office of the Mayor, November 1, 1934.

To the City Council.

Gentlemen,—I am in receipt of your order dated October 29, 1934, that I request the Navy Department to include in its P. W. A. projects the proposed addition to the structural shop at the Boston Navy Yard, and the extension to the shipbuilding ways at the same yard.

Under date of October 15, 1934, I took this matter up with Secretary of the Navy Swanson and Assistant Secretary of the Navy Roosevelt, and as a result the project is now being considered by Harold L. Ickes, Federal Public Works Administrator.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Placed on file.

TEMPORARY LOAN OF $7,500,000.

The following was received:

City of Boston,
Office of the Mayor, November 19, 1934.

To the City Council.

Gentlemen,—I am advised by the City Auditor that in his opinion it will be necessary to borrow before the close of this year in anticipation of the taxes of the current year an amount exceeding the total already authorized by your honorable body for such borrowings. In the opinion of the Auditor an additional authorization of $7,500,000 should be granted by the City Council, thus making a total authorization of temporary borrowings for this year $52,500,000, the same amount as was authorized in 1933 by your honorable body. In conformity with the advice and opinion of the City Auditor, I submit herewith the necessary order and respectfully recommend its adoption by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That to provide temporarily money to meet the appropriations for the financial year 1934, the City Treasurer issue and sell at such times and in such amounts as he may deem best, notes or certificates of indebtedness of the City of Boston not exceeding seven million five hundred thousand dollars ($7,500,000) in the total, in anticipation of the taxes of the current municipal year; that all such notes or certificates of indebtedness be dated the day the money for the same is received, be made payable with the interest thereon, within one year of their date, and bear interest from their date until the same are made payable at such rate as the City Auditor, the City Treasurer, and the Mayor, may determine.

Referred to Executive Committee.

KITCHEN AND LAUNDRY BUILDINGS, LONG ISLAND HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, November 19, 1934.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Institutions Commissioner in which he requests an appropriation of $30,000 to make needed improvements in the kitchen and laundry buildings of the Long Island Hospital. Because of the permanent nature of these improvements, I am providing the required amount by transfers from unexpended balances in loan appropriations which are no longer required for the purposes for which the loans were issued. I respectfully recommend adoption of the accompanying transfer order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Institutions Department, November 1, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

My dear Mr. Mayor,—It is important for the proper administration of the kitchen at the Long Island Hospital that it should be furnished with certain new equipment, and that the old cracked cement floor should be replaced by tile. I have the honor to request that an appropriation of sixteen thousand dollars ($16,000) be granted.

Laundry: It is important to move the ironing room from its present location to a fireproof basement to lessen the present risk A number of new pieces of laundry machinery are urgently required. An appropriation of fourteen thousand dollars ($14,000) is requested for these purposes.

Yours very sincerely,
F. A WASHBURN,
Commissioner of Institutions.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Recreation Building, Long Island Hospital, Establishment of, $5,380.28; Steamer "Stephen OMeara" Alterations and Additions, $313.83; Garage, Police Station 14, $512.12; Dock Square and Faneuil Hall Square, Improvement, $14,964.58; Kneeland Street, Improvement, $8,852.45, to the appropriation for Long Island Hospital, Kitchen and Laundry Improvements, etc., $30,023.25.

Referred to Executive Committee.

AUTOMOBILE WARNING SIGNS.

The following was received:

City of Boston,
Office of the Mayor, November 19, 1934.

To the City Council.

Gentlemen—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of October 1, 1934, concerning the placing of automobile warning signs reading "Look Out for Children," in front of all schools in Ward 7.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Traffic Commission, November 15, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir—I have the honor to acknowledge receipt of Council order dated October 1, 1934, which reads as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to place automobile warning signs reading 'Look Out for Children' in front of all schools in Ward 7."

There are eight schools in Ward 7. A survey of the areas in the vicinities of these schools shows that there are adequate signs near all of the important ones with the exception of the Michael J. Perkins School in East Ninth street.

Orders have been issued to erect two signs bearing the legend "Look Out for Children" near the Michael J. Perkins School.

These two signs and the two posts which will bear them will be taken from our stock and there will be no new expenditure involved.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

TRAFFIC SURVEY, TREMONT AND WASHINGTON STREETS.

The following was received:

City of Boston,
Office of the Mayor, November 19, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, being a further report in reference to an order adopted May 28, 1934, by your honorable body, concerning a traffic survey on Tremont and Washington streets.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Traffic Commission, November 16, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—With further reference to Council order dated May 28, 1934, which was acknowledged in my communication dated August 23, and which reads as follows:

Ordered, That the Traffic Commission and the Police Commissioner, through his Honor the Mayor, be, and hereby are, respectfully requested to make a check-up and survey for possible improvement of traffic conditions on Washigton street and on Tremont street, especially during the hours from 9 a. m. to 11 a. m. and from 4 p. m. to 6 p. m.,

I am inclosing herewith copy of report of our Engineering Department on the above Council order.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

Subject: Communication of June 13, 1934, from John F. Gilmore, Jr., Assistant Secretary to the Mayor, with attached order from the City Council, dated May 28, 1934, "That the Traffic Commission and the Police Department through his Honor the Mayor, be, and hereby are, respectfully requested to make a checkup and survey, for possible improvements of traffic conditions on Washington street and on Tremont street, especially during the hours from 9 a. m. to 11 a. m. and from 4 p. m. to 6 p. m.

A checkup and survey was made of Washington street and Tremont street in conjunction with the Police Department during the past three weeks and the following suggestions are made for the relief of traffic in these two streets.

Move the taxi stand from the west entrance of the Parker House in School street to east of the entrance.

Remove the six-cab taxi stand on the Common side of Tremont street, between Winter street and Temple place, and prohibit parking on the Common side of Tremont street, from Temple place to Park street.

Enforce the 20-foot corner restrictions at the northwest corner of Park and Tremont streets, and at the corner of State and Washington streets.

Enforce the parking restrictions in Tremont street, between Boylston street and Stuart street, and between Park street and Scollay square.

Enforce the parking restrictions in Washington street, from Stuart street to Adams square. The parking is particularly bad in that portion of Washington street, from Stuart street to Boylston street, and from Water street to Adams square.

Allow parking in both sides of Temple place except on the north side, for a distance of 150 feet easterly from Washington street.

Paint a center line in Temple place for its entire length so as to encourage two lanes of traffic to move through this street.

Abolish a special taxi stand in the east side of Tremont street, near St. Paul's Cathedral. This stand seriously interferes with northbound traffic in Tremont street. A more strict enforcement of the legal intersection restriction within this area would speed up traffic, especially traffic entering or leaving the connecting streets between Tremont street and Washington street.

The American Railway Express Company often park their trucks in Washington street, one on either side of the street, opposite one another, and remain parked for considerable lengths of time so that at least one lane of traffic is shut off by this parking. Suggest that the American Railway Express Company be requested to have their trucks stop only on one side of Washington street.

Suggest that more taxi stands be established in Washington street and some of the streets leading into Washington street, and then prohibit cruising cabs from picking up passengers in this area except from an official stand. At the present time cruising taxis comprise from 15 per cent to 25 per cent of the total traffic in Tremont and Washington streets. On rainy days conditions are made extremely bad on account of these cruising cabs, crawling along at a snail's pace, stopping at an intersection before the signals change and stalling after the green "Go" signals show, thus slowing up traffic so that jams are caused that affect the entire area.

At the present time Washington street carries from 10,000 to 12,000 vehicles between 8 a. m. and 6 p. m. This is pretty nearly the capacity of the street. On both of these streets we have to consider the large pedestrian traffic at all intersections. In the year 1933 we had only two accidents in which persons were injured at Summer street and Washington street. This is very remarkable when you consider that on some days there are over 200,000 pedestrians passing through this intersection.

A police chauffeur made speed runs at 10 a. m. and 4.30 p. m. on five different days, starting at Stuart street and Washington street, going by way of Washington street, Brattle street and along Tremont street to Stuart street. The average time of this run is about fourteen minutes. This is at the rate of over six miles per hour during the busiest hours of the day.

Parking in School street and in Newspaper row causes delays in School street and Washington street. There are times that it takes from ten to twenty minutes to pass through School street. Cars park in both sides of Newspaper row so that only one lane of vehicles can get through. A heavy left turn from School street and three lanes of traffic from Washington street have to release by one lane through Newspaper row. If this condition was relieved by strict enforcement of the present parking restrictions, conditions would be greatly benefited.

TRAFFIC SIGNALS, PIERCE SQUARE.

The following was received:

City of Boston,
Office of the Mayor, November 16, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Police Commissioner, relative to your order of October 1, 1934, concerning recommendations for suitable traffic signals or traffic officer protection in Pierce square, Dorchester, at the intersection of Dorchester avenue and River street, Ward 17.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—In reply to memorandum received from your office, dated October 11, 1934, together with City Council order passed October 1, 1934, regarding traffic conditions in the Pierce square section of Dorchester, the supervising officers in charge of traffic have made investigation and I am sending you copies of reports containing details of their observations. These reports have my approval.

I am returning herewith the original order of the City Council, copy of which has been kept for the files of this office.

Very truly yours,
E. C. HULTMAN,
Police Commissioner.

To the Superintendent.

Sir,—With reference to the attached communication, under date of October 11, 1934, from the office of the Mayor, City Hall, Boston, in relation to order of City Council, October 1, 1934, which reads:

"Recommendation for traffic signals or traffic officer protection in Pierce square section of Dorchester, at the intersection of Dorchester avenue and River street, Ward 17,

and sent to the Police Commissioner on October 11, 1934, for consideration and report, I respectfully report that I directed Lieut. William P. Gaffney, of this bureau, to give this intersection

in the vicinity of Pierce square a long hard study, in regard to traffic conditions, for the purpose of learning as to whether or not traffic signals or a traffic officer were necessary in Pierce square for the protection of pedestrians, as well as looking after the welfare of the automobilist, and to report to me the result of his investigation, which you will please find attached.

I respectfully recommend that this communication be forwarded to the office of his Honor the Mayor, City of Boston, as an answer to order of the City Council, under date of October 1, 1934, which you will also find attached.

Respectfully submitted,
JOHN T. O'DEA,
Lieutenant, Commanding Bureau of Traffic.

City of Boston,
Police Department, Bureau of Traffic,
November 6, 1934.

Lieut. John T. O'Dea,
Commanding Bureau of Traffic.

Sir,—With reference to the attached communication from John F. Gilmore, Jr., Assistant Secretary, Office of the Mayor, City of Boston, attaching order passed by the Boston City Council October 1, 1934, that the Police Commissioner be requested to consider early recommendations either for suitable traffic signals or traffic officer protection in the Pierce square section of Dorchester at the intersection of Dorchester avenue and River street.

I have investigated this location for some time past at different intervals of the day and do not find it dangerous. This space is quite wide, with an island in the center, upon which is a fire alarm box and a traffic sign, which reads "Slow," which can be seen from Dorchester avenue going south, and Washington street going east, coming into the square. The vehicular traffic through here in any direction is not very heavy and while some of it proceeds fairly rapid it is the best self regulated traffic square in Boston as the vehicles seem to always go in a direct line and not sprawled all over the roadway. There is very little heavy trucking going through this point and what trucking goes through here from Milton is either slowed up by the grade from the bridge to the Neponset River and the square or the drivers are careful and this seems to be the situation on all the approaches through the square, that the vehicular traffic keeps in line and on their own space.

There are not a great many children crossing the square, there being two schools located in the immediate vicinity, The Gilbert Stuart School, on Richmond Street, and the St. Gregory's Parochial School, on Dorchester avenue, and there are about thirty pupils altogether, who cross the square going south and they do not have any trouble in crossing. I have seen some women, with baby carriages, crossing without any inconvenience or any long halts before crossing and they cross safely.

I have talked with some of the storekeepers in this vicinity and while they say they would like to have a traffic officer assigned to the square they readily admit that traffic goes through there without any interruption or any great inconvenience to the pedestrians.

There is no record of any automobile accidents in this square.

Considering the situation in this square, I do not believe that a traffic officer is needed there and I would respectfully recommend that this matter be placed on file for future reference.

Respectfully submitted,
WILLIAM P. GAFFNEY,
Lieutenant, Bureau of Traffic.

CITIZENS ON P. W. A. PROJECTS.

The following was received:

City of Boston,
Office of the Mayor, November 9, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Corporation Counsel, relative to your order of October 1, 1934, concerning a proposed requirement on P. W. A. projects, in which the City of Boston is a party, that the contractor shall not make any subcontracts except with citizens residing in Boston and that subcontractors shall employ only citizens and residents of Boston.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Law Department, November 8, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—I have received a memorandum from your office dated October 11, 1934, requesting my consideration of and report with reference to an order passed by the City Council on October 1, 1934, which provides as follows:

"Ordered, That his Honor the Mayor be requested to confer with the Federal authorities having charge of the P. W. A. projects in which the City of Boston is a party, and urge the insertion of conditions in all contracts to provide that the contractor shall not make any subcontracts except with citizens residing in Boston, and that subcontractors shall employ only citizens and residents of Boston."

The order, in substance, requests you to endeavor to persuade the Federal authorities to permit the insertion by the city in all Public Works contracts of two provisions:

1. That contractors shall enter into subcontracts only with citizens residing in Boston; and

2. That subcontractors shall employ only citizens residing in Boston.

Under the terms of the grant agreements between the city and the United States of America relating to the P. W. A. projects, in which the city is engaging, the City, in order to receive grants from the Federal Government, must comply with the provisions and conditions of the grant agreements and with all rules and regulations promulgated by the Federal Emergency Administration of Public Works. One of these rules requires the approval by the State Engineer, P. W. A., of all public works contracts entered into by the city. If, therefore, the provisions in question are to be inserted in the city's public works contracts, the approval of that engineer must be obtained and such provisions must conform with the provisions of the grant agreement and the rules and regulations of the Federal Emergency Administration of Public Works.

I.

Proposed Provision that Contractors Enter into Subcontracts Only with Citizens Residing in Boston.

Section 5 of Article II, of Circular No. 1 promulgated by the Federal Emergency Administration of Public Works and entitled: "The Purposes, Policies, Functioning and Organization of the Emergency Administration; the Rules Prescribed by the President," contains the following provision:

"Bidding not to be confined to local contractors. Bidding shall be open to all qualified contractors. The State Engineer (P. W. A.) will determine what contractors are qualified, pursuant to instructions to be furnished by the Administrator."

I have been advised by the State Engineer, P. W. A., that the word "contractors" as used in said section 5 has been interpreted by the Legal Division of the P. W. A. to include subcontractors; and certainly such interpretation is consistent with the policy underlying the above-quoted rule.

In view of the interpretation of the Legal Division of the Public Works Administration, it is clear that the State Engineer, P. W. A., will not approve contracts which provide that contractors may enter into subcontracts only with citizens residing in Boston, at least unless the rule above quoted or its interpretation is changed. There would seem to be not even a remote likelihood that the interpretation by the P. W. A. Legal Division would be changed without the approval of the Administrator.

If, therefore, it is desired to have such a provision inserted in the city's public works contracts the Administrator must be prevailed upon to change the rule or to have the interpretation changed.

The State Engineer, P. W. A., has advised me that attempts have heretofore been made in behalf of other municipalities to cause the Administrator to amend section 5, above quoted, so as to permit a limitation in contracts such as that suggested by the City Council; but that the policy behind said section has been considered so fundamental by the Administrator as to preclude any change. Even the provisions for preference to locally produced materials which originally appeared in grant agreements and P. W. A. rules and regulations have been stricken out. The Administrator appears to be definitely opposed to confining bidding to local contractors or subcontractors or to locally produced materials.

In view of the foregoing, it would seem highly improbable, even should you call upon the Administrator to change said section 5 so as to permit the insertion in the city's P. W. A. contracts of the proposed clause, that such permission would be given.

I submit for your consideration in connection with the question of the desirability of inserting such a clause, an opinion dated July 20, 1927, of Frank S. Deland, former Corporation Counsel, to Malcolm E. Nichols, then Mayor of Boston.

II.

Proposed Provision that Subcontractors Employ Only Citizens Residing in Boston.

Section 206 of Title II of the National Industrial Recovery Act (H R. 5755) provides in part as follows:

"All contracts let for construction projects and all loans and grants pursuant to this title shall contain such provisions as are necessary to insure . . . (4) that in the employment of labor in connection with any such project, preference shall be given, where they are qualified, to ex-service men with dependents, and then in the following order: (A) To citizens of the United States and aliens who have declared their intention of becoming citizens, who are *bona fide* residents of the political subdivision and/or county in which the work is to be performed, and (B) to citizens of the United States and aliens who have declared their intentions of becoming citizens, who are *bona fide* residents of the state, territory, or district in which the work is to be performed: [Provided, that these preferences shall apply only where such labor is available and qualified to perform the work to which the employment relates; . . . "

The Grant Agreements between the City of Boston and the United States of America relating to the various public works projects in which the city is engaged, and the rules and regulations of the Administrator contain provisions with reference to employment in accordance with this section and these provisions apply equally to employees of contractors and to employees of subcontractors.

The only difference between the limitations on employment imposed pursuant to the provisions of said section 206 and the limitations on employment proposed by the City Council relating to employees of subcontractors are the following:

(1.) The City Council order (in form at least) requests a restriction on the class that may be employed, whereas the limitations imposed pursuant to the provisions of section 206 are in the nature of a preference and do not apply unless the preferred class of labor is available and qualified to perform the work to which the employment relates; and

(2.) The City Council order contemplates the employment only of citizens residing in Boston, whereas the limitations imposed pursuant to the provisions of section 206 require a prior preference for ex-service men with dependents; place upon the same preferential basis citizens of the United States and aliens who have declared their intention of becoming citizens; place upon the same preferential basis *bona fide* residents of Boston and *bona fide* residents of the remainder of Suffolk County and include in the final preferential class citizens and aliens who have declared their intention of becoming citizens who are *bona fide* residents of the Commonwealth.

Whether or not these differences are so great as to justify a request, if such request could be granted, that the limitations suggested by the City Council be substituted for the limitations imposed pursuant to the provisions of section 206 of the National Recovery Act, it is my opinion that such request could not be granted without an amendment by Congress of the provisions of said section.

Very truly yours.
HENRY E. FOLEY,
Corporation Counsel.

REPORT OF ELECTION COMMISSIONERS

The following was received:

City of Boston,
Office of the Mayor, November 9, 1934.

To the City Council.

Gentlemen,—I herewith transmit a report from the Board of Election Commissioners, relative to your order of October 1, 1934, concerning the number and political designation of registered voters by wards.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Election Department, October 30, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of communication of October 6, 1934, from your Assistant Secretary, Mr. John F. Gilmore, Jr., together with an order of the City Council, dated October 1, 1934, in which it is requested that we furnish you with the number and political designation of the registered voters, by wards, and the same by precincts.

In compliance with this request, I am sending you at this time figures on the same—complete figures on the years from 1925 to 1933, inclusive. The figures for the year 1934, as you will note on the bottom of page containing same, are based on the registered voters contained in the First Printed Voting List. The latest figures, as resulting from the State Primary held on September 20, 1934, are in the process of being compiled, and when completed will be fowarded to you.

A great deal of painstaking care has been given in the preparation of these lists, and it is assumed that they are to be used in the re-division of the wards of the city.

Yours respectfully,
BOARD OF ELECTION COMMISSIONERS,
DAVID B. SHAW, Chairman.

1925.

JEFFERSON PLAYGROUND FOUNDATION.

The following was received:

City of Boston,
Office of the Mayor, November 1, 1934.

To the City Council.

Gentlemen—I herewith transmit a letter from the Park Department, relative to your order of October 15, 1934, concerning stones falling from a foundation at Jefferson Playground.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Park Department, October 30, 1934.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have your memorandum of October 24, with inclosure, order from the City Council, that the Park Commission investigate the condition of the Jefferson Playground relative to the stones falling from the foundation.

The foundation in question is a retaining wall built under the jurisdiction of the School Department as it holds up their yard and iron fence.

I will, however, have the loose stones removed by our own men.

Very respectfully yours,
WILLIAM P. LONG,
Chairman.

TRAFFIC LIGHTS ON VARIOUS STREETS.

The following was received:

City of Boston,
Office of the Mayor, November 9, 1934.
To the City Council.

Gentlemen,—I herewith transmit five letters from the Boston Traffic Commission, relative to orders adopted by your honorable body on October 29, 1934, concerning the matters as follows:

1. Traffic lights at North Harvard and Cambridge streets, Ward 22.

2. "Stop" signs at the intersection of E and West Third streets, Ward 6.

3. Automatic traffic signals at the junction of D and West Sixth streets, Ward 6.

4. Automatic traffic signals at the junction of D street and West Broadway, Ward 6.

5. Automatic traffic signals at the junction of Walnut avenue and Warren street, Ward 12.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Traffic Commission, November 7, 1934.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated October 29, 1934, which reads as follows:

Ordered, That the Traffic Commissioner, through his Honor the Mayor, be requested to provide in his budget for 1935 sufficient money to install traffic lights at North Harvard and Cambridge streets, Ward 22."

No funds are available at the present time for the installation of the above traffic signals.

The installation of automatic traffic signals has never been paid from the departmental budget. All signal installations have been paid for out of loan appropriations.

Very truly yours,
WILLIAM P. HICKEY,
Commissioner.

HOUSING FOR UNEMPLOYED WOMEN.

The following was received:

City of Boston,
Office of the Mayor, November 19, 1934.
To the City Council.

Gentlemen,—It has been represented to me by a committee of the Massachusetts Section of the Women's Department of the National Civic Federation that unless decent housing accommodations are provided for unemployed girls and single women their plight during the coming winter is likely to be very serious

A preliminary survey has been made of unused city buildings to find suitable quarters and the Convalescent Home owned by the City of Boston and situated at 2150 Dorchester avenue has been selected as a building well adapted for such purposes. The home has not been used for three years and is in need of slight repairs which will be paid for by private funds under the control of the Overseers of the Public Welfare. It will house about fifty young women. I am informed that the project meets with the approval of the Overseers of the Public Welfare.

To the end that these premises may be available for this very worthy purpose I am submitting herewith an order providing for the lease of the premises to the Massachusetts Section of the Women's Department of the National Civic Federation at the nominal rental of $50 per year, the lease to be terminable by the Mayor upon thirty days' notice.

I respectfully urge the passage of this order.

Respectfully submitted,
FREDERICK W. MANSFIELD, Mayor.

City of Boston, City Council.

Whereas, The Trustees of the Boston City Hospital has the care and custody of a certain parcel of land belonging to the City of Boston and situated on the easterly side of Dorchester avenue, together with the buildings thereon, and being numbered 2150 on said Dorchester avenue and known as the Convalescent Home; and

Whereas, The said Trustees of the Boston City Hospital has no present need of the said premises for public purposes: now, therefcre, it is hereby

Ordered, That his Honor the Mayor be, and he hereby is, authorized in the name and behalf of the City of Boston, in consideration of fifty dollars paid to the City of Boston by the Masaschusetts Section of the Women's Department of the National Civic Federation, to lease, by a written instrument satisfactory in form to the Law Department of the City of Boston, to the said Massachusetts Section of the Women's Department of the National Civic Federation, or its nominee, for the purposes of using and operating the said premises as a home for unemployed single girls and women having a settlement in Boston and for no other purpose, for a period of five months beginning with the day of November, 1934, and ending with the day of April, 1935, the said premises numbered 2150 Dorchester avenue, situated on the easterly side of said Dorchester avenue in that part of Boston called Dorchester; and it is hereby further

Ordered, That the said lease contain a provision authorizing the Mayor of Boston to terminate and cancel the said lease by sending to the said Massachusetts Section of the Women's Department of the National Civic Federation a thirty-day notice of his intention so to do, mailed to or delivered at the above leased premises to the said Massachusetts Section of the Women's Department of the National Civic Federation.

Referred to Committee on Public Lands.

DATE OF POLICE LISTING.

The following was received:

City of Boston,
Office of the Mayor, November 19, 1934.
To the City Council.

Gentlemen,—I transmit herewith letter from the Corporation Counsel relative to the order adopted by your honorable body on October 1, 1934, concerning certain matters arising out of a proposed new division of wards.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Law Department, November 19, 1934.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—I have received a memorandum from your office submitting a copy of the following order of the City Council:

"Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to advise the City Council forthwith with reference to the following:

1. Under the provisions of chapter 254 of the Acts of 1933, must the annual police listing in the various wards and precincts of Boston be made on January 1 rather than April 1, 1935?

2. Must the annual police listing for 1935 be made on January 1 irrespective of whether the City Council makes a new division of the city into wards during 1934?

3. Must the City Council, prior to December 31, 1934, make a new division of the city into wards?

4. If the City Council makes a new division of the wards in Boston, must such new division be for 1935, or may 1936 be made the effective date?

5. Must the registrars, under section 15 of chapter 254 of the Acts of 1933, prepare voting lists by wards and precincts in Boston as of January 1, 1935, if a new division of wards is made by the City Council prior to December 31, 1934?

6. With reference to the real estate tax bills recently sent out to property owners in Boston is the amount of each tax bill at the rate of $37.10 per thousand for the entire calendar year of 1934, or for the final nine months of the current year, with a new tax bill to be rendered for the entire calendar year of 1935?"

You have asked my opinion with regard to the matters inquired of in said order.

I.

"Under the provisions of chapter 254 of the Acts of 1933, must the annual police listing in the various wards and precincts of Boston be made on January 1 rather than April 1, 1935?"

Section 5 of chapter 254 of the Acts of 1933 amended section 4 of chapter 51 of the General Laws (Ter. Ed.) so that said section, as amended, provides, in part, as follows:

"Except as otherwise provided by law, the assessors, assistant assessors, or one or more of them, shall annually, in January, February or March, visit every building in their respective cities and towns and, after diligent inquiry, shall make true lists containing, as nearly as they can ascertain, the name, age, occupation and residence on January first in the current year, and the residence on January first in the preceding year, of every male person twenty years of age or older, residing in their respective cities and towns, liable to be assessed for a poll tax, and of soldiers and sailors exempted from the payment of a poll tax under section five of chapter fifty-nine; and, except in cities and towns having listing boards, shall also make true lists containing the same facts relative to every woman twenty years of age or older residing in their respective cities and towns."

Section 9 of said chapter 254 of the Acts of 1933 amended said chapter 51 of the General Laws (Ter. Ed.) by inserting the following new section:

"Sec. 148. In cities and towns in which the listing of residents for the purposes of determining their liability to be assessed a poll tax and of determining their right to vote is governed by special law, and in cities and towns which have accepted section fourteen A, the provisions of this chapter relative to assessors and assistant assessors shall apply to the officers performing like duties in such cities and towns. In case any such provision of this chapter contains a date for the performance of an official act by a board of assessors, assessor or assistant assessor, which act by special law is to be performed in any city or town by a listing board or by an officer other than an assessor or assistant assessor, the date for the performance of such act fixed by this chapter shall prevail over the date fixed therefor by special law, in case of difference. Where, in any special law, April first is stated as the date as of which the legal residence of any person shall be determined, such residence shall be determined as of January first instead of April first."

In Boston, the listing of residents for the purposes of determining their liability to be assessed a poll tax and of determining their right to vote is governed by special law, namely, the provisions of chapter 29 of the General Acts of 1917, as amended, and the provisions of chapter 93 of the Special Acts of 1918. Chapter 29 of the General Acts of 1917, as amended, provides for such listing by the Listing Board of the City of Boston and requires the Listing Board, within the first twenty week days of April in each year, by itself or by police officers subject to the jurisdiction of the Police Commissioner, to visit every building in the city and make lists of residents therein on April 1 of the year of visitation. Permission to complete the visitation within an extended period of ten week days is granted under certain conditions. The Board is required to transmit its list to the Board of Election Commissioners and, by virtue of the provisions of chapter 93 of said Special Acts of 1918, to the assessors.

In view of the provisions contained in section 148 of chapter 51 of the General Laws, above quoted, that where, in any special law, April 1 is stated as the date as of which the legal residence of any person shall be determined, such residence shall be determined as of January 1 instead of April 1, it is my opinion that the date as of which the legal residence of persons in Boston shall hereafter be determined by the Listing Board is January 1 of the year of visitation.

Furthermore, in view of the provisions contained in said section 148 to the effect that the provisions

of chapter 51 relative to assessors and assistant assessors shall apply to officers performing like duties in cities and towns in which the listing of residents for the purposes of assessment and voting is governed by special law, and in view of the provisions contained therein that in case any such provision of said chapter contains a date for the performance of an official act by a board of assessors, assessor or assistant assessor, which set by special law is to be performed in any city or town by a listing board, the date for the performance of such act fixed by said chapter shall prevail over the date fixed therefor by such special law, in case of difference; it is my opinion that the listing board of the City of Boston is hereafter required to make, or have made, the visitation referred to in chapter 29 of the General Acts of 1917, as amended, annually, in January, February or March.

II.

"Must the annual police listing for 1935 be made on January first irrespective of whether the City Council makes a new division of the city into wards during 1934?"

In view of the provisions of sections 5 and 9 of chapter 254 of the Acts of 1933, the listing of residents required by law to be made for the purposes of determining their liability to be assessed a poll tax and of determining their right to vote must be made in January, February or March of each year hereafter, and the date as of which the residence of such persons must hereafter be determined is the first day of January. No exception is made with regard to such listing for instances in which a new division of a city into wards is made in the preceding year

See further in this connection the answer to question IV.

III.

"Must the City Council, prior to December 31, 1934, make a new division of the City into wards?"

Section 1 of chapter 54 of the General Laws (Ter. Ed.) provides as follows:

"In ninetwen hundred and twenty-four, and every tenth year thereafter, in December, a city, by vote of its city council, may make a new division of its territory into such number of wards as may be fixed by law. The boundaries of such wards shall be so arranged that the wards shall contain, as nearly as can be ascertained and as may be consistent with well-defined limits to each ward, an equal number of voters. The city clerk shall forthwith give written notice to the state secretary of the number and designations of the wards so established, together with an official description of said wards."

Section 4 of said chapter 54 provides as follows:

"For all elections held prior to the biennial state primary following a redivision of a city into wards, and for the assessment of taxes in the year following such a redivision, the wards as existing previous to such redivision shall continue, and for such purposes the election officers shall be appointed and hold office, and voting lists shall be prepared, and all other things required by law shall be done, as if no such redivision had been made. For all other purposes the new division shall take effect on December thirty-first of the year when made."

It is my opinion that, by virtue of the provisions of said sections, the City of Boston is authorized, by vote of the City Council, to make in December, 1934, prior to the thirty-first day thereof, a new division of its territory subject to the limitations to exercise this authority.

I am therefore of the opinion that the city is not required to make a new division of the city into wards, but that, if such new division is made, it must be made in December and completed prior to the thirty-first day thereof.

IV.

"If the City Council makes a new division of the wards in Boston, must such new division be for 1935 or may 1936 be made the effective date?"

Section 4 of chapter 54 of the General Laws (Ter. Ed.) (quoted above in connection with my opinion as to the answer to Question III), provides that the wards, as existing previous to a redivision pursuant to section 1 of said chapter, shall continue for all elections held prior to the biennial state primary following a redivision of a city into wards, and for the assessment of taxes in the year following such a redivision, but that, for all other purposes, the new division shall take effect on December 31 of the year when made. The Legislature, therefore, has, in my opinion, fixed the effective dates of redivision, if made.

It is therefore my opinion that, while the City of Boston may make a new division of territory into wards in December, 1934, such new division, if made, will be effective

(1) for all elections and all things required by law to be done in connection therewith, commencing with (but not prior to) the biennial state primary following such redivision;

(2) for the assessment of taxes and all things required by law to be done in connection therewith, after (but not in) the year following such redivision; and

(3) for all other purposes, on December 31 of the year when made.

V.

"Must the Registrars, under section 15 of chapter 254 of the Acts of 1933, prepare voting lists by wards and precincts in Boston as of January 1, 1935, if a new division of wards is made by the City Council prior to December 31, 1934?"

Section 18 of chapter 254 of the Acts of 1933 amends section 55 of chapter 51 of the General Laws, so that said section 55, as amended, provides as follows:

"Registrars shall, from the names entered in the annual register of voters, prepare voting lists for use at elections. In such voting lists they shall place the names of all voters entered on the annual register, and no others, and opposite to the name of each his residence on January first preceding or at the time of his becoming an inhabitant of such place after said day. They may enter the names of women voters in separate columns or lists. In cities, they shall prepare such voting lists by wards, and if a ward or a town is divided into voting precincts, they shall prepare the same by precincts, in alphabetical order, or by streets. Names shall be added thereto or taken therefrom as persons are found to be qualified or not qualified to vote."

There are in Boston no "Registrars" within the meaning of that term in said section 55. By virtue of the provisions of section 85 of chapter 835 of the Acts of 1913, as amended, the Board of Election Commissioners of the City of Boston is required to make street lists, by precincts, of the voters to be used as the voting lists at elections. These lists are required to set forth the residence of voters on April 1.

Section 142 of chapter 51 of the General Laws, as amended, contains the following sentence:

"Where, in any special law, April first is stated as the date as of which the legal residence of any person shall be determined, such residence shall be determined as of January first instead of April first."

It is my opinion that, in view of the provisions of said section 145, the voting lists required to be made by the Board of Election Commissioners must in 1935 and thereafter set forth the residence of voters as of January 1.

The lists so required to be made must, as above stated, be made by precincts. But, even if the city makes a new division of its territory into wards in 1934, by virtue of the provisions of section 4 of chapter 54 of the General Laws, for all elections and the preparation of voting lists therefor, held prior to the biennial state primary in 1936, the wards as existing previous to such redivision will continue as indicated in my opinion with regard to the answer to question IV. I am, therefore, of the opinion that in preparing voting lists for elections prior to the biennial state primary in 1936, the residence of voters on January 1 should be stated and ward lines established and now existing should be followed by the Board of Election Commissioners.

VI.

"With reference to the real estate tax bills recently sent out to property owners in Boston, is the amount of each tax bill at the rate of $37.10 per thousand for the entire calendar year of 1934, or for the final nine months of the current year, with a new tax bill to be rendered for the entire calendar year of 1935?"

Section 29 of chapter 254 of the Acts of 1933 amends section 11 of chapter 59 of the General Laws (Ter. Ed.) so that said section as amended provides in part as follows:

"Taxes on real estate shall be assessed in the town where it lies, to the person who is either the owner or in possession thereof on January first . . . "

The current year and in each of a number of years prior thereto, real estate taxes in this Commonwealth have been levied upon persons who were either the owners or in possession of real estate on April 1. The taxes so assessed were, in my opinion, imposed to meet appropriations and obligations and expenditures of the fiscal year in which said taxes were levied (see section 33 of chapter 59 of the General Laws (Ter. Ed.). The real estate taxes, therefore, imposed upon persons owning or in possession of real estate on April 1, 1934, were, in my opinion, imposed to meet appropriations, obligations and expenditures of the entire fiscal (also calendar) year 1934.

Similarly it is my opinion that the taxes which will be imposed upon persons owning or in possession of real estate on January 1, 1935, will be imposed to meet appropriations, obligations and expenditures of the entire fiscal (also calendar) year 1935.

The purpose underlying section 29 of said chapter 254 is not to increase the revenue of municipalities. It does not impose an additional tax. It merely changes the date for the determination of the persons against whom the annual tax shall be assessed and has for its purpose the earlier obtaining of revenue for municipalities, in order to lesson the necessity of borrowing in anticipation of taxes.

I am, therefore, of the opinion that the tax bills rendered in 1934 were rendered to meet appropriations, obligations and expenditures of the entire fiscal and calendar year 1934 and not merely of nine months thereof and that the tax bills which will be rendered in 1935 should be rendered to meet appropriations, obligations and expenditures of the entire fiscal and calendar year 1935.

Very truly yours,
HENRY E. FOLEY,
Corporation Counsel.

Petition of Alice M. Ralph, to be paid annuity on account of death of her husband, John G. Ralph, late member of Police Department.

Committee on Jitney Licenses.

Petition of Boston Elevated Railway for license to operate motor vehicles between junction of Centre and La Grange streets and junction of Centre and Mount Vernon streets, West Roxbury, over Centre street.

Minors' Licenses.

Petitions for minors' licenses for forty-nine newsboys and one bootblack were received. Severally approved under usual conditions.

APPROVAL OF CONSTABLES' BONDS.

The constables' bonds of David Bashitsky, Patrick J. Quinn and Walter Edward Grignon, having been duly approved by the City Treasurer, were received and approved.

SIDEWALK ASSESSMENTS.

Communications were received from the Commissioner of Public Works together with orders assessing half cost of construction of sidewalks against owners of property, viz.:

	Half Cost.
Union street, Wards 21 and 22	$2,160 09
Sheridan street, Ward 19	143 80
Cornwall street, Ward 11	1,530 70
Hano street, Ward 22	664 03
Newport street, Ward 13	613 44

The orders were severally passed.

SOLDIERS' RELIEF.

Coun KERRIGAN, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of November, 1934.

Report accepted; said order passed.

REPORT OF COMMITTEE ON ORDINANCES.

Coun. FISH, for the Committee on Ordinances, submitted the following:

1. Report on ordinance (referred October 15) concerning appointment of an Assistant City Collector—recommending that same ought to pass.

Coun. FISH—Mr. President, owing to the fact that the present City Collector is obliged to spend much of his time before the Tax Appeals Board, the office is left a good deal of the time without someone in authority. I understand that William Gartland, who has been in the department for twenty years, has been acting at such times as Assistant City Collector. Because of existing conditions in the department, which I have pointed out, the committee thought that this ordinance should be passed.

The ordinance was passed under suspension of the rule.

RECESS.

The Council voted, at 2.31 p. m., to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President DOWD at 4.18 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred October 29) transferring $35,000 for furnishing and equipping kitchen building—that same ought to pass.

The report was accepted and the order was given its first reading and passage, yeas 21, nays—Coun. Selvitella—1.

2. Report on message of Mayor and order (referred today) that to provide temporarily money to meet appropriations for financial year 1934 the City Treasurer issue notes or certificates of indebtedness not exceeding $7,500,000 in total in anticipation of taxes of current municipal year—that same ought to pass.

The report was accepted and the order was given its first reading and passage, yeas 20, nays 0.

3. Report on order (referred October 29) that the Finance Commission be requested to investigate East Boston Tunnel land-takings—that the same ought to pass.

Report accepted; said order passed.

REPORT OF COMMITTEE ON CLAIMS.

Coun. BRACKMAN, for the Committee on Claims, submitted report on petition of John J. Sheehy (referred October 29) to be reimbursed for amount of execution issued against him on account of acts as operator of motor vehicle belonging to Sewer Division, Public Works Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of fifteen dollars be allowed and paid to John J. Sheehy in reimbursement for the amount of execution issued against him on account of his acts as operator of a motor vehicle belonging to the Sewer Division, Public Works Department, said sum to be charged to the Reserve Fund.

Report accepted; said order passed.

SOLDIERS' RELIEF.

Coun. KERRIGAN, for the Committee on Soldiers' Relief, submitted report recommending passage of an additional order for payment of aid to soldiers and sailors and their families in City of Boston for month of November, 1934.

Report accepted; said order passed.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

Coun. GOLDMAN called up from the calendar, under unfinished business, Nos. 2 and 3, viz.:

2. Action on appointment submitted by the Mayor October 29, 1934, of Samuel Tarle, to be a constable.

3. Action on appointments submitted by the, Mayor October 29, 1934, of James L. Brown, Jr., Ida Lavien, Edward F. Condon, Daniel W. Connors, to be weighers of coal; and Philip Sheridan, Daniel Lowney, John Leary, to be weighers of coal, measurers of grain and weighers of goods.

The question came on confirmation. Committee, Coun. Agnew and Selvitella. Whole number of ballots 20; yeas 18, nays 2, and the appointments were confirmed.

AMENDMENT OF RACING BILL.

Coun. ROBERTS and McGRATH offered the following:

Ordered, That his Honor the Mayor be requested to petition the next Legislature for the enactment of legislation amending the Racing Bill to provide for approval by the Board of Selectmen in towns and the Mayor and City Council in cities of any site within the corporate limits of their respective town or city where racing is to be allowed and that in the City of Boston all profits over and above running expenses, together with a fair return on the investment, be turned over to the Department of Public Welfare to defray the expenses of this department.

Order passed under suspension of the rule.

WARD 15 IMPROVEMENTS.

Coun. TOBIN offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to place automobile warning signals at each end of the center span of the railroad bridge on Columbia road, at Ceylon street, Ward 15.

Ordered, That the Commissioner of Public Works make a sidewalk along Quincy street, between Barry and Bellevue streets, both sides, Ward 15, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of granolithic, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Ordered, That the Commissioner of Public Works set edgestone on Duncan street, Granger place to Leonard street, Ward 15, in front of the estates bordering thereon, under the provisions of chapter 196 of the Special Acts of 1917.

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to include in his P. W. A. program a sum sufficient to provide for the removal of the huge rock on the sidewalk on Quincy street, between Barry and Bellevue streets, Ward 15.

Severally passed under suspension of the rule.

ASSESSMENTS IN WARD 15.

Coun. TOBIN offered the following:

Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to instruct all assistant assessors when they are assessing properties in Ward 15 in 1935 to provide for a substantial reduction in valuations.

Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to investigate assessed valuations on property in Ward 15 for the year 1934 with a view to obtaining reductions in same.

Severally passed under suspension of the rule.

EMPLOYEES OF JOSEPH P. McCABE COMPANY.

Coun. TOBIN and FISH offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to take immediate steps to prevent the Joseph P. McCabe Company from working its men overtime, without extra pay, on its contract for the collection of ashes and garbage in the Dorchester district.

Passed under suspension of the rule.

WARD 13 IMPROVEMENTS.

Coun. McGRATH offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Monadnock street, Ward 13.

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Virginia street, Ward 13.

Ordered, That the Trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to install a waiting room on the new bus platform now being constructed on South Sydney street, Ward 13.

The orders were severally passed under suspension of the rule.

TRAFFIC SIGNALS, WARD 7.

Coun. KERRIGAN offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signals at the junction of Old Colony avenue and Preble street, Ward 7.

Passed under suspension of the rule.

ASSESSMENTS, WARD 7.

Coun. KERRIGAN offered the following:

Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to investigate the assessed valuation of real estate in Ward 7, with a view to making further reductions in the valuations for 1933 and 1934.

Passed under suspension of the rule.

NIGHT CALLS FOR MEDICAL AID.

Coun. KERRIGAN offered the following:

Ordered, That the City Hospital Trustees be requested, through his Honor the Mayor, to consider the advisability of assigning a sufficient number of their staff to respond to night calls for medical aid received from recipients of Public Welfare or Soldiers' Relief and their families.

Passed under suspension of the rule.

BUS SERVICE, BAY VIEW LINE.

Coun. KERRIGAN offered the following:

Ordered, That the Board of Trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to make a survey of the bus service on the Bay View line in South Boston, and on the line running from Andrew square to East Cottage street, Dorchester, for the purpose of increasing the service on both of these lines.

Passed under suspension of the rule.

UTILIZATION OF VETERANS' HOSPITAL.

Coun. MURRAY and FINLEY offered the following:

Ordered, That his Honor the Mayor be requested to confer with the City Hospital Trustees and take up with them the matter of utilizing the buildings in West Roxbury, formerly occupied by the United States Government as a veterans' hospital, for the purpose of relieving the overcrowded condition of the Main Hospital, and, if necessary, to request funds from the Public Works Administration in Washington to carry these plans through.

Further, Ordered, That, if this suggestion is not feasible, his Honor the Mayor be requested to take up with the City Hospital Trustees the matter of allowing persons who are in destitute circumstances to occupy these buildings during the coming winter.

Coun. MURRAY—Mr. President, the property here referred to includes a number of buildings in West Roxbury which were used as a veterans' hospital and have not now been used for eight or ten years. If it is not desirable that they continue to be used as a veterans' convalescent hospital, it seems to me that something, as suggested in this order, might be done with them, or, if not, that possibly they might be torn down and homes built for people, in line with what is now being undertaken by the Federal Government. Certainly there seems to be here an opportunity to do something for the poor unfortunates of the city.

Coun. FINLEY—Mr. President, I, too, would like to say just a word along the line upon which we have just heard Councilor Murray. Apparently, there is no disposition on the part of the City Hospital Trustees to utilize the buildings on those grounds for any purpose whatsoever. I presented an order some time ago asking that the trustees give consideration to the idea of using the buildings as a convalescent home, or for some other such purpose. The response at that time was that it was not now advisable to use the property for hospital purposes, with a request that it be taken off their hands. I feel that the grounds out there and the buildings thereon are too valuable to remain idle, as they have been for several years. I believe an effort should be made to utilize the property in some way. I feel that the order presented by Councilor Murray and myself is one that should be given a lot of consideration. For that reason, I hope that it will be unanimously passed, and that favorable consideration will be given to it by his Honor the Mayor and the Hospital Trustees.

The order was passed under suspension of the rule.

WARD 19 IMPROVEMENTS.

Coun. MURRAY offered the following:

Ordered, That the Police Commissioner be instructed, through his Honor the Mayor, to assign a police officer for duty during school hours in the Arborway, opposite Pond and Burroughs streets, Ward 19.

Ordered, That the Traffic Commissioner, through his Honor the Mayor, be instructed to install a traffic light at Chestnut avenue and Boylston street, Ward 19.

Ordered, That the Traffic Commissioner, through his Honor the Mayor, be instructed to place a traffic light at the Arborway, opposite Pond and Burroughs streets, Ward 19.

Severally passed under suspension of the rule.

REMOVAL OF DILAPIDATED STRUCTURES, WARD 2.

Coun. GREEN offered the following:

Ordered, That the Building Commissioner be requested, through his Honor the Mayor, to take immediate steps for the removal of the dilapidated structures at Nos. 91, 93 and 95 Elm street, Ward 2, which are a menace to the safety of the public as well as fire hazards.

Passed under suspension of the rule.

HORSE AND DOG RACING.

Coun. DOWD and NORTON offered the following:

Resolved, That the Boston City Council go on record as favoring a nonprofit-making organization to run horse and dog racing in Massachusetts as originally sponsored by the Boston *Post*.

Passed under suspension of the rule.

RACE TRACKS IN BOSTON.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of taking all possible steps to see to it that one of the two race tracks to be operated in Massachusetts be located in Boston.

Coun. NORTON—Mr. President, I understand that Massachusetts is to have two race tracks. Whereas 75 per cent of the money spent at the horse racing tracks in Rhode Island and New Hampshire come from Boston, it does seem as if, with two tracks to be established in the Commonwealth, we should try to have one of them within the boundaries of this city. We have at Readville a nationally famous race track, a splendid mile track which could be easily developed at small expenditure. It is on the main line of a railroad and within a short ride by way of railroad or automobile of any part of Boston or the suburbs. It was for many years one of the well-known tracks of the country, and it is still there.

Coun. SELVITELLA.—Mr. President, speaking on that order, let me say that we have in East Boston one of the finest available sites for a race track, and I think we are entitled to as much consideration as Readville, in Hyde Park. I don't know of what consequence the passage of such an order by this body may be; but, nevertheless, for purposes of the record, I want the public of Boston and the whole world to know that we have land available for a good race track in East Boston.

Coun. NORTON—Mr. President, I am talking about race tracks, not tidewater land.

The order was passed, under suspension of the rule.

INSPECTORS, BUILDING DEPARTMENT.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of conferring with the Building Commissioner of Boston relative to placing back in the department twenty or more inspectors and other employees who are now out.

Coun. NORTON—Mr. President, one of the conspicuous departments where there are inspectors and other employees now out and off the pay roll is the Building Department. It does seem as though the commissioner of that department could and should do what other departments have done. I am not asking to have the appropriation for the department increased one cent, but it does seem as if something more should be done for such employees in this department than has been done. There is one inspector who has served in the department for forty years, and another one who has been there for twenty-one years. They have been off the pay roll since last March, some of them men in my own ward, with large families and with homes to support. I wonder if it is not possible for us to ask the Building Commissioner, through his Honor the Mayor, if the thing cannot be arrived at in any other way to divide up the work, so as to put the men back on the pay roll, even if they are not put back on full time.

Coun. SHATTUCK—Mr. President, the gentleman in offering this order has apparently not gone into the question of whether these men are needed in the work of the department. My impression is that when they were laid off there were about twice as many men as were needed to carry on the work. It certainly seems to me that, if we are to appropriate public money, we should consider the question of whether or not the appropriation is for employees who are needed.

Coun. MURRAY—Mr. President, I certainly trust that these men will be put back. I cannot understand why we should make fish of men in one department and flesh of those in another. I certainly believe these men should be put back, and I believe there is work enough for them all.

Coun. GREEN —Mr. President, I would like to ask the gentleman from Hyde Park (Coun. Norton) to amend his order so as to include the fifty-seven paving inspectors who are out.

President DOWD—Is that amendment accepted?

Coun. NORTON—I do not object, to it, Mr. President. But let me say that this is no joke, and that I am not asking the head of the department to increase his appropriation one cent. I am asking the head of the department, where a man has been there for twenty years and in some cases for a much longer period of time, not to lay him off completely, with no charge that he has been unfaithful or inefficient in his work, in favor of youngsters of the department, one of whom has been there only three years. It does seem to me that at least the work might be split up, staggered if you want to use that term— which I started to use two or three years ago against some objections. It does seem as if the head of the department might use the services of these men, even if they are not put on full time. I am not here to say anything on behalf of men who are unworthy of employment, but where there is nothing against these men who have been dropped except lack of work, I do think it would be better to have the work divided up, so that there would be something for all. I don't know why the idea of sharing the work might not be applied here, as it has been in some other cases, in the Health and other departments, why men might not be put on at certain seasons, for example, when there is work for them to do. I certainly do not feel that men who have served in such a department for many years should be laid off completely, while others who have served a comparatively short time should be retained. I think it would be better to stagger the work, giving some to all the employees. I do wish to reconsider my acceptance of the gentleman's amendment in regard to the paving inspectors. It seems to me that is a matter that might well be considered separately, dealing with another department, and that we might talk it over with the Commissioner of Public Works. I think it would be better to act at this time upon my original order, which deals with a matter that I have looked into sufficiently, so that I feel safe in presenting it.

President DOWD—The Chair will rule that Councilor Green's amendment is out of order, referring to another department, and would suggest that that be embodied in another order.

Coun. FISH—Mr. President, I would like to say that I put in an order two months ago asking the Mayor to reinstate those inspectors in the Public Works Department.

Coun. NORTON'S order, as introduced, was passed under suspension of the rule.

BLOOD TRANFUSIONS.

Coun. NORTON offered the following:

Ordered, That the trustees of the Boston City Hospital inform the Council, through his Honor the Mayor, regarding the procedure that is followed in cases requiring blood transfusions where the patient has not got the $25 fee that is required in advance.

Coun. NORTON—Mr. President, there was a quaint, old figure, an old gentleman, who for a number of years dwelt in the locality of Copley square, Prof. Gustave Laneau. He was like a figure out of a story book, a character in old French life. He had been a professor through the years and used to teach students French. That was his means of livelihood. I had missed him around the library for the last few weeks, and last week noticed that he had died. I looked up the burial columns to make sure, and found out that such was the case. I then examined into the facts. Apparently he was too poor for the death notice to be inserted in the newspapers. I called up the City Hospital and asked last Friday what had happened to the body of the professor, and was told that it had gone out and into the hands of an undertaker named Spencer in South Boston. I asked Mr. Spencer if he would be kind enough to tell me the facts, and I learned that the professor's home had been out alongside the Forest Hills car barn. I went out there and was informed that the professor had been taken to the City Hospital, needing a blood transfusion but that in order to have it the payment of $25 was necessary. Nobody belonging to the professor had the $25. So he went along eight hours, in a dying condition, with no transfusion. Finally somebody who thought well of the professor tried to see if $25 could be raised for a blood transfusion, around Copley square, which the professor had for years frequented. Somebody suggested getting hold of a man named Innes. Those interested did not know where Mr. Innes was, but they finally went to his office and asked for the $25 and he gave it to them. Next day they asked for $25 more, and he also gave that. The man was not even a citizen or a voter. The story, as I learned it, rather appealed to me. It may be that some poor fellow will go to the hospital this week or next week, needing a blood transfusion, and the money for it will be lacking and he will be unable to get it. There are so many people today who are unable to pay such costs. I wonder if it would not be possible to make some arrangement so that men coming to the hospital in that way and needing a blood transfusion may be properly taken care of. Here was this poor unfortunate waiting eight hours until the money was produced, and if the transfusion could have been given at once his life might have been saved. The Lord only knows whether or not it may be you or I next week. I want to bring this matter to the attention of the trustees. I think if this matter is made public there may be charitable people in Boston who would possibly get together and furnish a fund for such purposes. I don't know that this is the way to handle it. Perhaps I should remain quiet, but something seems to tell me that if we can only have these things known, brought out into the light of day, some poor unfortunate may be saved.

Coun. SELVITELLA—Mr. President, the remarks of my colleague recall to my mind the fact that only last night, as appeared in one of the Boston newspapers, a young man from East Boston, one of a family of eight, needed a blood transfusion. He had no influential friends or means of supplying money, and it became necessary for me to insert an item in the newspapers asking that somebody interest himself in this case at the City Hospital in order that the life of this boy might be saved. This is a matter that should be taken very seriously, and I trust that it will be so taken by somebody interested in this sort of thing and able to furnish means for blood transfusions. It may be the means of saving valuable lives in this community. Certainly, Mr. President, something should be done.

Coun. ROBERTS -Mr. President, I desire to add just a word to what has been said. This Professor Laneau taught French in a back office on Copley square. He was a citizen of the United States and of the City of Boston. At the time that the councilor speaks of, his friends or relatives got in touch with Mr. Innes, who provided money for the necessary transfusions. I certainly think something should be done to make provision for cases of this kind, that the trustees should consider the matter very seriously. Frequently quick action is necessary in order that a life may be saved.

Coun. MURRAY—Mr. President, I also know of a case that happened out my way four months ago, where a blood transfusion was needed, and there was some difficulty in the matter. I understand that in the City Hospital they only use males for transfusion. That is one case that I know of, and I wonder why something has not been done before this.

Coun. NORTON—Mr. President, next week I propose to bring in an order asking the Welfare Department to appoint a certain number of examiners and investigators to handle such cases that may come up in our city. I don't think there are enough investigators handling the number of people who are being investigated. I don't think this poor professor really had enough to eat. He had a little class in French and paid $20 a month for rooms to conduct the class. Being greatly in need he applied for assistance, and a girl came out to investigate his case. She asked, "Why did you apply for help? You are a clean man, have clean clothes, and so on." He replied, "How can I get students in French unless I am at least presentable?" The morning when the professor died one of the girls working in the Pierce store and happened to glance up and saw a young woman who knocked on the professor's door. She interested herself in the matter and spoke to the young woman, who said, "I am from the Welfare Department and have come to see Professor Laneau." The girl, knowing the circumstances, from the Pierce Company said, "Well, I am sorry, but it is too late." It certainly seems to me, in matters of welfare that are so extremely important, we need a far greater staff of examiners than we have at the present time.

Coun. ROBERTS—Mr. President, I would like to add one thing more to what Mr. Norton has said. I personally happened to know something about the application of the gentleman to the state for old age assistance, and I know that some time elapsed before action was taken, as they make a point of investigating these cases very carefully where the payment of old age assistance is involved. Sometimes the investigatoin will take months. Case after case has been called to my attention, as must have been the fact with other members of the Council, of old age cases which have been under investigation and where there has been a great delay. I think that sort of thing is very lamentable. I understand, as a matter of fact, that legislation will be sought in this coming Legislature to remedy this sort of thing, where people have no friends and no means of support. I have no doubt that the death of Mr. Laneau, an honorable gentleman, might have been prevented if such cases could be acted upon more expeditiously; that if speedier action could have been taken there would have been no need of this gentleman's confinement and death in the hospital.

The order was passed under suspension of the rule.

GOLDEN JUBILEE, CARDINAL O'CONNELL.

Coun. NORTON offered the following:

Whereas, the beloved Bishop of Boston, William Cardinal O'Connell, has been signally

honored in the capital city of our nation on the occasion of the Golden Jubilee of his ordination to the priesthood, by the President of the United States and leaders of church and state in America,

Therefore, Be it resolved, that the Boston City Council, at a duly called meeting in session assembled, takes official cognizance of the great honors bestowed upon Boston's beloved spiritual leader.

Passed under suspension of the rule.

FREE BUS TRANSPORTATION FOR SCHOOL CHILDREN.

Coun. FISH offered the following:

Ordered, That the School Committee be requested, through his Honor the Mayor, to furnish free bus transportation for children in the Cushing Hill section of Dorchester to the Woodrow Wilson School.

Passed under suspension of the rule.

WARD 21 IMPROVEMENTS.

Coun AGNEW offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Englewood avenue, Ward 21.

Ordered, That the Traffic Commissioner be instructed, through his Honor the Mayor, to install traffic lights in Union square, Ward 21.

Severally passed under suspension of the rule.

LICENSES FOR OUTDOOR PARKING SPACES.

Coun. WILSON offered the following:

Ordered, That the Board of Street Commissioners be requested to provide that any and all licenses to conduct outdoor parking spaces in the City of Boston be specifically limited only to such applicants as accept reasonable responsibility for automobiles left in their possession and custody.

Coun. WILSON—Mr. President, I introduce that order at this time partly as a result of what has gone before and partly in anticipation of what is still to come. We remember that when the new parking plan went into effect it was called to the attention of the Council that apparently the new traffic rules were merely a method of driving cars off the street, primarily for the benefit of the outdoor parking spaces, although those parking spaces have refused to take responsibility for the cars parked upon them, and in that connection I would call attention to the fact that recently a car was parked in such a space at 150 Stuart street, at seven o'clock in the evening, fifty cents being paid for the parking privilege, and the owner was forbidden to lock the car or take the key, because it might be necessary to move the car. When he returned, however, a few hours later, the car had been stolen and under the contract there was no comeback. The proprietor of the parking space pointed out that he refused to take any responsibility beyond the fact that the car would not be tagged. So I say that no further licenses should be granted for such outdoor parking spaces as are apparently merely being used as a method of getting around possible tagging, the applicants accepting no responsibility for the cars left in their possession and custody. As a member of the City Council trying to get money for the city through various license fees, it is my intention, if possible, to have reasonable license fees charged in such cases and to have the licenses granted under such rules that the parking of cars will result in a fair income for the City of Boston and will also place upon those conducting such parking spaces reasonable responsibility for the cars parked there.

The order was passed under suspension of the rule.

THE NEXT MEETING.

WILL PROBE TUNNEL LAND-TAKINGS.

The following has been received by the Mayor from the Finance Commission:

BOSTON, November 23, 1934.

To the Honorable the Mayor.

SIR,—The commission acknowledges the receipt of your letter of November 22 accompanying an order adopted by the City Council unanimously at a meeting on Monday last which requests the commission "to give special consideration to the takings of land for the East Boston Tunnel approaches, the extent to which settlements were made in excess of actual value or options sold to the city at large profits and that any moneys thus paid in excess of real values be followed in order to identify the ultimate recipients thereof."

The commission has noted that your Honor states: "In accordance with the order, I hereby respectfully request that you make the survey and report to me at your earliest convenience."

The commission desires to reply that already a large amount of information pertaining to the subject matter of this order has been gathered by the commission, and for the completion of it and for other similar investigations the commission has retained the services of Mr. George R. Farnum, formerly Assistant United States Attorney-General, and has authorized Mr. Farnum to make full and complete inquiry as speedily as possible.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOSEPH J. LEONARD,
Chairman.

EXTENSION OF CONTRACT.

PUBLIC WORKS DEPARTMENT.

The Eagle Sign Company has been granted an extension of the time of completion of the contract for the installation of two signs for Sumner Tunnel from October 27, 1934, to December 10, 1934. This extension is requested for the reason that a new pole had to be installed by the city at the East Boston entrance. As soon as this pole has been installed the sign will be hung. The sign at the Boston entrance has already been completed.

SAND, CINDERS AND SALT IN DULUTH.

About 385 miles of sidewalk are sanded every year and about 250 miles of streets are snow-plowed and sanded. Ordinarily, flat grades are not sanded, this work being confined to steep grades where dangerous ice conditions exist. During the past season the maintenance department used about 500 cubic yards of cinders, 500 cubic yards of sand, and 5 tons of calcium chloride on the streets.

The use of salt, or sodium chloride, has been discontinued entirely, because of its injurious effect on concrete walks and pavements. The action of salt is not clearly understood, but it is much more active during cold weather than in summer, and is apparently due to the formation of crystals after penetrating the surface, the force of which disintegrates the concrete. Calcium chloride does not seem to be entirely free from this difficulty, but is much less active than sodium chloride.

JAMAICA SPENDS $1,000,000 ANNUALLY ON ROAD CONSTRUCTION AND MAINTENANCE.

Jamaica, an English possession, has a highway system which is almost entirely constructed of waterbound macadam, some 70 miles of which has been surface-treated. Many of the roads are under the supervision of the Department of Public Works and various parochial boards. There are about 2,500 miles of bridle and foot paths. The highway system connects all parts of the island in a very satisfactory manner, and the problem is not that of the construction of new roads, but the improvement of old ones, the surfacing and widening of these roads, and protective coatings. The roads are well maintained and, as there are not many heavy trucks, the maintenance is satisfactory. There are approximately 4,000 miles of highways, or 1.11 square miles of area to one mile of highway.

About a million dollars per year is spent on new construction and maintenance, the machinery used being both European and American.

(From a report of the American Road Builders' Association.)

CITY OF BOSTON.

TRANSIT DEPARTMENT.

PROPOSALS FOR PATCHING PLASTER AT FIELDS CORNER STATION, SECTION 2, DORCHESTER RAPID TRANSIT.

The Transit Department of the City of Boston, 1 Beacon street, invites proposals for approximately thirty square yards of patching cement plaster at Fields Corner Station, Section 2, Dorchester Rapid Transit. Specifications may be obtained at the office of the Department, and the work to be done may be seen by appointment. The bids will be publicly opened and read at 12 noon, Monday, December 10, 1934. A properly certified check in the sum of one hundred (100) dollars, payable to the city, must accompany the proposal.

By order of the CITY OF BOSTON TRANSIT DEPARTMENT.

EDWARD F. CONDON,
Secretary.

(Dec. 1.)

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR COLLECTING AND REMOVING GARBAGE AND REFUSE IN EAST BOSTON, BRIGHTON, WEST ROXBURY, DORCHESTER AND HYDE PARK.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for collecting and removing garbage and refuse, between January 1, 1935, and December 31, 1935, including the removal of all household refuse during the spring cleaning period between April 1, 1935, and May 15, 1935, and shall also remove grass, garden refuse and leaves during the entire term of the contract, in the following districts: East Boston, Brighton, West Roxbury, Dorchester and Hyde Park, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. In each proposal the bidder will list the location and ownership of the dumps he proposes to use, and furnish satisfactory proof to the Commissioner as to his legal right to use them. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Collecting and Removing Refuse and Garbage," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Wednesday, December 5, 1934, with a certified check for 5 per cent of the total amount bid for each district, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. *There will be a minimum charge of two dollars ($2) for each set of specifications taken out.* If the price bid on any district appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposals should he deem it to be for the best interest of the city so to do.

C. J. CARVEN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

PROPOSALS FOR SNOW PLOWS.

The Supply Department of the City of Boston invites proposals for furnishing snow plows, to be delivered to the Public Works Department, Sanitary Division, according to proposal to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex. *There will be a charge of twenty cents ($0.20) for each proposal taken out.* Bidder must use the form of proposal to be obtained at the above office, and the successful bidder must furnish a bond for one quarter the total estimated amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. Proposals will be publicly opened and read at the above office at 12 m., Monday, December 10, 1934. Proposals must be accompanied by a certified check for $200, which is to be the property of the City of Boston if the proposal is not carried out. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WARREN W. LOOMIS,
(Dec. 1.) *Superintendent of Supplies.*

CITY OF BOSTON.

LIBRARY DEPARTMENT.

PROPOSALS FOR TRANSPORTATION.

The Trustees of the Public Library of the City of Boston invite sealed proposals for the transportation of books and other material between the Central Library and branches for the year 1935. Proposals, accompanied by a certified check in the amount of $200, if filed at the office of the Trustees, Central Library Building, before twelve o'clock noon on Wednesday, December 12, 1934, will then and there be publicly opened and read. The proposal must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. A surety bond will be required in an amount satisfactory to the Trustees. The Trustees reserve the right to reject any and all proposals, and to accept any proposal if it shall be deemed for the interest of the city so to do. Specifications for work may be obtained at the office of the Comptroller, Central Library Building, on and after Saturday, December 1, 1934.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR FURNISHING ILLUMINATING GAS FOR STREET LIGHTING FOR THE CITY OF BOSTON, EXCLUDING HYDE PARK, FOR A TERM OF FIVE YEARS BEGINNING JANUARY 1, 1935.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for furnishing illuminating gas for street lighting for the City of Boston, excluding Hyde Park, for a term of five years beginning January 1, 1935. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of five thousand (5,000) dollars, to secure the due performance of the contract and the full protection of the city. Proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Furnishing Illuminating Gas for Street Lighting for the City of Boston, Excluding Hyde Park," for a term of five years beginning January 1, 1935, and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Wednesday, December 5, 1934, with a certified check for one thousand (1,000) dollars, payable to and to become the property of the city if the proposal, after acceptance, is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, DECEMBER 8, 1934. NO. 49

MAYOR MANSFIELD PRESENTS PLAN TO MAYORS' CONFERENCE FOR CLEARANCE OF SUB=STANDARD AREAS IN BOSTON THAT WOULD NOT ALONE PROVIDE WORK FOR MANY CITIZENS BUT ALSO BETTER THE GENERAL HEALTH — ESTIMATES COST AT $40,000,000 — MAKES REPORT ON RESULT OF CONFERENCE AT MEETING IN PARKER HOUSE WITH LEADING MUNICIPAL OFFICIALS OF STATE AND GOVERNOR=ELECT, WHERE MANY PROJECTS ARE DISCUSSED.

Mayor Mansfield, at the meeting of the Mayors of Massachusetts, at the Parker House, on December 1, made report on the conference called for the considering of projects by which the cities and towns of the state shall be able to provide work for the citizens. In discussing the findings of the committee with reference to Boston, Mayor Mansfield issued the résumé of the findings:

With regard to low cost housing the Mayor stated that "Boston unquestionably has a housing problem. The Federal Government could spend in Boston at least $40,000,000 in clearance of sub-standard areas and rehabilitation, thus greatly improving the health and living conditions of the poor and afford valuable opportunities for employment. In this field the Government would in no way compete with private enterprises."

The Mayor also stated that such clearance and rehabilitation should only be carried on where the sentiment of the locality is in favor of it and indicated that the likelihood was that such work would meet with general approval.

With regard to Public Works, the Mayor stated that "If a public works program is devised we will make an immediate impact on unemployment and industry and if the Federal Government will contribute half the cost, with nominal or low interest rates on the balance, and permit a small annual amortization, it is probable that the city will cooperate by engaging in a program involving an aggregate expenditure of from five to ten million dollars." The Mayor further stated that the city now had under consideration a number of possible projects including a new City Hall to relieve the city of rentals now paid in various parts of Boston for departmental offices, a new chronic hospital to house patients now cared for at the out-of-date Long Island Infirmary, various underpasses in congested sections, new bridges, new improvements which the Federal Government may request in connection with its present program in Boston of clearance of sub-standard areas and rehabilitation.

The Mayor further stated "The extent to which Public Works can and should be engaged in will depend largely on the action of the United States Congress." He stated that this was also the view of the United States Conference of Mayors at its recent meeting in Chicago.

The complete report presented to the Conference was as follows:

On Saturday, November 24, 1934, at a meeting of the Massachusetts Mayors' Club, a committee was appointed, of which I was designated chairman, to endeavor to ascertain (1) what cities and towns of the Commonwealth owned unused property which they would be willing, if permitted so to do by law, to grant to the Federal Government for construction thereon by the Federal Government of low cost housing, and (2) what cities and towns in the Commonwealth would be willing to engage in further Public Works projects and, if willing, the extent to which they would consent to obligate themselves.

The committee so appointed met in my office on Monday morning of this week and formulated the following two telegrams the first of which was sent to the Mayor of every city and the chairman of the Board of Selectmen of every town of over 10,000 population in the Commonwealth. The second telegram was sent to every city and town.

The first telegram related to housing and contained the following inquiries:

1. Have you a housing problem in your city (or town)?
2. Should it be solved by building new houses on vacant land or by clearing old dilapidated properties and rebuilding on the old site?
3. If the former, what parcels or tracts of land, giving areas, has your city (or town) that could be donated or deeded to the Federal Government for this purpose, provided it might be done lawfully?
4. If the latter, what would be the cost of such clearance and replacement?

The second telegram related to Public Works and contained the following inquiries:

1. What Public Works Administration projects does your city (or town) contemplate under the present set-up of thirty per cent grant by the Government?
2. What projects would you consider under a set-up of fifty per cent contribution by the Government?
3. Give outline of projects with estimated cost of each entire project.

Replies have been received with reference to housing from 42 cities and towns out of 73. Of these replies 5 were either noncommital or stated that the matter was still under consideration. (*Continued on page 1263.*)

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

To the Board of Street Commissioners, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasolene, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

To the Boston Traffic Commission, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

To the Commissioner of Public Works, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catchbasins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

To the Health Department, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

To the Board of Park Commissioners, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, the Airport, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mt. Hope, Evergreen, Fairview, and other public cemeteries owned by the City of Boston.

To the School Committee, 15 Beacon street, for information relative to the operation of the schools of the city.

To the Department of School Buildings, 11 Beacon street, for information as to the construction and repair of school buildings.

To the Board of Examiners, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

To the Statistics Department, Room 76, City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

To the Wire Division of the Fire Department, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

To the Board of Zoning Adjustment, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

CLEARANCE OF SUB-STANDARD AREAS.

(*Continued from page 1261.*)

Of the 37 remaining cities and towns which gave a definite reply, 26 stated that they had no housing problem. Of the 11 cities and towns which stated in more or less definite terms that they had a housing problem, 6 stated that it could best be solved by clearance of depreciated areas and rehabilitation, 2 expressly disapproved building on vacant municipally-owned land and no city or town indicated available municipally-owned land suitable for a housing project.

In this connection I should like to state my own position on the matter of housing.

There have been three main forms of low cost housing which the Federal Government has had under consideration for development by it.

First.— Clearance of depreciated areas and rehabilitation.

This form contemplates the acquisition by the Federal Government (in jurisdictions where there is no local Housing Authority, such as Massachusetts) of land and buildings in sub-standard areas, either by purchase or taking, the demolition of buildings on lands so taken and the erection of new buildings to be owned, operated and rented at low cost either by the Federal Government or, if local Housing Authorities are subsequently established, by such Authorities after transfer to them of the properties acquired in exchange for obligations of the Authorities — the bonds to be met from the income of the properties. The Federal Government is now engaged in such a project in Boston and contemplates others.

Second.— Subsistence homesteads.

This contemplates the acquisition of land by the Federal Government mainly in rural areas, and the erection thereon of homes with sufficient land adjoining to enable the occupants to work out a subsistence therefrom.

Third.— Development by the Federal Government of vacant land by building thereon new homes to be made available at low cost.

An earlier Federal plan of assisting private limited dividend corporations in their development of low cost housing seems to have been unsuccessful and appears to be gradually being abandoned.

It is my understanding (at least unless there has been a change within the last few weeks of which we have not been informed) that the Public Works Administration in Washington is committed to the first and second form of low cost housing and that it is not planning to develop to any appreciable extent housing projects in accordance with the third form.

PROBLEM IN BOSTON.

Boston unquestionably has a housing problem. The Federal Government could spend in Boston at least $40,000,000 in clearance of sub-standard areas and rehabilitation, thus greatly improving health and living conditions of the poor and affording valuable opportunities for employment. In this field the Government would in no way compete with private enterprise. Such clearance and rehabilitation should only be carried on, of course, where sentiment in the locality is in favor of it but the likelihood is that such work would meet with general approval.

We have been in touch with the Federal authorities with regard to this matter and steps preliminary to the commencement of a clearance and rehabilitation project by the Federal Government in Boston are now under way.

In this connection it may be determined that the city owns property in the locality where a project is to be undertaken which is not being used by it and which the Federal Government may request be deeded to it. It is my purpose, so far as I am legally enabled so to do, to make unused city-owned property available to the Federal Government wherever it is needed for such a project.

There would seem to be little opportunity for subsistence homesteads in Boston so that I shall not discuss that problem at this time.

With regard to development of vacant property by the Federal Government for low cost housing there are a number of difficulties. Such development, while less expensive than clearance and rehabilitation, is not likely to meet the needs of those who are at present ill-housed. It accomplishes at best only part of the objects of clearance and rehabilitation and leaves sub-standard areas still below standard. It is problematical whether tenants can be induced to move to the newly developed areas from sub-standard areas. If they cannot their condition will remain the same. If they can be so induced, idle and unimproved property will become a charge upon the cities. This type of development is far more likely to hinder private development than is rehabilitation.

Be that as it may, it is unnecessary for me to determine the merits of the advisability of devoting municipal property in Boston to this purpose; for, while the City of Boston owns an appreciable amount of property acquired by purchase or taking, which property is not now used and which property is not likely to be used at least for some considerable time to come, this property is in small, isolated parcels totally unsuited for a housing development of the kind contemplated; and while the city also holds certain other property given to it in trust which might otherwise be available, such property is not available for housing because of the terms of the trusts under which it is held.

I have already discussed the objections to devoting to this purpose the West Roxbury golf course on which the city has expended over a million and a quarter dollars. While housing is unquestionably of great social significance, it does not justify the sacrifice of the huge expenditures the city has already made. In the neighborhood of this course is six million feet of land which I am informed the owners would be willing to sell for use in a housing project for 2¾ cents a foot, or $135,000. It would be wiser for the city to acquire this land and deed it to the Federal Government than to deed property upon which over a million dollars has already been expended, assuming of course that a Federal project of this kind is desirable and the Federal Government would be willing to undertake it. But even if this tract of land could legally be purchased by the city, legal obstacles would prevent the city from donating it, without consideration, to the Federal Government as I will explain more fully.

QUESTION OF LEGALITY.

The fact that no municipality has replied that it has vacant property which it deems advisable or suitable to convey for housing purposes makes a consideration of the legal aspects of the situation almost unimportant. It may be well, however, briefly to summarize the law on the power of municipalities to act in accordance with the proposal.

The law is clearly settled in this Commonwealth that a municipality cannot give away its property without legislative permission (cf. *Higginson* v. *Treasurer and Schoolhouse Commissioner of Boston*, 212 Mass. 583). It is immaterial how worthy the object.

The Legislature may, however, permit a transfer of municipal property, without adequate consideration, to another agency of the State Government for public purposes (see *Prime* v. *Crocker*, 166 Mass. 347) and probably housing would, under present economic conditions, be deemed a public purpose. (See Amendments to Constitution of Massachusetts, Article XLVII, but *cf.*, Opinion of the Justices, 211 Mass. 620).

No judicial determination has been found that the Legislature may permit a transfer of municipal property, without adequate consideration, to the Federal Government (as distinguished from a state agency), but it is likely that such permission could be given in view of the present emergency. (*Cf.* Amendment XLVII, *supra.*)

There is now in force no legislation which would permit a municipality in this Commonwealth to grant its property to the Federal Government for low cost housing, even should the municipality deem it desirable so to do.

It would therefore seem that until legislation is secured enabling such action by municipalities, municipalities could not make such grants (and that the Federal Government would not desire to improve property granted to it under a void deed), but that legislation can constitutionally be enacted enabling such grants.

P. W. A. PROJECTS.

Replies have been received with reference to Public Works from 154 cities and towns out of 355. Of these replies 10 were either noncommittal or stated that the matter was still under consideration.

Of the remaining cities and towns which gave a definite reply, only one stated that it contemplated any Public Works projects under the present set-up of a 30 per cent grant by the Federal Government. All others indicated that they would not engage in Public Works projects on that basis, but of these, 84 stated that they would consider Public Works projects if a 50 per cent grant were made by the Federal Government. Not all of these gave estimates of the amounts of the projects they would consider undertaking, but the aggregate amount of all estimates received was in excess of $34,000,000, including the estimated $10,000,000 improvement on the Merrimac river.

With regard to my position as to Public Works projects in Boston, I wish to indicate the following:

Public Works' projects afford great opportunities for employment, but up to the present time there have been two serious obstacles to their successful administration. *First*, they have been so slowly gotten under way in many communities that they have failed to make a serious impact either upon industry or unemployment. *Second*, they have contemplated undertakings and debt incurrence by the municipalities at a time when the municipalities were overladen with debt and were faced with welfare expenditures of crushing magnitude.

That these obstacles have existed which have impaired the efficacy of the program was universaly concurred in by the

Mayors from all over the country assembled last week at the United States Conference of Mayors at Chicago.

There are definite indications that when Congress convenes it will consider a technique which will enable expediting public works construction so that it may have a more beneficial effect and also will consider a greater financial participation in the work by the Federal Government. There are definite signs that, if such action is not taken, few municipalities will be willing to cooperate and the reports from the municipalities of this Commonwealth sustain this view.

It is doubtful that recovery can be sufficiently aided by the slowly proceeding program now in force, and moreover, that, no matter how rapidly the program advances, if cities incur debt beyond their capacity to meet, the impairment of their credit and ensuing insolvency can only serve to injure the national credit, restrict the normal activities of municipalities, increase unemployment, retard recovery, and cause even greater suffering and hardship to the poor and needy.

The United States Conference of Mayors has proposed, in addition to a more expeditious program, that the Federal Grant be on a fifty-fifty rather than a thirty-seventy per cent basis, that interest rates on Public Works loans be nominal ($\frac{1}{8}$ of 1 per cent), and that the loans be amortized on an annual basis averaging about 3 per cent.

Until Congress acts, it is difficult to predict what the City of Boston can or should do. If the present situation of a slow-moving program with very limited Federal participation continues, it is doubtful that the city can or should engage in further Public Works projects. The City of Boston has already committed itself to an expenditure of approximately seven and a quarter million dollars. Due to the delays incident to the program, by far the greater part of the contemplated work remains to be done and will furnish an appreciable amount of employment for some time to come. The interest and amortization charges on the debts incurred and to be incurred by the city for this program will exceed half a million dollars a year for many years. Further incurring of debt under the present set-up is of doubtful value and may cause more harm than benefit.

On the other hand, if a program is devised that will make an immediate impact on unemployment and industry, and if the Federal Government will contribute half the cost, with nominal or low interest rates on the balance, and permit a small annual amortization, it is probable that the city will cooperate by engaging in a program involving an aggregate expenditure of from five to ten million dollars.

There are many improvements which it is desirable to have made. With Federal aid of an appreciable amount and with the possibility of relieving substantially unemployment, these improvements might well be undertaken now. With this end in view, we are considering carefully the advisability of numerous possible projects including a new City Hall on the present site (which would relieve the city of rentals now paid in various parts of Boston for department offices); a new chronic hospital near the City Hospital (to house patients now cared for at the disadvantageously situated and out-of-date Long Island Infirmary); various underpasses in congested sections (to relieve traffic); a new county courthouse (to replace the present crowded and out-of-date one); new bridges (including the Chelsea Street Bridge in East Boston recently determined by the War Department to be an obstruction to navigation); and new schools, streets and other improvements which the Federal Government may request in connection with its present program in Boston of clearance of sub-standard areas and rehabilitation.

These and many other projects are now under consideration and their respective merits are being weighed. But the extent to which they can and should be engaged in will depend largely on the action of the next Congress.

Respectfully submitted,

FREDERICK W. MANSFIELD,
Mayor of Boston,
Chairman of Committee.

December 1, 1934.

TRANSFER OF APPROPRIATIONS.

City Auditor Charles J. Fox announces the following transfers in appropriations in departments of the City of Boston and County of Suffolk, indorsed by the Acting Budget Commissioner and approved by his Honor the Mayor:

ASSESSING DEPARTMENT.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—I would appreciate it if you would arrange to transfer the sum of $1,500 from the Convention Fund to the Public Celebrations Fund. This money is needed to pay the Armistice Day bills, which will total approximately $1,000, and the contemplated expenses for decorating City Hall for Christmas and the Christmas Eve program on Boston Common.

Very truly yours,

A. J. O'KEEFE,
Assistant Secret

The above transfer was made by the City Auditor with the approval of the Mayor December 3, 1934.

PUBLIC WORKS DEPARTMENT.

BOSTON, November 23, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—According to present indications, there will be a deficit of $82,500 in the A-1 item of the Sanitary Service budget for this year. None of this money can be obtained from other items, and in order to meet pay rolls for the balance of the year this sum will have to be provided. I therefore respectfully recommend that the sum of $82,500 be transferred from available sources to the A-1 item of the Sanitary Division budget.

From the appropriation for Reserve Fund, $82,500, to the appropriation for Public Works Department, Sanitary Service, A-1, $82,500

Yours respectfully,

C. J. CARVEN,
Commissioner of Public Works.

The above transfer was made by the City Auditor with the approval of the Mayor December 3, 1934.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A sanitary sewer of 20-inch pipe (Stony brook, Section 12), P. W. A., Docket Number 4193, in private land, between Florence street and Neponset avenue, in the West Roxbury district, at an estimated cost of $5,000.

A surface drain of 18-inch pipe in private land, between 60 feet west of Alford street and 185 feet westerly, in the Charlestown district, at an estimated cost of $1,500.

A sanitary sewer of 10-inch pipe, a surface drain of 10-inch pipe and four catch-basins in Rumford road, between Chesbrough road and Baker street, in the West Roxbury district, at an estimated cost of $2,100.

EXTENSION OF CONTRACT.

PUBLIC WORKS DEPARTMENT.

The T. J. O'Connell Company has been granted an extension of time of completion of the contract for building sewerage works for Ashmont street, between Adanac avenue and Neponset avenue; and Ashmont street outlet in private land, between Neponset avenue and Ashmont street, Dorchester, from December 10, 1934, to February 11, 1935 (a total of sixty-three days).

This extension is requested due to unusually difficult conditions encountered in the outlet section where piles have to be driven.

CHICAGO POLICE.

Although the numerical strength of the Chicago police department has been reduced in the last two years from approximately 6,700 to 6,000, the number of men on foot patrol has been increased 150 per cent, or about 1,900.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

Upon December 4 the Mayor approved a contract with bidders as indicated for four 3½-ton four-wheel drive trucks for the Sanitary Division of the Public Works Department.

Of the bids, Warren W. Loomis, Superintendent of Supplies, wrote as follows:

Bids were received from six bidders on four-wheel drive trucks.

Inasmuch as there is only one truck of the four-wheel drive type in use by the city at the present time, which is of a much heavier and more expensive type than the present specifications call for, I would recommend that two trucks each of two different makes and types be bought at this time in order that the Public Works Department may from comparative records of operation and maintenance costs, under similar conditions over a given period of time, determine which make of equipment is best suited to its needs.

The Public Works Department desires to try the Indiana four-wheel drive truck offered by the White Company at a net price of $12,076 for the two, including $200 allowance on two 5-ton dump trucks to be turned in.

I would suggest that two of the Walter four-wheel drive, 3½ to 5 ton trucks, offered by the C. N. Wood Company, the low bidder, at a net price of $10,787 for the two, including $60 total allowance on one 5-ton and one 7-ton dump truck to be turned in, also be purchased.

I respectfully request, therefore, that you approve the award of contracts for this equipment to the White Company and to the C. N. Wood Company, as outlined above.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

Upon varying dates as indicated the Mayor approved contracts with several firms and contractors for supplies, etc. Communications from the heads of the several departments were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, November 28, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Under date of October 24, 1934, you were kind enough to accede to my request to allow me to do an emergency job of waterproofing at the Grover Cleveland School. That is done. To do that it was necessary to remove the entire gymnasium floor which was rotted. We have encompassed the reason for the rotting and it is necessary now to put back the gymnasium floor as rapidly as possible so that it will be in as good or better condition than it was in the beginning. This work has necessitated denying the school the use of the gymnasium over a period of several weeks and I consider it an emergency that the work be carried on to completion as rapidly as possible. The cost of this not to exceed $1,900.

I consider that the best interests of the city would not be served in any way by advertising this job and I request your permission to have the contractor, John F. Hynes Company, Incorporated, 1842 Columbus avenue, city, complete the emergency work under a contract awarded without advertising.

I respectfully request that your Honor will signify your pleasure in this connection at your first convenience.

Very truly yours,

WM. W. DRUMMEY,
Superintendent of Construction.

PENAL INSTITUTIONS DEPARTMENT.

BOSTON, November 27, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested for award of contract, without advertising, to the Marine Company of 173 Sumner street, East Boston, for repairs on the steamer "Michael J. Perkins" in the sum of thirteen hundred eighty-three (1,383) dollars.

This work is needed at this time for the proper functioning of the engineering department of the "Perkins." Nothing would have been gained from advertising this work in the *City Record* as we contacted with the leading shipbuilding concerns in and about Boston and their bids were as follows:

Marine Company, $1,383 a week, to be done in seven working days; Quincy Drydock Corporation, $2,470 a week, to be done in ten working days; General Ship and Engine Works, $3,085 a week, to be done in ten working days; Bethlehem Shipbuilding Corporation, $3,436 a week to be done in five working days.

Richard T. Green Company was also invited to bid, but did not submit a bid for the work.

The Quincy Drydock Company filed a protest on November 24 as to the bid of the Marine Company, stating that they felt that it was not consistent with the necessary work to be performed, and they also presented this protest to the Ship Repairer's Code Committee. I conferred with Mr. Arringdale of the Local Committee and he stated that if the Marine Company filed a memorandum with me that they would comply with the regulations of the ship repairing code that I could make the award in absolute good faith.

Yours respectfully,

WILLIAM G. O'HARE,
Penal Institutions Commissioner.

BOSTON, November 28, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—The Bethlehem Shipbuilding Corporation, Ltd., was awarded a contract on October 9, 1934, to do certain repairs on the steamer "Michael J. Perkins" in the sum of one thousand two hundred and forty dollars ($1,240).

While the repairs were going on certain other items were of such an emergency nature that Capt. Matthew L. Kelley of the steamship requested that the Bethlehem Shipbuilding Corporation, Ltd., attend to them, and he assures me that the prices charged for these units are absolutely reasonable.

Subject to your permission, therefor, I would recommend that these items listed below be allowed and the contract be amended from the original figure of one thousand two hundred and forty dollars ($1,240) to include these items, making the total amount of the contract one thousand five hundred thirty-six dollars and fifty cents ($1,536.50).

Items additional to original contract: Weld thirty rivets at forefoot at $1.25 each, $37.50; weld 8-foot seam at $4 a foot, $32; sixty miscellaneous rivets on hull at $1.25 each, $75—$144.50; renew zincs as directed, $56; furnish, cut and thread brass pipe as directed, $7; renew nipple and flanges for bottom blow, $21; solder end of tailshaft liners as directed, $25; make up new valve stem for duplex pump; make up new bronze valve guide; built up valve face in way of worn spots with sheet brass pinned in place; make up steel collar for valve stem, $31; supply temporary light, $12; total, additional items, $296.50.

Respectfully yours,

WILLIAM G. O'HARE,
Penal Institutions Commissioner.

SUPPLY DEPARTMENT.

BOSTON, December 3, 1934.

HON. FREDRICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—On August 17, 1934, you approved awards of contracts for approximately fifteen thousand net tons of nut anthracite coal for the Overseers of the Public Welfare and the Soldiers' Relief Departments.

On September 25, 1934, John C. L. Dowling, Esq., executive director of the Department of Public Welfare, informed me that the Overseers of the Public Welfare would require approximately twenty-two thousand net tons of nut anthracite coal in addition to the fifteen thousand tons for which contracts had already been entered into.

On October 10, 1934, bids for said estimated twenty-two thousand net tons of coal were publicly opened but were rejected by me because the lowest acceptable bids were considered too high for the best interests of the city. On November 3, 1934, an invitation for bids for said estimated twenty-two thousand net tons of coal was readvertised in the *City Record* and on November 13, 1934, the bids received as a result of said readvertisement were publicly opened and were appreciably lower than those bids opened on October 10, 1934, and also appreciably lower than the prices in the contracts awarded in August, 1934.

On November 23, 1934, you approved my letter of the same date requesting the award of contracts to the following named contractors for the following respective districts in the following estimated tonnage and contract amounts:

Batchelder-Whittemore Coal Company.

Tonnage.—Charlestown District, $1,400; Jamaica Plain District, $1,200.

Price, Per One-Quarter Ton.—Charlestown District, $2.81; Jamaica Plain District, $2.84.

Price, Per One-Half Ton.—Charlestown District, $5.52; Jamaica Plain District, $5.59.

Approximate Amount Based on One-Half Ton Price.—Charlestown District, $15,546; Jamaica Plain District, $13,416.

Massachusetts Wharf Coal Company.

Tonnage.—West End District, $1,500; Brighton District, $700.

Price, Per One-Quarter Ton.—West End District, $2.82; Brighton District, $2.83.

Price, Per One-Half Ton.—West End District, $5.53; Brighton District, $5.59.

Approximate Amount Based on One-Half Ton Price.—West End District, $16,590; Brighton District, $7,826.

City Fuel Company.

Tonnage.—West Roxbury and Roslindale Districts, $400; Hyde Park District, $400.

Price, Per One-Quarter Ton.—West Roxbury and Roslindale Districts, $2.90; Hyde Park District, $3.

Price, Per One-Half Ton.—West Roxbury and Roslindale Districts, $5.75; Hyde Park District, $5.75.

Approximate Amount Based on One-Half Ton Price.—West Roxbury and Roslindale Districts, $4,600; Hyde Park District, $4,600.

R. L. Chute.

Tonnage.—North End District, $1,500.

Price, Per One-Quarter Ton.—North End District, $3.13.

Price, Per One-Half Ton.—North End District, $5.80.

Approximate Amount Based on One-Half Ton Price.—North End District, $17,400.

Atlas Fuel Company.

Tonnage.—South End District, $3,500; Roxbury District, $4,000.

Price, Per One-Quarter Ton.—South End District, $2.90; Roxbury District, $2.90.

Price, Per One-Half Ton.—South End District, $5.50; Roxbury District, $5.50;

Approximate Amount Based on One-Half Ton Price.—South End District, $38,500; Roxbury District, $44,000.

Metropolitan Coal Company.

Tonnage.—Dorchester District, $3,000; South Boston District, $2,000.

Price, Per One-Quarter Ton.—Dorchester District, $2.85; South Boston District, $2.85.

Price, Per One-Half Ton.—Dorchester District, $5.53; South Boston District, $5.53.

Approximate Amount Based on One-Half Ton Price.—Dorchester District, $33,180; South Boston District, $22,120.

On November 28, 1934, you approved my letter of November 27, 1934, recommending the award of a contract to the East Boston Coal Company for approximately twenty-four hundred tons (at $2.75 for one-quarter ton, and $5.50 for one-half ton) in the estimated sum of $26,400 for the East Boston district.

The form of contracts accompanying the bids opened on November 13, 1934, provided for furnishing and delivering all the nut anthracite coal required by the Overseers of the Public Welfare Department for the period between November 1, 1934, and May 1, 1935.

In view of the existing contracts awarded in August, 1934, for approximately fifteen thousand net tons of coal, it is my opinion that contracts for the additional amount of approximately twenty-two thousand net tons should cover the period from January 1, 1935, to May 1, 1935, instead of the period from November 1, 1934, to May 1, 1935. Because the invitation for bids for the estimated amount of twenty-two thousand net tons has already been advertised and readvertised and in view of the lower bids received as the result of the readvertisement, it is my opinion that further advertising would not be for the city's best interests.

Therefore, I respectfully request your approval to award without further advertising contracts for furnishing approximately twenty-two thousand net tons of nut anthracite coal to the Overseers of the Public Welfare and the Soldiers' Relief Departments for the period from January 1, 1935, to May 1, 1935, to the above-named contractors for the respective districts, estimated quantities, and estimated contract amounts shown.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

—

BOSTON, November 27, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—Please refer to my letter of November 23, 1934, recommending awards of contracts covering Chestnut Anthracite Coal for the Department of Public Welfare, which letter did not include the award in the East Boston district.

I now recommend the award of 2,400 tons for delivery in the East Boston district to the East Boston Coal Company, the low bidder in this district, at the following prices: One-quarter ton lots, $2.75; one-half ton lots, $5.50.

I respectfully request that you approve the award of this contract, amounting to approximately $26,400, to the East Boston Coal Company.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

—

BOSTON, December 4, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to extend the completion date of the contract of the Franklin Foundry Company, Incorporated, dated February 19, 1934, for furnishing Class B iron castings (gates and hydrants) to the Water Service, from December 1, 1934, to December 31, 1934.

The Commissioner of Public Works recommends the above extension for the reasons that the contractor was considerably delayed during the early part of the year due to the extremely cold weather, and the repairing of the foundry to economically carry on this work, and as a result considerable time was lost before the first delivery under the contract was actually completed.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

POLICE DEPARTMENT ORDERS.

General Order No. 608.

By authority conferred upon the Police Commissioner by law, Patrolman Thomas J. Powers of Division 1, charged with neglect of duty, conduct unbecoming an officer, alleged violation of law and violation of law, was dismissed from the Police Department, effective as of November 27, 1934, at 5.45 o'clock p. m.

Written notice of such dismissal with the reasons therefor, was duly and specifically given in hand on November 27, 1934, to the said Thomas J. Powers.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 609.

Patrolmen Edward J. Curtin and Joseph W. McDonald, both of Division 9, are commended and each is granted three days' additional vacation for efficient police duty performed in connection with the arrest in November of 1934 of a group of boys who were responsible for a number of breaking and entering and larceny cases which were committed in the Dorchester and Roxbury districts.

The commissioner is pleased to recognize the diligence and efficiency shown by these officers in accomplishing these important arrests.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

POLICE DEPARTMENT ORDERS.

General Order No. 602.

Sergt. Thomas F. Friel and Patrolman Michael J. Murphy, both attached to Division 15, are commended for efficient police duty performed on November 7, 1934, in the capture of a runaway horse.

The commissioner is pleased to recognize and commend the alertness and devotion to duty shown by these officers on this occasion, whose prompt response may possibly have prevented serious injury or loss of life.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 603.

A trial board consisting of Captains McGrath, Casey and Daley, having heard by reference a complaint made by Archibald F. Campbell, captain, Division 7, against William F. Hurley, patrolman, Division 7, for alleged violation of Rules 27, 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Untruthfulness.

Specification: In that on the tenth day of October, 1934, Patrolman Hulrey made an oral and written report to Lieutenant Graham, the officer in charge of the station, that he went to the city of Revere operating a department motorcycle, M-14, in pursuit of suspicious persons, knowing at the time that it was false and untrue, and that he was giving a friend a ride in the side car of the motorcycle to a point where he could get a car or a bus to his home in Everett.

Charge 2: Conduct unbecoming an officer.

Specification: On October 10, 1934, Patrolman William F. Hurley, did allow Angelo Trotta to ride in the side car of a department motorcycle, M-14, not on police business and did operate the motorcycle in such a manner as to become involved in a collision with Ford coupe, Massachusetts Registration 593,560 operated by Abraham Ringelheim, of 361 Walnut avenue, Roxbury, on State road at intersection of Atlantic avenue, in the city of Revere, causing great injury to Angelo Trotta and also causing serious damage to department motorcycle, M-14, an act contrary to good order and discipline, and bringing the department into disrepute and criticism.

Charge 3: Violation of Rule 27, Section 8.

Specification: In that on the tenth day of October, 1934, Patrolman William F. Hurley, while in uniform and assigned to motorcycle duty did leave the territory of Division 7 and go to the city of Revere on a department motorcycle without getting permission from the police commissioner, superintendent or his commanding officer,—

has submitted the following finding and recommendation:

The Board having heard and carefully considered all the evidence as presented, finds the said Patrolman William F. Hurley guilty as charged, and has taken into consideration the fact that the penalty for untruthfulness is dismissal from the Police Department. However, having in mind the previous good record of Patrolman Hurley and the excellent recommendation given to him by his commanding officer, the Board respectfully recommends that the extreme penalty be not inflicted in this case, and that Patrolman Hurley be ordered to perform 210 hours of punishment duty, also that he be ordered to reimburse the City of Boston for the damage done to the Police Department motorcycle.

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman William F. Hurley perform 210 hours of punishment duty and reimburse the City of Boston for the damage done to the Police Department motorcycle.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 604.

The resignation of Patrolman Humbert Albano of the City Prison, having been presented while charges against him are pending, it is hereby accepted to take effect Friday, November 30, 1934, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 605.

A trial board consisting of Captains Campbell, McGrath and Daley, having heard by reference a complaint made by John J. Mullen, captain, Division 1, against Patrolman Charles C. Cowhig, Division 1, for alleged violation of Rules 27 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Neglect of duty.

Specification: In that on the eighteenth day of November, 1934, the said Patrolman Charles C. Cowhig, did fail to telephone his on-duty calls from 10.04 p. m., to 11.50 p. m., a period of one hour and forty-six minutes, when the rules of the department require that patrolmen report at least once every forty minutes by signal from different boxes,

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, accepts the plea of guilty by Patrolman Cowhig. Patrolman Cowhig missed two on-duty calls, also failed to observe the blinker lights. Also, he had been warned previously by his captain and sergeants about his negligence in pulling boxes, and also for not being on his assigned post. In view of the above facts, also the fact that Captain Mullen recommended that he be retained in the department, the Board respectfuly recommends that the said Patrolman Charles C. Cowhig be ordered to perform 140 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Charles C. Cowhig perform 140 hours of punishment duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 606.

Patrolmen Joseph F. Normile, John H. Masters, Michael J. Regan and Frank J. Conlan, all of Division 15, are commended for effective police duty performed in connection with the arrest of the persons responsible for breaking and entering and larceny, on September 22, 1934, of a large amount of property in a building on the property of the Boston & Maine Railroad and the recovery of a large amount of the stolen property.

The Police Commissioner is pleased to recognize and commend the zeal, intelligence and effective cooperation shown by these officers in accomplishing the arrest and successful prosecution of the persons responsible for these depredations.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 607.

A trial board consisting of Captains Campbell, McGrath and Daley, having heard by reference a complaint made by Thomas F. Casey, captain, Division 10, against Gerald S. Keough, patrolman, Division 10, for alleged violation of Rule 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification: In that on the thirtieth day of October (Calendar Day), the said Patrolman Gerald S. Keough, while in uniform and on duty, was under the influence of intoxicating liquor to such an extent that he was unable to perform police duty properly, tending to bring into disrepute and criticism himself and his associates in the Police Department,— has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, accepts the plea of guilty by Patrolman Gerald S. Keough. In view of the fact that Captain Casey, his commanding officer, stated to the Board that Patrolman Keough has the ability to make an excellent police officer, and believes that Patrolman Keough can refrain from the use of intoxicating liquor, and the captain's request for leniency, the Board, after taking into consideration Captain Casey's recommendations, and the fact that Patrolman Keough has filed a pledge card and solemnly promises to abstain from the use of intoxicating liquor, respectfully recommends that the said Patrolman Gerald S. Keough be suspended from duty for a period of forty-five days as of October 30, 1934, and that at the expiration of the period of suspension he be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Gerald S. Keough be suspended from duty for a period of forty-five days, effective as of October 30, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman Gerald S. Keough perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the Commissioner, upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

Severally laid over a week under the law.

HOUSING PROJECT.

The following was received:

City of Boston,
Office of the Mayor, December 3, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the State Board of Housing, relative to your order of October 1, 1934, concerning a housing project to include the removal of all buildings on the left-hand side of Main street going towards Sullivan square, also the Elevated structure.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

To the Hon. Frederick W. Mansfield.

Report on the Boston City Council order passed October 1, 1934, which reads as follows:

"Ordered, That his Honor the Mayor request the new Housing Director, Mr. Harold Ickes, Secretary of the Department of the Interior, to appropriate a sum sufficient to remove all buildings, as a housing project for Boston, on the left-hand side of Main street, Charlestown, running from City square to Sullivan square.

In this program could also be included the removal of the Elevated, which is now standing over thirty years and has destroyed the district as a residential section."

Any housing project in this area must be predicated on the removal of the Elevated structure along Main street, as the blight which has been created by this structure would be as detrimental to any improvement as it is to the present condition.

A replanning of this area should also provide for the widening of either or both Main street and Rutherford avenue, and a rearrangement or closing up of intermediate streets.

The suggestion implied by the Council order, viz., that housing be provided along Main street only, does not, in our judgment, provide a reasonable housing plan. In any proper plan, large open areas must be provided and the project definitely bounded by streets so that at no point does it abut undesirable properties. Therefore, we feel that if housing is to be considered in this location, the entire area between Rutherford avenue and Main street must be included.

In the study of any housing project we feel that the entire district of Charlestown must be considered as a whole. Our study has indicated that there are two major areas which are suitable for rebuilding (see map):

1. The area lying between Main street and Rutherford avenue, from City square to Sullivan square.

2. The area lying between Bunker Hill street and Medford street, from Chelsea street to Fay square.

Area No. 1 is a mixed industrial and residential district and has a population density of forty-five persons per acre. The assessed value of land and buildings within this area is $2.80 per square foot. Two schools and a small playground are located at the end toward City square.

Area No. 2 is entirely residential and has a population density of fifty persons per acre. The assessed value of land and buildings within this area is $1.64 per square foot. There are nine schools and two large playgrounds well distributed throughout the district.

In the consideration of housing possibilities in Area No. 1, this Board feels that while the proximity of industry to a residential district is important, since it provides employment, the indiscriminate mixture of the two is undesirable and they should be segregated with definite boundaries. The area should be divided into two parts, and that portion between City square and Dunstable street zoned for residence, while the remainder of the area be given up to industry. This would not prohibit the building of stores along Main street in conjuction with housing. That area immediately surrounding Harvard square would be a suitable one for the rehabilitation of existing houses instead of new housing.

In consideration of housing possibilities in Area No. 2, this Board feels that any part of this area is suitable for rehousing due to its permanent residential character. It is well provided with schools and playgrounds, and Bunker Hill street offers abundant opportunity for local business.

This Board therefore recommends: (1), that due to the higher land values, the uncertainty of the removal of the Elevated structures and the possible expansion of industry, Area No. 1 is not a sound location for rehousing at this time; and (2), that if money is made available it should be spent to provide housing in Area No. 2 which, in our judgment, is the one in which the greatest good could be accomplished.

We believe the removal of the Elevated structure to be highly desirable. This, however, could only be arrived at through agreement with the Elevated Trustees, and after a feasible substitute method of transportation had been submitted. (It is quite analogous to the Huntington avenue problem, but it would be even more beneficial towards the stabilization of property values.)

Respectfully submitted,
STATE BOARD OF HOUSING,
by CHARLES P. NORTON,
Executive Secretary.

REPORT ON VARIOUS TRAFFIC SIGNALS.

The following were received:

City of Boston,
Office of the Mayor, November 30, 1934.

To the City Council.

Gentlemen,—I herewith transmit three letters from the Boston Traffic Commission, relative to orders adopted November 19, 1934, being respectively as follows:

1. Installation of automatic traffic signals at the junction of Old Colony avenue and Preble street, Ward 7.

2. Installation of a traffic light at Chestnut avenue and Boylston street, Ward 19.

3. Installation of automobile warning signals at each end of the center span of the railroad bridge on Columbia road, at Ceylon street, Ward 15.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Traffic Commission, November 28, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated November 19, 1934, which reads as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signals at the junction of Old Colony avenue and Preble street, Ward 7."

The intersection of Old Colony avenue and Preble street presents a serious accident hazard. The records in this office show that thirty-one motor vehicle accidents involving personal injuries have occurred at this intersection from January 1, 1928, to date, divided by years as follows:

1928, 2; 1929, 3; 1930, 6; 1931, 5; 1932, 4; 1933, 3; 1934, 8.

One of the above accidents which occurred on August 9, 1932, resulted in a fatality.

At present Old Colony avenue is being resurfaced with a smooth pavement. When this work is completed undoubtedly motorists will maintain higher speeds through this intersection than formerly. It is my opinion that the area will be even more hazardous under the new conditions.

Because of the great size of this intersection with the resultant long stretches of conduit which would be necessary for a signal installed, the engineers of this commission estimate the cost of installing the signal at this location at approximately four thousand (4,000) dollars.

At present there are no funds available.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

City of Boston,
Traffic Commission, November 28, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated November 19, 1934, which reads as follows:

"Ordered, That the Traffic Commissioner, through his Honor the Mayor, be instructed to install a traffic light at Chestnut avenue and Boylston street, Ward 19."

While this office is cognizant of the fact that automobiles maintain rather high speeds through Boylston street when passing Chestnut avenue it is not our opinion that this is a sufficiently important intersection to warrant the installation of a traffic signal.

The records in this office show that three motor vehicle accidents involving personal injuries have occurred at this location from January 1, 1928, to date.

The cost of installing a signal at this location would be approximately twenty-three hundred (2,300) dollars.

There are no funds available at the present time.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

City of Boston,
Traffic Commission, November 28, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated November 19, 1934, which reads as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to place automobile warning signals at each end of the center span of the railroad bridge on Columbia road, at Ceylon street, Ward 15."

It is assumed that this Council order contemplates the erection of certain luminous signs to prevent motorists from colliding with the under structure of the railroad bridge.

The bridge supports at this location are located entirely within the street car reservation, off the traveled road, and are protected by granite edgestones. In order to collide with the bridge supports it will be necessary for motorists to climb over the intervening edgestone.

It is the opinion of this commission that this installation would cost approximately seventy (70) dollars and is not warranted by conditions.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

FURNIVAL ROAD, WARD 19.

The following was received:

City of Boston,
Office of the Mayor, November 28, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Board of Street Commissioners, relative to your order of October 1, 1934, concerning the acceptance and laying out of Furnival road, Ward 19.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Board of Street Commissioners,
November 27, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—Inclosed please find order of the City Council requesting the acceptance and laying out of Furnival road, Ward 19.

In reply I wish to state that this street would cost about $4,000 to construct, but, owing to the fact that cold weather is close at hand and all further street work must be held in abeyance until next year, it is impossible to take favorable action on this matter at the present time.

Respectfully,
OWEN A. GALLAGHER, Chairman.

CONSTRUCTION OF FANEUIL STREET.

The following was received:

City of Boston,
Office of the Mayor, November 28, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Board of Street Commissioners, relative to your order of October 29, 1934, concerning the construction of Faneuil street, Ward 22.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Board of Street Commissioners,
November 26, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—Inclosed please find copy of City Council order requesting the construction of Faneuil street, Ward 22.

This request has merit but, owing to our financial condition and the proximity of cold weather, it will be impossible to give the matter favorable action at the present time. It is a street to which the Board will be pleased to give consideration next year, if and when a street program is adopted.

Respectfully,
OWEN A. GALLAGHER, Chairman.

BRANCH LIBRARY, BOWDOIN STREET.

The following was received:

City of Boston,
Office of the Mayor, November 23, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Director of the Boston Public Library, relative to your order of October 15, 1934, concerning the establishment of a branch library at Bowdoin street, Ward 15.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Library Department, November 19, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—Referring to the order of the City Council, introduced by Councilor Tobin and passed October 15, 1934, in regard to the establishment of a branch library at Bowdoin street in Ward 15, I have been directed by the Board of Trustees to acknowledge the same and to inform you that it had their consideration at their meeting of November 16, 1934.

I have been asked to state that the trustees have at present the following general policy relative to existing and proposed branch libraries: Namely, that the existing plant of the Library should not be extended until the Central Library building and the existing branch library buildings are put in a reasonably satisfactory condition. Under existing conditions it does not therefore seem likely that there can be undertaken the establishment of any new branch library buildings during the coming year.

Yours very sincerely,
MILTON E. LORD, Director.

TRANSFER FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, November 30, 1934.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of $35,000 from the income of the George F. Parkman Fund to the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its immediate passage by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, November 23, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of $35,000 which is now available, to be expended under the direction of the Board of Park Commissioners as follows: Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of, $35,000.

When the budget estimates were made up for the year 1934, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1934, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
WILLIAM P. LONG, Chairman.

—

Ordered, That the sum of $35,000 be, and hereby is, appropriated, from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the maintenance and improvement of the Common and parks in existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of, $35,000.

Referred to Executive Committee.

TRANSFER TO SINKING FUNDS.

The following was received:

City of Boston,
Office of the Mayor, December 3, 1934.

To the City Council.

Gentlemen,—I submit herewith an order providing that in accordance with the provisions of chapter 174 of the Acts of 1928 the City Treasurer shall pay over to the Sinking Fund Commission the excess of the proceeds of seven loans, originally issued outside the debt limit, over the total amounts required for the purposes specified in the authorization of each loan. The purpose of this payment is to permit the Sinking Fund Commissioners to apply in subsequent years these excess proceeds against the serial requirements of the several loans, and thus reduce the amounts which it would be necessary to provide through taxation for this same purpose.

The records of the Street Commissioners' office indicate that no claims are outstanding on any of the seven projects involved, and the records of the auditor's office further indicate that no expenditures have been charged against the projects for over two years. It is evident, therefore, that the balances remaining in the accounts are no longer required, and I therefore recommend that they be disposed of in the manner provided by law.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That in accordance with the provisions of chapter 174 of the Acts of 1928, the city treasurer, with the approval of the Mayor, be authorized to pay over to the Board of Commissioners of Sinking Funds of the City of Boston, the following unexpended balances of loans issued outside of the limit of indebtedness which are no longer required for the purposes specified in the authorization of such loans.

Lowell street, Nashua street and Causeway street	$125,374 73
Charles street widening, etc	22,229 76
Morton street improvement	16,306 65
Dock square and Faneuil Hall square improvement	14,964 58
Kneeland street improvement	8,852 45
East Boston Pumping Station and outlet	4,456 36
Summer and L streets, widening and construction of	1,714 04

FREE BUS TRANSPORTATION.

The following was received:

City of Boston,
Office of the Mayor, December 1, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston School Committee, relative to your order of November 19, 1934, concerning free bus transportation for children in the Cushing Hill section of Dorchester to Woodrow Wilson School. Evidently, the statute, section 68 of chapter 71, General Laws, would have to be amended before this order could be complied with.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
School Committee, November 30, 1934.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—The School Committee has received and considered the order passed by the City Council November 19, 1934, requesting the School Committee, through your Honor, to furnish free bus transportation for children in the Cushing Hill section of Dorchester to the Woodrow Wilson School.

The School Committee would respectfully report that in September, 1931, the Corporation Counsel, on inquiry from this department, ruled that under the provisions of section 68 of chapter 71 of the General Laws, "the School Committee may not furnish transportation to school children going and coming from school where the distance thereto and therefrom is two miles or less." Under date of October 22, 1932, the Corporation Counsel reaffirmed his previous ruling.

The request for a ruling from the Corporation Counsel regarding the bus transportation privilege was prompted by requests from parents of children living in the Neponset section who were attending the Woodrow Wilson School. The committee has made all possible provision under the law and taking into account extenuating conditions in the section referred to, the committee does not see that it will be possible to extend the present arrangement to include the Cushing Hill section, because that section cannot be construed as being two miles or more from the Woodrow Wilson School.

The Committee therefor respectfully reports that it is not feasible at this time to further extend the free transportation privilege for children attending the Woodrow Wilson School.

Respectfully yours,
ELLEN M. CRONIN,
Secretary.

REMOVAL OF ELM STREET STRUCTURES.

The following was received:

City of Boston,
Office of the Mayor, December 3, 1934.
To the City Council.

Gentlemen,—I herewith transmit a letter from the Building Commissioner relative to your order of November 19, 1934, concerning the removal of certain structures at 91, 93 and 95 Elm street, Ward 2.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Building Department, November 30, 1934.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—On receipt of the order of the City Council that the "building commissioner be requested, through his Honor the Mayor, to take immediate steps for the removal of the dilapidated structures at 91, 93 and 95 Elm Street, Ward 2," the matter was immediately referred to the district inspector for inspection and report.

The inspector reported that while the buildings are vacant and out of repair, they are boarded up and closed to trespass. He further reports that he was unable to gain access to the building to make an inspection of the interior.

I have, however, communicated with the office of Mr. John Ihlder, who is in charge of the E. R. A. Demolition Survey Project, part of whose duty it is to visit owners of such buildings and either have the buildings put in proper condition or taken down. I was informed that the building at 95 Elm street is on their list for contacting the owner, and that the buildings at 91 and 93 Elm street will be added to the list.

Respectfully yours,
EDWARD W. ROEMER,
Building Commissioner.

The order will take its second reading and passage in not less than fourteen days.

SOLDIERS' RELIEF.

Coun. KERRIGAN, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of December, 1934.

Report accepted; said order passed.

STIGMATIZING DESIGNATIONS.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of conferring with the proper authorities relative to the matter of eliminating from all records as a designating phrase the words, "Pauper's grave" and "Pauper's burial," or other like stigmatizing designations.

Passed under suspension of the rule.

GRAVES FOR WELFARE RECIPIENTS, ETC.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of conferring with the Park Commissioner relative to the assigning of graves in city cemeteries to those unable to pay for the graves, such as welfare recipients and others.

Ordered, That the Mayor of Boston be requested to consider the advisability of requesting the Department of Public Welfare to work out a more liberal policy regarding the burial and consequent funeral expenses of welfare recipients.

Coun. NORTON—Mr. President, the father of a family with four of five children, living in one of the wards of Boston, died, leaving no money to pay for a funeral. At the present time the City of Boston takes the body from the home to the City Hospital morgue and from the morgue to the graveyard, as soon as possible. In most cases, where the body is not brought into a church, the cost to the city is $30 for a pine box, for opening the grave $3, and for the services of a clergyman, if there is one at the grave, $2. Taking the practice in other large cities at the present time, dealing with welfare cases, I find that they adopt a more liberal policy towards those who cannot afford to pay for a funeral. It seems to me the City of Boston can handle these cases in a more liberal manner. Just picture to yourselves the situation of unfortunates on welfare, as we have thousands of families in Boston today, with dependent children. The head of the house dies, and there is no money in the home. Where the city takes charge, the procedure followed is what I have just outlined. The individual is buried in what is known as the paupers' grave section of Mount Hope Cemetery. It does seem that in such sections of cemeteries some method might be worked out whereby the body of a man who has been a citizen of Boston for a number of years, and who has a family, can be allocated to a particular section, so that later on his wife or children to follow can be placed in what is known as a family lot. At present, the body is simply placed with two others in what is known as the paupers' section of Mount Hope Cemetery. We have a beautiful cemetery section, and it does seem that in Mount Hope and other cemeteries a policy might be worked out which would be more civilized and liberal toward the unfortunate. I believe that the Mayor of Boston will be sympathetic in dealing with this problem and that the Public Welfare Department can work out a policy similar to that adopted in Albany, New York, by which many of the unfortunate circumstances connected with the burial of welfare and other recipients in Boston may be eliminated.

The orders were severally passed under suspension of the rule.

FORMER CITY EMPLOYEES.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of ordering that the City of Boston employ no new employees until it is first ascertained whether or not there is among those city employees who have been let go, a competent person to fill the position in question who is eligible for the said position under the law.

Coun. NORTON—Mr. President, I notice in the *City Record* that new employees have been added to the city pay roll, in spite of the fact that many who have been laid off have not been given an opportunity to return. I hope or wish that some policy might be worked out whereby those city employees who have worked ten, twenty, or more, years in the Building Department, for example,—where there is one such case of a man who has worked for the city for forty years—and who have been cut off from the pay roll, might be given an opportunity to return before new appointments are made. For example, there are such men as the councilor from Charlestown spoke about two weeks ago. Such men should at least be given consideration, and an effort should be made to see if it is not possible to place them in the positions to which new employees are being appointed. Why isn't that fair? I would like to see consideration given to the men in the Building Department who were let go from the pay roll last March. Isn't it fair that an individual who has given years of faithful service to the city and who has been dropped should at least be given a chance, when an opportunity for employment presents itself, in preference to new men who have not before been in the city's employ. It seems to me that those who have given years of faithful service to the city are at least entitled to a certain preference.

Coun. WILSON—Yes, Mr. President, and that argument is additionally strengthened by the promise made to the Council when the step rate increases were before us that men who were dropped because of conditions at that time would be replaced before the first of October. That promise, certainly, as far as the Building Department is concerned, has not been kept.

The order was passed under suspension of the rule.

DISTRIBUTION OF WORK.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of working out a program whereby all competent and eligible city employees who have been let go may be placed back on the city's rolls through a method that will call for no additional expense to the City.

Passed under suspension of the rule.

ELIMINATION OF BIRD STREET CROSSING.

Coun. McGRATH and GOLDMAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to negotiate with the engineers of the New York, New Haven & Hartford Railroad to jointly prepare plans for the elimination of the Bird street grade crossing in Dorchester, which is a great hazard; the said plans could then be presented to the Federal authorities as a Public Works Administration project.

Passed under suspension of the rule.

ELECTRIFICATION OF RAILROADS.

Coun. McGRATH offered the following:

Ordered, That the City Planning Board be requested, through his Honor the Mayor, to interview the directors of the several railroads operating in Boston in an attempt to interest them in negotiating for Federal loans to electrify all such roads within the Boston city limits in order to reclaim millions of dollars worth of real estate along their routes.

Coun. McGRATH—Mr. President, just a brief word on that order. It does seem to me, at a time like this, when we are out endeavoring to find projects upon which to ask for Federal aid, the electrification of railroads and elimination of grade crossings are among the most important undertakings that can be brought forward. The time will come when all these dangerous grade crossings will have to be eliminated, and the time will also certainly come when we will have to electrify the railroads, certainly as a step in preventing the destruction of property along the lines of the roads. As one rides through the Back Bay, the Dorchester section, the South End and Roxbury, one sees entire areas depreciated by smoke and soot from railroad trains, and I think we all realize that every year people are driven from Boston to adjacent cities because we have not here facilities for decent housing. I believe this is a very opportune time to interest the Federal government in advancing a substantial loan to electrify all loans going out of Boston. It would mean the reclamation of hundreds of thousands of dollars worth of real estate, making habitable many homes which have been rendered practically uninhabitable at the present time, in some of the most desirable sections of the City of Boston.

The order was passed under suspension of the rule.

LIGHTING ON GLENWAY STREET.

Coun. McGRATH for Coun. GOLDMAN offered the following:

Ordered, That his Honor the Mayor direct the Public Works Department to install additional lighting on Glenway street in Ward 14, near to and in the vicinity of the Beth-El Hebrew School at the corner of Glenway and Bradshaw streets.

Passed under suspension of the rule.

WORK FOR RESIDENT HOME OWNERS.

Coun. GALLAGHER offered the following:

Resolved, That the Boston City Council recommends to Federal, state and city governments the following:

That opportunities for employment on all public works projects be made available to resident home owners, whose net income from all sources does not exceed $600 per annum, on the same basis as that provided for all other classes of needy unemployed.

Coun. GALLAGHER —Mr. President, I wish to say a word on the order just presented. It is in behalf of one of the most valuable and at the same time one of the most unfortunate elements in our population. I refer to the resident home owner who is unable to obtain employment in the fields of private business. We have today hundreds of men in our city who, by dint of years of hard work and sound thrift, have acquired the ownership in whole or in part of the houses in which they are living. Most of them are married and have families dependent upon them. They have at best only a meager income from their investment that represents years of toil and saving. When deductions are made for taxes on their homes, insurance, repairs, and interest on their mortgages, a mere pittance remains to them as net income. Some have as little as $100 or $200. Yet, because of the fact that these men — unemployed — come within the classification of property owners they are barred from consideration for employment on public works projects. Gentlemen, I submit this is outrageously unfair and unjust. I am not appealing for those who secure from their property, rentals that are the equivalent of a living wage. But I do say it is rankly unjust to force an unemployed resident home owner to the choice of having him and his family live on less than six hundred dollars, or lose the ownership of his home through nonpayment of taxes and bills, or through forced sale of it at a time when real estate is at bottom value. The alternative that is set before this fine body of citizens through the present procedure in public works employment, is — "sell out at any price and get on the Public Welfare rolls." No one seems to take into account the heavy losses sustained by these people in the defaults of rent payments during the past four or five years, and the other serious and unexpected depreciations in the normal income of their property. They have not only sweated and denied themselves to acquire the ownership of their own homes, but they have to bear the responsibilities and worries incidental to ownership during a crisis of unprecedented shock and surprises; and again, just because the house happens to be in their names — which may mean nothing—they are barred from public works employment. If the present program of excluding them continues, we will have a real problem on our hands. They will see no escape but to get all they can, default on payments, allow foreclosures and, after spending the proceeds, turn almost vindictively to Federal, state and city governments and say, "Now you have to take care of us. We are not property owners." Need I speak of the weakening of morale all along the line that will accompany such an almost justifiable action as many of those men and women will take? Need I remind you that it will be almost impossible to collect taxes on thousands of such parcels of property? Need I recall to you that thousands of possible home owners are discouraged from making any investment in real estate today, and will be for some time to come, because of the uncertainties of income, and the strictures placed upon home owners who have fallen into practical destitution? I recognize that lines must be drawn to separate the really needy from the destitute. But, as a friend of mine has said, "It is a statistical Christ who has been the judge in many instances — not a reasonable or just judge." With that necessity in mind I have offered the resolution today that will draw some line, and at the same time leave some latitude to the judgment of the authorities who must apply it. I submit it on behalf of these neglected home owners, really the backbone of our citizenry. They are, if any element, the "forgotten man" type of today. The totally indigent are provided for. The unemployed home owner should not be penalized. He needs and deserves public help.

The resolution was passed under suspension of the rule.

SAND BOXES, WARD 20.

Coun. FINLEY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install sand boxes at the junction of Washington street and the West Roxbury Parkway, Ward 20, said sand to be used on the Washington street incline at this point to eliminate the hazard of serious automobile accidents when the surface becomes icy and slippery during the winter season.

Passed under suspension of the rule.

CONSTRUCTION OF STREETS.

Coun. FINLEY offered the following:

Ordered, That his Honor the Mayor be requested to present to the Federal Public Works Administration, as part of his program for Public Works projects, an appeal for a substantial fund to be used for laying out and constructing unaccepted streets of the city, 50 per cent of said fund to be paid back to the Federal Government at a later date by the City of Boston, the object of such expenditure being to relieve unemployment and reduce welfare costs.

Coun. FINLEY—Mr. President, in view of the splendid efforts now being made by our state and city officials to create work for those unemployed, I am urging unanimous passage of the order just read, as a practical suggestion by which much labor could be employed in useful and necessary work, with very little expense to the City of Boston. In the suburban districts of our city there are miles of unaccepted residential streets which are in a very deplorable condition at the present time. These so-called streets are just dirt roads, very muddy, and full of holes and ruts, and practically impassable to travel in stormy and freezing winter weather. Many splendid one and two family homes were built on these streets six or seven years ago, prior to the depression, and every assurance was given at that time that these streets would be constructed in the near future. However, times have changed, and in view of the fact that because of the financial condition of the city no money was appropriated for street construction purposes this year and possibly very little can be obtained from next year's revenue it is obvious that relief must come from some other source. I would like to call your attention to the fact that in Ward 20, Roslindale and West Roxbury, known as the Garden Spot of our City, there are 276 unaccepted streets, according to the latest street book which I recently checked, and I am sure a like condition prevails in the other suburban wards of our city. Very little relief has been secured from the Federal Government to date as far as the unaccepted streets are concerned, less than fifty having been constructed from E. R. A. funds in the entire city. Other surrounding cities and towns, however, seem to have solved their street problems very successfully, particularly Brookline, whose residential streets are in splendid condition, and if you were to ride through the residential streets where Brookline and West Roxbury join, the difference would be very apparent to you. According to recent press notices in the Boston papers the city of Medford has received an allocation of funds sufficient to build forty miles of streets under the E. R. A. plan. I am convinced that the future development of our city will depend in a great measure on what is done now to improve the streets of our suburban sections, and believe it is imperative that favorable consideration be given by our local and Federal authorities to this request that unemployed men be given an opportunity to work on projects that will help to develop and beautify the splendid suburban sections of our city. I therefore strongly urge the unanimous passage of the order presented

The rule was suspended and the question came on the passage of the order.

Coun. TOBIN.—Mr. President, I move that the order be amended so as to include also accepted streets.

There being no objection, the amendment, inserting the words "accepted and" before the words "unaccepted streets of the city" was adopted, and the order as amended was passed.

REOPENING SHOE CODE HEARINGS.

Coun. SELVITELLA offered the following:

Whereas, The National Recovery Act Board is considering the advisability of reopening code hearings affecting the shoe industry in Massachusetts, and

Whereas, It appears that shoe factories in and around Boston have moved out of the state on account of inequalities in the shoe code; therefore be it

Resolved, That the Boston City Council, at a duly called meeting in session assembled, favor the reopening of the code hearings with a view to equalizing the shoe code and protecting the shoe industry in Boston and Massachusetts.

The rule was suspended and the preamble and resolution were passed.

ADDITIONAL WELFARE MONEY FOR CHRISTMAS.

Coun. SELVITELLA offered the following:

Ordered, That the Overseers of the Public Welfare be requested, through his Honor the Mayor, to provide all persons on Public Welfare rolls with $5 additional for Christmas.

Passed under suspension of the rule.

COLLECTION OF ASHES AND GARBAGE.

Coun. MURRAY, DOHERTY, ENGLERT and BRACKMAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to continue the present method of the collection of garbage and ashes by city forces, instead of by contract as contemplated, in the Elm Hill, Jamaica Plain and Roxbury districts.

Coun. MURRAY.—Mr. President, this year the engineer of the Sanitary Division, Mr. Post by name, has tried once more to enlarge the contract district in my section, Jamaica Plain, as I understand is being suggested also in other parts of the city, thus having work done by contract which for years has been done by city employees. I have talked with the Commissioner of Public Works and he says it will not affect anybody working for the city. We know that that is not true, because sooner or later those men will be deprived of their positions and the people will not be getting the service that they are now getting at the hands of the city employees. The thing was brought up two years ago, and the arguments were then made against the contract system, before the approval of the contract as it was. I would like to have this matter referred to the Executive Committee, so that some of the men may be brought before us.

The order was referred to the Executive Committee.

TRAFFIC LIGHTS, WARD 19.

Coun. MURRAY offered the following:

Ordered, That the Traffic Commissioner, through his Honor the Mayor, be requested to install traffic lights at the junction of Moraine, Centre, South Huntington avenue, and Boylston streets.

Passed under suspension of the rule.

WARD 3 IMPROVEMENT.

Coun. FITZGERALD offered the following:

Ordered, That his Honor the Mayor be requested to include in the Federal Public Works Program, the erection of an all around bath house and gymnasium, the cost not to exceed $300,000, on land owned by the City of Boston, in that area, bounded by Leverett, Nashua and Brighton streets, Ward 3.

Passed under suspension of the rule.

WHITE WAY ON WASHINGTON STREET.

Coun. FITZGERALD offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to make Washington street a White Way, from Stuart street to Broadway.

Passed under suspension of the rule.

LEASE OF FIRE STATION, LEVERETT STREET.

Coun. FITZGERALD offered the following:

Ordered, That the Superintendent of Public Buildings of the City of Boston be, and he hereby is, authorized, in the name and in behalf of the City of Boston, with the approval of the Mayor, and in form satisfactory to the Law Department of the City of Boston, to lease for Post Headquarters to Casimir Pulaski Post No. 269, American Legion, for the term of five years, at an annual rental of one dollar a year, Fire Station (Old Engine 6), Leverett street, with the right to cancel said lease by giving thirty days' notice in writing of its intention so to do.

Referred to the Committee on Public Lands.

HOUSING PROJECT, CHARLESTOWN.

Coun. GREEN offered the following:

Ordered, That his Honor the Mayor be requested to take the necessary steps to obtain from the Federal and state authorities an appropriation for a housing project in the area lying between Bunker Hill street and Medford street, from Chelsea street to Fay square, as favored by State Housing Plan after an exhaustive study.

Passed under suspension of the rule.

WARD 6 IMPROVEMENTS.

Coun. DONOVAN offered the following:

Ordered, That the Transit Commission be requested, through his Honor the Mayor, to take up the matter of removing the unsightly and unnecessary subway entrance at Dorchester avenue, West Fourth and Dover streets, Ward 6.

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light at the corner of K and Emerson streets, Ward 6.

Severally passed under suspension of the rule.

WARD 7 IMPROVEMENTS.

Coun. KERRIGAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light at the corner of Phillips place and Dudley street, Ward 7.

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light at the corner of Mercer and Telegraph streets, Ward 7.

Severally passed under suspension of the rule.

RETIREMENT OF MARGARET HURLEY.

Coun. DOHERTY offered the following:

Ordered, That the Retirement Board for laborers be hereby authorized and requested to retire, under the provisions of chapter 765 of the Acts of 1914, as amended by chapter 63 of the Special Acts of 1915, Margaret Hurley, employed in the labor service of the City of Boston in the Health Department.

Referred to Executive Committee.

ADDITIONAL TRAFFIC LIGHTS.

Coun. MURRAY and DOHERTY offered the following:

Ordered, That the Traffic Commissioner, through his Honor the Mayor, be requested to install traffic lights at Perkins street and the Jamaicaway.

Ordered, That the Traffic Commissioner, through his Honor the Mayor, be requested to install traffic lights at Perkins street and South Huntington avenue.

Severally passed under suspension of the rule.

RECESS.

The Council voted, on motion of Councilor SELVITELLA, at 3.25 p. m., to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President DOWD at 4.32 p. m.

PAYMENTS TO JAMES FENNESSEY AND MICHAEL O'BRIEN.

Coun. ENGLERT and KERRIGAN offered the following:

Ordered, That, until otherwise ordered, James Fennessey and Michael O'Brien be allowed and paid at the rate of $200 per year each, dating from December 1, 1934, for extra services rendered at meetings of the City Council and committees thereof, such payments to be charged to the appropriation for City Council, A-1.

Passed under suspension of the rule.

COMPENSATION FOR SUPERVISORS, STATE ELECTION.

Coun. SELVITELLA offered the following:

Ordered, That under the provisions of section 23, chapter 54, of the General Laws, the compensation for supervisors appointed to act in the recent state election in the various wards of the city be fixed at the rate of $9 per day.

Referred to the Executive Committee.

NONANTUM STREET.

Coun. AGNEW, for Coun. Gallagher, offered the following:

Ordered, That the Public Works Commissioner, through his Honor the Mayor, be requested to repave with smooth paving, Nonantum street, Ward 22.

Ordered, That the Commissioner of Public Works make a sidewalk along Nonantum street, Ward 22, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of granolithic, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Severally passed under suspension of the rule.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred today) transferring $35,000 from income of Parkman Fund to maintenance and improvement of Common and Parks—that same ought to pass.

Report accepted; said order passed, yeas 17, nays 0.

2. Report on order (referred today) that Retirement Board for Laborers be authorized to retire Margaret Hurley, employed in labor service in Health Department—that same ought to pass.

Report accepted; order passed.

3. Report on order (referred today) that Commissioner of Public Works be requested to continue present method of collection of garbage and ashes by city forces instead of by contract, in Elm Hill, Jamaica Plain and Roxbury districts—that same ought to pass.

Report accepted; said order passed.

TRAFFIC SIGNALS, WARD 12.

Coun. BRACKMAN offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signals at the junction of Crawford street and Humboldt avenue, Ward 12.

Passed under suspension of the rule.

ELIGIBILITY OF SINGLE MEN AND WOMEN.

Coun. KERRIGAN offered the following:

Ordered, That his Honor the Mayor be requested to take up with the Federal Emergency Relief Administration in Washington the matter of including single men and women, with one or more dependents, in the eligible class for employment on E. R. A. projects in Boston.

Passed under suspension of the rule.

THE NEXT MEETING.

Coun. BRACKMAN moved that when the Council adjourn it be to meet on Monday, December 17, 1934, at 2 p. m.

Coun. WILSON—Mr. President, I don't like to stand up here and oppose what may be the wishes of most of the members of the body, in the matter of adjournment, but, in view of the fact that we have before us the question of reapportionment in the wards of this city, which has been referred to a committee, some kind of a report being expected not later than a week from today, I trust, inasmuch as conferences will probably have to be held, a map drawn, and that sort of thing, that we will not at this time, so near the end of the year, adjourn for two weeks. Apparently, there is a disposition on the part of some not to do anything in the way of reapportionment at the end of the ten-year period. We have a largely increased population in West Roxbury and Hyde Park, and my own ward has gone from 10,000 to 18,000 voters, while others remain at the same figure. I, as one member of the Council, certainly do not intend to let the matter drop at this time without making some effort to have action taken. In the next ten years we will probably double the voting population in my ward and a few of the other wards, while certain wards will remain stationary. I think we should not leave it to the Legislature next year to do what they perhaps neglected to do last year. It seems to me this entire matter should be gone into, and that now is the time to do it. It is up to us. There is very little time left before the end of the year, and I feel, with such an important matter pending, we should not now adjourn for two weeks.

Coun. McGRATH—Mr. President, I do not care to anticipate the action of the Council in this matter, but I have polled the Council and they seem overwhelmingly against any change.

Coun. Brackman withdrew his motion for a two weeks' adjournment.

Adjourned, on motion of Coun. BRACKMAN, at 4.40 p. m., to meet on Monday, December 10, 1934, at 2 p. m.

RECREATION, ADEQUATE AS TO KIND AND AVAILABILITY.

Although the ratio of park acreage to population has been used as the simplest measure of the extent to which cities provide areas for the recreation of their people, it is by no means an accurate basis for determining this. If most of the total acreage is in one large park, if the parks are poorly distributed, or if they do not provide various types of recreation facilities, the park system may be inefficient even though the acreage is large. The efficiently *planned* park and recreation system will involve balanced relationship and well-distributed location of several types of properties, namely, children's playgrounds, neighborhood playfield parks, neighborhood parks, reservations, boulevards, and parkways.

SUPPLY DEPARTMENT.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the Superintendent of Supplies, Room 801, City Hall Annex, until 12 m., Tuesday, December 18, 1934, at which time and place they will be publicly opened and read, for furnishing hay, grain and straw to the various city departments. *There will be a charge of twenty cents ($0.20) for each set of blank proposals taken out.* The bidder must include the cost of delivery. The bidders are requested to bid on United States No. 2 timothy hay. Hay must be no less than 40 per cent green. The grade of hay must comply with the federal hay grades, and No. 2 white oats to test no less than thirty-six pounds to bushel graded under federal standards. The hay and oats must be weighed by sworn weighers and on the scales designated by the Superintendent of Supplies. All articles covered by this contract shall be the growth production of the United States. The bidder must use the form of proposals to be obtained at Room 801, City Hall Annex. Proposals must be accompanied by a certified check for $200. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The successful bidder must furnish a bond for one quarter the total estimated amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder. No reservations or stipulations submitted by the various bidders will be considered by the Superintendent.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, DECEMBER 15, 1934. NO. 50

MAYOR MANSFIELD, THROUGH HEAD OF WELFARE DEPARTMENT, HAS INITIATED TWO SERVICES CALCULATED TO BENEFIT 23,000 FAMILIES ON AID — PLANS INCLUDE BETTER HOUSING CONDITIONS AND A SAVING OF THOUSANDS OF DOLLARS TO HOLDERS OF INSURANCE POLICIES WHERE IT HAD BEEN THOUGHT BY FAMILIES THAT SUCH HAD BEEN IRREVOCABLY LOST TO THEM.

Mayor Mansfield has approved the plans of the Public Welfare Department for providing better housing conditions for those on welfare, following a presentation of them to the Mayor by Executive Director John C. L. Dowling. Also another betterment plan of the Executive Director that has been approved by Mayor Mansfield contemplates providing expert insurance adjustment service for 23,000 families, whereby thousands of dollars will be saved them.

In communications outlining the plans, Mr. Dowling has presented the matter as follows:

Better housing for those on public welfare is the aim of Executive Director John C. L. Dowling, who has effected an organization whereby the Department of Public Welfare and the Department of Health and the Building Department are united in an effort to improve housing conditions for the 23,000 families on relief.

Informal study has already been made, through the visitors to the homes of the welfare recipients, of conditions under which they live. Attention has been paid to such matters as sanitation, plumbing, safety of fire escapes, overcrowding of rooms, air and sunlight. Now this foundation work is to be followed up by a unified attack on the problem, in keeping with the national plan of slum clearance.

During the week a committee will be appointed, consisting of the representatives of the three departments, and a working plan will be mapped out whereby an arrangement will be made with landlords for keeping the property, occupied by the city's tenants, in sanitary condition and in repair, as far as possible.

"I believe," said Mr. Dowling yesterday, in a statement on the subject, "that there is an unexplored ground where we, acting for our clients on public welfare, can come into play and aid the City Government in all its branches which deal with housing, to bring about an improvement and final clearance of slum conditions.

LANDLORD'S BURDEN.

"We do not intend to bear down upon the landlord who is doing his best, especially in cases where tenants have been in arrears for rent. We know the burden under which the landlord labors, because of overdue rents, and we understand the impossibility of making many repairs which, in ordinary times, would be demanded. But we do intend to insist that families under our care, whose rent we are assuring, live in decent habitations, without having their health and comfort menaced by neglect. In doing this, we will eventually save the city hospital and doctor bills, by aiding to conserve the health of welfare recipients."

According to the plan for better housing, visitors and inspectors who come in close contact with the families will insist on proper sanitary conditions and see that, as far as possible within their means, they live in places which come within the requirements of the law covering overcrowding and proper ventilation.

Special care will be taken to see that the law against basement sleeping is not violated, and that children are given every possible protection against conditions which might lead to breaking down their morale.

In the event that the landlord refuses cooperation with the department in affording protection for tenants recourse will be had to the Department of Health and to the Building Department. If conditions continue to be unsatisfactory, the tenants will be persuaded to vacate the property for more suitable habitations.

INSURANCE ADJUSTMENT.

Expert insurance adjustment service will be given to the 23,000 families on public welfare in the City of Boston.

Announcement is made by John C. L. Dowling, Executive Director of Public Welfare, that insurance adjustment is being organized by the department, and that every client on the city's welfare list is entitled to a survey of all insurance policies.

These surveys will unearth for policy holders thousands of dollars tied up in lapsed and convertible insurance. They will enable many to retire temporarily or in part from public welfare and thus lighten the taxpayer's load. They will help policy holders to determine the amount and kind of insurance their families can afford to carry. They will also advise them in converting expensive forms of insurance into less expensive forms without sacrificing the protective feature of these policies.

The plan is in line with the most forward-looking movement among social economists to protect the earnings the poor invested in insurance before the depression, to give them immediate access to funds they do not know have accumulated, and to save those who contribute to welfare thousands of dollars. Any insurance money that has accumulated and that can be collected without endangering the protection of the insured is in effect a bank account, and is so regarded by the Board of Overseers of the Public Welfare. *(Continued on page 1291.)*

NEW SERVICES INAUGURATED.

(*Continued from page 1289.*)

The Executive Director is organizing the service with the cooperation of the Life Insurance Adjustment Bureau, representing the three leading industrial insurance companies,—the John Hancock, the Metropolitan, and the Prudential,—which companies carry approximately 90 per cent of the insurance held by those on city welfare relief. The service will be established by assistant supervisors in the various local offices.

In a statement announcing this plan, John C. L. Dowling, Executive Director of Public Welfare, said:

"The plan of insurance adjustment contemplates a valuable service to our clients, and a movement in the direction of helping some of them to become self-supporting. The City of Milwaukee, which has put it in operation, has saved $500,000 for its people. In Boston, it has already been carried out on a limited scale by some of our assistant supervisors, and has proved its value.

Family Aided.

"In one instance, a Charlestown family was aided in the collection of $1,000 which it did not know belonged to it. This money represented accumulations on several lapsed policies, and extended insurance on others that had lapsed. It was collected long after the death of the insured. Because they were unable to pay the premiums for some time before the death of the father, members of the family thought they had forfeited all rights to insurance, as well as to any part of the money that they had paid in over a period of years. When the adjustment was made through the Welfare Office, this family automatically retired from the welfare list and became self-supporting.

"It is a known fact that indusrtial insurance is an expensive form of protection, but it is the only form that those of limited income can afford to carry on account of the willingness of the companies to send agents to collect premiums in small weekly payments. But, because of this, we find many of our families spending a disproportionate amount from their limited allowance on insurance and doing without food for themselves and their children. A recent study shows that seventeen cents out of every dollar received by welfare recipients goes to pay for insurance—and another study of a selected group on family welfare revealed the fact that twenty-one cents out of every dollar was paid for insurance.

"One instance is cited of a family requesting aid, consisting of ten persons, eight of them children, with a maximum weekly income of $25, carrying forty-seven different insurance policies, and paying $10 weekly in premiums. A careful survey made of their policies reduced the amount paid in premiums to forty cents, and gave the family the same protection.

"We have no intention of withdrawing life insurance protection from any of our clients. On the contrary, we propose to see that they have the best protection and the best service possible for the amount they can afford to pay. In doing this, we will have the cooperation of the three leading insurance companies,—the John Hancock, the Metropolitan, and the Prudential."

THOMAS H. DOWNEY,
Acting Chief of Department.

NO WAITING ROOM ON NEW BUS PLATFORM AS YET.

The Mayor has received the following letter from the Elevated Trustees:

BOSTON, December 10, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—In relation to the memo. of November 22 concerning installation of a waiting room on the new bus platform now being constructed on South Sydney street, the trustees have considered the matter today and do not believe it wise to take action until experience of the operation of this new loop has demonstrated exactly what ought to be done. They feel if something should be done prematurely at this time at some cost, which would have to be undone later, it would be unwise. The matter will be closely followed after operation has begun.

Very truly yours,

EDWARD DANA,
Executive Vice President and General Manager.

AGAINST CHANGE OF PLANS FOR THE CHELSEA BRIDGE REPAIRS.

The Mayor has made public the following letter:

BOSTON, December 12, 1934.

HON. LAWRENCE F. QUIGLEY,
Mayor's Office, Chelsea, Mass.

DEAR MAYOR QUIGLEY,—I find your letter of December 6 on my desk upon my return from Washington, in which you state that you are holding the bonds for the Chelsea North Drawbridge with the thought in mind that a high level bridge might be substituted for it. I think there will be great danger in attempting at this late date to substitute another and much larger project for the one which has already received approval. There has been so much delay in proceeding with the repairs on this bridge that I am constrained to say that in my judgment substitution should not be attempted now.

I am quite certain if a change should be attempted that many months, and possibly a year or more, would elapse before we could bring the new project to the stage at which the present project now stands. And there can be no certainty that the new project would be accepted. For these reasons I most earnestly urge you to sign the bonds at once in order that the bridge may be opened at the earliest possible time.

Yours truly,

FREDERICK W. MANSFIELD, *Mayor.*

FOR DOMICILIARY CARE OF NEEDY ILL BY CITY HOSPITAL.

The following is a copy of the letter sent by Mr. John C. L. Dowling, Executive Director of the Overseers of the Public Welfare, to Mayor's Office:

BOSTON, November 21, 1934.

MR. JOSEPH F. MELLYN,
Secretary to the Mayor.

DEAR SIR,—You will recall that the Board of Overseers advised his Honor the Mayor that on and after January 2, 1935, on account of lack of sufficient private funds, this department will be unable to pay further for the domiciliary care of the families of this department treated by the Boston Dispensary.

We were very loath to come to this decision because we felt that if the City Hospital did not assume this logical and necessary enlargement of its work the poor served by this department would be without proper medical care after that date, and that, lacking this care, tragedies which we would all regret might occur. The inclosed letter indicates what does happen when poor people are unable to secure care outside of the clinics of the hospital.

I know his Honor will be interested in reading this letter for we believe that these cases of suffering would be multiplied if the poor are left to shift for themselves.

The above was dictated before the conference of this morning. The City Hospital Trustees base their principal objection to taking over this service on the ground that they are not equipped to extend service to extra-mural cases and to do so would ultimately result in building up a system which would overtop and crowd out other services of the hospital.

It is possible and extremely practicable (as shown by other city hospitals, notably that of New York) for any large medical organization to break up its services into as many units as desired, each headed by a director and all responsible to a general executive, without in any way impairing the general service to the public.

Leaders in medical administration in Boston are a unit in recommending that the logical place for this service is in the Hospital Department, (1) because according to the opinion of the Corporation Counsel he is extremely doubtful of our power to pay for this service to privately administered hospitals; (2) because we have not sufficient private funds to underwrite such service; (3) because the appointment of private physicians has been universally condemned.

I have only to suggest that if the Hospital Trustees refuse to see their duty in the matter that the Mayor, as Chief Executive of the City and as the protector of the defenseless sick poor, issue an executive order to the trustees to institute without delay this service. Under such circumstances I feel that the Trustees of the City Hospital would not refuse to do their manifest duty.

The obstinacy of the trustees should not be allowed to stand in the way of the humane treatment of the sick poor of the city.

Yours truly,

JOHN C. L. DOWLING,
Executive Director.

TRANSFER OF APPROPRIATIONS.

City Auditor Charles J. Fox announces the following transfers in appropriations in departments of the City of Boston and County of Suffolk, indorsed by the Acting Budget Commissioner and approved by his Honor the Mayor:

PUBLIC WORKS DEPARTMENT (Paving Service).

BOSTON, December 4, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Public Works Department, Paving Service:

From the appropriation for Group B, Item 6, $2,000, to the appropriation for Group H, Project 56F, 2235-B2, Emergency Relief Projects, $2,000.

Inasmuch as there are a few new streets in the process of construction, and the appropriation for Group H has become exhausted it will be necessary to make the above transfer in order that these streets may be completed and made safe before the advent of winter.

Respectfully,

C. J. CARVEN,
Commissioner.

The above transfer was made by the City Auditor with the approval of the Mayor December 13, 1934.

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt $100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

POLICE DEPARTMENT ORDERS.

General Order No. 610.

The resignation of Patrolman Louis B. Hennessey of Division 15, having been presented while charges against him are pending, it is hereby accepted to take effect Friday, December 7, 1934, at 5.45 o'clock p. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 611.

A trial board, consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by Perley S. Skillings, captain, Division 16, against Warren F. Dole, patrolman, Division 16, for alleged violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Neglect of duty and insubordination.

Specification: In that on the 23d day of November, 1934, the said Patrolman Warren F. Dole, when ordered by Acting Sergeant George F. Smith to take traffic post at Marlborough and Dartmouth streets did refuse to do so,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, finds the said Patrolman Warren F. Dole guilty as charged. The Board, after taking into consideration that it is a very serious violation of the rules and regulations of the department for the officer to fail to properly perform his duty by neglecting to take his post on a crossing at Marlborough and Dartmouth streets, and by wilfully refusing to obey the orders of a superior officer (acting sergeant); and having also taken into consideration that this officer has never been before a trial board on a previous occasion charged with a violation of the rules and regulations, respectfully recommends that the said Patrolman Warren F. Dole be ordered to perform 140 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Warren F. Dole perform 140 hours of punishment duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 612.

The following promotions and assignments are hereby ordered to take effect on Wednesday, December 12, 1934, at 7.45 a. m.

AMENDMENTS TO RULES AND REGULATIONS

The Superintendent offered the following:

ORDERED, That the Rules are hereby amended as follows:

Sect. 80, paragraph XI. Special: Valid in Day Elementary or Day Intermediate Schools and Classes: Insert the following to immediately precede the provision for the "Manua. Training Certificate"—

For candidates for examination for the Cookery or Sewing Certificate in August, 1936 and thereafter, the following eligibility requirements will apply, provided that candidates who have been admitted to the examinations for these certificates prior to that date shall have the privilege of reexamination; and provided further that candidates who, not later than Sept. 1, 1935, have satisfied the educational requirements then in effect, may be admitted to the examination on completion of all other requirements in effect at the time of the examination:

For the cookery certificate: (a) Graduation from a high school approved by the board of superintendents, or evidence of an equivalent academic education; (b) satisfactory completion of an approved course of instruction in cookery which includes at least four years of professional training; or graduation from a course at least three years in length in an approved normal school or teachers college and, in addition, the satisfactory completion of a one-year course in cookery in an approved school; and subsequent thereto, (c) evidence of one year's successful experience in teaching cookery in regular graded day schools, which teaching experience requirement may be waived for graduates of the Boston Normal School or of The Teachers College of the City of Boston; provided that candidates who graduated prior to Sept. 1, 1936, from an approved three years' course in cookery may offer this three years' course and two years of approved experience in teaching cookery in place of a four years' course and one year of teaching experience.

For the sewing certificate: (a) Graduation from a high school ap-

proved by the board of superintendents, or evidence of an equivalent academic education; (b) satisfactory completion of an approved course of instruction in sewing which includes at least four years of professional training; or graduation from a course at least three years in length in an approved normal school or teachers college and, in addition, the satisfactory completion of a one-year course in sewing in an approved school; and subsequent thereto (c) evidence of one year's successful experience in teaching sewing in regular graded day schools, which teaching experience requirement may be waived for graduates of the Boston Normal School or of The Teachers College of the City of Boston; provided that candidates who graduated prior to Sept. 1, 1936, from an approved three years' course in sewing may offer this three years' course and two years of approved experience in teaching sewing in place of a four years' course and one year of teaching experience.

This certificate is valid in Grades I to VI only, until candidates shall have submitted to the board of superintendents evidence of successful work in three approved thirty-hour courses, of which at least two must deal with the subject or subjects for which approval is desired; the third course may deal either with such subjects or with general academic subjects.

Laid over.

—

The Superintendent offered the following:

ORDERED, That the regulations are hereby amended as follows:

Section 166, paragraph 12. Strike out the paragraph and insert in paragraph 11, to follow the word "schools" in the second line, the words—and the Boston Clerical School—so that the paragraph shall read as follows:

11. The sessions of the Latin and day high schools and the Boston Clerical School shall begin not earlier than 8:20 o'clock A. M., and close not later than 4 o'clock P. M.; provided, that no session shall be less than five and one-half hours in length, including the recess period.

Re-number paragraphs 13, 14, and 15 as paragraphs 12, 13 and 14.

Laid over.

—

The Superintendent offered the following:

ORDERED, That the Regulations are hereby amended as follows:

Section 337, paragraph 4. At the close of the paragraph add the following—the provisions of this paragraph shall not apply to kindergarten teachers who are appointed from one-session to two-session kindergartens or vice versa, nor to teachers specially assigned; teachers so appointed or assigned shall retain the date of anniversary held by them prior to such appointment or assignment—so that the paragraph shall read as follows:

Section 337, 4. Teachers and members of the supervising staff whose salaries are adjusted in accordance with the provisions of the preceding paragraphs of this section shall advance each year thereafter on successive anniversaries of the dates of their promotion or change in rank until such time as the maximum is reached, provided that when appointments to higher ranks or changes in rank are made subsequent to the first day of any month, teachers and members of the supervising staff shall advance each year thereafter on their respective salary schedules on the first day of such month. The provisions of this paragraph shall not apply to kindergarten teachers who are appointed from one-session to two-session kindergartens or vice versa, nor to teachers specially assigned; teachers so appointed or assigned shall retain the date of anniversary held by them prior to such appointment or assignment.

REPORTS ON ATTENDANCE AT CONVENTIONS

A communication was received from the Superintendent, under date of Nov. 19, 1934, submitting, in accordance with the provisions of Section 3 of Chapter 274 of the Acts of 1914, report of James T. Mulroy, Director of Extended Use of the Public Schools, on his attendance at the National Recreation Congress, held at Washington, D. C., Oct. 2 to 5, 1934, inclusive.

Placed on file.

—

A communication was received from Dr. Joseph V. Lyons, under date of Nov. 19, 1934, submitting, in accordance with the provisions of Section 3 of Chapter 274 of the Acts of 1914, report of his recent visit of inspection of the cafeteria system in the Philadelphia Public Schools.

Placed on file.

—

The following was offered:

ORDERED, That the School Committee hereby expresses its deep appreciation of the thoughtful courtesy with which its representative, Dr. Joseph V. Lyons, was received on his recent visit of inspection of the School Luncheon Department of the Public Schools of Philadelphia. The full information given to him by Mr. Clarence B. Kugler, Jr., Manager of Cafeterias, and members of his department, coupled with Dr. Lyons's observations, will be of inestimable help to the Committee in solving the very difficult problem of providing luncheons in the secondary schools.

Passed unanimously.

—

Dr. Mackey offered the following:

That this Committee herewith publicly expresses to Dr. Lyons its thanks for the very complete report he has made on the school luncheon situation in Philadelphia and its appreciation of the sacrifice of his time and business which he was called upon to make in order to accomplish this result for the benefit of the children of the city.

Passed unanimously.

—

ILLEGAL EMPLOYMENT OF CHILDREN

Dr. Lyons: I was quite surprised recently, and I must say rather shocked, to learn of existing conditions in one of our neighboring cities, namely, the employment of children from the ages of seven to ten in sweat shops, and perhaps in some instances in their homes, working for seven or eight cents an hour making bags or other articles for the coming Christmas season. I was so deeply concerned that I called our Superintendent, Mr. Campbell, and asked him if he would for me, by the time of the next meeting which is tonight, set in motion whatever machinery he had to accomplish a survey in order to ascertain if such a practice, in any degree whatsoever, exists in this city. I'd like to ask the Superintendent if he has any report to make.

Superintendent: I have no definite report yet from the Attendance Department but we have been in communication with the Massachusetts Department of Labor and Industries, in whose province the supervision of child labor lies, and have assurance that the department has no knowledge of any such instance in Boston.

—

THANKS OF COMMITTEE TO INDUSTRIAL SURVEY COMMITTEE

The following was offered:

ORDERED, That the School Committee expresses its deep appreciation of the services of the Committee which has surveyed industrial education in the Boston Public Schools within the last two years, namely:

Dr. William H. Timbie
Dr. Fred C. Smith
Mr. Robert O. Small
Mr. J. Arthur Moriarty
Mr. G. C. Thomas

The work of the Committee has been painstaking and thorough and will be of very great value to the school authorities in carrying on to the best advantage this department of the school activities.

Passed unanimously.

—

APPROPRIATION FOR ALTERATIONS AND REPAIRS

The following communication was received:

City of Boston—Department of School Buildings.

November 19, 1934

School Committee,
City of Boston,
15 Beacon Street,
Boston, Mass.

Gentlemen:

Under date of November 14th, 1934, the School Committee forwarded to the Board of Commissioners of School Buildings, the following proposed order:

ORDERED, That of the amounts appropriated by the School Committee at the meetings of June 25, 1934, (see p. 118) and July 30, 1934 (see p. 146) for "alteration and repair of school buildings and for furniture, fixtures and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards" for the financial year January 1, to December 31, 1934, to provide for the cost of tools, materials and trucking in connection with the E. R. A. M. program, the sum of $25,000.00 is hereby authorized for expenditure for general alterations and repairs, said amount being an unexpended balance on the E. R. A. M. item.

This money is needed in order to enable this Department to carry on its ordinary alterations and repairs for the balance of the year and we therefore have voted to approve this order in accordance with the provisions of Chapter 351 of the Acts of 1929.

Respectfully yours,

Board of Commissioners of School Buildings.

RECREATION, ADEQUATE AS TO KIND AND AVAILABILITY.

Although the ratio of park acreage to population has been used as the simplest measure of the extent to which cities provide areas for the recreation of their people, it is by no means an accurate basis for determining this. If most of the total acreage is in one large park, if the parks are poorly distributed, or if they do not provide various types of recreation facilities, the park system may be inefficient even though the acreage is large. The efficiently *planned* park and recreation system will involve balanced relationship and well-distributed location of several types of properties, namely, children's playgrounds, neighborhood playfield parks, neighborhood parks, reservations, boulevards, and parkways.

NEWTON REDUCES WATER RATES.

The city of Newton reduced its water rates 10 per cent in 1932, from 25 to 22.5 cents per 100 cubic feet, and for 1934 has reduced them 11.5 per cent, to a flat price of 20 cents per 100 cubic feet. This reduction was made possible by savings effected by reorganizing the administration and maintenance methods and equipment of the department before and since the beginning of the city's "four-year plan" of water development in 1931.

PROPOSALS FOR REPAIRING HULL, ETC., OF FERRYBOAT "LIEUTENANT FLAHERTY."

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairing hull, etc., of ferryboat "Lieutenant Flaherty." A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Ferryboat 'Lieutenant Flaherty,'" and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, December 21, 1934, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two ($2) dollars for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

C. J. CARVEN,
(Dec. 15.) *Commissioner of Public Works.*

MAYOR MANSFIELD TO SPEAK AT EMERGENCY CAMPAIGN OPENING.

The Mayor on December 17 had a conference with Oscar W. Haussermann and Paul C. Cabot of the Emergency Campaign Committee for 1935. The Mayor agreed to speak at the mass meeting on January 12, 1935, which will launch the campaign officially. He also endorsed the movement heartily and said he would issue a circular letter to all heads of departments urging them to ask their employees to contribute 1 per cent of their salaries.

The Mayor said that this would not be a hardship in view of the fact that the 5 per cent, 10 per cent and 15 per cent reductions are to be restored next year. He will also designate some city official to keep constantly in communication with the Emergency Campaign Committee and to organize the various city departments to the end that the objective of obtaining 1 per cent of the salaries of all city and county employees may be obtained.

CIRCULAR LETTER NO. 17.

OFFICE OF THE MAYOR,
BOSTON, December 18, 1934.

To All Heads of Departments.

GENTLEMEN,—The Emergency Campaign to raise funds for deserving private charities is about to be launched in Boston. The money which is raised by this campaign will be used for the most worthy charitable purposes and will be divided among nearly one hundred deserving private charities. I hope that every city and county employee will contribute within his means and write to ask you if you will endeavor to interest all of the employees in your department to this end.

Of course they know that there is nothing obligatory about this and that any contributions which they may make will be purely voluntary and that they are free to make them or not as they please. It is suggested that they contribute 1 per cent of their yearly salaries divided into such periodical payments as will be most convenient for them. This seems to be a very moderate and reasonable request and I earnestly urge that you do all in your power to see that it is complied with, by all those who can afford to do so.

I further suggest the appointment by you of some person in your department to whom shall be delegated the duty of assisting the committee in charge of this campaign. When such a person is appointed please have him communicate with City Treasurer John H. Dorsey, who will represent the Mayor.

Yours truly,
FREDERICK W. MANSFIELD,
Mayor.

DAMAGES ASSESSED.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That in the matter of Carmeno Frangiosi, petitioner for damages occasioned his estate by the relocation of Oakland street (now Cummins Highway) under the order of June 7, 1927, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of six hundred (600) dollars; and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

Voted, That in the matter of George A. Waggett, petitioner for damages occasioned his estate by the taking of an easement for sewerage purposes under an order of the Street Commissioners and Mayor of June 14, 1933, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of three hundred and twenty-five (325) dollars; and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

In the matter of the application for revision of assessment levied March 16, 1931, on account of the construction of sewerage works, the Board of Street Commissioners, acting under the provisions of chapter 359 of the Acts of the year 1896, and deeming it just and proper that such action should be taken on said application,

Order, That the amount hereinafter specified, being the annual apportionment of said assessment for the year 1933, be, and the same is hereby abated.

Elizabeth M. Keefe, Coronado road, Hyde Park, Plan 1930–25, Lot 3, amount, $14.80.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

Warren Brothers Roads Company has been granted an extension of the time of completion of the contract for laying bitulithic pavement in Old Colony avenue, Ward 7, from Dorchester street to Mt. Vernon street (contract dated October 29, 1934), from December 31, 1934, to June 1, 1935, P. W. A. Docket 4205F. This extension is requested for the reason that the contractor has been delayed by cold weather and will be obliged to suspend work over the winter months.

The C. & R. Construction Company has been granted an extension of the time of completion of contract for laying and relaying water pipes in Brookline avenue, between Kenmore square and the Boston-Brookline boundary line, approved August 13, 1934, from December 31, 1934, to September 1, 1935, P. W. A. Project No. 4214. The reason for the above request is the delay experienced by the contractor in starting the work in Brookline avenue and the approach of the winter season.

The Eagle Sign Company has been granted an extension of the time of completion of the contract for the installation of two signs for the Sumner Tunnel, from December 10, 1934, to January 15, 1935. This extension is requested for the reason that the new pole which is to be installed at the East Boston entrance has not yet been set in place.

Joseph Capone has been granted an extension of the time of the completion of the contract for the building of sewerage works in Greaton road, from Centre street, 950 feet northwesterly, West Roxbury, from November 3, 1934, to December 3, 1934, a period of thirty days.

Calia and Zarella, Incorporated, have been granted an extension of the time of completion of the contract for building sewerage works for Hyde Park avenue, between Metropolitan avenue, Hyde Park, and Larch place, West Roxbury, from December 7, 1934, to January 7, 1935, a total of thirty-one days.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

The building at 102 and 104 West Fourth street, Ward 6.

The building at 64 Reed street, Ward 8.

The building at 310 Bolton street, Ward 6.

The building at 41 Allston street, Ward 2.

The building at 66 Sherman street, Ward 12.

The building at 164 Border street, Ward 1. The foundation is rotted, roof gone, open to wind and weather, dilapidated and a fire menace. The owner, Federal Wharf Company, care of Walter Webling of 46 Clinton street, Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 24 Woodbury street, Ward 9. The roof front above second story is caved in, windows and doors missing, a menace; unsafe and dangerous. The owner, Gertrude M. Cole of Pelham Manor, N. Y., has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 23 Woodbury street, Ward 9. Above third floor roof has caved in and the front walls are bulged and cracked; unsafe and dangerous. The owner, Gertrude M. Cole of Pelham Manor, N. Y., has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 66 Sherman street, Roxbury. The building is in a dilapidated condition; piazzas in bad state of repair, windows out, open to trespass. The owner, Laura H. Litchfield of 1901 Massachusetts avenue, Lexington, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 41 Allston street, Ward 2. The building is dilapidated, open to trespass, and a fire menace; underpinning in dangerous condition and now being demolished by children in neighborhood. The owner, Nora M. Kiley of St. Helena's Home, 89 Union Park street, Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

WANTS POST OFFICE WORK STARTED TO AID UNEMPLOYMENT.

The following is a copy of telegram sent by Mayor Mansfield to Congressman McCormack:

BOSTON, December 18, 1934.

HON. JOHN W. McCORMACK,
House Office Building, Washington, D.C.

Boston building trades urges action on parcel post building. Have just talked with Mr. Melick in charge of this project who says the bids were higher than the amounts alloted and permission was asked of P. W. A. to increase the allotment. Melick has been informed verbally but not officially that the increase has been allowed and he is waiting for the papers to come from Secretary Ickes' office which he thinks will be within ten days. Can you communicate with Ickes or Williams and urge them to hasten action so that Boston building trades mechanics may get to work this winter.

FREDERICK W. MANSFIELD,
Mayor.

CONGRESSMAN McCORMACK REPLIES.

MAYOR'S OFFICE, December 18, 1934.

Copy of telegram from Congressman John W. McCormack to Mayor Frederick W. Mansfield:

Replying wire date I talked with General Purdum of Post Office Department who referred me to Trott of Treasury Department who said recommendation had been made to Public Works Administration for additional money. Also talked with Seward of Public Works who said request for additional sum of about $830,000 more had been made and was under consideration with ninety-six other items which come from Treasury Department. I asked for early and favorable consideration of Parcel Post project and Seward assured me he would give matter every attention. I am to contact with him again latter part of week. I will follow this matter closely.

JOHN W. McCORMACK.

POLICE DEPARTMENT ORDERS.

General Order No. 613.

Sergt. James J. Crowley and Patrolmen Andrew J. Mullen, Daniel F. Donovan, Jr., and Joseph F. Hart all of Division 1, are commended and each is granted three days' additional vacation for efficient police duty performed in connection with the arrests of four persons in connection with a series of breaking and entering and larceny cases during the latter part of November, 1934, and the recovery of a large amount of stolen property, including two loaded revolvers and a 12-gauge shot gun.

The commissioner is pleased to recognize the splendid police duty performed by these officers in accomplishing these important arrests.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 614.

Patrolmen Francis X. McKenna and Herbert H. Haskins both of Division 14 are commended and, in addition, Patrolman Francis X. McKenna is granted three days' additional vacation for effective police duty performed in connection with the arrest, on November 24, 1934, of two young men, discovered by Patrolman McKenna, while burglarizing a candy manufacturing company, in the Allston district. Further investigation resulted in the arrest of a band of young men who were implicated in breaks which occurred in freight cars of the Boston and Albany Railroad in which a large amount of liquor had been stolen.

The commissioner is pleased to recognize the diligence and attention to duty shown by Patrolman McKenna and the valuable assistance rendered by Patrolman Haskins in accomplishing the arrests of this band of criminals.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

MAYOR MANSFIELD SEEKS MORE RELIEF FUNDS FOR BOSTON.

Corporation Counsel Henry E. Foley and Congressman John W. McCormack in the absence of Mr. Hopkins, called upon Aubrey Williams, Assistant Emergency Relief Administrator. Dr. Lent B. Upson of the Municipal Finance Section was present. Corporation Counsel Foley and Congressman McCormack urged upon Mr. Williams that Boston should receive one third of the Federal allotment in Massachusetts stressing that Boston is now bearing approximately one third of the total local expenditures in this state for relief. They also urged a larger allotment of Federal relief funds for Massachusetts so that existing allotments to other cities and towns be not disturbed.

Mr. Williams expressed the appreciation of the Emergency Relief Administration of the efforts which Boston is making to meet relief cases and indicated that it was not the policy of the Federal Relief Administration to place undue burdens upon local tax payers. Mr. Williams stated that he would immediately request Mr. Rotch, the State Emergency Relief Administrator in Massachusetts, to confer with Mayor Mansfield in order to work out a more satisfactory allocation to Boston of the Federal funds distributed in Massachusetts.

CLAIMS ALLOWED.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claims:

Edmund E. Federici, 105 Salem street, Boston, in the sum of $100, as refund on 3.2 beer license issued on July 15, 1933, and surrendered to the Boston Licensing Board on January 8, 1934.

Emma L. Kelly, 55 Mellen street, Dorchester, in the sum of $75, as compensation for personal injuries caused by stepping into hole in highway on Mantague street, at corner of Mellen street, June 7, 1934.

Margaret E. Duffley, 17 Parnell street, Boston, in the sum of $75, as compensation for damage to property at above address, caused by water coming into cellar from leaks in water supply pipe, January 8, 1934.

S. F. Colbath, 20 Irwin avenue, Roxbury, in the sum of 75 cents, as refund on five unused refuse tickets which were returned to the Public Works Department in October, 1934.

Caroline Kelley, 14 St. James street, Roxbury, by her attorney John J. Rochefort, 490 Washington street, Brighton, in the sum of $75, as compensation for personal injuries caused by defect in sidewalk in front of 256 Warren street, Roxbury, September 16, 1933.

Maria Fiorentino, 40 Pond street, Hyde Park, in the sum of $75, as compensation for personal injuries caused by defect in sidewalk in front of 20 Pond street, Hyde Park, March 14, 1930.

William H. Barker, 66 Bayswater street, East Boston, in the sum of $14.25, as compensation for damage to automobile, caused by hole in highway on Orient avenue, opposite No. 15, May 23, 1934.

Evelyn M. Sherman, 1754 Commonwealth avenue, Brighton, by her attorney, William M. Shaughnessy, 44 School street, Boston, in the sum of $50, as compensation for personal injuries caused by depression in highway, near crosswalk on Northern avenue, near corner of Atlantic avenue, March 31, 1934.

M. F. Duncan, 927 East Fourth street, South Boston, in the sum of $50, as compensation for collapse of water boiler, caused through negligence of employees of the Water Division, Public Works Department, May 14, 1934. This claim was approved for $35 by the Law Department on October 23, 1934, but they reopened the case on November 21, 1934, and recommended that the award be increased to $50, in accordance with the above vote.

Mrs. Mary Leaman, 1365 Dorchester avenue, Dorchester, in the sum of $35, as compensation for personal injuries caused by defective crosswalk on Ellsworth street, at the corner of Freeport street, Dorchester, June 20, 1934.

LOCATION OF STREET.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the name of the state highway in the East Boston district, between Bennington street and the boundary line dividing the City of Boston and the city of Revere, excluding that part of Saratoga street within the limits of said highway, be hereafter known as William F. McClellan Highway.

SURVEY OF SAFETY FEATURES IN VICINITY OF SCHOOLS

Mr. Sullivan: I wish to present an order designed to reduce the possibility of accidents among Boston school children and improve their chances of safety in and around the schools.

At the present time, I understand that the State, under the Public Works department and under the Massachusetts Accident Survey, has been analyzing the causes of auto and other accidents throughout the state with the idea of eliminating as many causes as possible.

Here in Boston where we have so many children walking to and from school each day, it would be advisable to conduct a similar study. Such a study should include routes to and from school, auto and street car traffic in the vicinity of the school buildings and playgrounds, and safety features within the schools themselves.

I therefore offer the following:

ORDERED, That the School Committee apply for permission to conduct a program under the ERA, in which experts would be employed to survey such safety features, under the direction of the Committee and the Superintendent of Schools.

The order passed by unanimous vote.

—

PURCHASE OF SUPPLIES FROM UNION CONCERNS AND UNDER N. R. A. CODES.

On Dr. Mackey's request, the following suggestion offered by him was referred to the School Committee with the Superintendent and the Business Manager, for consideration at a later date:

That all school supplies be purchased of Massachusetts concerns and, wherever possible, of Boston concerns; also that such supplies be produced or manufactured by concerns employing union workers and abiding by the N. R. A. codes, in view of the fact that there are over 100,000 unemployed persons in this state who should be given first consideration.

—

The Committee adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

UNITED STATES CONFERENCE OF MAYORS ON GOVERNMENT FUNDS.

The following is a copy of telegram from Paul V. Betters, Executive Director, United States Conference of Mayors, Chicago, Ill., to Mayor Frederick W. Mansfield:

You may, if you have not yet, receive inquiry from the Federal Government asking several questions regarding future public works which might be undertaken by your city under new Federal program. Several cities have contacted me relative this inquiry and they have stated in reply to government only conditions under which loans would be accepted would be under plan approved at annual conference of United States Conference of Mayors, namely at nominal interest rates or at no interest rate in accordance Mayors' Conference plan. If you reply to such inquiry executive committee trusts you will bear in mind recommendations of conference to President and Federal Government which were incorporated in resolution sent you last week.

Faithfully yours,

PAUL V. BETTERS, *Executive Director,*
United States Conference of Mayors.

Copy of telegram from Mayor Frederick W. Mansfield to Paul V. Betters, Executive Director, United States Conference of Mayors, Chicago, Ill:

Have not yet received inquiry from Washington inquiring as to future public works for Boston. Boston will not be interested on a 30–70 per cent and might not be interested on a 50–50 per cent. If inquiry comes I shall answer as requested by you in accordance with course approved at annual Conference of Mayors.

CONTRACTS WITH BOSTON CONSOLIDATED GAS COMPANY.

The following was received:

City of Boston,
Office of the Mayor, December 6, 1935.

To the City Council.

Gentlemen,—I am in receipt from the Public Works Commissioner of contracts with the Boston Consolidated Gas Company covering the furnishing of illuminating gas and the lighting and extinguishing of 9,539 lamps for street lighting in the City of Boston, excluding Hyde Park district, for a period of five years beginning January 1, 1935. For the information of your honorable body I desire to state that the price paid per lamp per year represents a saving of $2.62 per lamp over the price which the city is now paying for this service. On the total lamps involved this will mean a saving of $24,992.18 per year to the city during the life of the contract, namely, five years, or a total saving of $124,960.90. Under the provisions of section 6 of the City Charter these contracts must be approved by the City Council after a public hearing in order to become effective. I accordingly submit the contracts to your honorable body for consideration and action.

Respectfully.
FREDERICK W. MANSFIELD, Mayor.

(Appended were the contracts referred to, which were ordered printed as a city document.)

Referred to the Committee on Municipal Lighting.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following reports, viz.:

1. Report on message of Mayor and order (referred November 19) transferring sums amounting to $30.023.25 from other appropriations to Long Island Hospital, Kitchen and Laundry Improvements, etc.—that same ought to pass.

Report on message of Mayor and order (referred December 3) to pay unexpended balances on various loans to Sinking Funds—that same ought to pass.

Reports accepted and said orders passed, yeas 20, nays 9.

2. Report on petition of First Church of Christ Scientist, for release of sureties on bond—recommending passage of order for release of said sureties.

Report accepted: said order passed.

3. Report on order (referred today) for retirement of Mary J. Keane, employed in labor service of Hospital Department—that same ought to pass.

Report accepted; said order passed.

4. Report on petition of Josephine J. Leonard, for children to appear at South Boston Municipal Building, December 17,—recommending that leave be granted under usual conditions.

Report accepted; leave granted under usual conditions.

REPORT OF COMMITTEE ON PUBLIC LANDS.

Coun. DONOVAN, for the Committee on Public Lands, submitted the following:

1. Report on order (referred December 3) that Superintendent of Public Buildings lease for Post Headquarters to Casimir Pulaski Post No. 269, American Legion, for term of five years at annual rental of one dollar a year, Fire Station (Old Engine 6), Leverett street—that same ought to pass.

Report accepted; said order passed.

2. Report on message of Mayor and order (referred November 19) providing for lease of premises at 2150 Dorchester avenue to Massachusetts section of Women's Department of National Civic Federation at nominal rental of $50 per year for housing accommodation for unemployed girls and single women—that same ought to pass.

The report was accepted and the question came on the passage of the order.

Coun. FISH—Mr. President, just a word in regard to this transfer of the Convalescent Hospital property. For three years I have been fighting in this Council to maintain the Convalescent Hospital, having the trustees open it up. Evidently I have lost out on the fight; the trustees and the Mayor of Boston have refused to reopen that building as a convalescent hospital. I think the Mayor of Boston has gone about this thing in the wrong way, when another arrangement could be made in other property to take care of 300 or 400 unemployed girls, whereas this will take care of but 25 or so. I think the Mayor is all wrong.

Coun. DONOVAN—Mr. President, the Committee on Public Lands have taken into consideration all angles of this controversy. For three years this convalescent home in Dorchester has been idle. Recently the City of Boston has spent a great deal of money on the remodelling and repair of that building in order to accommodate unemployed girls and women. The Massachusetts section of the Women's Department of the National Civic Federation are planning to conduct this home with funds collected from individuals throughout the city. While the Committee on Public Lands feels that accommodation of 25 to 50 women is not going to be enough to relieve the situation in this city, and while they feel if the West Roxbury Hospital grounds could be used, from 500 to 1,000 people could be accommodated, still, with the winter coming on, we feel that this is a most worthy cause that is being conducted by these women of the National Civic Federation, that they should be commended for their action, and that they should have the use of this property for five months.

Coun. McGRATH—Mr. President, the reason why I voted against this in committee and shall do so on the floor is that this is a convalescent department of the City Hospital. It is the only convalescent home that we have in the City of Boston. I remember the great work that it did in the past; I remember how many have been forced to leave the City Hospital because of lack of space, who still were not completely restored to full health, and that by going to that home for a week or ten days they were able to be restored to complete health and to take up their home duties. I have always been opposed to the closing of that hospital. It was a splendid institution, and one which was of great benefit to people from the heart of the city and from all over Boston. Such work should not only be continuously carried on, but should be greatly enlarged, as an important part of the hospitalization of our people. There has just been turned over to the hospital authorities, by mandate of the Mayor, the care of thousands of people who would ordinarily be left in their homes without any care whatsoever. That means that the work of the hospital must expand, and I think it is about time for us to realize that unless something is done along this line the work of the City Hospital will be very seriously curtailed. I have in mind, of course, the housing opportunities that might be afforded out in West Roxbury. There is a beautiful set of buildings, which have been put into excellent shape and, as against 25 or 30 women who would be taken care of as proposed in this order, there might be a chance to take care of 1,000 girls. In that way, instead of merely providing for the number who might need care in one precinct, you would be providing for girls all over the City of Boston. If this housing work is going forward, those buildings are available, enabling, as I say, perhaps 1,000 workless girls to be provided for. If, however, the plan proposed in this order is carried out, I don't know where the girls will come from, but very likely it will not be from my district, Dorchester, or from the South Boston area. We will perhaps have there a warm club where 25 girls will be taken care of in very proper style. This is an organization, of course, of very estimable women, but I merely make the point that the number provided for there will be merely scratching the surface, probably hardly providing for one precinct out of the many in this city. Certainly, something should be done with those buildings in West Roxbury, and I believe also the time will very soon come when we will not only need the convalescent home provisions that we have had in the past, but when we will be obliged to go out and lease buildings for the purpose. But at the present time I am certainly against the leasing of this property, which is vitally needed by the citizens of this city, to any outside group, no matter how worthy the project on which they are engaged may be.

Coun. WILSON—Mr. President, as I understand it, this is not a long-term proposition that is advanced by the Mayor, with whom I do not always agree. For the time being, this property is not being operated by the trustees of the City Hospital, and it seems to be available for this purpose. They have stated definitely that it will not otherwise be operated for any purpose this winter. I understand that it is now proposed to place a roof over the heads of these destitute women between now and spring, at a time when the trustees will not otherwise be using the building. There may be some things to be ironed out next spring, after the winter use; but, having the present situation in mind, I see no objection to our agreeing for the time being to the proposition of the Mayor.

On motion of Coun. TOBIN the order was amended so that the proposed lease should be from January 1, 1935, to June 1, 1935, and the question came on the passage of the order as amended.

Coun. FISH—Mr. President, I understand that when this convalescent hospital property was left to the City of Boston, it being a part of the old Churchill estate, the will stated that the building was to be used solely as a convalescent hospital. I move you now, therefore, that this matter be laid on the table until we get an opinion in regard to the will.

The motion to lay on the table prevailed.

NUMBER OF COUNCIL MEMBERS.

Coun. WILSON offered the following:

Ordered, That the City Council Committee on Legislative Matters be instructed to record promptly with the proper committee of the Massachusetts Legislature a vote of the Boston City Council favoring the enactment of legislation to amend such provisions of the present City Charter as continue to provide for a City Council of twenty-two members, elected one from each Ward, despite the present wide differences in voting population in the present wards of the city.

Coun. WILSON—Mr. President, I personally believe that the legislative permission given this year to the City Council, to redistrict the City of Boston after ten years of population increase and shifting, is more fairly to be considered as a requirement. The Legislature wisely or unwisely failed to take any action on the ten-year redistricting. Such action as we might take might prove wise or unwise. But before the year is out I believe we at least should have the courage to report back one way or the other. Ten years ago the number of wards was decreased from 26 to 22, with an average of 10,500 voters in each ward, and bear in mind that for each Representative at that time a district of at least 5,000 votes was required. East Boston received an allotment of three Representatives for its 12,616 voters. Wards 21 and 22 one Representative each, and two Representatives were granted to each of the other nineteen wards. We must bear in mind that if we redistrict this year a present voting strength of 319,715 in Boston, with approximately 7,600 votes needed in each Representative district, will require some 15,200 registered voters in every ward which expects at least two Representatives. I will admit that a way is open to more equitably allocate the Boston membership in the Massachusetts Legislature through action by the Board of Apportionment, even though we now fail to more fairly and equally draw new ward lines. In order that there may be no misunderstanding, let us now recognize the fact that such apportionment on present ward lines probably means three Representatives each for Wards 1, 18 and 20, two Representatives each for Wards 2, 3, 12, 14, 16, 17, 19, 21 and 22, and three Representatives for each of the following combinations, viz., Wards 4 and 5, Wards 6 and 7, Wards 8 and 9, Wards 10 and 11, and Wards 13 and 15. That may or may not satisfy the residents of the various wards, so far as representation in the Legislature is concerned; in any event, the job will be done without any power of control being exercised by this body. A continuation of not only the present ward lines, but also the present charter provision for a City Council of twenty-two members, with one councilor from each ward, no man can deny means inequitable and unfair representation of various sections of the city in the Boston City Council. Certain sections of the city have exhibited almost phenomenal growth during the past ten years, since the ward lines were last drawn. All twenty-two wards have increased in population, but the percentage of increase ranges all the way from 8 per cent in Ward 2 up to 78 per cent in Ward 20. Four of the twenty-two wards have each grown in excess of 60 per cent during the ten-year period; six more in excess of 40 per cent, while ten wards have increased less than 25 per cent. Ward 20 now has a registered vote of 19,250, compared with 10,786 voters in Ward 8. As a matter of ordinary arithmetic, it is perfectly apparent that the present ward lines, and the present system of electing members of the City Council, cannot with any degree of fairness both remain unchanged. Failure at the end of this ten-year period to redistrict the city, as the law provides, may possibly be somewhat rectified, so far as the Massachusetts Legislature is concerned, by the Board of Apportionment, but it absolutely will mean a much needed change in the charter provisions relating to the City Council. I personally do not believe that the average Boston voter, so far as he is concerned, looks on any particular ward line as anything very sacred or lasting, especially when next-door neighbors on the same street find themselves in separate wards. I do not believe that 10 per cent of the voters in Boston, except on election day, either know or care what ward and precinct they live in. What they want are results and a reasonably fair basis of representation calculated to obtain those results. I admit that an honest and businesslike partition of the city into proper new ward lines would perhaps unsettle many a ward boss or would-be boss, but in most cases that would be no great loss to the city. For purposes of the record I would ask that this schedule which I hold in my hand may be included in the minutes. It shows, by wards, the number of registered voters in 1925, the number in 1934, the amount of increase, the percentage of increase, the typical change necessary in each case to provide for 14,500 votes per ward, which is the nearest equal figure; and finally, as to each of the present wards, the variance from that 15,200 votes which apparently will be necessary to assure at least two Representatives to the Legislature in each case.

As the members of this body know, the old City Council of nine, elected at large, was abolished ten years ago, followed by a so-called referendum on November 4, 1924, at which time 111,998 voters, representing 56 per cent of the ballots cast in Boston at the state election of that year, left the question blank and expressed no preference for either of the two substitute arrangements offered by the Legislature in lieu of a Council elected at large. Having that fact in mind, as well as the disproportionate City Council representation resulting from the present artificial and unequal ward lines, I urge favorable action by this body. I feel that we can anticipate fair consideration by the incoming Legislature. I ask that the figures supporting my reference to the referendum in 1924 be incorporated in the record.

State election of November 4, 1924, in the City of Boston:

Total registered vote		247,636.
Total number of ballots cast		219,862, viz., 88 per cent.
Vote with reference to proposed changes in charter abolishing City Council of nine elected at large:		
Number of blanks		111,998, viz., 56 per cent of ballots cast.
Number of votes for both plans		107,864, viz., 44 per cent of ballots.
Plan 2 (a council of twenty-two with one from each ward)	55,262, viz.	22 per cent of total registered vote. 25 per cent of ballots cast. 52 per cent of voters with preference.
Plan 1 (a council of fifteen with three each from five boroughs)	51,602	
Majority for Plan 2	4,660	

Coun. McGRATH—Mr. President, I would say, as chairman of the subcommittee on redivision of the City of Boston, that it was impossible to redivide any one ward of the city. We were informed that it called for redivision of wards, "wards" being plural, a redivision of every section of the City of Boston, on the basis of, roughly, 15,000 votes in a district; but, because East Boston was not contiguous to any other ward of the city and was entirely surrounded by water, it would be necessary to leave East Boston distinctly alone, with its approximately 19,000 voters, that no division could be there in so far as East Boston was concerned. That is, in the set-up of wards it was not a question of any member of the Council having a right to say how his ward would be divided. The only plan that would seem to work out at all would be to start at boundaries and take in approximately 15,000 voters for 21 wards of the city, letting East Boston stand alone as a ward with 18,000 voters, with the wards in the rest of the city each having about 15,000 votes. So, as I say, it was impossible for us to arrive at any scientific division of the city that would, in many respects, be satisfactory. Besides that, your committee was impressed by the fact that during the entire time that this matter was before the Council, since I introduced it some months ago, not a single person in the City of Boston contacted me as chairman of the committee in the matter, to ask for a new subdivision of the city. Apparently the city itself, like the rest of the state and the nation, was in such an upset condition that there seemed to be no desire to upset things further. I think the state had that in mind when they failed to avail themselves of the opportunity at this time to redivide the city. That was the only reason why the Council had the opportunity to divide it. But, with no such request coming to me from anybody, in political office or otherwise, I think the committee generally have deemed it wise at this time not to alter the ward lines of the city. We have, therefore, left the matter alone.

President DOWD—The Chair will rule at this time that further discussion on redistricting is out of order, the question, and the only question, being on the order introduced by Coun. Wilson.

The order was declared referred to the Committee on Legislative Affairs.

Coun. WILSON—Mr. President, I would ask a suspension of the rule for the passage of the order.

The question came on suspending the rule and passing the order.

Coun. BRACKMAN—Mr. President, I want to go on record as being opposed to this order. I recall

President DOWD—The gentleman can vote against suspension of the rule if he so desires. The question is on suspension of the rule and passage of the order.

The Council refused to suspend the rule. Coun. WILSON doubted the vote and asked for a show of hands. The Council refused by show of hands to suspend the rules, 6 to 10.

The order was referred to the Committee on Legislative Affairs.

REPAVING OF BRAINERD ROAD.

Coun. AGNEW offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Brainerd road, Ward 21.

Passed under suspension of the rule.

EXTENSION OF BOYLSTON STREET SUBWAY.

Coun. AGNEW offered the following:

Ordered, That his Honor the Mayor be requested to petition the Governor and the Legislature at the next session for the enactment of legislation to provide for the extension by the Boston Transit Commission of the Boylston Street Subway, under or adjacent to Commonwealth avenue, to the junction of Commonwealth avenue and Brighton avenue, with inclined entrances from the surface at both of said avenues.

Passed under suspension of the rule.

PLAYGROUND, WARD 7.

Coun. KERRIGAN offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to consider the advisability of taking the vacant lot of land bounded by Story and Fifth streets, Ward 7, for playground purposes.

Passed under suspension of the rule.

MT. VERNON STREET, WARD 7.

Coun. KERRIGAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Mt. Vernon street, Ward 7.

Passed under suspension of the rule.

SIDEWALK, WARD 19.

Coun. MURRAY offered the following:

Ordered, That the Commissioner of Public Works, through his Honor the Mayor, be requested to install a new sidewalk in front of the Henley Playground on Washington street, Ward 19.

Passed under suspension of the rule.

PREFERENCE TO FORMER CITY EMPLOYEES.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of working out a plan whereby those city employees who have been let go may be placed back on the pay roll without the need of increasing the cost to the taxpayer through the medium of giving properly qualified former city employees preference on any job that is open; the transference of employees from one department to another where needed in preference to discharging an employee outright; the distribution of the work so that all worthy city employees may get something in preference to outright discharge.

Coun. NORTON—Mr. President, at the risk of repeating, but in order to keep this matter, which I consider a very important one, before the Council, I will simply say that this order requests the Mayor to consider the advisability of working out a plan by which discharged employees may be properly dealt with when the opportunity for re-employment is offered. I think we should impress upon the Chief Executive the importance of modern methods in sharing the work and transferring employees, giving the preference to those who have worked for the city in the past and whose work has been satisfactory, rather than placing new men in city positions.

The order was passed under suspension of the rule.

PRICE OF MILK.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of conferring with the Overseers of Public Welfare with a view to establishing a system whereby milk is furnished to welfare recipients for a price of eight cents a quart or thereabouts—similar to the system now in vogue in New York City.

Coun. NORTON—Mr. President, this is perhaps the fourth or fifth time that I have introduced this order—and I might say in passing that I have perhaps introduced 200 orders in the matter of decentralization of welfare. I believe that what is suggested in this order is something that is in line with progress and modern up-to-date methods of handling welfare. I have been informed that in New York City welfare recipients are supplied with milk at eight cents a quart. If such a system can be introduced here, it will mean a considerable saving, and it may well be that the money thereby saved on the cost of milk may also be used for additional welfare work.

The order was passed under suspension of the rule.

MONEY FOR DENTISTRY.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of conferring with E. R. A. officials relative to an allotment of money for dentistry work to be assigned to Boston for the purpose of caring for the dental needs of Boston's poor.

Coun. NORTON—Mr. President, various cities of America are now receiving allocations from the E. R. A. to take care of dentistry work. Boston is at the end of the list, as usual.

The order was passed under suspension of the rule.

LOW-COST PUBLIC STREETS.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to confer with the Commissioner of Public Works relative to working out a program for the installation of low-cost public streets in Boston.

Passed under suspension of the rule.

COUNCILOR NORTON'S ATTITUDE ON PRESIDENCY.

Coun. NORTON—Mr. President I have been mentioned by the press as a potential candidate for the Presidency of this Council. I wish to state that I am not a candidate. I shall vote for the councilor from Ward 3—Councilor John I. Fitzgerald. Through the years I have found him to be a type of public servant far above the average in character, integrity and ability. His years of faithful service in this Council entitle him to the distinction of being the President of this body.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President DOWD called up, under unfinished business, No. 2 on the calendar, viz.:

2. Action on appointments submitted by the Mayor December 3, 1934, of Bruce West, Daniel T. Cunningham, Louis Gordon, to be Weighers of Coal; and Royal King, to be a Weigher of Goods.

The question came on confirmation. Committee, Coun. Green and Gallagher. Whole number of ballots 16; yeas 16, and the appointments were confirmed.

Adjourned, at 4.20 p. m., on motion of Coun. DOHERTY, to meet on Monday, December 17, 1934, at 2 p. m.

NEWTON REDUCES WATER RATES.

The city of Newton reduced its water rates 10 per cent in 1932, from 25 to 22.5 cents per 100 cubic feet, and for 1934 has reduced them 11.5 per cent, to a flat price of 20 cents per 100 cubic feet. This reduction was made possible by savings effected by reorganizing the administration and maintenance methods and equipment of the department before and since the beginning of the city's "four-year plan" of water development in 1931.

Total population by U. S. Census, 781,188.

HISTORICAL DATA ABOUT WARDS.

The term "ward" first appears in a fire-protection order, approved by the Town on August 29, 1679, dividing the Town into 4 quarters with 2 wards each. The 8 wards had previously been military districts.

On August 11, 1713, the Selectmen "agreed upon a distribution of the Town into distinct Wards or Precincts."

On February 1, 1715, it was "voted to make a new division of the Town into eight distinct Wards."

On March 9, 1735, it was voted to divide the Town into 12 wards to facilitate the work of the Overseers of the Poor.

On March 13, 1822, the Selectmen divided the Town into 12 wards on the basis of the U. S. Census of 1820.

By an ordinance which took effect on the second Monday of December, 1838, there was a revision of the wards.

On April 29, 1850, the City Council accepted Chap. 167 of the Acts of 1850, which altered the wards on the basis of legal voters rather than on the number of inhabitants.

By ordinance taking effect on November 15, 1865 new ward lines were established.

In the annexation period, 1865-1875, the number of wards was increased from twelve to twenty-one.

By Chap. 243, Acts 1875, the City Council was ordered to cause a new division of the City into twenty-four wards in the year 1875 in such manner as to include an equal number of voters in each ward. This division was made, taking effect on December 13, 1875. On May 27, 1876, the City Council, in accordance with Chap. 242, Acts of 1876, divided one of the wards in two, making a total of 25 wards for the City.

By ordinance passed April 20, 1895, under authority of Chap. 437, Acts of 1888, and Section 96 of Chap. 417, Acts of 1893, ward lines were established on the basis of the number of voters registered at the City election of 1894, there still being 25 wards.

The annexation of Hyde Park, effective January 1, 1912, made an additional ward.

By enactment of December 28, 1914, under authority of Chap. 630, Acts of 1914, the City Council redivided the City into 26 wards.

The latest redivision, established December 30, 1924, under authority of Chap. 410, Acts of 1924, consists of 22 wards.

TAX LEVY, 1932.

Total, $67,574,773 ($5,414,540 more than in 1931) or $62,260,762 on realty, $4,834,415 on personalty, and $479,596 on male polls.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, DECEMBER 29, 1934. NO. 52

THROUGH THE C. W. A. AND P. W. A. PROJECTS UNDERTAKEN IN 1934 BY THE PUBLIC WORKS DEPARTMENT, UNDER DIRECTION OF MAYOR MANSFIELD, BOSTON HAS EFFECTED HUGE SAVINGS, KEPT THOUSANDS OF CITIZENS IN GAINFUL EMPLOYMENT AND PROVIDED MANY NEEDED IMPROVEMENTS IN VARIOUS SECTIONS OF THE CITY — MORE TO BE DONE IN 1935.

One of the most important and largest of the P. W. A. and E. R. A. construction works undertaken by Mayor Mansfield during the past year for the giving of employment to citizens of Boston was that carried on by the Public Works Department. Each division of the Public Works Department has reported on the projects completed and proposed and in process of completion. This work has been done at a vast saving to the city.

In the report concerning these projects, C. J. Carven, Commissioner of Public Works, has presented the following statements:

The Public Works Department, taking advantage of the facilities offered by the Civil Works Administration and later by the Emergency Relief Administration, submitted and received approval for a number of projects covering needed improvements.

Longfellow Bridge, Broadway Bridge, and Meridian Street Bridge were repaired. Blakemore Street Bridge, West Roxbury, was rebuilt and strengthened, and the carrying capacity of the bridge increased from eight to fifteen tons. Dangerous fire hazards were removed from Dover Street and the Charlestown Bridges. The lumber salvaged from these bridges was distributed to the needy. Surveys were made on several of the city's larger bridges and the data obtained will be available for the eventual rebuilding of these structures.

The plant of the Ferry Division was improved by the removal of a dangerous and unsafe coal pocket on the East Boston side of the North Ferry and a new pier was provided. The drops on the Boston and East Boston sides of the ferries were painted and put into good operating condition.

Street Construction.

Entry was made in thirty-seven streets for which orders for construction had been received from the Board of Street Commissioners. In these streets, approximately 98,000 square yards of roadway and 18,460 square yards of sidewalk were graded. Necessary sewerage works (drains, manholes and catch-basins) were provided for the proper drainage for these streets; 900,000 granite blocks which the department had on hand in its storage yards were recut and made available for use.

Many of the older streets throughout the city were put into good condition by the resetting of the edgestone and the relaying of the brick sidewalks. In some streets asphalt macadam roadways were constructed.

Some of the larger open brook courses in Dorchester, West Roxbury and Hyde Park which has caused considerable trouble by overflowing were cleaned and deepened, thereby removing the causes of numerous complaints which were made to the department in periods of heavy rains and thaws.

The Water Division laid 8-inch and 12-inch pipes in various streets in sections previously not serviced, which will strengthen the distribution system and eliminate many dead ends in the city's pipe lay-out.

Many improvements were made in the yards of the department. Storage sheds were provided, roofs were repaired and repainted and additions were made to the buildings in some of the yards. The two garages under the control of the department were painted. The carts, trucks, plows and other vehicles of the Sanitary Division were painted and considerable work was done in the city's receiving stations.

A particularly necessary improvement was made in the central yard of the Water Division on Albany street, where a loading platform to facilitate the delivery of water works material was constructed.

HIGHWAY DIVISION.

BOSTON, November 8, 1934.

To the Commissioner of Public Works.

In answer to your request dated November 5, 1934, I wish to report that the following streets are under contract and will be constructed this year, under P. W. A., Docket 4205.

SEWER DIVISION.

Boston, November 8, 1934.

Mr. C. J. Carven,
Commissioner of Public Works.

Dear Sir,—Following is a report on the sewerage works done under the supervision of the Sewer Division under the C. W. A., F. E. R. A. and P. W. A.:

Under the C. W. A.

Sewerage works in Boston under the C. W. A. were undertaken in conjunction with construction of pavements by the Highway Division of the Public Works Department, and was known as Project No. 76. The work was started under the direction and with the cooperation of the City of Boston on November 28, 1933.

The city provided the plans and furnished the supervisory forces for the work and paid for the same from the funds of the city. The C. W. A. provided the funds for materials and labor, the latter having been recruited from the welfare lists of the city and Soldiers' Relief Department, and from the lists of the Federal Employment Bureau.

The sewerage works done to date under the C. W. A. comprised the trenching and laying of pipe surface drains and the building of manholes and catch-basins in certain streets which had been laid out to be constructed as public highways under chapter 393 of the Acts of 1906.

Work began on November 28, 1933, in Assabet street, Agawam street and Myrtlebank avenue, all of Dorchester; Bagnal and Albie streets in Brighton; and in Perham and Keith streets, West Roxbury. The maximum number of men employed and paid from the C. W. A. funds was 173 at any one time, and comprised laborers, timekeepers, carpenters, masons, draftsmen and foremen. Work was carried on continuously from November 28, 1933, until March 31, 1934, about four months, when the work under C. W. A. was terminated. On or about April 1, 1934, the C. W. A. transferred its activities to the F. E. R. A.

The purpose to provide employment for a number of the city's unemployed who were on the welfare or relief rolls was accomplished. While the common labor employed in sewer trenches and the laying of sewer pipe is strenuous and hard work, though unskilled, it is, however, a specialty in itself. It is therefore always preferable to have this type of work done by men experienced in sewer work. During the winter months the ground was frozen hard and deep, and the low temperatures added to the difficulties encountered.

All sewerage work under Project No. 76 was done under the authority of the C. W. A., none of it under the F. E. R. A.

Along with Project No. 76, another project, known as No. 300, undertaken under C. W. A. for the purpose of cleaning open brook channels in Dorchester and West Roxbury, was started on November 28, 1933.

The C. W. A. furnished and paid for materials and equipment for the men, and also provided the funds with which the men were paid for their services. The City of Boston provided the necessary supervisory force at the city's own expense.

The work of cleaning the open brook courses was started on the Canterbury Branch of Stony brook in Dorchester, and successively work was begun on Hinsdale Street brook and its tributaries from the junction of Hinsdale and Trevore streets, West Roxbury, Stimson Street brook and tributaries, West Roxbury, Dale Street brook, West Roxbury, Business Street brook, Hyde Park, Hollywood Street brook and Stony brook, West Roxbury.

The work done under Project No. 300 by the C. W. A. was temporarily discontinued on March 29, 1934. A maximum of 173 men were employed, 30 hours per week each, 5 days per week. The working forces comprised laborers, carpenters, masons, timekeepers, clerks and foremen.

Under the F. E. R. A.

The project was started again, and when the C. W. A. was terminated the work was continued similarly under the authority of the F. E. R. A., and since has been several times extended to the present date. No materials were paid for from the funds of the F. E. R. A. The maximum number of hours has been reduced to 24 working hours per week per man; and those employed consisted of supervising engineer, foremen, timekeepers, carpenters, masons and laborers. A maximum of 188 men have been employed under the F. E. R. A.

Of the two projects under the supervision of the Sewer Division, aforedescribed, namely (1) No. 76, trenching, laying of sewer pipe, and building manholes, catch-basins, etc., and (2) No. 300 and its several extensions, the work done on the latter (2) was more satisfactory, chiefly because laborers without experience on sewer construction were able to accomplish more and better work on the cleaning of open brook channels.

The cleaning of the open brook channels, besides providing work for unemployed men, has resulted in a great improvement in the several localities where the work was done. The beds of the brooks were deepened, widened, and cleaned of obstructions, bushes and tall weeds, thereby providing a freer flow for the water in the brook channels and a reduction of floodings which occurred previously, more or less frequently, during periods of heavy rains and thaws, and a better appearance of the localities.

Under the P. W. A.

The sewerage works program under the P. W. A. was begun on July 2, 1934. The P. W. A. docket number for all the sewerage works projects is No. 4193, and the individual projects are numbered by letters of the alphabet.

The total cost of Docket No. 4193 will amount to about $1,000,000, including all costs relating to the work.

Following is a list of the individual projects which are in progress and dates as to the estimated cost of each, the percentage of work done, and the estimated length of time it will take to do the work:

No. 4193–A. Stony Brook, West Roxbury, Section 12.
Estimated cost based on contractor's bid is $116,468.23. Work started July 2, 1934, and is approximately 17 per cent completed.

No. 4193–B. Stony Brook, West Roxbury, Section 13.
Estimated cost based on contractor's bid is $90,277.40. Work started August 1, 1934, and is approximately 20 per cent completed.

No. 4193–C. Hyde Park Avenue, Hyde Park and West Roxbury.
Estimated cost based on contractor's bid is $27,400. Work started September 19, 1934, and is approximately 35 per cent completed.

No. 4193–D. Ashmont Street and Outlet, Dorchester.
Estimated cost based on contractor's bid is $36,895. Work started August 27, 1934, and is approximately 54 per cent completed.

No. 4193–E. Walk Hill Street, between Hyde Park Avenue and Harvard Street, West Roxbury.
Estimated cost based on contractor's bid is $31,240. Work started October 8, 1934, and is approximately 55 per cent completed.

No. 4193–F. La Grange Street, between Washington Street and Newton line, West Roxbury.
Estimated cost based on contractor's bid is $85,000. Work started August 14, 1934, and is approximately 50 per cent completed.

No. 4193–G. Shepard Brook (easterly branch) in Everett Street, Brighton.
Estimated cost based on contractor's bid is $68,360. Work started September 21, 1934, and is approximately 20 per cent completed.

No. 4193–H. Savin Hill Avenue, Dorchester.
Estimated cost based on contractor's bid is $24,859.75. Work started September 17, 1934, and is approximately 70 per cent completed.

No. 4193–I. Beaver Place, City Proper.
Bids opened October 15, 1934. Estimated cost based on contractor's bid is $31,300. Work not yet started.

No. 4193–J. Hyde Park Branch of Oakland Brook, Hyde Park.
Estimated cost based on contractor's bid is $24,832.46. Work started October 29, 1934, and is approximately 5 per cent completed.

No. 4193–K and L. Tenean Creek, Dorchester.
Estimated cost is $130,000. Work will be done in two (2) sections, and has not yet been advertised for bids on construction.

No. 4193–M. Maywoods Brook, Roxbury.
Estimated cost is $62,950. This work has not yet been advertised for bids on construction.

No. 4193–N. Cottage Street, East Boston.
Bids opened October 29, 1934. Contract not yet awarded. Estimated cost based on lowest bid is $40,000.

No. 4193–O. Dorchester Brook, Dorchester.
Estimated cost is $75,000. Project not yet advertised.

No. 4193–P. Outlet for Hyde Park Avenue, Hyde Park (Readville).
Bids opened October 30, 1934. Work not yet started. Estimated cost based on lowest bid is $45,000.

In all there are sixteen sewerage works projects.

In addition to the estimated costs indicated above, there will be additional costs, including costs of the railroad work which are not shown, and more or less additions for work done in connection with the construction work under the contracts.

All P. W. A. contracts for sewerage works must be approved, and the contract form and specifications must be approved before any project proposal can be advertised.

Numerous forms must be made out and approved by the P. W. A. State Engineer, and the P. W. A. assign a resident engineer-inspector to each project where he checks the way and manner in which the work is done, the materials, equipment, labor, etc., according to the P. W. A. requirements.

To complete the entire docket number, including all projects, will likely require nearly a year.

Respectfully,

George W. Dakin,
Division Engineer, Sewer Division.

HIGHWAY DIVISION.

Boston, November 8, 1934.

Mr. John J. Connelly, *Secretary.*

Dear Sir,—I submit herewith two reports from the two officials in charge of the C. W. A. and E. R. A. Projects during the present year and a portion of 1933.

These reports give a brief description of the work done and the work now under way by the forces employed during the Civil Works Administration and the present Emergency Relief Administration.

These two reports cover the work done up to November 1, 1934.

Very truly yours,

J. Atwood,
Division Engineer.

Highway Division.
Boston, November 8, 1934.

To the Commissioner of Public Works.

I respectfully submit a summary of the work undertaken, completed and under way by the forces of the Civil Works Administration and the Emergency Relief Administration under my supervision from November 28, 1933, to November 1, 1934.

There were several projects covering the surveys and plotting of 11.2 miles of streets and designing of walls in connection therewith for use in making paving contracts, grading of Victory Street Paving Yard — 40,000 square feet — the grading of 58 streets and laying a penetration macadam pavement on these streets, the paving of a public alley about 900 square yards in area, the recutting of granite blocks for paving uses and a field survey of the City of Boston, to locate, describe and list the private ways for charting and marking.

There have been maintained, coincidently, projects for the care and sharpening of tools, the maintenance of yards for the storage and distribution of materials, and administration to take care of records, pay rolls and distribution of men, work and materials.

Some of the materials and hire were paid for by the C. W. A. and some by the city. All the labor was paid for by the C. W. A. and the E. R. A. excepting part of the general supervision which was in the hands of city employees before the administration project was begun. There has been completed, in addition to the surveying and plotting project, the grading of Victory Road Yard, the block recutting project—recutting 900,000 granite blocks—the grading of 6.30 miles of streets (Street Commissioner's streets) in which it is estimated that 36,500 cubic yards of materials have been excavated and removed to other streets where it has been placed and rolled to subgrade or sent to dumps. In 37 streets 97,700 square yards of roadways and 18,460 square yards of sidewalks have been graded and 61,800 square yards of macadam penetration roadway have been laid; 13,386 tons of cracked stone and 350 tons of road oil were used on the roadway.

In addition, considerable material not estimated has been excavated in streets now in progress and removed to other streets or dumps. All trucking and steamrolling was paid by the city.

There are under way 21 streets in which grading is being done, the tool sharpening, administration and field survey projects.

The number of men employed under the C. W. A. reached a maximum of 1,900, and under the E. R. A. not more than 600 nor less than 500, averaging 81.2 per cent ordinary labor, 15.2 per cent skilled labor, and 3.6 per cent for administration and engineering.

Summary of Expenditures.

W. S. Morrissey,
Civil Engineer.

Station 8, Commercial Street.
Room 21, Boston, November 8, 1934.

Mr. Joshua Atwood,
Division Engineer, Room 501, City Hall Annex.

Dear Mr. Atwood,—The following is a brief description of the work done on the C. W. A., which started about December 1, 1933, and ended May 1, 1934, and the work done on the E. R. A. from May 1, 1934, to date.

Such fences, both wood and iron, as were found to be in a dangerous condition were repaired and repainted throughout the city.

District 1.— South Boston.

Reset edgestone and relaid brick sidewalks on the following streets:

Athens street, from Dorchester avenue to Dorchester street.
Dresser street, from E street to Dorchester street.
Silver street, from Dorchester avenue to G street.
Gold street, from Dorchester street to Dorchester avenue.
Bowen street, from Dorchester street to C street.
Tudor street, from Dorchester street to C street.

District 2.— East Boston.

Reset edgestone, relaid brick sidewalk and relaid granite block roadway on Marginal street, East Boston, from the Narrow Gauge Railroad to Clyde street. This project will finish December 1, 1934.

District 3.— Charlestown.

Relaid granite block paving to both limits on Caldwell street.

Lyndeboro, street, reset edgestone, relaid brick sidewalks, excavated roadway, and laid an asphalt macadam roadway.

Beech street,— reset edgestone, relaid brick sidewalks, excavated roadway and laid an asphalt macadam roadway.

Beecham street,— reset edgestone, relaid brick sidewalks, excavated roadway and laid an asphalt macadam roadway.

District 4.—Brighton.

Excavated base for wall on Kenrick street, 230 feet. Constructed approximately 230 linear feet random coursed ashlar masonary wall. Blasted ledge. Reconstructed 500 feet of fences at the Newton line. This project will be completed about December 1, 1934.

Everett street,— constructed two flights of concrete steps, bluestone flagging treads and pipe rails. Graded banks and built approximately 400 feet of retaining wall on Braintree street end. This project will be completed about December 1, 1934.

District 5.—Jamaica Plain.

Allandale street,— built gravel sidewalks from Centre street to the Newton line.

Baker street,— removed approximately 500 cubic yards of rock ledge at the Newton line, permitting free use of a 30-foot roadway. Now working on removal of rock ledge near the Martin Luther Home to remove a hazardous traffic condition. Removed 50 trees which were a traffic hazard along the side of road. Built gravel sidewalks from bridge at brook to the Newton line.

District 6.—Dorchester.

Completed 93 linear feet of sea wall on Victory road, near Freeport street. Regraded gravel sidewalks on Victory road, between Freeport and Mill streets. Removed granite gutters in same area and replaced with a penetrated hip gutter. Relaid 500 square yards of granite block paving on Freeport street at Cutter's Coal Wharf. Regraded all gravel sidewalks in the Harrison square section.

District 7.—Roxbury.

A new brick wall was constructed around the Paving Yard at Highland street and also a dividing wall was constructed in the yard.

District 8.—South End, Boston.

Beacon street, from Massachusetts avenue to Park street,— reset edgestone and relaid brick sidewalks. Reset edgestone and patched brick sidewalks in the Public Alleys Nos. 414 to 444, inclusive, and from 401 to 405, inclusive, also the alleys No. 531, No. 908, No. 909.

District 9.—Dorchester.

Reset edgestone and rebuilt gravel sidewalks on Hill Top street, from Granite avenue to Hallet street. Repaired and capped with concrete approximately 500 linear feet of sea wall on Freeport street.

Harvard street, Dorchester,— removed 150 trees constituting a traffic hazard. Blasted ledge and built a new gravel sidewalk from the Cummins Highway to Blue Hill avenue. This project will be completed about December 1, 1934. Also constructed 750 feet of rubble retaining wall abutting the Prendergast Camp to date, approximately 600 more feet to be constructed.

District 11.—Hyde Park.

Hyde Park avenue,—removed the old car tracks, approximately 2,500 linear feet, from the Readville Race Track. Laid asphalt macadam in area from which street car tracks were removed.

West street, Hyde Park,—removed 125 trees, changed course of a brook to widen the roadway. Removed stumps and made fill to widen roadway.

A new 30 by 100 foot storage shed was completed at the Brighton Yard. The buildings under the jurisdiction of the Paving Division in the ten paving districts of Boston were put in first-class condition as regards structural safety. Roofs were repaired and repainted where found necessary and many corrections were made to overcome the building law violations of the City of Boston Building Code. In Child street, Jamaica Plain, a new 14 by 10 addition to the office building was constructed. Both municipal garages received painting throughout.

Heating and plumbing systems were put in first-class condition.

Approximately 21,000 catch-basins in Boston were stenciled to show the location of same in order to expedite locating after a snowstorm.

A new project is now under way at present to repair and repaint all the metal street signs in the City of Boston.

A total sum of $725,070.12 was expended by the Federal Government in pay rolls on these projects from December 1, 1933, to October 27, 1934.

The sum of approximately $45,000 was expended by the Federal Government for providing materials to carry this work forward to May 1, 1934.

The sum of $17,475.01 was contributed by the City of Boston in cash for materials under the H Item from May 1, 1934, to November 7, 1934, for materials and rental of equipment.

The sum of approximately $3,407.97 was contributed in the form of services or equipment used, as well as materials in the nature of recut paving block, sidewalk brick, and other paving materials.

Yours very truly,

JOSEPH M. NORTON,
Chief Supervisor.

SANITARY DIVISION.

BOSTON, November 8, 1934.

To the Commissioner of Public Works.

In accordance with your letter of November 5, I am submitting the following brief outline of the work done under the C. W. A. and E. R. A. Projects in the Sanitary Division.

The nature of the work, although done under various projects, was really of one kind, namely, the painting of trucks, carts and miscellaneous vehicles, and the steel framework underneath the Albany Street Station platform; the painting of the steel roof trusses at Victory Road Station, and the complete painting of the interior of the Albany Street Stable. This work ran through the following projects:

C. W. A.—2399. This work was started during the week ending December 14, 1933, and carried through until March 1, 1934, and all of the work being done at Albany street. There was expended on this project for pay rolls $16,975.20, materials $2,943, Public Works Department services $600, making a total of $20,518.20, which exhausted the funds of this C. W. A. Project on March 1.

The work done consisted of the painting of 107 carts, 46 trucks, 21 miscellaneous vehicles, 23 plows; the steel work underneath Albany Street Station and partly whitewashing the Albany Street Stable.

E. R. A.—6187–27. This started during the week of March 15, 1934, and closed April 19, 1934. There were painted 19 carts, 2 sweepers, 2 flushers, further work on the Albany Street Stable and Victory road. The pay roll cost of this job was $6,261.60. The material cost for this and the following two projects was $533.50. Owing to the fact that bills for these projects were constantly over-lapping and also because stock returned from one project was used on the following projects, it was impossible to distribute the material to the respective projects.

E. R. A.— 2235–B–4–30. This project which started during the week ending May 3 and closed July 20, 1934, the Albany Street Stable was completely painted inside, consisting of stalls, window-frames, walls, ceiling, etc., at a cost for labor of $6,818.17. There were also painted 14 carts, 1 sweeper and 5 trucks.

E. R. A.— 2235–B–4–31. The completion of the painting of the steel roof trusses at Victory road was accomplished at a cost of $2,205.95 for labor.

The following table shows a distribution of expenditures:

PROJECT.	Pay Rolls.	Materials.
C. W. A. 2399	$16,975	$2,943
E. R. A. 6187–27	6,261	
E. R. A. 2235–B–4–30	6,818	533
E. R. A. 2235–B–4–31	2,206	
	$32,260	$3,476

or a total expenditure on all 4 projects of $35,736.

Very truly yours,

ADOLPH J. POST,
Division Engineer.

WATER DIVISION.

BOSTON, November 6, 1934.

To the Commissioner of Public Works.

In reply to your letter of the 5th inst., I respectfully submit the following:

During the year 1934 the Water Division of the Public Works Department performed the following work with funds supplied by the C. W. A., E. R. A. and P. W. A.

C. W. A. work started in the latter part of November, 1933, and was taken over and finished under the supervision of the E. R. A. in April, 1934, expending a total of $59,041.18, of which $47,837.20 was from funds supplied by the Government and the remainder $11,209.98 was supplied by the Water Division. The projects calls for laying and relaying water pipes 8 inches and 12 inches in diameter in various streets of Boston, the building of loading platforms at the Water Service Yard, 710 Albany street, and the painting of buildings and inspectors' shanties and toolhouses under the jurisdiction of the Water Division, as follows:

8 inspectors' toolhouses were repaired and repainted at 710 Albany street.

Office of the Water Division, Western avenue, Brighton, was painted inside and outside.

2 loading platforms were built at 710 Albany street.

Sewall street, Pope's Hill to Southwick street, Dorchester: 343 feet of 8-inch pipe laid; 2 hydrants and 2 gates established.

Gallivan Boulevard: 850 feet 12-inch pipe laid and the trenches refilled; 2 gates and 2 hydrants established.

Lyall street: 424 feet 12-inch pipe laid; 2 12-inch gates established.

Addington road: 377 feet 12-inch pipe laid; 15 feet 8-inch pipe laid; 1 12-inch gate established.

Dale street: 27 feet 8-inch pipe laid; 179 feet 12-inch pipe laid; 54 feet 16-inch pipe laid; 1 8-inch gate established; 5 12-inch gates established.

Valley road: 665 feet 12-inch pipe laid; 1 6-inch gate and 1 hydrant and 1 12-inch gate established.

O'Connell road: 258 feet 8-inch pipe laid; 1 8-inch gate established.

Service road, Dorchester, in land of Consumptives' Hospital: 272 feet 12-inch pipe laid; 1 12-inch gate established.

The loading platforms will greatly facilitate heavy and cumbersome materials used by the department. The water mains, hydrants, etc., were laid in sections previously not serviced and will strengthen the distribution system and eliminate many dead ends in the water system of the city.

P. W. A. Projects.

The Water Division of the Public Works Department also has under contract the laying of 20,000 feet of 48-inch steel water mains for which funds have been allotted to the amount of $1,050,000. This work calls for relaying of 6,000 feet of existing 40-inch water main in Brookline avenue, from the Brookline line to Kenmore square, with 48-inch steel water main. The original 40-inch main was laid some ninety-one years ago.

Also the construction of 14,000 feet of new 48-inch water main to supply Elm Hill section of Boston, from the junction of Pond and Prince streets. This main will supply a much needed additional quantity of water for the entire section of Roxbury and Dorchester.

Very respectfully,

D. M. SULLIVAN,
Division Engineer.

The building at 115 Sumner street, rear No. 3, Ward 1. The foundation rotted out, dilapidated and a fire menace. The owner, Edward Steingrugger of 7 Water street, New York City, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 115 Sumner street, rear No. 2, Ward 1. The foundation is rotted out. This building rests on a wharf. The underpinning decayed and the building is a fire hazard and a menace. The owner, Edward Steingrugger of 7 Water street, New York City, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 115 Sumner street, rear No. 1, Ward 1, is in poor condition, for lack of care. Underpinning has rotted, and not proper support for the carrying of this building. Dilapidated and fire menace. The owner, Edward Steingrugger of 7 Water street, New York City, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

LAND-TAKING IN DORCHESTER.

The Mayor has aproved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Flavia street, Dorchester district, as a highway, from Oakton avenue to Chickatawbut street, bounded and described as follows:

A highway named Flavia street is hereby laid out, from Oakton avenue to Chickatawbut street, and ordered constructed; the cost thereof to be charged to Federal funds allocated under the Federal Emergency Relief Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northerly by Oakton avenue, forty and 8-100 feet; easterly by the easterly line of said Flavia street as hereby laid out, four hundred seventy-six and 31-100 feet; southerly by Chickatawbut street, forty feet; and westerly by the westerly line of said Flavia street as hereby laid out, four hundred seventy-eight and 26-100 feet.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out of Flavia street, Dorchester district, as a highway, from Oakton avenue to Chickatawbut street, under the order of the Board of December 21, 1934, and awards no damages therefor.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Bloomington street, Dorchester district, as a highway, from Tolman street to Old Colony Parkway, over and including the private way known as Howe street, bounded and described as follows:

A highway named Bloomington street is hereby laid out from Tolman street to Old Colony Parkway, over and including the private way known as Howe street, and ordered constructed; the cost thereof to be charged to Federal funds allocated under the Federal Emergency Relief Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southeasterly by Tolman street, forty feet; southwesterly by the southwesterly line of said Bloomington street as hereby laid out, two hundred and forty feet; northwesterly by the northwesterly line of said Bloomington street as hereby laid out, one hundred fifty-six and 92-100 feet; northeasterly by Old Colony Parkway, forty and 32-100 feet; southeasterly by the southeasterly line of said Bloomington street as hereby laid out, one hundred eleven and 76-100 feet; and northeasterly by the northeasterly line of said Bloomington street as hereby laid out, two hundred feet.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out of Bloomington street, Dorchester district, as a highway, from Tolman street to Old Colony Parkway, over and including the private way known as Howe street, under the order of the Board of December 26, 1934, and awards no damages therefor.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of an extension of Harmon street, Dorchester district, as a highway, to Greenfield road, bounded and described as follows:

An extension of the highway named Harmon street is hereby laid out to Greenfield road, and ordered constructed; the cost thereof to be charged to Federal funds allocated under the Federal Emergency Relief Administration program for Massachusetts.

Northeasterly by another part of said Harmon street, forty and 28-100 feet; southeasterly by the southeasterly line of said extension of said Harmon street as hereby laid out, seven hundred seventy-five and 73-100 feet; westerly by Greenfield road, forty-two and 7-100 feet; and northwesterly by the northwesterly line of said extension of said Harmon street as hereby laid out, seven hundred sixty-seven and 51-100 feet.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out of Harmon street, Dorchester district, as a highway, to Greenfield road, under the order of the Board of December 21, 1934, and awards no damages therefor.

CONTRACTS AMENDED.

TRANSIT DEPARTMENT.

John J. Vicenzi has been allowed to amend the contracts for finishing passageways, Haymarket square improvements, Traffic Tunnel, by striking out on page 7, first paragraph, the words "thirty-five days," and substituting therefor the words "ninety days," so that the contract as amended shall read on page 7, first paragraph: "The Contractor agrees to complete the work in this contract within ninety days from notification by the department to begin,"—and that all provisions of said contract, excepting as modified herein, shall continue in full force and effect.

AUTHORITY TO DO WORK.

The Mayor has approved the request of the Public Works Department for authority to build, with the department force, a surface drain of 12 inch pipe and two catch-basins in Bertson avenue, between 120 feet northeast of Dent street and 100 feet southwesterly, West Roxbury, without advertising, the estimated cost for labor and materials being $1,500.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

OVERSEERS OF THE PUBLIC WELFARE.

Upon December 21 the Mayor approved a contract with Albert McCabe for delivering wood for the city woodyard. A communication from J. C. L. Dowling was as follows:

Boston, December 20, 1934.
HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

YOUR HONOR,—In answer to our public advertisement for bids for trucking and delivering wood for the city woodyard on Hawkins street, we received the following bids:

Albert McCabe—A, 70 cents a cord; B, 25 feet, $1.50 a cord; C, 30 feet, $2 a cord; D, 30 feet, $2 a cord; E, 30 feet, $2 a cord.

Trask Brothers—A, $4 a cord; B, 63 feet, $4 a cord; C, 65 feet, $4 a cord; D, 65 feet, $4 a cord; E, 75 feet, $4.50 a cord.

Coleman Corporation—A, $6 a cord; B, 10 feet, $10 a cord; C, 10 feet, $10 a cord; D, 10 feet, $10 a cord; E, 10 feet, $10 a cord.

Carroll Trucking Company—A, $1.75 a cord; B, 50 feet, $3 a cord; C, 60 feet, $4 a cord; D, 65 feet, $4.50 a cord; E, 70 feet, $4.75 a cord.

Albert McCabe deposited in the box in this office two bids. Upon comparison of the bids with the auditor's office, it was found that he did not deposit a bid there. Mr. Fox, City Auditor, rules that his bid cannot be considered. He was the lowest bidder and estimated the trucking of 800 cords in and out of the city woodyard. The yearly cost at his price would be approximately one half of the cost of the next lowest bidder, the Carroll Trucking Company.

We have verified the fact that Mr. McCabe has a Ford truck registered in his name and also have inspected the truck not owned by him but which he stated he will use in the business if the work warrants it.

Following is a comparison of the yearly cost:

McCabe, $2,480; Trask Brothers, $7,360; Coleman Corporation, $5,440; Carroll Trucking Company, $4,920.

Inasmuch as Mr. McCabe is very low in his estimate, we request your honor's permission to reject all bids and to award the contract to Albert McCabe.

Respectfully yours,

JOHN C. L. DOWLING,
Executive Director.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon December 20 the Mayor approved a contract with James L. Pierce for laying sheet asphalt pavement in La Grange street, Section B, from Washington street to Centre street, P. W. A. Docket No. 4205-J. The following bids were received December 4:

Sheet Asphalt.—James L. Pierce, $53,371.60; Charles Capone, $57,690.70; M. F. Gaddis, $59,507.90; A. R. Doyle, Incoporated, $59,526; S. J. Tomasello Corporation, $61,857.40; Keystone Engineering and Contracting Company, $63,512.20; A. Singarella, $64,217.70.

Bitulithic.—Warren Brothers Roads Company, $61,838.90.

Upon December 21 the Mayor approved a contract with Warren Brothers Roads Company for paving Walk Hill street. A communication from C. J. Carven, Public Works Commissioner, reads as follows:

BOSTON, December 20, 1934.
HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—On October 6, 1934, and October 13, 1934, I advertised an invitation for bids for the paving of Walk Hill street, P. W. A. docket No. 4205–H, and the advertisement stated that bids would be opened on October 17, 1934, although P. W. A. rules and regulations required that the first publication of the advertisement be at least two weeks before the date of the opening of bids; an unintentional violation of Part 1, section A, Item 3, Bulletin No. 2. Although the P. W. A. state engineer stated that he would waive said requirement of the P. W. A. rules and regulations, I informed him that I proposed to reject all the bids because of said noncompliance with P. W. A. requirements and I did reject all bids received on October 17, 1934.

The summary of the bids received on October 17, 1934, is as follows:

Sheet Asphalt or Bitulithic Pavement in Walk Hill Street, Wards 14, 18, 19, Hyde Park Avenue to Harvard Street, P. W. A. Docket No. 4205–H.

Bids, opened October 17, 1934, were as follows:

Sheet Asphalt.—M. McGinnis Company, $63,511.50; John McCourt Company, $64,056.60; S. J. Tomasello Corporation, $64,388; C. Capone, $64,717.20; M. F. Gaddis, $64,952.20; A. Singarella, $65,291.20; Baker, Matz & Co., $66,680; A. R. Doyle, Incorporated, $66,854.70; M. DeMatteo, $69,751.60.

Bitulithic.—Warren Brothers Roads Company, $63,332.90; M. McGinnis Company, $69,958.50; C. Capone, $68,719.70; A. Singarella, $72,071.20; M. DeMatteo, $74,896.60.

By letter dated December 12, 1934, the P. W. A. state engineer informed me that the lowest responsible bidder capable of carrying on the work for the above project is Warren Brothers Roads Company in the estimated amount of $63,332.90. The state engineer has also informed me that he has received instructions from Washington requiring that the contract be awarded to Warren Brothers Roads Company on the basis of the lowest bid received.

I have been advised by the Corporation Counsel that I cannot now award the contract to Warren Brothers Roads Company without receiving your authority to award the same without further advertising, under the provisions of section 30 of the City Charter.

In view of the fact that an invitation for bids has already been advertised and the P. W. A. state engineer has instructed me to award this contract without further advertising, I therefore request your authority to award without further advertising the contract for the paving of Walk Hill street, P. W. A. Docket No. 4205-H, to Warren Brothers Roads Company in the estimated sum of $63,332.90.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

* Contract awarded.

Upon December 26 the Mayor approved a contract with low bidders as indicated for snow plows for the Sanitary Division:

Eight bids were received on the plows specified as Champion 10D, Baker 3F, or equal.

Only one bid was received on Baker plows, that of the Dyar Sales and Machinery Company (the manufacturer's agent) who bid $330 each on the Baker 3F plows.

The Monarch Manufacturing Company, Incorporated, are low bidders on the Champion 10D type, or equal, plow, at a price of $174.75 each with hydraulic hoist.

The Sanitary Division of the Public Works Department does not wish to purchase any of the Baker plows at this time, as funds are not now available.

They do, however, wish to purchase 24 of the Monarch heavy duty special plows, equal to the Champion 10D type plows, on which the Monarch Manufacturing Company of Wilmington, Delaware is the low bidder.

The contract was placed with the Monarch Manufacturing Company, Incorporated, for approximately 24 Monarch heavy duty special plows at $174.75 each, to be delivered not later than December 31, 1934.

Bids opened December 10, were as follows:

WITHOUT ADVERTISING.

Upon varying dates, as indicated, the Mayor approved contracts with several concerns and businesses for supplies and materials for the several departments. Communications from the several department heads were as follows:

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, December 10, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—One of the functions of the Public Buildings Department is to provide hand towels for the various offices in City Hall Annex. We have accordingly had an agreement with the Federal National Linen Service Company, 1310 Columbus avenue, Boston, for a bi-weekly delivery of towels for the sum of $35 a week, the expenditure for 1934 amounting to approximately $1,400. This amount, being in excess of $1,000, requires a contract according to law unless we have the approval of your Honor to award same without the usual form of advertising.

Since the 1st of April, 1934, when the above agreement went into effect the towel service has been eminently satisfactory and I can see no advantage to the city in advertising for bids. I therefore respectfully request permission to award a contract to the Federal National Linen Service Company for the bi-weekly delivery of towels to City Hall Annex in a sum of excess of $1,000, and not in excess of $1,400, without the usual form of advertising.

Respectfully yours,

ROSWELL G. HALL,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT (Ferry Service).

BOSTON, December 7, 1934.

To the Honorable Mayor.

The residue of the soft coal used in operating the five ferry boats of the Ferry Service, consisting of ashes, clinkers, etc., has been removed and carted away daily from the fire room of the boats and disposed at a dump.

For the past six years the work of removal, etc., has been done by Delia L. Carter, 443 Lubec street, East Boston, under a contract awarded to her without public advertising. The Ferry Service owns two two-wheeled tip carts and Miss Carter furnishes two horses, harnesses, and two drivers, who daily assist in hoisting the ashes, etc., from the fire room while the boats are at dock at the slip depositing said ashes in the tip carts and then disposing of same. The rate of pay has been $9 per working day. The work has been done by Miss Carter in a very satisfactory manner and I doubt if a lesser price could be obtained by advertising for the furnishing of two horses, two drivers, etc., daily, and I respectfully request permission be given to award a contract for the year 1935 to Miss Delia L. Carter at $9 per working day. Miss Carter furnishes all equipment, labor, etc., outside of the two tip carts, the property of the City of Boston.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

BOSTON, Decmber 14, 1934.

To the Honorable Mayor.

Petitions have been received for the extension of the present sewerage in Dent street, between Laselle and Glenham streets, requiring the length of 420 linear feet of 10-inch and 12-inch sanitary and surface sewers.

The estimated cost will be approximately $2,100. The houses in this section are drained into cesspools and the condition of the soil is poor and the Board of Health has practically ordered the abatement of the use of the cesspools.

I respectfully request your permission to advertise and award a contract for the laying of 420 linear feet of drain pipe at an estimated cost of $2,100.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, December 12, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to award a contract, without publicly advertising same, to the Massachusetts Supply Corporation, Holyoke, Mass., for furnishing to the Paving Service the following:

600 pieces 2-inch extra heavy pipe, in 13 foot lengths, at a price of 14½ cents per foot, $1,131. Delivery to be made to the Water Service Yard, at 710 Albany street.

Practically all available sources of supply have been canvassed by this department for bids, and the price quoted above of 14½ cents per foot is the lowest price that we have been able to secure, and is considerably under the regular price quoted for this pipe.

The Commissioner of Public Works intends to use this pipe in the erection of sign posts on private ways which at the present time are unmarked.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

BOSTON, December 18, 1934.
HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—The Sanitary Division of the Public Works Department has requisitioned two (2) Walter Model 3 S. B., one-way speed snow plows, complete with push frames, front hand hydraulic lifting devices, and all attachments, and mounted.

These two plows mounted complete will cost $1,360. As this bid was received direct from the manufacturer's representatives, the Charles N. Wood Company, nothing would be gained by advertising.

I, therefore, respectfully request your permission to award this contract to this bidder without advertising.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

BOSTON, December 20, 1934.
HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Under date of May 7, 1934, the City of Boston entered into a contract with the Metropolitan Coal Company relative to the purchase of semi-bituminous coal for delivery to the fire and police boats. Included in the contract is the following clause:

"It is agreed that the City of Boston, with the approval of the Mayor, may, beginning January 1, 1935, at its option, purchase, and the Contractor agrees to deliver upon the same terms and conditions as aforesaid, such quantities of said coal as may not have been ordered up to and including December 31, 1934."

This privilege is extended to April 30, 1935.

I respectfully request that you approve the purchase on behalf of the City of Boston, pursuant to the above-quoted option, upon the same terms and conditions as are stated in said contract, such quantities of semi-bituminous coal referred to therein, as may not have been ordered up to and including December 31, 1934, for the extended period permitted thereby, to wit, to April 30, 1935.

DEAR MR. MAYOR,—Permission is respectfully requested to extend the completion date of the contract of the Mechanics Iron Foundry Company, dated December 6, 1934, for furnishing iron castings and bronze fittings to the Sewer Division, from December 31, 1934, to February 1, 1935.

The Commissioner of Public Works recommends the above extension because of the large number of small castings found necessary for catch-basin work, the making of which requires more time for a given poundage than for larger castings, it will be impossible for the contractor to complete the contract on December 31, 1934.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of an extension of Westbourne street, West Roxbury district, as a highway, from Beech street to West Roxbury Parkway, bounded and described as follows:

An extension of the highway named Westbourne street is hereby laid out from Beech street to West Roxbury Parkway, and ordered constructed; the cost thereof to be charged to Federal funds allocated under the Federal Emergency Relief Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northeasterly by Beech street, forty and 4-100 feet; southeasterly by the southeasterly line of said extension of said Westbourne street as hereby laid out, four hundred thirty-three and 25-100 feet; easterly by the easterly line of said extension of said Westbourne street as hereby laid out, twenty-four and 55-100 feet on a curve of fifteen and 72-100 feet radius; southwesterly by West Roxbury Parkway, seventy and 72-100 feet; northerly by the northerly line of said extension of said Westbourne street as hereby laid out, twenty-three and 70-100 feet on a curve of fifteen feet radius; and northwesterly by the northwesterly line of said extension of said Westbourne street as hereby laid out, four hundred thirty-one and 52-100 feet.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out of Westbourne street, West Roxbury district, from Beech street to West Roxbury Parkway, under the order of the Board of December 21, 1934, and awards no damages therefor.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of an extension of Glide street, Dorchester district, as a highway, from Chickatawbut street to Oakton avenue, bounded and described as follows:

An extension of the highway named Glide street is hereby laid out, from Chickatawbut street to Oakton avenue, and ordered constructed; the cost thereof to be charged to Federal funds allocated under the Federal Emergency Relief Administration program for Massachusetts.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described lands, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Catherine Lewis, bounded:

Easterly by Glide street, thirty-seven and 51-100 feet; westerly by other land supposed to belong to said Lewis, thirty-eight and 50-100 feet on a curve of one hundred and 30-100 feet radius; and northerly by Glide street, seven and 30-100 feet, containing ninety square feet, more or less.

The land, owners unknown, being the private way known as Glide street, from Chickatawbut street to Oakton avenue.

Said extension of said Glide street as hereby laid out is bounded:

Easterly by Chickatawbut street, thirty-nine and 94-100 feet; southerly by another part of Glide street (highway), thirty and 28-100 feet; westerly by the westerly line of said extension of said Glide street as hereby laid out, by three measurements, thirty-eight and 50-100 feet on a curve of one hundred and 30-100 feet radius, twenty-two and 29-100 feet on a curve of sixty-five and 2-100 feet radius, and four hundred ninety-four and 87-100 feet; northerly by Oakton avenue, forty-one and 83-100 feet; easterly by the easterly line of said extension of said Glide street as hereby laid out, four hundred eighty-two and 64-100 feet; and northerly by the northerly line of said extension of said Glide street as hereby laid out, thirty-eight and 6-100 feet on a curve of twenty-five and 2-100 feet radius.

MAYOR'S CHRISTMAS GREETING TO CITIZENS.

With the closing of the year signs multiply which seem to indicate that business is better, conditions a little easier and the depression a little less marked. The outlook for 1935 is much brighter than was that one year ago for 1934. I most sincerely trust the improvement, however slight, may increase and become permanent.

I extend to everyone best wishes for a happy Christmas and a bright and prosperous New Year.

CONTRACT AWARDS HELD UP.

The following statement was issued from the office of the Mayor on December 17:

Relative to the controversy that has arisen over the letting of the snow contracts the Mayor stated that none of the contracts have been formally signed, let or awarded. Upon information furnished to the Mayor by Public Works Commissioner Carven he approved of the distribution of the contracts as prepared by the commissioner.

In view of the controversy that has arisen the Mayor suggested that the signatures be withheld until Commissioner Carven confers with the Finance Commission, which will be this afternoon at four o'clock, and he suggested a later conference between the representatives of the Finance Commission, Mr. Carven and himself, if that should be necessary, in order to determine what, if anything, is wrong in the proposed awarding of the contracts.

TWO-WAY TRAFFIC IN WASHINGTON STREET.

The following is a copy of letter addressed to Police Commissioner Hultman by Traffic Commissioner Hickey:

Boston Traffic Commission,
December 21, 1934.

Hon. E. C. Hultman,
Police Commissioner, 154 Berkeley Street, Boston.

Dear Sir,—At the direction of his Honor Mayor Frederick W. Mansfield, this commission adopted a temporary traffic regulation which will be effective December 26, 1934, for a trial period of thirty days, making Washington street a two-way street from Broadway to Kneeland street.

The traffic signals at the intersections of Broadway and Washington street, and Hollis and Washington streets, were designed for controlling traffic with Washington street a one-way street.

There are no indications to control the south-bound traffic which will use Washington street under the temporary regulation. It will be necessary, therefore, to discontinue the operation of these two signals for the duration of the two-way rule in Washington street.

As you know, the intersection of Broadway and Washington street is an important one and is the scene of frequent accidents.

It is obvious that some form of control will be necessary and I am directing your attention to this matter so that you may assign traffic officers to this important post if in your judgment such action should be taken.

Very truly yours,
William P. Hickey, *Commissioner.*

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of carol singing, vehicles are excluded from the following streets, between the hours of 6 p. m. and 10.30 p. m. on December 24, 1934:

Mt. Vernon Street.
From Charles street to Bowdoin street.
Chestnut Street.
From Charles street to Walnut street.
West Cedar Street.
From Pinckney street to Chestnut street.
Spruce Street.
From Chestnut street to Beacon street.
Walnut Street.
From Beacon street to Mt. Vernon street.
Willow Street.
From Chestnut street to Mt. Vernon street.

Voted, That as urgently required by considerations of public safety and convenience, for a trial period of thirty (30) days, Washington street is a two-way street from Broadway to Kneeland street, effective December 26, 1934.

BUILDING DEPARTMENT EMPLOYEES FELICITATE MAYOR MANSFIELD.

The following has been received from inspectors of Building Department by Mayor Mansfield:

City of Boston,
Building Department,
December 8, 1934.

GRANT FOR SCHOOL BUILDINGS.

The following was received:

City of Boston,
Office of the Mayor, December 17, 1934.

To the Honorable the City Council.

Gentlemen,—On February 26, 1934, your honorable body gave a final reading and passage to an order appropriating, under the provisions of chapter 366 of the Acts of 1933, and acts in amendment thereof and in addition thereto, the sum of two million dollars ($2,000,000), to be expended under the direction of the School Committee, for one new intermediate school and one new high school.

On April 14, 1934, the City of Boston and the United States of America entered into a grant agreement, approved by your honorable body on April 8, 1934, relating to the construction, as a Public Works Project, of a new intermediate school in South Boston and a new high school in West Roxbury (for which project the sum of two million dollars ($2,000,000) above mentioned had been appropriated) and providing for a grant by the United States to the city to aid in the financing of said project.

On July 2, 1934, the School Committee passed an order requesting a change in said project from the construction of a new intermediate school in South Boston and a new high school in West Roxbury to the construction of a new intermediate school in South Boston and a new intermediate school and an addition to the Robert Gould Shaw School in West Roxbury (contemplating the conversion into a high school of the Washington Irving Intermediate School in West Roxbury, originally designed for a high school).

On July 6, 1934, your honorable body passed an order providing that the city should engage in the Public Works Project of constructing a new intermediate school and an addition to the Robert Gould Shaw School in the West Roxbury District, and on July 23, 1934, your honorable body gave a final reading and passage to an order appropriating the sum of one million, two hundred thousand dollars ($1,200,000) for the construction of this new intermediate school and addition to the Shaw School. No order was passed rescinding approval of the original project or of the original appropriation and the orders passed were, in form, supplementary so as not to affect the validity of the grant agreement of April 14, 1934, or the authority of the city to proceed with the construction of the South Boston Intermediate School.

An application was filed with the Emergency Finance Board of the Commonwealth and with the Federal Emergency Administration of Public Works asking authority to amend the project in accordance with the vote of the School Committee and asking for amendment of the grant agreement. The Emergency Finance Board and the Federal Emergency Administration of Public Works approved the amended project but only authorized the expenditure in connection therewith of one million, nine hundred and twenty-five thousand dollars ($1,925,000).

I have now received from the Federal Emergency Administration of Public Works forms of agreement, amending the grant agreement dated as of April 14, 1934, between the City of Boston and the United States of America relating to the above project as amended, and I submit herewith one copy of said agreement. Said agreement provides for a grant to the City of Boston by the United States of America, with reference to the amended project, of an amount not to exceed 30 per cent of the cost of the labor and materials employed upon the project and not to exceed five hundred and fifty-two thousand dollars ($552,000).

I also submit herewith an order approving said agreement and authorizing me to execute and deliver to the United States of America for and in behalf of the City of Boston three counterparts of the same.

I recommend prompt consideration and passage by your honorable body of this order, because of the limited time available for the execution and delivery of this agreement, and because of the desirability of commencing work upon this amended project without delay.

As I wrote your honorable body on July 5, 1934, it is contemplated that the amendment of the appropriation order of two million dollars ($2,000,000), still in force, for the construction of a new high school and a new intermediate school to one of eight hundred thousand dollars ($800,000) for the construction of a new intermediate school in South Boston, be postponed until after said new agreement has been executed by the City and the United States of America.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That the Mayor be, and he hereby is, authorized to execute and deliver to the United States of America for and in behalf of the City of Boston three counterparts of the agreement, amending the grant agreement dated as of April 14, 1934, between the City of Boston and the United States of America, relating to the Public Works Project of constructing and equipping of school buildings, P. W. A. Docket No. 4217, and providing for the grant to the City of Boston by the United States of America, upon the terms and conditions set forth in said grant agreement as so amended, of an amount not to exceed 30 per cent of the cost of the labor and materials employed upon the project as amended and described therein, and not to exceed $552,000, one copy of which agreement has been submitted to this meeting and is made a part of the minutes hereof, and that said agreement be, and the same hereby is, approved.

Referred to Executive Committee.

PROTECTION OF CHILDREN, ARBORWAY.

The following was received:

City of Boston,
Office of the Mayor, December 13, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Police Commissioner, relative to your order of November 19, 1934, concerning the assignment of a police officer during school hours in the Arborway, opposite Pond and Burroughs streets.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Police Department, December 11, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—In reply to communication dated November 22, from Mr. Gilmore of your office, inclosing copy of order of the City Council, requesting that a police officer be assigned for duty during school hours in the Arborway, opposite Pond and Burroughs streets, I have had a special investigation made of this matter by our Bureau of Traffic.

Lieutenant O'Dea, in charge of our Bureau of Traffic, informs me that he assigned a senior officer to make a study of conditions at this point, and the investigating officer reports that during his observations not one person crossed the street at this location, and further along at Arborway and Pond street there were three children who crossed at this point in the morning, at noon, and in the afternoon. He further reports that there are a number of children who go to and from the school on Burroughs street, but they are brought to the school and taken home by automobiles belonging to the parents of some of the children.

However, the commanding officer of Division 13 has placed an officer on duty at the corner of Pond street and the Arborway, and this officer will remain at this crossing during the school hours in the morning, noon, and afternoon.

This action, I believe, will eliminate any further cause for complaint.

Very truly yours,
E. C. HULTMAN,
Police Commissioner.

Placed on file.

TRANSFER FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, December 12, 1934.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of $9,000 from the income of the George F. Parkman Fund to the Maintenance and Improvement of the Common and Parks in existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its immediate passage by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Park Department, December 11, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of $9,000, which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... $9,000

When the budget estimates were made up for the year 1934, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1934, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
WILLIAM P. LONG, Chairman.

Ordered, That the sum of $9,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... $9,000

Referred to Executive Committee.

OVERTIME WORK, COLLECTION OF ASHES.

The following was received:

City of Boston,
Office of the Mayor, December 12, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Commissioner of Public Works, relative to your order of November 19, 1934, concerning overtime work on the contract for the collection of ashes and garbage in the Dorchester district.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department,
December 8, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—In reply to your note of November 22, with attached order of City Council, dated November 19, and reading as follows:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to take immediate steps to prevent the Joseph P. McCabe Company from working its men overtime without extra pay on its contract for the collection of ashes and garbage in the Dorchester district"—

I wish to state that this department has a letter on file from Joseph P. McCabe, Inc., general contractors, stating that:

"We have never asked our men to work over eight hours in any one day and we would like to call attention to the fact that there are five contract districts, including Dorchester, and upon information, which we consider reliable, we find that the other districts are paying the prevailing rate of $4 per day, while we pay $4.50 for the same class of work."

Respectfully yours,
C. J. CARVEN,
Commissioner of Public Works.

Placed on file.

REMOVAL OF FRED R. NAPOLITANO AS CONSTABLE.

The following was received:

City of Boston,
Office of the Mayor, December 11, 1934.

To the City Clerk.

You are hereby notified that I have this day removed from the office of constable, Fred R. Napolitano, 53 Auburn street, Boston, for the reason that he has neglected to take the oath required by law.

Yours very truly,
FREDERICK W. MANSFIELD, Mayor.

Placed on file.

REMOVAL OF ROCK, QUINCY STREET.

The following was received:

City of Boston,
Office of the Mayor, December 12, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Commissioner of Public Works, relative to your order of November 19, 1934, concerning the removal of the huge rock on the sidewalk of Quincy street, between Barry and Bellevue streets, Ward 15.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department,
December 11, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—I beg leave to acknowledge receipt of your note of November 22, with attached order of City Council dated November 19, and reading as follows:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to include in his P. W. A. program a sum sufficient to provide for the removal of the huge rock on the sidewalk on Quincy street, between Barry and Bellevue streets, Ward 15,"

and to state that the estimated quantity of cubic yards to be removed is 110 cubic yards, and at a price of $5 per cubic yard will amount to $550.

It is the intention of the Public Works Department, however, to make this an E. R. A. project during the winter season.

Respectfully yours,
C. J. CARVEN,
Commissioner of Public Works.

Placed on file.

WITHDRAWAL AND APPOINTMENT OF CONSTABLES.

The following was received:

City of Boston,
Office of the Mayor, December 17, 1934.

To the City Council.

Gentlemen,—The following names are withdrawn from the list of constables submitted by me to your honorable body on June 4, 1934: George W. Cuddy, Robert Smith.

Subject to confirmation by your honorable body, I hereby appoint the following named persons as constables of the City of Boston, authorized to serve civil process upon filing bonds: Thomas J. Hayes, 90 West Cottage street, Roxbury; Ashod Donabedin, 30 Millmont street, Roxbury.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

The appointments were laid over for a week under the law.

BLOOD TRANSFUSIONS.

The following was received:

City of Boston,
Office of the Mayor, December 17, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Board of Trustees of Boston City Hospital, relative to your order of November 19, 1934, concerning the procedure in cases requiring blood transfusions where the patient has not got the $25 fee that is required in advance.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Hospital Department, December 11, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston

Dear Mr. Mayor,—At a meeting of the Board of Trustees held on December 7, an order of the City Council was presented, whereby the trustees are requested, through his Honor the Mayor, to inform the City Council regarding the procedure that is followed in cases requiring blood transfusions, where the patient is unable to pay the fee of $25 which is required in advance.

Those patients who are able to pay a fee in the event that none of their friends or relatives wish to volunteer as blood donors, or in the event that none of their friends or relatives are found to be of the proper group which makes them fitted for the giving of their blood, it is then necessary for the individual to pay $25, which money the hospital turns over to professional donors whose names and groupings we keep on hand at the hospital.

In the event of a patient being unable to pay, the same attempt is made to find volunteers, and if no volunteers can be found who are suitable, the hospital hires a professional donor and the sum of $25 is paid by the Boston City Hospital.

Hoping that this answers the question concerning blood transfusions, I remain,

Yours sincerely,
JOSEPH P. MANNING,
President, Board of Trustees.

VETERANS' HOSPITAL, WEST ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, December 17, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Board of Trustees of Boston City Hospital, in reference to your order of November 19, 1934, concerning the taking over of the old Veterans Hospital in West Roxbury to relieve the overcrowded condition of the Main Hospital, or else to allow persons who are in destitute circumstances to occupy these buildings during the coming winter.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Hospital Department,
December 11, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—At a meeting of the Board of Trustees held on December 7, an order of the City Council was presented, concerning the feasibility of taking over the old Veterans' Hospital in West Roxbury to relieve crowded conditions at the Main Hospital, or ultimately for use of persons in destitute circumstances.

The West Department is very desirably located, containing approximately 1,900,000 square feet of land. There are twelve separate buildings. These buildings are not of first class construction. Practically all of the buildings are old. The trustees have paid constant attention to keeping the roofs of these buildings in good condition, so that the interiors of the buildings have not suffered as the result of the extensive leaks which sometimes occur in old and abandoned buildings.

These buildings could not be used at the present time owing to the fact that the central heating plant, and in fact the heating system in general, is dreadfully out of condition.

To put the heating plant into condition to serve these buildings would cost conservatively $125,000. Even with this heating plant in condition, the interior of the buildings needs more or less complete renovating and painting throughout.

The buildings are isolated and are poorly planned and arranged for hospital purposes. If these buildings were in condition, they would house some approximately 200 patients. It is not, however a definitely desirable place to house ill patients.

Yours sincerely,
JOSEPH P. MANNING,
President, Board of Trustees.

SALE OF TUBERCULAR REACTING CATTLE.

The following was received:

City of Boston,
Office of the Mayor, December 17, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Penal Institutions Commissioner, requesting the approval of your honorable body for the sale of the tubercular reacting cattle at the House of Correction, Deer Island.

It is estimated that the proceeds of the sales will amount to between $700 and $950, depending on the weight of the cattle.

I am also transmitting an order authorizing the commissioner to sell the cattle.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Penal Institutions Department,
December 12, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—Your approval is requested for the sale of the tubercular reacting cattle at the House of Correction, Deer Island, Boston Harbor, to the Shapiro Beef Company, Inc., of Brighton, Mass. The compensation to be paid for said cattle is two dollars and thirty-five cents ($2.35) per hundredweight, and as this will exceed $500 for the total sale, I would appreciate your approval of said transaction.

Bids were submitted by the following concerns:

	Hundredweight.
Rosenberg Brothers	$2 15
Brighton Dressed Beef Company	2 25
Carroll Brothers	37½
Paresky & Co	2 35
August Young	2 25
Shapiro Beef Company	2 35

Inclosed please find copy of conditions of sale.

Yours respectfully,
WILLIAM G. O'HARE,
Penal Institutions Commissioner.

The conditions of sale of the tubercular reacting cattle now at Deer Island will be as follows:

1. Bids are to be made on the basis of a price per hundredweight for the entire herd.
2. The delivery of cattle will be at Shirley Gut on the Winthrop side.
3. All attendant charges in connection with the sale are to be assumed by the successful bidder, and payment is to be made at Brighton, Mass.
4. The bill of sale is to be cash on delivery after being weighed at Brighton, in either cash or certified check made payable to the City of Boston.
5. The successful bidder will provide suitable transportation for the cattle from Winthrop to Brighton without expense to the Penal Institutions Department.
6. All bids are to be submitted to the Penal Institutions Commissioner at 803 City Hall Annex, Boston, Mass., before 12 noon on Monday, December 10, 1934, at which hour all bids submitted will be opened.
7. The commissioner reserves the right to reject any or all bids.
8. The cattle may be seen at the House of Correction, Deer Island, Boston Harbor.

Ordered, That the Penal Institutions Commissioner is authorized to sell certain tubercular reacting cattle now in possession of the Penal Institutions Department at Deer Island on such terms and conditions as he may deem advisable.

Referred to Executive Committee.

RESIDENCE OF EMPLOYEES.

The following was received:

City of Boston,
Law Department, December 10, 1934.

John E. Baldwin, Esquire,
Clerk of Committees, City Council.

Dear Sir,—I have received your letter dated October 24, 1934, inclosing a copy of an order passed by the City Council, which provides as follows:

"Ordered, That the Committee on Ordinances be directed to consult with the Corporation Counsel for the purpose of ascertaining whether or not it is possible to provide legally by ordinance:

1. That all employees of the city shall be citizens of the United States and residents of Boston and that the non-residence of an employee shall by that fact terminate his employment.
2. That no city contract shall be made except on the condition that all the employees of the contractor and subcontractor shall be citizens of the United States and residents of Boston and that violation of the said condition shall by that fact abrogate the contract.

And if it is determined that such ordinance or either of them can be drafted so as to be legally effective, to report such draft or drafts to the City Council."

You have requested me to render an opinion with regard to the problems stated in said order.

I. (*a.*) *May the City Council effectively provide by ordinance that only persons who are citizens of the United States and residents of Boston may, after the passage of said ordinance, be employed by the city?*

This question has been presented to my predecessors on at least three previous occasions and it has been uniformly ruled by them that the City Council may not effectively so provide. (See opinion of Andrew J. Bailey, dated September 26, 1895, to the Committee on Ordinances; opinion of Arthur D. Hill, dated March 20, 1920, to John E. Baldwin, Clerk of Committees, and opinion of Frank S. Deland, dated February 23, 1927, to the Committee on Residences of City Employees.) In this ruling I concur.

Section 6 of chapter 266 of the Acts of 1885 provides as follows:

"The executive powers of said city, and all the executive powers now vested in the board of aldermen, as such, as surveyors of highways, county commissioners or otherwise, shall be and hereby are vested in the mayor, to be exercised through the several officers and boards of the city in their respective departments, under his general supervision and control. Such officers and boards shall, in their respective departments, make all necessary contracts for the employment of labor, the supply of materials, and the construction, alteration, and repair of all public works and buildings, and have the entire care, custody and management of all public works, institutions, buildings and other property, and the direction and control of all the executive and administrative business of said city. They shall be at all times accountable for the proper discharge of their duties to the mayor, as the chief executive officer, whose duty it shall be to secure the honest, efficient and economical conduct of the entire executive and administrative business of the city, and the harmonious and concerted action of the different departments. Every contract made as aforesaid in which the amount involved exceeds two thousand dollars shall require the approval of the mayor before going into effect; and no expenditure shall be made nor liability incurred for any purpose beyond the appropriation duly made therefor."

Section 8 of chapter 496 of the Acts of 1909, as amended, provides in part as follows:

"*Neither the city council*, nor any member or committee, officer or employee thereof *shall*, except as otherwise provided in this act, *directly or indirectly on behalf of the city* or of the county of Suffolk, *take part in the employment of labor*,

the making of contracts, the purchase of materials, supplies or real estate; nor in the construction, alteration, or repair of any public works, buildings or other property; nor in the care, custody, and management of the same; *nor in the conduct of the executive or administrative business of the city or county, nor in the appointment or removal of any municipal or county employee*, nor in the expenditure of public money except such as may be necessary for the contingent and incidental expenses of the city council . . . ."

It is my opinion that the matter of fixing the qualifications of city employees is vested, by virtue of the provisions of section 6 of chapter 266, above quoted, in the Mayor, to be exercised through the officers and members of boards of the city in their respective departments, subject, of course, to statutory regulations, and that your honorable body is precluded, by the provisions of section 8 of chapter 486 of the Acts of 1909, as well as by inference from the provisions of section 6 of chapter 266 of the Acts of 1885, from limiting the employment of persons in Boston to residents of the city.

I wish, in addition, to call to your attention that even did your honorable body have the general power of regulating the qualifications of employees, an ordinance such as we are here considering could not, in my opinion, be made effective so far as it might apply to persons whose employment is in the classified public service of the city.

Section 3 of chapter 31 of the General Laws (Ter. Ed.) provides in part as follows:

"The board (commissioner and associate commissioners of civil service) shall, subject to the approval of the governor and council, from time to time make rules and regulations which shall regulate the selection of persons to fill appointive positions in the government of the commonwealth, the several cities thereof . . . and . . . the selection of persons to be employed as laborers or otherwise in the service of the commonwealth and said cities and towns . . . ."

Section 15 of said chapter 31 provides as follows:

"No person shall be appointed to any position in the classified civil service except upon certification by the commissioner from an eligible list in accordance with the rules of the board; but if there is no suitable eligible list, or if the commissioner is unable to comply with a requisition in accordance with the rules of the board, the commissioner, subject to section twenty-five, may authorize a provisional appointment or may authorize the appointing officer or board to select a suitable person who shall be subjected to a non-competitive examination, such provisional or non-competitive appointment to be subject to the rules of the board. Within five days after the certification of persons for appointment or employment the commissioner shall make a record of persons so certified. If the appointing officer rejects all the persons certified he shall so notify the commissioner."

It is my opinion that the General Court, by virtue of the provisions of section 3 of chapter 31 of the General Laws, vested in the Board of Commissioners of Civil Service exclusive power to make rules and regulations for the selection of persons to fill such appointive positions as are subject to the provisions of said chapter 31 in the government of the Commonwealth and in such cities and towns thereof, including Boston, as have accepted said chapter or corresponding provisions of earlier laws, and that, therefore, an ordinance passed by the City Council forbidding the selection of persons not citizens of the United States and not citizens of Boston as employees of the city, would be for this reason alone without legal effect. (See on this point the opinions of Arthur D. Hill to the Clerk of Committees, and of Frank S. Deland to the Committee on Residences of City Employees.)

It should be noted in this connection that Rule 5 of the Civil Service Rules, promulgated by the Board of Commissioners of Civil Service, pursuant to the above-quoted provisions of section 3 of said chapter 31, provides as follows:

"An applicant for appointment to any office or position to which these rules apply must be a citizen of the United States, who has domiciled in the Commonwealth for one year next preceding the date of filing his application; and if the application is for appointment to an office or position in the service of a city, the applicant must also have domiciled in the city in which he seeks service for six months next preceding the date of filing his application; but the Commissioner may waive the restriction of domicile to any case when in his opinion the needs of the public service may so require."

This rule accomplishes the purposes of an ordinance, if one could be validly passed, limiting employment to persons who at the time of employment are citizens of the United States resident in Boston, except that such rule (1) applies only to employment in the classified public service; (2) permits the commissioner to waive the limitation in any instance in which in his opinion the needs of the public service may require such a waiver; (3) is subject to the provisions of section 36 of chapter 149 of the General Laws (hereinafter quoted) with respect so mechanics, teamsters and laborers employed by the city in the construction, addition to and alteration of public works.

(b) *May the City Council effectively provide by ordinance that non-residence of an employee shall terminate his employment?*

It is my opinion that, in view of the provisions of section 6 of chapter 266 of the Acts of 1885, and of section 8 of chapter 486 of the Acts of 1909, as amended, the City Council may not effectively so provide. (See in this connection the discussion of these sections in *I* (*a*) above and the opinions of my predecessors therein cited.)

Section 43 of chapter 31 of the General Laws provides in part as follows:

". . . every person holding office or employment in the classified public service of the commonwealth, or of any county, city or town thereof, shall hold such office or employment and shall not be removed therefrom, lowered in rank or compensation or suspended, or without his consent transferred from such office or employment to any other, except for just cause, and for reasons specifically given him in writing within twenty-four hours after such removal, suspension, transfer or lowering in rank or compensation. . . ."

Said section 43 forbids the removal of any person holding office or employment in the classified public service of the city except for "just cause," within the meaning of those words in said section 43. I am inclined to the view that the removal of persons in the classified public service of the city merely because of non-residence is not a removal for "just cause" as those words are used in section 43, and that, therefore, an ordinance providing that the non-residence of an employee in the classified public service of the city would terminate his employment could not be made effective even were your honorable body not otherwise precluded from adopting such an ordinance. (See also in this connection the opinion above referred to of Frank S. Deland to the Committee on Residences of City Employees.)

II. May the City Council effectively provide by ordinance that all contracts entered into on behalf of the city shall contain a provision to the effect that all employees of the contractors or of any subcontractor employed in carrying out the contract shall be citizens of the United States and residents of Boston and that a violation of said provision shall terminate the contract?

It is my opinion that, by virtue of the provisions of section 6 of chapter 266 above quoted, the terms of contracts made on behalf of the city are matters within the exclusive control of the Mayor and of the officers and boards in charge of city departments, subject, of course, to statutory regulations, and that your honorable body is precluded by the provisions of section 8 of chapter 486 of the Acts of 1909, as well as by the provisions of said chapter 266, from providing with reference to the terms of contracts (cf. *Brackett* v. *Boston*, 157 Mass. 177, 9 (1892).

Furthermore section 26 of chapter 149 of the General Laws (Ter. Ed.) provides as follows:

"*In the employment of mechanics, teamsters and laborers in the construction, addition to and alteration of public works by the commonwealth, or by* the commonwealth, or by a county, *town* or district, *or by persons contracting therewith for such construction, addition to and alteration of public works, preference shall first be given* to citizens of the commonwealth who have served in the army or navy of the United States in time of war and have been honorably discharged therefrom or released from active duty therein, and who are qualified to perform the work to which the employment relates; *and secondly*, to citizens of the commonwealth generally, and, if they cannot be obtained in sufficient numbers, then to citizens of the United States, and every contract for such work shall contain a provision to this effect . . . provided, that no town in the construction, addition to or alteration of public works shall be required to give preference to veterans, not residents of such town, over citizens thereof. This section shall also apply to regular employees of the commonwealth or of a county, town or district when such employees are employed in the construction, addition to and alteration of public works for which special appropriations are provided. . .

The word "town" as used in said section 38 includes city (see section 7 of chapter 4 of the General Laws (Ter. Ed.)).

Said section 26 establishes preferences in the employment of mechanics, teamsters and laborers in the construction, addition to and alteration of public works by the commonwealth, or by a county, city, town or district or by persons contracting therewith; while the proposed ordinance under consideration contemplates the establishment of a restriction on the class of persons that may be employed by persons contracting with the City of Boston, and their subcontractors. Moreover, the restriction under consideration, in so far as it deals with mechanics, teamsters and laborers employed in the construction, addition to and alteration of public works by persons contracting with the City of Boston, is different from and inconsistent with the preferences established by said section 26.

In view, therefore, of the provisions of said section 26, it would be improper to insert in city contracts for construction, addition to or alterations of public works the provisions under consideration.

Very truly yours,
HENRY E. FOLEY,
Corporation Counsel.

Placed on file.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President DOWD called up, under unfinished business, No. 2 on the calendar, viz.:

2. Action on appointments submitted by the Mayor, December 10, 1934, of James H. Alexander, Edward J. Cummings, Richard D. Tucker, to be Weighers of Coal.

The question came on confirmation. Committee, Coun. Gallagher and Selvitella. Whole number of ballots 14; yeas 14, and the appointments were confirmed.

ADVANCE PAYMENT ON PAY ROLLS.

Coun. SELVITELLA offered the following:

Ordered, That the City Auditor be authorized to allow for payment, and the City Treasurer to pay, the weekly available pay rolls of employees, on or before December 24, 1934, in anticipation of Christmas.

Passed under suspension of the rule.

MUNICIPAL BUILDING, EAST BOSTON.

Coun. SELVITELLA offered the following:

Ordered, That chapter 178 of the Acts of 1934 entitled "An Act Providing for the Construction of a Municipal Building in the East Boston District of the City of Boston" be, and hereby is, accepted.

Referred to Executive Committee.

MUNICIPAL BUILDING, DORCHESTER.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and hereby is, requested, in his financial plans for the City of Boston for the year 1935, to provide for the erection of a municipal building in the Dorchester district, such municipal building to be conveniently and centrally located.

Passed under suspension of the rule.

HEALTH UNIT, DORCHESTER.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and hereby is, requested, in his financial plans for the City of Boston for the year 1935, to provide for the erection of a health unit in the Dorchester district, such health unit to be conveniently and centrally located.

Passed under suspension of the rule.

PERMIT FOR WAYSIDE ARMY, INC.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be requested to issue the permit which has been requested by The Wayside Army, Inc., for the public solicitation of funds to be used for Christmas dinners for the poor.

Coun. WILSON—Mr. President, very briefly, I understand that such a request has been made by this incorporated organization and has been refused, if I am correctly informed, on some excuse to the effect that this right is reserved for the Salvation Army. I have the highest regard for both of the organizations named, but I don't know why any reputable organization, especially an incorporated organization, should be debarred from the reasonable collection of funds for such a worthy cause as the giving of Thanksgiving and Christmas dinners to the poor.

The order was referred to the Executive Committee.

INFORMATION IN RE FUEL CONCERNS.

Coun. WILSON offered the following:

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to advise the City Council,

a. Giving a list of the names and business addresses of all fuel concerns now making deliveries of fuel to Public Welfare recipients, and, in each case, the districts covered by each concern.

b. Giving a statement in the case of each dealer as to how far behind he is on orders for welfare recipients; and

c. Whether, for reasonably prompt deliveries, it is necessary for welfare recipients to purchase fifty gallon drums for oil.

Coun. WILSON—Mr. President, I am introducing that order as the result of two or three complaints last week of poor persons in my section of the city, reporting the impossibility of obtaining oil fuel deliveries since perhaps the first of December. It was a surprise to me to hear that apparently the oil contractor from whom oil is obtained by people in the central Dorchester district is as far away as Ruggles street, Roxbury. For the average poor man in the Dorchester district this means going, in some cases, from as far away as the Neponset river to the middle of Roxbury to get a few gallons of fuel oil. I am advised of the fact that the gentleman in question, who may be of the highest type, is far behind in his deliveries to people on the welfare list, and this particular order is aimed at obtaining advices, if possible, which will give us some information as to whether those persons who received the coal and oil contracts for public welfare deliveries are big enough to handle the business after they have got it. It certainly seems that where such contractors are

unable to make deliveries in many cases since the first of December, although they have contracted to do so, a change should be made.

Coun. DOHERTY—Mr. President, I would say also that the people of Jamaica Plain are in the same situation. They have to go over to Dorchester or Roxbury and pay out car fare, when they have an oil company practically right next door to them.

The order was passed under suspension of the rule.

INFORMATION AS TO E. R. A. WORKERS.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be requested to advise the City Council forthwith the total number of individual E. R. A. workers actually at work on various City of Boston E. R. A. projects during the week ending December 15, 1934, also the number of workers engaged as of said date on each project and in what city department.

Ordered, That his Honor the Mayor be requested to advise the City Council forthwith, after due inquiry of all department heads,

a. What city departments, if any, claim to have been handicapped at any time since July 1, 1934, in the prosecution of E. R. A. projects because of any failure to promptly obtain assignment of workers from the social service reclassification office.

b. On what projects.

c. The number of workers involved in the delay.

Ordered, That his Honor the Mayor be requested to advise the City Council forthwith, after due inquiry of all department heads,

a. What city departments now, as of December 17, 1934, have available definite E. R. A. projects selected and planned, but not started, and subject only to possible approval by Government authorities.

b. A brief description of each of said contemplated projects.

c. The number of E. R. A. workers estimated by the department head as necessary for each project.

d. The approximate amount estimated as necessaarily to be included in the budget of such city department for each of said projects contemplated.

Coun. WILSON—Mr. President, very briefly, those orders are the result of the newspaper discussion of last week with reference to the placing of the blame or the sharing of the blame for obtaining additional money for the City of Boston and then not having projects enough to put men at work. While we have no control, direct or indirect, over the assignment of men, it being a Federal proposition, we have some control over the purchase of materials and the projects to be named by city departments. So the obtaining of the information sought in these orders, from the point of view of the city, is important, as to the number of individual E. R. A. workers actually at work on various projects, what city departments claim to have been handicapped in the prosecution of the projects because of failure to promptly obtain assignment of workers, and what departments have available definite E. R. A. projects selected and planned, but not started. I think we would like to know whether suggestions already made along these lines have been followed in this city and whether the various departments have projects which they are ready to put across if we are awarded further money.

The orders were passed under suspension of the rule.

OPEN PARKING SPACE LICENSES.

Coun. WILSON offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to advise the City Council forthwith concerning each outstanding open-air parking space permit or license as of December 15, 1934, in the City of Boston:

a. The name of the licensee.

b. The location of such space.

c. The area.

d. The date on which such open air parking space permit was first obtained for said location.

e. The license rate charged for the calendar year 1934 for such space.

f. The maximum number of cars allowed to be stored under the terms of the present license for such outdoor parking space.

Passed under suspension of the rule.

PAVING OF ST. LUKES ROAD.

Coun. AGNEW offered the following:

Ordered, That the Commissioner of Public Works, through his Honor the Mayor, be instructed to repave with smooth paving, St. Lukes road, Ward 21.

Passed under a suspension of the rule.

TRANSFERS TO E. R. A.

Coun. AGNEW offered the following:

Ordered, That the Director of the Public Welfare, through his Honor the Mayor, furnish the City Council with the following information:

How many men and women have been transferred from the welfare rolls to E. R. A. from September 1, 1934, to date.

Ordered, That the Commissioner of Soldiers' Relief, through his Honor the Mayor, furnish the City Council with the following information:

How many men have been transferred from the Soldiers' Relief Roll to E. R. A. from September 1, 1934, to date.

Coun. AGNEW—Mr. President, those two orders can very well ride along with the orders introduced by Councilor Wilson for this purpose. It seems rather odd that, where councilors from the various districts of Boston are incessantly beseiged with individual calls upon them from men who desire assistance in getting located or placed upon the E. R. A. we should read in the newspapers of the large sum of money that is being returned by Boston to the Federal Government unexpended. It seems to be the fact that some time ago, within the course of two months, something like $100,000 has been returned to the Federal Government as being unused, in the Boston area. Whether or not that is a fact, I do not claim. However, it is said that that is what has happened. Now, our welfare roll today apparently is as large as it was a year ago; apparently there are as many people on welfare now as in 1933. The same is apparently true of our soldiers' relief roll. These two orders are introduced for the purpose of ascertaining the desired information from both the Welfare Department and the Soldeirs' Relief Department, to see whether or not the burden upon the City of Boston has been relieved through the expenditure of E. R. A. funds. It does seem, in line with Councilor Wilson's order, that something should be done to properly expend the funds that are sent here by the Federal Government. If our welfare rolls or our soldiers' relief rolls are not lessened as the result of the funds coming in here from the Federal Government, something is wrong somewhere.

The orders were passed under suspension of the rule.

SNOW-REMOVAL CONTRACTS.

Coun. NORTON offered the following:

Ordered, That the Mayor be requested to consider the advisability of insisting that all snow-removal contracts be given to the lowest responsible bidder.

Coun. NORTON—Mr. President, the Mayor of Boston on Labor Day last on Boston Common in perhaps one of his important speeches of the year, stated that in his opinion, by reason of high taxes, a large number of industries would leave Boston, and he pledged himself on the Common in that Labor Day speech to reduce in so far as he was able the taxes in Boston in order to help industry and to help our citizens. I am informed in the press, and also reliably from other sources, that the contracts for the removal of snow in Boston next year have been let out in some cases to the fourth lowest bidder and in some to the seventeenth lowest bidder, going down the line. Last year the City of Boston spent $730,000 for removing snow in the first quarter of the year. That is the largest amount of money spent by this city for snow removal in any period of our history. I feel now, as I felt then, that the squandering of the money in that way was a disgrace. I understand that in some cases a contractor would get the same truck in a dozen times on the same job and for the same amount. To forestall any trouble on that account they got together a bookkeeping system under which this sort of thing was done. For the removal of forty-two inches of snow Boston spent $730,000, while in Detroit, at the same time, over almost three times the area, with the same depth, forty-two inches of snow, and with, as far as can be ascertained from the United States Geological Bureau, the same type of snow to be removed, but $159,441 was spent; in Philadelphia $120,000, and in Baltimore $108,000. We are now coming to the new year and to a time when large sums must be spent for relief of the cold and hungry. This is not a time to be wasting the money of the City of Boston. The money wasted last year would have been the means of filling thousands of hungry mouths. I feel that the Mayor of Boston should give these contracts out to the lowest responsible bidder. I hold no brief for my old friends A. G. Tomasello & Son, but if Tomasello is the low bidder, it seems to me he is entitled to the job; that any responsible low bidder should be recognized.

Coun. WILSON—Mr. President, I am inclined to agree with much that the gentleman has said, except that I cannot agree that in every case the contract should be given to the low bidder. I believe the bidder receiving every such contract should be responsible and able to do the work. I believe that one trouble with snow removal in the City of Boston in recent years has been that our snow removal equipment is worn out, and I believe that one of the items that should be considered by the Mayor this coming year is a replacement of snow removal equipment in cases where it is not what it should be. I believe consideration should also be given to the question of whether the contractors are going to call upon public welfare and E. R. A. labor to do the job. It seems to me the thing to do would be to have the Public Works Commissioner appear before the Executive Committee so that we may find out what the set-up is on the contract, also getting information as to the truck loads of snow, because that is where the money goes, and the possibility or probability of the contractor using E. R. A. and public welfare men to do the work.

Coun. NORTON—Mr. President, my contention has been that only the lowest responsible bidders should be considered, and I placed that qualifying adjective in my statement,—lowest responsible bidder. I see no reason why the seventeenth from the lowest bidder here should receive preference. I agree that E. R. A. and public welfare men should be employed on this work, and the commissioner says he intends to do that as much as possible. I think the Council will find if we have the commissioner come before us that we will not get much in the way of results. We have seen that contractors employed on this sort of work are ones who happen to be friends of the administration, and that the city spends more money than it should. I might also add that one of the cardinal tenets of the administration's program, as expressed in the inaugural address of his Honor the Mayor, was as follows:

"Whatever the past has been, Boston must receive full value for its dollar expended. (Applause.) I propose to adhere strictly to a system of contracts and purchases based upon absolutely honest awards to the lowest bid of reliable merchants and contractors."

I ask the Mayor of Boston to stand by that statement made in his inaugural address.

The order was passed under suspension of the rule.

LOW-COST ROADS.

Coun. NORTON offered the following:

Ordered, That the Mayor be requested to consider the advisability of preparing plans so that in the spring of 1935, Boston can commence on a program of installing low-cost roads.

Passed under suspension of the rule.

MILK FOR WELFARE RECIPIENTS.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to confer with the Welfare Department authorities relative to the city arranging to deliver to welfare recipients milk at 8 cents a quart.

Passed under suspension of the rule.

TAX-EXEMPT PROPERTY.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to immediately consider the advisability of taking steps to ascertain whether certain tax-exempt property in Boston can be placed back on the tax rolls.

Coun. NORTON—Mr. President, New York City has just placed back on her rolls over $100,000,000 of property that was formerly tax-exempt. In Boston I find a number of instances where property is not taxed, property which, under conditions now prevailing, should be taxed. I wonder why it is that the Harvard Stadium, located within the confines of Boston, should be tax-exempt. Yale University, located in New Haven, Connecticut, has paid a tax on the Yale Bowl for a number of years. Baker Field, of Columbia University, New York City, is now on the tax rolls of New York City. If that is so, I see no reason why the wealthiest institution in America, with a stadium located here in Boston, should not also be placed on the tax rolls. It may be that some legislation will be necessary under our tax laws to accomplish that result. But now is the time for the Mayor to get busy. The question suggests itself at the present time, under present conditions, why the Harvard Stadium should not be taxed. Then there is another instance in Boston, the Exeter Street Theatre. I understand that a spiritual organization holds a meeting there once in a while and that as a result $75,000 is taken off that theatre in assessments. Manifestly that is unfair to other competing theaters in this city. How easy it would be for any theater in Boston to hold some sort of religious meeting at some time in the year and then come before our tax authorities and demand a tax abatement. The same situation presents itself in relation to certain schools. There is the Suffolk Law School, capitalized at $372,000, that pays 100 cents a dollar on its bonds and in some years pays 9 per cent dividends. Not a building in Boston today, on Washington street, such as the Old South Building, or the Pemberton Building, or Kimball Building, pays 25 cents on a dollar. Under the law it will be very hard to tax an educational institution, but at the same time there is a line of differentiation. Bryant & Stratton pays rent; the Burdett College pays rent. It may be possible for the Mayor to introduce legislation that will allow the City of Boston to collect a tax on a money-making profitable institution, even if it is educational. Where the line shall be drawn would be up to those preparing the legislation for determination.

The order was passed under suspension of the rule.

PAY ALLOWANCES TO CERTAIN NURSES.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of allowing a liberal time-off with pay allowance to any nurse or other employee of the Health Department who is taken down with a disease which may reasonably be supposed to have been contracted in line of duty.

Passed under suspension of the rule.

APPOINTMENT OF FIREMEN.

Coun. FISH offered the following:

Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to appoint 300 more firemen to the Boston Fire Department.

Coun. FISH—Mr. President, I think that our Boston Fire Department at the present time is under-manned. The other day I noticed a peice of fire apparatus responding to a fire, and there was only one man, the driver at the wheel, and not another man on the piece of apparatus to fight the fire. I think the situation now prevailing in the department is all wrong.

The order was passed under suspension of the rule.

CONVALESCENT HOME PROPERTY, DORCHESTER.

Coun. GOLDMAN moved to take from the table No. 4 on the calendar, viz.:

4. Whereas, The trustees of the Boston City Hospital have the care and custody of a certain parcel of land belonging to the City of Boston and situated on the easterly side of Dorchester avenue, together with the buildings thereon, and being numbered 2150 on said Dorchester avenue, and known as the Convalescent Home; and

Whereas, The said trustees of the Boston City Hospital has no present need of the said premises for public purposes; now, therefore, it is hereby

Ordered, That his Honor the Mayor be, and he hereby is, authorized, in the name and behalf of the City of Boston, in consideration of fifty dollars paid to the City of Boston by the Massachusetts Section of the Women's Department of the National Civic Federation, to lease, by a written instrument satisfactory in form to the Law Department of the City of Boston, to the said Massachusetts Section of the Women's Department of the National Civic Federation, or its nominee, for the purposes of using and operating the said premises as a home for unemployed single girls and women having a settlement in Boston and for no other purpose, for a period of five months beginning with the first day of January, 1935, and ending with the first day of June, 1935, the said premises numbered 2150 Dorchester avenue, situated on the easterly side of said Dorchester avenue, in that part of Boston called Dorchester; and it is hereby further

Ordered, That the said lease contain a provision authorizing the Mayor of Boston to teminate and cancel the said lease by sending to the said Massachusetts Section of the Women's Department of the National Civic Federation a thirty-day notice of his intention so to do, mailed to or delivered at the above leased premises to the said Massachusetts Section of the Women's Department of the National Civic Federation.

The question came on taking from the table.

Coun. FISH—Mr. President.

President DOWD—The motion to take from the table is not debatable.

Coun. FISH—Mr. President, I ask unanimous consent to make a statement.

There was no objection.

Coun. FISH—Mr. President, last week I asked that this order be tabled until I might get information from the Law Department in regard to the will disposing of the Churchill estate. I understand that this property was willed to the city for the sole purpose of being used as a convalescent hospital, and nothing else. Therefore, I trust that the matter will lie on the table until we get the information from the Law Department.

The motion to take from the table was declared lost. Coun. Goldman doubted the vote and asked for a show of hands. The motion to take from the table was lost, upon a show of hands, 5 to 5.

RETURN OF E. R. A. FUNDS.

Coun. SELVITELLA offered the following:

Ordered, That his Honor the Mayor be requested to inform the City Council if it is correct, as stated in the newspapers, that approximately $280,000 of E. R. A. money, allotted by the Federal Government to be expended in Boston, was returned unexpended, and if the statement is correct who is responsible for not providing projects for the expenditure of this money.

Coun. SELVITELLA—Mr. President, this order follows in line with the orders already offered by Councilors Wilson and Agnew. My object in filing the order is that we may get some idea of who is responsible for turning back to the Federal Government for the month of December $280,000 which was given to this city and has not been expended. Boston received as its share of the December allotment $960,000 from the Federal Government and it is estimated that by the end of the month we will have spent $680,000, leaving $280,000 which must be returned because those responsible for setting up these projects failed to provide projects and incidentally thereby failed to provide work for at least 8,000 men and women for one month. That is a serious matter, when each and every one of us here is beseiged continually with men and women desiring an opportunity to work, and when their requests must be denied because some one has failed to provide a project. I do not believe there is another city or town in this state—yes, or in this country—that has taken such action, making it necessary to return to the Federal Government $280,000 of E. R. A. money; and I am going to ask, Mr. President, that this matter be referred to the Executive Committee so that we may summon before us those whom we believe are responsible for this, in order to prevent a future repetition of that sort of thing.

The order was referred to the Executive Committee.

PAYMENTS ON MORTGAGES.

Coun. SELVITELLA offered the following:

Whereas, The Home Owners Loan Corporation has suspended loans on homes; and

Whereas, Many home owners are in grave danger of having their property foreclosed; therefore be it

Resolved, That it is the sense of the Boston City Council that his Honor the Mayor request the Governor of the Commonwealth to call a conference of state officials with representatives of savings banks, co-operative banks, trust companies and insurance companies to put into effect recommendations suggested by State Treasurer Charles F. Hurley, as follows:

1. The banks and insurance companies of Massachusetts agree on a moratorium on foreclosures of mortgages on homes for one year.

2. Postponement of principal payments of mortgages for a period of three years.

3. A voluntary reduction of interest rates to at least 5 per cent on mortgages of dwelling houses for three years.

Passed under suspension of the rule.

HEATERS IN POLICE CARS.

Coun. SELVITELLA offered the following:

Ordered, That the Police Commissioner, through his Honor the Mayor, be requested to consider the advisability of installing heaters in police cars now in operation.

Passed under suspension of the rule.

CINDER TRACK, BILLINGS FIELD.

Coun. FINLEY offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to consider the advisability of constructing on Billings Field, West Roxbury, a 400-meter cinder track, 30 feet wide, as part of the E. R. A. program contemplated by said department.

Coun. FINLEY—Mr. President, I am presenting the order which has just been read for the following reason. I have been reliably informed that the Olympic try-outs for 1936 are to be held in Boston, and there is no track in Boston or vicinity that has the facilities to handle many of the events on an athletic track program, such as the 400-meter run and 400-meter hurdle. In the Olympic try-outs held in Boston in 1932 the contestants in the event had to travel to Philadelphia, because the tracks here were not wide enough. There is not a track in Roslindale, West Roxbury, Hyde Park or Roxbury, and Billings Field has all the natural facilities for such a track without interfering with the baseball or football field. The famous track at Calendonian Grove, West Roxbury, will soon be a memory, as it is to be destroyed to make way for the new state highway, which will be built through the grove. This will mean that a section of our city, Roslindale and West Roxbury, which boasts of such track stars as Leo Reddish and Barry Scanlon of Holy Cross, the Bigwood brothers of Latin and Commerce, Roger and Dick Battles of English High, and many other star athletes, will, if provision such as is suggested in this order is made, have a modern track to encourage them and other ambitious boys of the district to compete in athletics. I believe, also, I should, as chairman of the Park and Playground Committee of this Council, say that I feel that Chairman Long of the department is to be highly commended for the splendid work he has done in creating projects which have made possible keeping men on the E. R. A. at work. In view of the criticism we have just heard of the return of unexpended money to the central government because of failure on the part of public officials to provide projects, I certainly believe that mention should be made at the present time of the splendid work that our Park Commissioner has done along these lines.

The order was passed under suspension of the rule.

PLAYGROUND FOR EAST BOSTON.

Coun. SELVITELLA called up, under unfinished business, No. 3 on the calendar, viz.:

3. Ordered, That the sum of ten thousand dollars ($10,000) be, and hereby is, appropriated, to be expended under the direction of the Park Commission, for the establishment of playground in that part of Boston called the Fourth Section of East Boston, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of the city to said amount.

On December 3, 1934, the foregoing order was read once and passed, yeas 19, nays 0.

The order was given its second and final reading and passage, yeas 15, nays 0.

APPOINTMENT OF POLICEMEN.

Coun. FISH offered the following:

Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to appoint 100 more policemen to the Boston Police Department.

Passed under suspension of the rule.

REPORT OF COMMITTEE ON COUNTY ACCOUNTS.

Coun. FITZGERALD, for the Committee on County Accounts, submitted the following:

Report on communication from Justice of District Court of Chelsea (referred December 3) with reference to appointment of Miss Lillian A. Evans as probation officer of said court, to take effect December 1, 1934, recommending passage of following order, viz.:

Ordered, That the salary of Lillian A. Evans, Probation Officer of the District Court of Chelsea, established by the Justice of said Court at $1,800 a year, from December 1, 1934, be, and hereby is, approved.

Coun. FITZGERALD—Mr. President, this applies to the salary to be paid to the probation officer recently appointed over there, due to the death of the former probation officer.

Report accepted; order passed.

RECESS.

The Council voted at 3.04 p. m., on motion of Coun. FISH, to take a recess, subject to the call of the Chair. The members reassembled in the Council Chamber at 5.06 p. m., Coun. FINLEY in the chair.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on order (referred today) concerning Wayside Army, Inc., recommending passage of order in accompanying new draft, viz.:

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to advise the City Council the reasons, if any, for the refusal of a permit requested by the Wayside Army, Inc., for the public solicitation of funds to be used for Christmas dinners for the poor.

Report accepted; order passed in new draft.

2. Report on order (referred today) that the Mayor be requested to inform the Council as to responsibility for nonexpenditure of $280,000 of E. R. A. money allotted to Boston—that same ought to pass.

Report accepted; said order passed.

3. Report on order (referred today) for acceptance of chapter 178, Acts of 1934, for Municipal Building in East Boston district—recommending that same ought to pass.

Report accepted; said order passed.

4. Report on petition of Ethel A. Prendergast (referred September 24) to be paid annuity on account of death of her husband, Maurice J. Prendergast, late member of the Boston Fire Department—that no further action is necessary, the petition having been disapproved by the Medical Board.

Report accepted.

5. Report on petition of Mary E. Connelly (referred October 15) to be paid annuity on account of death of her husband, Patrick F. Connelly, late member of the Boston Fire Department—that no further action is necessary, the petition having been disapproved by the Medical Board.

Report accepted.

6. Report on message of Mayor and order (referred today) authorizing Penal Institutions Commissioner to sell certain tubercular reacting cattle at Deer Island—that same ought to pass.

Report accepted; said order passed.

7. Report on message of Mayor and order (referred today) authorizing Mayor to execute on behalf of City of Boston agreement as to grant for constructing and equipping school buildings, P. W. A., Docket No. 4217—that same ought to pass.

Report accepted; order passed, yeas 15. Nay—Coun. Shattuck—1.

8. Report on message of Mayor and order (referred today) for expenditure of $9,000 from Parkman Fund—recommending that same ought to pass.

Report accepted; order passed, yeas 15, nays 0.

9. Report on petition of William Earle (referred today) for children under fifteen years of age to appear at Municipal Building, South Boston, January 11, 1935,—recommending that leave be granted on usual conditions.

Report accepted; leave granted on usual conditions.

10. Report on order (referred December 3) that compensation for supervisors appointed to act in recent State Election in various wards of the city be fixed at rate of $9 a day,—recommending that same ought to pass.

Report accepted; said order passed.

Coun. McGRATH—Mr. President, in connection with the order just passed, I would like to submit a list of names which I have obtained from the City Clerk,—first, of those who petitioned for the appointment of supervisors in the last election, and next a list of those who were nominated as supervisors, including those who acted as supervisors. I understand that the names marked with a cross, while nominated, did not serve, but that the others did.

SOLDIERS' RELIEF.

Coun. KERRIGAN, for the Committee on Soldiers' Relief, submitted report recommending payments of aid to soldiers and sailors and their families in the City of Boston for the month of December, 1934.

Report accepted; said order passed.

WARD 7 IMPROVEMENTS.

Coun. KERRIGAN offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to properly flood the skating area at Columbus Park, South Boston, in order to place it in suitable condition for the skating season.

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to include in the E. R. A. projects of his department the repair of all existing brick sidewalks in Ward 7.

Severally passed under suspension of the rule.

CONDITIONS OF CHURCHILL BEQUEST.

Coun. FISH offered the following:

Ordered, That the Corporation Counsel be requested to ascertain and inform the City Council whether or not the land on Dorchester avenue, formerly used by the Hospital Department for a Convalescent Hospital, was purchased by the city or was devised as a part of the Churchill Estate with a condition that it was to be used only for hospital purposes.

Passed under suspension of the rule.

THE NEXT MEETING.

The Council voted, on motion of Coun. ENGLERT, that when it adjourn it be to meet on Saturday, December 29, at 11 a. m.

Adjourned, at 5.20 p. m., on motion of Coun. ENGLERT, to meet on Saturday, December 29, 1934, at 11 a. m.

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt $100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

RECREATION, ADEQUATE AS TO KIND AND AVAILABILITY.

Although the ratio of park acreage to population has been used as the simplest measure of the extent to which cities provide areas for the recreation of their people, it is by no means an accurate basis for determining this. If most of the total acreage is in one large park, if the parks are poorly distributed, or if they do not provide various types of recreation facilities, the park system may be inefficient even though the acreage is large. The efficiently *planned* park and recreation system will involve balanced relationship and well-distributed location of several types of properties, namely, children's playgrounds, neighborhood playfield parks, neighborhood parks, reservations, boulevards, and parkways

FINANCING SEWAGE WORKS BY SPECIAL ASSESSMENT IN IOWA.

The cost of constructing sewage disposal plants in a number of states, and in Iowa in particular, may be levied against the various lots, parts of lots or parcels of ground draining to, or susceptible to drainage to, the site of the disposal plant. Such assessments must be in proportion to the benefits to each property and must not, in any case, exceed one-fourth of the fair value of the property in question. These special assessments are payable in the same manner as other municipal improvement costs; that is, in ten annual equal installments, paid at the same time and place as the March 1 installment of ordinary taxes in Iowa. Any property owner may pay off the unpaid portion of such tax at any time. Interest on the deferred payments must not exceed 6 per cent.

LIFE-GIVING PATRIOTISM IS LOCAL.

By civic patriotism is meant the feeling and the taking of a deep, unselfish, earnest, ever-wakeful, active interest in the affairs of one's own city or local community, regarding it as having an autonomy, a distinct personality, a name and interests of its own, and, if one pleases, endowed with a sense of personal honor and with all laudable ambitions for the promotion of the welfare of its people.

Where such civic virtues exist the local community will neither suffer from the dry-rot of public indifference and neglect nor become tainted with graft or corruption. Its life will be healthful, and, like the ocean, will be kept pure by its own ceaseless flow and movement. All life-giving patriotism is local.

Show a good municipal citizen and one will see a citizen who loves his state, and who loves his nation, and who will discharge all the duties of this triple relation. Good government in local affairs is the best assurance of good government in state and national affairs.

SAND, CINDERS AND SALT IN DULUTH.

About 385 miles of sidewalk are sanded every year and about 250 miles of streets are snow-plowed and sanded. Ordinarily, flat grades are not sanded, this work being confined to steep grades where dangerous ice conditions exist. During the past season the maintenance department used about 500 cubic yards of cinders, 500 cubic yards of sand, and 5 tons of calcium chloride on the streets.

The use of salt, or sodium chloride, has been discontinued entirely, because of its injurious effect on concrete walks and pavements. The action of salt is not clearly understood, but it is much more active during cold weather than in summer, and is apparently due to the formation of crystals after penetrating the surface, the force of which disintegrates the concrete. Calcium chloride does not seem to be entirely free from this difficulty, but is much less active than sodium chloride.

The bidder must use the form of proposal to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex, and the successful bidder must furnish a bond for one quarter the estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. *There will be a charge of one dollar ($1.00) per set for each set of proposals taken out.* Bids, with a certified check for $200, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office, must be left at the office of the Supply Department, Room 801, City Hall Annex, before 12 m., Friday, January 11, 1935, at which time and place they will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriation to meet payments thereunder.

WARREN W. LOOMIS,
(Dec. 29.) *Superintendent of Supplies.*

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Reddy street, Dorchester district, as a highway, from Milton street to Hill Top street, with the name of Brendan road, or some other distinctive name, bounded and described as follows:

A highway named St. Brendan road is hereby laid out, from Milton street to Hill Top street, and ordered constructed; the cost thereof to be charged to Federal funds allocated under the Federal Emergency Relief Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northwesterly by Milton street, forty feet; northeasterly by the northeasterly line of said St. Brendan road as hereby laid out, five hundred fifty-six and 36-100 feet; southeasterly by Hill Top street, forty and 30-100 feet; and southwesterly by the southwesterly line of said St. Brendan road as hereby laid out, five hundred sixty-one and 32-100 feet.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out of St. Brendan road (formerly Reddy street), Dorchester district, as a highway, from Milton street to Hill Top street, under the order of the Board of even date herewith, and awards no damages therefor.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 616.

The commissioner desires to extend to all members of the department his sincere best wishes for a Merry Christmas and a Happy New Year.

The commissioner wishes to congratulate the members of the department on its work during the past year for having brought to a successful conclusion, so far as its powers go, a larger percentage of the various crimes which have taken place than in any previous year since the establishment of the department. This has been possible by the greater interest shown in their work and the closer cooperation manifested by them. The record of the past year, while so outstandingly satisfactory and for which so many commendations have been received from the citizens of Boston, should serve as an incentive to us to do even better next year. We should always be on the alert to take advantage of opportunities to improve ourselves and to always render the best service to the public whom we protect.

It is particularly appropriate at this time, and the commissioner greatly appreciates the opportunity to especially congratulate the entire department on the successful determination of the murder of Ethel Zuckerman. After a year of complete cooperation and diligent work, the department has been able to bring together without premature action all the threads in this exceedingly difficult case.

Arrangements have been made to allow members of the department to spend the family holiday at home, so far as it can be done without impairing the efficiency of the force.

Division commanders will split their day personnel in half and permit officers to take either morning or afternoon off on Christmas Day, December 25, 1934. The same conditions will apply on Tuesday, January 1, 1935.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 617.

Patrolman Lemuel P. Doyle of Division 16 is commended for meritorious police duty performed on December 4, 1934, in stopping a pair of runaway horses attached to a milk wagon.

The commissioner is pleased to recognize the devotion to duty shown on this occasion by Patrolman Doyle whose prompt action may have prevented serious consequences.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 618.

The commissioner is pleased to publish the following letter for the information of the department:

CITY OF BOSTON,
BOARD OF ELECTION COMMISSIONERS,
CITY HALL ANNEX, December 21, 1934.

EUGENE C. HULTMAN, Esq., *Police Commissioner*, 154 Berkeley Street, Boston.

DEAR SIR,— The continued excellent assistance afforded this department by the police officers and their immediate superiors (the captain of Division 2 working under and with Deputy Superintendent McDevitt) at the recount of ballots cast at the State Election, which was held in this office from December 10 to 18, inclusive, again warrants commendation from me.

By their strict attention to the duties assigned them, the conduct of recounts has become almost a perfunctory duty and has resulted, I believe, in giving a full and complete confidence to candidates for public office, who have recourse to the provisions of law relating to elections and the conduct of same.

It was a pleasure to note the complete absence of contention during the past recounts which was brought about chiefly, I believe, by the presence of your uniformed force, under the supervision of your very careful deputy.

The prolonged guarding by your sergeants at the vault also calls for commendation. In full, the splendid cooperation afforded by your entire department, from the commissioner down, demands of me a sincere acknowledgment of the same.

Very truly yours,

BOARD OF ELECTION COMMISSIONERS,
DAVID B. SHAW,
Chairman.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

URBAN POPULATION, APRIL 1, 1930.

As defined by the Census Bureau, the urban population is, in general, that residing in cities and other incorporated places having 2,500 inhabitants or more, the remainder being classified as rural.

The total urban population of the UNITED STATES is 68,954,823 (34,154,760 males and 34,800,063 females), of whom 62,836,605 (31,162,570 males and 31,674,035 females) are white; of these whites 52,109,746 (25,520,483 males and 26,589,263 females) are native; 33,497,232 (16,515,816 males and 16,981,416 females) of these latter are of native parentage and 18,612,514 (9,004,667 males and 9,607,847 females) are of foreign or mixed parentage; there are 10,726,859 (5,642,087 males and 5,084,772 females) foreign-born white; there are 5,193,913 (2,479,158 males and 2,714,755 females) Negroes; other races, 924,305 (513,032 males and 411,273 females).

The urban population is 56.2 per cent of the total population of the country; native white, 54.6 per cent and foreign-born white, 80.3 per cent; Negroes, 43.7 per cent.

The total urban population of New England is 6,311,976 or 77.3 per cent of the total population of New England. Of the 4,660,339 native white, 2,089,031 are of native parentage and 2,571,308 are of foreign or mixed parentage; foreign-born whites number 1,564,769; Negro, 81,443; other races, 5,425.

A SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred, who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

FOREIGN-BORN WHITES, 1930, WITH COUNTRY OF BIRTH.

Total foreign-born whites, 229,356 or 9,563 less than in 1920. Born in Ireland, 50,381 (6,630 less than in 1920), 6,449 of these being born in Northern Ireland; in Canada, 45,558 (3,550 increase); Italy, 36,274 (1,905 decrease from 1920); Russia, 31,359 (6,662 decrease); England, 10,316 (2,092 decrease); Poland, 9,903 (2,253 increase); Lithuania, 5,869; Scotland, 5,637 (558 increase); Sweden, 5,432 (1,348 decrease); Germany, 5,381 (534 decrease); Greece, 3,416 (362 increase); all others, 19,830.

SCHOOL ATTENDANCE FOR SUFFOLK COUNTY.

Number of children 7-13 years old, 105,675, of whom 104,085, or 98.5 per cent, were attending school; 14 and 15 years, 29,662, of whom 28,256, or 95.3 per cent, were attending school; 16 and 17 years, 29,902, of whom 19,453, or 65.1 per cent, were attending school; 18-20 years, 47,103, of whom 12,395, or 26.3 per cent, were attending school; total children 7 to 20 years old, 212,342, of whom 164,189, or 77.3 per cent, were attending school.
